B1. Review of Group Performance

The Group recorded revenue of RM11.2 million, of which RM11.0 million were from EPCC services. The Group's profit before taxation for the financial period under review was RM1.3 million. Administrative expenses during the financial period were mainly due to staff cost amounting to RM0.4 million and IPO expenses of RM0.2 million incurred during the period.

Following the outbreak of Coronavirus Disease 2019 ("COVID-19") in early 2020, the Government has implemented few phases of the movement control order ("MCO") in Malaysia. During the financial period under review, the Government had imposed a recovery MCO ("RMCO") which was initially imposed from 10 June 2020 until 31 August 2020, and subsequently extended to 31 December 2020. As disclosed in the Company's prospectus dated 28 September 2020, we have resumed our on-site operations for all on-going projects.

B3. Prospects

The government of Malaysia ("Government") is working towards increasing the use of renewable energy ("RE") resources, including mini-hydro, biomass, biogas and solar as an initiative to reduce carbon dioxide (CO₂) emission. In relation thereto, the Ministry of Energy and Natural Resources had on 28 May 2020, announced a solar quota release of 1,000 MWac competitive bidding for LSS programme under the "Malaysian Electricity Industry to Attract RE Investment" (which is dubbed as LSS@MEnTARI) which is the fourth LSS PV bidding cycle and is for Peninsular Malaysia. This LSS@MEnTARI is the largest quota offered for bidding compared to the previous LSS1, LSS2 and LSS3 programmes which ranged between 250 MW and 500 MW.

This will provide us with opportunities to provide EPCC of solar PV systems and power plants. We will continue to leverage on our core competency and experience in providing end-to-end services for potential solar PV projects.

In addition, we also provide RE and environmental consulting services to customers who are in the preparation phase of their bidding of solar PV projects under LSS programmes.

As disclosed in the Company's prospectus dated 28 September 2020, the Group will continue to strengthen its core competency in EPCC by expanding locally (i.e. through the establishment of sales and technical support services, and purchase of new equipment and tools) and internationally (i.e. starting with Vietnam in the near term pursuant to its first purchase order in Vietnam). Further, part of the Group's business strategies is to build-own-operate and invest in RE power plants.
