^{*} The new Companies Act 2016 (the "Act"), which came into operation on 31 January 2017, abolished the concept of authorized share capital and par value of share capital. Consequently, the amounts standing to the credit of the share premium account become part of the Company's share capital pursuant to the transitional provisions set out in Section 618 (2) of the Act. Notwithstanding this provision, the Company may within 24 months from the commencement of the Act, use the amount standing to the credit of its share premium account of RM53,002,368 for purposes as set out in Sections 618 (3). There is no impact on the numbers of ordinary shares in issue or the relative entitlement of any of the members as a result of this transition. Accordingly, the share premium account of RM53,002,368 has been reclassified to share capital account.

NOTES TO THE INTERIM FINANCIAL STATEMENTS THIRD QUARTER ENDED 31 MARCH 2018

B COMPLIANCE WITH APPENDIX 9B OF THE LISTING REQUIREMENTS

B1 Review of performance

(i) Revenue

For the quarter ended 31 March 2018, the Group recorded revenue of approximately RM48.0 million, an increase of approximately 52.4% compared to the previous quarter ended 31 March 2017 of approximately RM31.5 million, whilst the Group's revenue for the 9-month FPE 31 March 2018 was RM219.4 million, an increase of 12.3% compared to the previous 9-month FPE 31 March 2017 of approximately RM195.4 million.

The increase in revenue for the current quarter ended 31 March 2018 was due to the increase in the sales order volume for the headsets.

(ii) (Loss)/Profit Before Taxation ("(LBT)" / "PBT")

For the current quarter ended 31 March 2018, the Group's LBT was approximately RM0.2 million as compared to PBT of approximately RM1.0 million in the previous quarter ended 31 March 2017, whilst the Group's PBT for the 9-month FPE 31 March 2018 was approximately RM16.4 million as compared to RM22.4 million in the corresponding 9-month FPE 31 March 2017.

The LBT for the current quarter ended 31 March 2018 was mainly attributed to the following:-

- 1) increased spending on research activities to enhance our service offerings for existing and potential customers;
- 2) design and marketing expenses for in-house brand FOBO;
- spending on research activities on personal healthcare products under in-house brand FOBO;
 and
- 4) collaborative design expenses with a European design house to develop world-leading technology for high performance Bluetooth cable-less headset products.

Such spending is required to materialise future product launches starting in the second half of calendar year 2018.

NOTES TO THE INTERIM FINANCIAL STATEMENTS THIRD QUARTER ENDED 31 MARCH 2018

B2 Comment on material change in profit before taxation ("PBT")

	Current Quarter 31.03.2018 RM'000	Preceding Quarter 31.12.2017 RM'000	Variance RM'000	%
Revenue	48,037	87,554	(39,517)	-45.1%
(LBT) / PBT	(165)	8,038	(8,203)	-102.1%

The Group recorded lower revenue for the current quarter as compared to the revenue in the preceding quarter by approximately RM39.5 million due to seasonality factor.

The current quarter has a LBT of RM0.2 million due to lower sales volume which was not sufficient to absorb the fixed overheads and the increased spending on research activities.

B3 Prospects

The Group will continue to pursue growth and put effort in developing new products and new processes (including automation) through its research and development capabilities. Based on its years of experience in manufacturing small form factor and high precision plastic parts, the Group has a distinct competitive advantage in developing innovative products for both its existing customers and potential new customers alike.

Currently the Group is embarking on a co-development project with a design house in Europe for the latest generation Bluetooth-related product. This project has been earmarked for a customer. We envisaged the success of this co-development will strengthen our technology offering to the market.

Our development of healthcare related products under in-house brand FOBO is still ongoing. Meanwhile, the tire pressure monitoring system, FOBO Tire, has been adopted by a well-known local car brand owner as its after-market accessories sales kit.

Premised on the above, the Board is of the view that the Group's prospect remains favourable.

B4 Variance between actual profit and forecast profit

The Group has not provided any revenue or profit forecast in any public documents and announcements.
