### PART B – EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE ACE MARKET LISTING REQUIREMENTS OF BURSA SECURITIES

#### **B1.** Review Of Performance

For the nine months ended 30 September 2011 ("9-months 2011"), the Group recorded revenue of RM53.99 million and profit before tax of RM3.51 million as compared to RM52.22 million and RM2.25 million in the preceding year corresponding period ended 30 September 2010 ("9-months 2010") respectively. The Group's revenue for the current quarter under review ("Q3 2011") of RM21.22 million was 0.7% lower compared to the preceding year corresponding quarter as at 30 September 2010 ("Q3 2010") of RM21.38 million. The slight decline in revenue for the Q3 2011 as compared to Q3 2010 was mainly due to the Company exercising tighter control measures on the recognition of moon cake sales during the Mid-Autumn Festival in Q3 2011 as they had experienced a large number of returns after the Mid-Autumn Festival of Q3 2010.

The decrease in administration and other operating expenses from RM6.23 million in the 9-months 2010 to RM5.39 million for the 9-months 2011 was mainly due to part of the listing expenses of approximately RM0.75 million being charged in the previous year.

In addition, the increase in selling and distribution expenses for the 9-months 2010 of RM21.93 million to RM25.49 million in the 9-months 2011 was mainly attributed to the operational cost incurred for the newly incorporated restaurant in Singapore. The increase in selling and distribution expenses from RM7.67 million in the Q3 2010 to RM8.78 million in the current Q3 2011 was mainly due to higher expenses incurred for advertisement & promotional activities and repair & maintenance in the current Q3 2011, coupled together with expenses contributed from the newly incorporated restaurant in Singapore which had not yet been incurred in Q3 2010.

The Group recorded a higher profit before tax of RM1.79 million for the current Q3 2011 as compared to the Q3 2010 of RM1.31 million mainly due to the Group's efforts in implementing stricter cost control measure thus resulting in improvements to the Group's overall gross profit margin of 53.71% as compared to 45.87% in the Q3 2010.

#### B2. Comparison To The Results Of The Preceding Quarter

The revenue for the current Q3 2011 improved by 52% from RM13.99 million in to RM21.22 million mainly due to the sales of moon cake/manufacturing segment during the Mid-Autumn Festival. The Group's profit before tax also improved to RM1.79 million from a loss of RM0.38 million previously.

The profit before tax recorded for the current Q3 2011 under review was mainly due to the moon cake festive season resulting in an increase in performance in the manufacturing segment. Revenue from the manufacturing segment increased from RM0.66 million in the preceding quarter to RM9.03 million. The restaurant segment revenue recorded a decrease of RM1.14 million mainly due to decrease in Singapore restaurant sales. This was further eroded by higher expenses incurred in Q3 2011 for legal fees in relation to the disposal of four (4) units of two-storey shop offices as discussed in Note B6, advertisement & promotional activities in relation to lump-sum billing received from advertising agency and repair & maintenance for a restaurant outlet.

#### **B3.** Current Year Prospects

The Group's new restaurant located at Shaw Tower, Singapore commenced operations on 30 January 2011. In the current Q3 2011, the operation has recorded a pre-tax loss of approximately RM0.44 million from a break even position in the preceding quarter. This is due to lower revenue contribution from the restaurant together with high fixed maintenance cost.

The Singapore economy saw a sequential decline in the second quarter of 2011. The contraction was led by slowdown in trade related activities due to supply chain disruption arising from the Japan earthquake as well as softening global demand from advanced economies.

The Group plans to restrategise its marketing plan in order to garner more customer awareness in the region of Singapore and shall continue to offer its services at competitive price amidst intense competition in the market.

Moving forward, the Board remains positive on its business in Singapore and the overall results of the Group for 2011.

#### **B4.** Profit Forecast And Profit Estimate

The Group has not issued any profit forecast or profit estimate for the current financial quarter under review or in any public documents.

#### **B5.** Taxation

|                                | Current quarter ended<br>30 September 2011<br>RM' 000 | Current year to-date<br>30 September 2011<br>RM' 000 |
|--------------------------------|---|--|
| Income tax:-<br>Current period | 534   | 1,241  |

The effective tax rate for current quarter and the current year to date is higher than the statutory rate of 25%. This arose as the Company did not qualify for group tax relief for losses incurred in the restaurant segment to offset against profit earned in the manufacturing segment, resulting in higher effective rate at consolidation level.

Save as disclosed below, there were no sales of unquoted investments and/or properties during the current financial quarter and financial year-to-date:-
