B3. Prospect

The country's economy expanded by 4.5% in the fourth quarter of 2015, lower than 4.7% in the third quarter of 2015, supported mainly by private sector demand and private sector continued to be the key driver of growth during the quarter. Private investment grew by 5% (Q3:5.5%), driven by capital spending in the manufacturing and services sectors. Private consumption expanded by 4.9% (Q3:4.1%), supported by stable wage growth and labour market conditions.

The Group still sees some pressure on consumers' purchasing power amid the weak consumer sentiment. Having said this, the optical and related products business will continue to expand its distribution network to increase market share and revenue with stores of various concepts. For the franchise management business, the Group will be selective for its new entry and focus on enhancing the business operation of franchisees. As to the food and beverage business, concerted effort will be placed to strengthen the operation and at the same time, the Group will also open new doors at selected locations and expand its franchise business.

Going forward, global growth is expected to remain moderate. Locally, domestic demand will continue to be the main driver of growth, supported mainly by private sector activity. The Group is cautiously optimistic to deliver a satisfactory performance for the year 2016 ahead.
