For the cumulative financial quarter ended 30 June 2024, the Group recorded revenue of RM57.794 million, which is mainly contributed by F&B Distribution segment. The Group recorded loss before tax of RM29.941 million, which is mainly due to the fair value loss on other investment, loss on disposal of investment in an associate company and other investment.

#### **Revenue by segment:**

## **ICT Services Segment**

For current financial quarter, ICT services recorded revenue of RM0.596 million, a decrease of RM2.820 million as compared to the same period in the last financial year. This segment contributed 12.4% of the Group's revenue during cumulative financial quarter.

#### **Automation Systems Segment**

For current financial quarter, Automation Systems segment had reconciled the work in progress for the mechanical & electrical engineering services (M&E), which had incurred higher costs due to price escalation on the materials. This resulted in an adjustment of RM2.197 million to its revenue. For cumulative financial quarter, this segment contributed 19.6% of the Group's revenue.

#### F&B Distribution Segment

For current financial quarter, F&B Distribution recorded revenue of RM8.174 million, an increase of RM0.662 million as compared to the same period in the last financial year, which was due to the increase of selling prices in tandem with the higher cost of imported goods sold. This segment remained as the main contributor (68.0%) of the revenue stream for the Group during cumulative financial quarter.

Loss attributable to equity holders of the				
Company	(8,868)	(1,197)	(7,671)	640.9

The Group recorded loss before tax of RM8.497 million during current quarter, a decrease of RM7.504 million as compared to the immediate preceding quarter. This is mainly due to the work in progress for the mechanical & electrical engineering services (M&E), which had incurred higher costs due to price escalation on the materials, hence also contributed to the gross loss during current financial quarter.
