As a result, the Group's external segmental reporting will be based on the internal reporting to the "chief operating decision maker", who makes decisions on the allocation of resources and assess the performance of the reportable segments. As this is disclosure standard, there will be no impact on the financial position or results of the Group.

Quarterly report on results for the 3rd Quarter ended 30 September 2010

A1 Basis of preparation of Interim Financial Reporting (Cont'd)

FRS101, Presentation Financial Statements (Revised)

The previous version of FRS 101 required the presentation of an income statement that included items of income and expense recognized in profit or loss. It required items of income and expense not recognized in profit or loss to be presented in the statement of changes in equity, together with owner changes in equity. However, the revised FRS 101 requires;

- i. All changes in equity arising from transactions with owners in their capacity as owners (i.e. owner changes in equity) to be presented separately from non owner changes in equity. An entity is not permitted to present components of comprehensive income (i.e. non owner changes in equity) in the statement of changes in equity. Therefore all non-owner changes in equity are presented as a single line labelled as total comprehensive income.
- ii. Income and expense to be presented either in a single statement of comprehensive income or in two link statements.
- iii. Present a statement of financial position as at the beginning of the earliest comparative period when the company applies a different accounting policy, the correction of an error or reclassification of items in the financial statements.

This revised FRS does not have any impact on the financial position and results of the Group.

FRS139, Financial Instruments: Recognition and Measurement

The adoption of FRS139 has resulted in changes to the following accounting policy relating to recognition and measurement of financial instruments.

Inter-Company loans

Prior to the adoption of FRS139, inter-company loans were recorded at cost. With the adoption of FRS139, inter-company loans are now recognized initially at their fair values, which are estimated by discounting the expected cash flows using the current market interest rate of a loan with similar risk and tenure. Finance income and costs are recognized in profit or loss using the effective interest method.

Fair value changes of financial liabilities

As at 30 September 2010, the Group does not have any financial liabilities measured at fair value through profit or loss.

B DISCLOSURE REQUIREMENTS AS SET OUT IN APPENDIX 9B OF BURSA MALAYSIA SECURITIES BERHAD'S LISTING REQUIREMENTS FOR THE ACE MARKET

B1 Review of performance

For the current quarter ended 30 September 2010, ICB Group recorded revenue of RM5.48 million, an increase of approximately 53% when compared to RM3.58 million in the corresponding period of the preceding year. This was mainly attributable to newly set up operations in Indonesia and Vietnam which has contributed revenue of RM1.43 million for the three (3) months period as compared to none for the preceding year corresponding period. Nevertheless, the Group continued to benefit from its marketing strategy of focusing on performance based or engagement advertising that was aggressively adopted since first quarter of the current year.

Loss before tax ("LBT") of RM328,000 was recorded in the current quarter as compared to LBT of RM375,000 in the corresponding period of preceding year. The slight improvement was due to the increase in revenue as a result of the better market condition in current year as compared to the corresponding quarter of the preceding year.

For the nine months period ended 30 September 2010, the Group recorded revenue of RM15.32 million as compared to RM9.06 million for the same period in year 2009, representing a 69% increase in revenue. This improvement was primarily due to the better results from performance based or engagement advertisement coupled with additional revenue resulting from the the FIFA WorldCup event which was held from June to July this year. The results had improved from a RM1.60 million LBT to a LBT of RM0.29 million. This was attributable to the significant improvement in revenue when compared to the corresponding period of the preceding year.

B2 Variation of results against immediate preceding quarter

	Current Quarter 30 September 2010 RM'000	Preceding quarter 30 June 2010 RM'000
Revenue	5,477	5,066
Loss before tax	(328)	(103)

During the current quarter under review, the Group recorded a revenue of RM5.48 million, this represents a slight increase of 8% as compared to a revenue of RM5.07 million in the immediate preceding quarter. The Group managed to maintain encouraging revenue performance in these 2 quarters as boosted by the increased advertisement spendings from advertisers in conjunction with the FIFA WorldCup event in these periods.

The Group recorded a loss before tax of RM328,000 in the current quarter as compared to a loss before tax of RM103,000 in the immediate preceding quarter. The loss before tax recorded in the current quarter was mainly due to the increase in operating costs.
