The interim financial statements should be read in conjunction with the audited financial statements of the Company for the period ended 30 June 2010. Other than for the application of FRS 8, FRS 101, FRS 139, and FRS 7, the application of the above FRSs, Amendments to FRSs and Interpretations did not result in any significant changes in the accounting policies and presentation of the financial results of the Company.

FRS 8: Operating SegmentFRS 101: Presentation of Financial Statements (revised)

FRS 8 replaces FRS 114_{2004} : Segment Reporting and requires a 'management approach', under which segment information is presented on a similar basis to that used for internal reporting purposes. As a result, the Company's external segmental reporting will be based on the internal reporting to the "chief operating decision maker", who makes decisions on the allocation of resources and assesses the performance of the reportable segments. This standard does not have any impact on the financial position or results of the Company.

FOR THE FINANCIAL PERIOD ENDED

B Explanatory Notes Pursuant to FRS 134 (cont.)

i Basis of Preparation & Changes in Accounting Policies (cont.)

FRS 101: Presentation of Financial Statements (revised)

The revised FRS 101 separates owner and non-owner changes in equity. Therefore, the statement of changes in equity will include only details of transactions with owners. All non-owner changes in equity are presented as a single line labelled as total comprehensive income. The Standard also introduces the statement of comprehensive income: presenting all items of income and expense recognised in the income statement, together with all other items of recognised income and expense, either in one single statement, or in two linked statements. In addition, a statement of financial position is required at the beginning of the earliest comparative period following a change in accounting policy, the correction of an error or the reclassification of items in the financial statements. The Company has elected to present in two linked statements. This revised FRS does not have any impact on the financial position and results of the Company.

FRS 139: Financial Instruments: Recognition and Measurement, FRS 7: Financial Instruments: Disclosures and Amendments to FRS 139: Financial Instruments: Recognition and Measurement, FRS 7: Financial Instruments: Disclosures

FRS 139 sets out the new requirements for the recognition and measurement of the Company's financial instruments. Financial instruments are recorded initially at fair value. Subsequent measurement of the financial instruments in the statement of financial position reflects the designation of the financial instruments. The Company determines the classification at initial recognition and for the purpose of the first adoption of the standard, as at transitional date on 1 July 2010.

FRS 7 requires new disclosures in relation to financial instruments. The Standard is considered to result in increased disclosures, both quantitative and qualitative of the Company's exposure to risks, enhanced disclosure regarding components of the Company's financial position and performance, and possible changes to the way of presenting certain items in the financial statements.

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held to maturity investments, AFS financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The adoption of these FRSs do not have any impact on the Company's interim financial statements of the current quarter and its opening balance as at 1 July 2010.

FOR THE FINANCIAL PERIOD ENDED

C Explanatory Notes Pursuant to Appendix 9B, ACE Market Listing Requirements

i Performance of the Company

For the current quarter, the Company recorded revenue of RM1.48 million and a loss before taxation of RM0.46 million.

Long-term contracts and recurring contractual agreements are not a norm in our industry. Additionally, revenue coincides with the relevant milestones for each project and we may face fluctuations such that revenue recorded in each quarter may vary.

Notwithstanding the lack of a recurring element in our revenue, performance for the quarter under review can be attributed to an increase in staff costs stemming from:

- a) the recognition of share based payment transactions, whereby RM110,464 was treated as a benefit to employees in accordance with FRS 2 and recognised as staff cost, and
- b) the basis for accruing bonus payments had been adjusted downward, resulting in an over accrual of bonus payments as at the previous quarter. The accrual of bonus payments has continued on an ongoing basis in the current reportable quarter.

ii Comparison with Preceding Quarter's Results

The comparison of this quarter's results with the preceding quarter is set out below.

	Current Year	Previous Year	
	1st Quarter	4th Quarter	Variance
for the financial period ended	30.09.2010	30.06.2010	
	(RM'000)	(RM'000)	(RM'000)
	unaudited	unaudited	
Revenue	1,475	1,479	(4)
Profit / (loss) before tax	(456)	47	(503)

While revenues remained constant as compared to the preceding quarter, additional costs were incurred for staff costs as disclosed under Note C(i) above.
