The increase in revenue was mainly due to increase in revenue generated from wholesale segment through the continuing efforts in expansion of customer base and delivery fleet. Decrease in profit before tax was mainly due to increase of raw material prices which affected the gross profit margin.

With Malaysia entering the "Endemic" phase of COVID-19 and the re-opening of international borders, the Group expects a recovery in its retail operations due to the improved mobility. However, the Group is faced with the global supply chain disruptions and the fluctuation of prices in raw material. Therefore, the Group will continue to monitor the situation, and adopt strategies to mitigate its impact, which include resource allocation and cost control management.

Overall, the outlook of bakery products and cafeterias in Malaysia is positive.
