### Quarterly report on results for the 1st Quarter ended 30 April 2010

### A NOTES TO THE INTERIM FINANCIAL REPORT

### A1 Compliance with Financial Reporting Standard (FRS) 134, and Bursa Listing Requirements

#### Basis of preparation

The interim financial statements are unaudited and have been prepared in accordance with Financial Reporting Standard ("FRS") No. 134: Interim Financial Reporting, and Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") for the ACE Market ("AMLR").

The interim financial statements should be read in conjunction with the audited consolidated financial statements of ABT for the financial year ended 31 January 2010. The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to and understanding the changes in the financial position and performance of the Group for the financial period ended 30 April 2010.

#### **Changes in Accounting Policies**

The accounting policies and methods of computation adopted by ABT and its subsidiaries in the preparation of this interim financial statements are consistent with those adopted in the audited financial statements for the financial year ended 31 January 2010 except for the effect on the adoption of new FRSs, amendments and IC interpretations that are mandatory for the Group for the financial year beginning on 1 February 2010. The adoption of these FRSs, amendments and IC Interpretations do not have a material impact on the interim financial information of the Group saved for the following:

- a) FRS 8 : Requires segment information to be presented on a similar basis to that used for internal reporting purposes. As a result, the Group's segmental reporting had been presented based on the internal reporting to the chief operating decision maker who makes decisions on the allocation of resources and assesses the performance of the reportable segments. This standard does not have any material impact on the financial position and results of the Group.
- b) Revised FRS 101: Separates owner and non-owner changes in equity. Therefore, the current consolidated statement of changes in equity only includes details of transactions with owners. All non-owner changes in equity are presented as a single line labeled as total comprehensive income. Comparative information, with exception of the requirements under FRS 139, had been re-presented so that it is also in conformity with the revised standard. This standard does not have any material impact on the financial position and results of the Group.
- c) FRS 139: Prior to the adoption of FRS 139, financial derivatives were recognised on their settlement dates. Outstanding derivatives at the balance sheet date were not recognised. With the adoption of FRS 139, all financial assets and financial liabilities, including derivatives, are recognised at contract dates when and only when, the Company or any subsidiary becomes a party to the contractual provisions of the instruments.

With the adoption of FRS 139, financial assets and financial liabilities recognised and unrecognised in the prior financial year are classed into the following categories:

No	Pre FRS 139	Post FRS 139
1	Other long term investment	Available for sale investment
2	Trade and other receivables	Loans and receivables
3	Unrecognised derivative assets	Financial assets at fair value through profit or loss
4	Unrecognised derivative liabilities	Financial Liabilities at fair value through profit or loss

The measurement bases applied to the financial assets and financial liabilities in the prior financial year are changed to conform to the measurement standards of FRS 139 in the current quarter. At initial recognition, all financial assets and financial liabilities are measured at their fair value plus in the case of financial instruments not at fair value through profit or loss, transaction costs directly attributable to the acquisition or issuance of the instruments. Subsequent to their initial recognition, the financial assets and financial liabilities are measured as follows:

No	Category	Measurement basis
1	Financial instruments at fair value through profit or loss	At fair value through profit or loss
2	Held-to-maturity investments	At amortised cost effective interest method
3	Loans and receivables	At amortised cost effective interest method
4	Available for sale investments	At fair value through other comprehensive income, unless fair value cannot be reliably measured, in which case, they are measured at cost
5	Loans and other financial liabilities	At amortised cost effective interest method

Financial assets and financial liabilities designated as hedged items and hedging financial derivatives are accounted for using the specified hedge accounting requirements of FRS 139. All financial assets other than those classified as at fair value through profit or loss are subject to impairment test of FRS 136. The application of FRS 139 did not have any material impact on the Group for the financial period.
