During the current year to date ended 30 June 2015, Food Manufacturing Division recorded revenue of RM0.14 million as compared to RM0.10 million in the preceding year ended 30 June 2014. The increase of approximately 40% was due to the increase in our customers' orders during the current year to date.

For current quarter ended 30 June 2015, the Group achieved a profit before tax of approximate RM1.65 million as compared to RM2.02 million in the immediate preceding quarter ended 30 June 2014. The decreased of RM0.37 million or 18.32% in profit before tax is due to higher cost of goods sold incurred and delayed of customers' projects.

B3. Prospects

We foresee further market uncertainties, restructuring and consolidation in view of current events internally and externally that would have impact the businesses of the Group. SCC would continue to run our business with caution and prudent in order to deliver the best possible returns to the shareholders.

We would be participating in upcoming exhibitions held at KLCC in coming months to promote the Group's products, introducing new product lines with strategic promotions.

The introduction of new essential amino acid for animal feeds to the market had contributed substantial amount to the Group's revenue albeit with a lower margin. However, these products also allow the Group to penetrate into new customers and networks that would further enhance our position in the industry.

Barring any unforeseeable circumstances, the Board of Directors is optimistic of the Group's prospect in the future.
