The higher LBT in current quarter was mainly due to higher impairment loss charged as compared with preceding quarter ended 30 September 2019.

#### **B3.** Prospects

The prospects ahead for the Group will be challenging due to stiff competition and weaker demand from local and overseas markets. These factors will continue to keep pressure on DGB's overall operating environment. The Group will focus on expanding its footprint overseas/locally and expand its product range to cater customers' need. It is expected that the expansion to logistic services and hotel investment would yield a better return to the Group in the near future. The management is in the view that the investment in hotel management would yield a positive return given its current loss recorded. In fact a positive return recorded by the hotel investment from the period Oct 2019 to Dec 2019. Notwithstanding these challenges the Group will continue to strive for efficient cost management and expand its revenue portfolio to reduce its overall overheads and improve performance. The success of the Group will rely heavily on the capabilities of the management team to successfully implement these strategies.
