MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on- balance sheet model similar to the accounting for finance leases under MFRS 117.

At the commencement date of a lease, a lessee will recognise a liability to make lease payments and an asset representing the right to use the underlying asset during the lease term. Lessor accounting under MFRS 16 is substantially the same as the accounting under MFRS 117. Lessors will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases.

The revenue was lower mainly due to lower contribution from the petrol station operations and the profit before taxation was higher mainly due to higher contribution from the integrated public transportation terminal operations. The Group recorded revenue of RM59.33 million and profit before taxation of RM19.66 million for the current FPE 30 June 2019 as compared to RM57.36 million and RM15.92 million in the corresponding 6-months FPE 30 June 2018. The revenue recorded for the current FPE 30 June 2019 of RM26.22 million as compared to RM22.04 million in the corresponding 6-months FPE 30 June 2018.
