The Group recorded revenue of RM18.84 million for the current financial quarter ended 30 September 2021 (30 September 2020: RM19.56 million).

The Group's revenue was principally derived from the EDC terminals segments, followed by the electronic transaction processing segment and Solutions & Services segments accounting for approximately 40.70%, 33.43% and 25.87% respectively of the total revenue for the current financial quarter ended 30 September 2021. The Malaysian market is the single largest market accounted for the entire total revenue for the current financial quarter ended 30 September 2021.

The Group's revenue decreased by RM0.72 million from RM19.56 million for financial quarter ended 30 September 2020 to RM18.84 million for the financial quarter ended 30 September 2021. The lower revenue recorded was mainly attributed to the drop in the sales of EDC terminals by approximately RM6.08 million. However, the revenue from the rental and maintenance of EDC terminals recorded an increase by approximately RM1.03 million arising from the increase in the number of EDC terminals managed by the Group whilst the electronic transaction processing income increased by approximately RM3.06 million arising from the increase in the transaction processing value. The revenue from the Solutions & Services segments had increased by approximately RM1.26 million mainly attributed to higher revenue from the digital payment serviced by approximately RM1.01 million arising from the increase in the volume.

B3. Prospects and outlook

The Group has put in place a series of future plans as follows:

(a) Expansion of our electronic payment network

Our Group is continuously looking to expand our electronic payment network in Malaysia and will continue to purchase and deploy additional new digital payment terminals with the capability to accept payment cards and Quick Response ("QR") Payment. The Group is currently working with our partner banks on the development, testing and certification on the new digital payment terminals, which will be rolled out and deployed to the market in various stages. Besides that, the Group is also working closely with different e-wallet issuers to bring the payment acceptance into digital payment terminals.

(b) Regional expansion

Our businesses are predominantly concentrated in Malaysia. As part of our future business expansion, the Group initially intend to expand to ASEAN market and we have identified two (2) potential countries for our regional expansion, namely Myanmar and Cambodia.

However, due to the outbreak of Corona Virus Disease 2019 ("COVID-19"), the intended business plan was halted due to the lockdown of borders which impede the Group from travelling to Myanmar and Cambodia to set up its infrastructure and operations team. The Group has decided to temporary halt all regional business expansion until and upon the improvement of the pandemic. As the regional countries are slowly opening up the borders and receiving visitors, the Group will re-visit the regional expansion plan.

(c) Enhancement of revPAY and expansion of IT team

As IT forms the backbone and is an integral part of our business operations, it is crucial for our Group to continuously enhance, upgrade and maintain the scalability of our revPAY platform and its related software and systems to support our business expansion and technology advancement. The Group is continuously on the lookout for IT talent to expand our IT personnel.

(d) Value-added solutions and services

The acquisition of Wannapay Sdn Bhd (formerly known as Scanpay Sdn Bhd) ("WannaPay"), Wannatalk Malaysia Sdn Bhd ("Wannatalk"), as well as Vsure will enable the Group to provide additional value-added solutions and services to our customers which will complement the Group's existing business and provide a more robust Business-to-Business-Consumer ("B2B2C") solution.

(e) Research & Development ("R&D")

Our Group continuously researching and developing more electronic solutions to be integrated with our revPAY. Such solutions will enable our customers to digitalise loyalty programme, rewards redemption, discount coupons and gift cards, bill payment, purchase of on-demand insurance, goods pick up via our digital payment terminals and via our WannaPay e-wallet. Our Group is also researching and developing issuing technology encompassing issuing payment security by leveraging on artificial intelligence to enhance the payment security features.

B3. Prospects and outlook (Cont'd)

The outbreak of the COVID-19 virus in early January 2020 had disrupted the global operating environments and restricting global travelling and the outbreak had soften economic growth both in Malaysia and regionally. As a preventive measure to counter the spread of COVID-19 in Malaysia, the Malaysian Government had imposed Movement Control Order ("MCO") commencing on 18 March 2020 and has since extended numerous times.

The Government had gradually and progressively eased the restriction and businesses were allowed to operate under strict Standard Operating Procedures and the economy is showing s sign of recovery and the outlook seems brighter with the implementation of National Immunisation Programme which is aimed to bring the COVID-19 virus under control and Bank Negara Malaysia ("**BNM**") is projecting the Gross Domestic Product ("**GDP**") to expand between 3% to 4% in 2021.

The COVID-19 pandemic has hastened the digital adoption and cashless payment in Malaysia and the Government is taking the lead by setting the target to create cashless transactions for all government services by 2022 and has tasked BNM to take the lead to promote cashless and boost easy and secure digital transactions under the Malaysia Digital Economy Blueprint ("MyDigital") and the electronic payment ("e-payment") is projected to increase to 400 e-payment transactions per capita by 2022.

However, due to the recent surge in the COVID-19 infections, the Government had on 28 May 2021 announced a full lockdown from 1 June 2021 onwards, which then gradually moved into the various phases of the National Recovery Plan. Whilst the increasing level of vaccination rate, as well as the implementation of the third "booster" vaccine dose will support the return to normal social behaviours and activities, however, the risk of COVID-19 virus infection is still lurking around and will continue to threaten the lives and the economy. With the global and local economy constantly lingering in uncertainty due to on-going battle to bring the COVID-19 pandemic under control, the financial performance for the financial year ending 2022 will remain challenging.

Premised on the above, the Group has embarked on a series of business strategies and future plans, however, the Board is cautious on the potential impact of the COVID-19 pandemic and will continue to manage the Group's business with vigilance during this uncertain period.
