Note:

* *Entities that meet the specific criteria in MFRS 4, paragraph 20B, may choose to defer the application of MFRS 9 until that earlier of the application of the forthcoming insurance contracts standard or annual periods beginning before 1 January 2021.*

The Group and the Company intend to adopt above MFRSs when they become effective.

The initial application of the above mentioned MFRSs is not expected to have any significant impact of the financial statements of the Group and of the Company except as mentioned below:

MFRS 9 *Financial Instruments* (IFRS 9 issued by IASB in July 2014)

MFRS 9 (IFRS 9 issued by IASB in July 2014) replaces earlier versions of MFRS 9 and introduces a package of improvements which includes a classification and measurement model, a single forward looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. MFRS 9 when effective will replace MFRS *139 Financial Instruments: Recognition and Measurement*.

MFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through other comprehensive income and fair value through profit or loss. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in other comprehensive income not recycling. There is now a new expected credit losses model that replaces the incurred loss impairment model used in MFRS 139. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value through profit or loss. MFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under MFRS 139.

MFRS 15 *Revenue from Contracts with Customers*

MFRS 15 replaces MFRS 118 *Revenue*, MFRS 111 *Construction Contracts* and related IC Interpretations. The Standard deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers.

Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to the customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

MFRS 16 *Leases*

MFRS 16, which upon the effective date will supersede MFRS 117 *Leases*, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under MFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, MFRS 117.

The impact of new MFRSs, amendments and improvements to published standard on the financial statements of the Group and of the Company are constantly being assessed by management.

The Group's gross profit margin stood at 23.80%, representing a decrease of approximately 5.68% as compare to 29.48% recorded in the FYE 31 December 2016. The lower gross profit margin was primarily resulted from product mix follow by the decrease in profit margin of the scheduled waste collection services due to the increase in labour cost and service mix. The scheduled waste collection services contributed approximately 19.32% of the Group's total revenue and experiencing decrease in gross profit margin by 4.84% as compared to FYE 31 December 2016 and thus impacted the overall gross margin of the Group.

The selling and distribution cost has reduced by 41.06% as compared to FYE 31 Decemeber 2016. This was mainly due to the rationalisation of distribution channel which had resulted in the savings of transportation costs.

The finance cost has reduced by 17.39% as compared to FYE 31 December 2016 mainly due to refinancing activity and loan settlement in the second half of 2016, partly offset by the increase in overdraft and finance lease interest incurred in the FYE 31 December 2017.

Resulting from the above, the Group's has recorded a profit before taxation of RM1.88 million as compared to the profit before taxation of RM1.04 million in the FYE 31 December 2016. B2. Comparison with preceding quarter's results

	Financial Quarter Ended		
	31.12.2017 RM'000	**30.09.2017 RM'000**	Variance **RM'000**
Revenue	11,424	10,209	1,215
Profit before taxation	1,093	332	761
