Gross profit margin and loss before tax margin stood at 32.19% and 4.63% respectively for the current financial quarter ended 28 February 2014. The supply of quarry industrial products is the Group's main revenue stream, representing 50.08% of the total revenue. The demand for the quarry industrial products are recurring in nature as most of the quarry industrial products have short useful life of approximately three (3) to six (6) months.

The lower gross profit margin of 32.19% recorded in the current financial quarter ended 28 February 2014 was mainly due to the strengthening of USD against RM from December 2013 to February 2014 as most of the quarry industrial products are purchased from foreign suppliers and transacted in USD.

The loss before tax margin of 4.63% recorded in the current financial quarter was mainly due to the listing expenses amounting to RM1.20 million charged against the earnings of the Group in the current financial quarter pursuant to the initial public offer listing of the Company.

For the first six (6) months of the financial period ended 28 February 2014, the Group recorded revenue of RM28.36 million and profit before taxation of RM2.60 million. 	<b>RM'000</b>	<b>RM'000</b>	<b>RM'000</b>

The Group recorded a loss before tax of RM0.57 million in the second financial quarter ended 28 February 2014 was mainly due to the listing expenses amounting to RM1.20 million charged against the earnings of the Group in the current financial quarter pursuant to the initial public offer listing of the Company.
