B1. Review of Performance

(a) Results for current quarter

Revenue	26,141	18,769	7,372	39.3
Profit Before Tax (PBT")	3,197	3,326	(129)	(3.9)

The Group recorded revenue of RM26.14 million for the current financial quarter ended 31 December 2023 ("Q4 2023"), an increase of 39.3% as compared to the same quarter ended 31 December 2022 ("Q4 2022"). The increase was mainly attributable to the higher revenue recorded from the manufacturing segment by 24.2% and distribution segment by 134.11%.

In Q4 2023, the Group's revenue was principally derived from the manufacturing segment, contributing approximately 76.9% of the Group's total revenue (Q4 2022: 86.3%). On the geographical standpoint, the Malaysian market remains the largest contributor to the Group's revenue of 51.5% in Q4 2023 (Q4 2022: 49.4%).

The Group registered a PBT of RM3.2 million in Q4 2023 as compared to PBT of RM3.3 million in Q4 2022, which represents a slight decrease of RM0.13 million. The lower PBT despite higher revenue by RM7.4 million was mainly due to lower gross profit by approximately RM1.5 million offset by lower administrative expenses of approximately RM1.3 million. Lower gross profit despite higher revenue was mainly due to higher raw material consumed caused by change in sales mix. Lower administrative expenses were mainly attributable to nil impairment loss on trade receivables in Q4 2023 (Q4 2022: RM2.4 million).

The increase was mainly attributable to the higher revenue recorded from the manufacturing segment by 23.8% and higher revenue recorded from distribution segment by 254.8%.

The Group registered a Profit Before Tax of RM3.20 million in Q4 2023 as compared to RM3.68 million in Q3 2023. The lower PBT by RM0.49 million despite higher revenue was mainly due to slightly higher administrative expenses by approximately RM0.79 million. Higher administrative expenses were due to an accrual of auditor's remuneration (RM0.14 million) and higher administrative staff costs (RM0.42 million).

B3. Prospects and outlook

В.

Malaysia is well-positioned for a better economic growth in 2024 owing to its underlying strength in domestic demand that accounts for the lion share of the economy. Private consumption will continue to be the key growth driver, underpinned by robust labour market conditions with continued expansion in employment and income prospects. Revival in tourism activities in 2024 will likely provide a strong fillip, especially with the introduction of visa-free entry for tourists from China and India, further boosting domestic economy. For 9M23, Malaysia has achieved 3.9% GDP growth despite the external headwinds, and it looks set to improve further in 2024 given the positive economic landscape.

Thanks to the concreted efforts by the federal government to boost economic growth under the Madani Economy Framework, investment-driven spending is set to be a new growth driver for Malaysia in 2024. The implementation of the strategic developments and flagship projects under the 12th Malaysia Plan Mid-Term Review (12MP MTR), New Energy Transition Roadmap (NETR) and New Industrial Master Plan (NIMP) 2030 will accelerate the economic take-off envisaged by the government to be a paradigm shift for Malaysia. In addition, the realisation of record-high approved investments from foreign investors in 2021-2022 will ensure the manufacturing sector remains on a healthy growth trajectory in 2024. The drag from weak external demand in 2023 may reverse in 2024 as global monetary tightening cycle appears to be over. There are early signs of regional exports recovery in line with nascent turnaround in global E&E sector which bodes well for Malaysia's external trade. However, the Group is monitoring closely the impact of the escalating geopolitical conflicts that may cause disruption in the supply chain activities. The continuous efforts by the central banks of the world to counter inflation through stricter monetary policies may also result in economic hard landing. The Group is amplifying its effort to grow its business as evident by its recent acquisition of Esontech Sdn Bhd ("Esontech"). The core operations of Esontech encompass, without restriction, the design, production, and promotion of automated equipment, testers, systems, and software solutions tailored to cater to the needs of the silicon photonics industries. As part of its long-term business growth initiatives, this acquisition offers the Group the chance to venture into a new and rapidly growing field of silicon photonics industries, starting with Silicon Photonics Optical Alignment Solutions.
