B. ADDITIONAL INFORMATION REQUIRED BY THE ACE MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. Review of Group Performance

The Group recorded revenue of RM25.2 million and RM53.4 million for current quarter and current financial period respectively, of which EPCC services are the major contributor. The Group's profit before taxation for the current quarter and current financial period under review was RM2.3 million and RM8.1 million respectively. Administrative expenses during the financial period were mainly due to staff cost amounting to RM2.3 million and IPO expenses of RM0.6 million incurred during the period.

During the financial period under review, the Government had imposed different phases of the movement control order, i.e. recovery movement control order ("RMCO"), movement control order ("MCO"), conditional movement control order ("CMCO") and full movement control order ("FMCO") prior to entering into four (4) different phases of National Recovery Plan ("NRP") which are currently being enforced across all the States in Malaysia. Nevertheless, our Group continued to operate on full scale whilst practicing internal standard operating procedures ("SOP") to safeguard the employees and subcontractors' health and to curb the spread of COVID-19.

There are no comparative figures for the preceding year's quarter and year-to-date available as this is the fourth interim financial report on the consolidated results for the fourth quarter ended 30 June 2021 announced by the Company in compliance with the Listing Requirements.

B2. Comparison with Immediate Preceding Quarter Results

	Current Quarter 30.06.21 RM'000	Preceding Quarter 31.03.21 RM'000
Revenue	25,162	9,031
Profit before tax	2,342	1,602

Profit before tax was higher in current quarter as compared to immediate preceding quarter mainly due to higher revenue recorded in current quarter which are consistent with the on-going progress of the projects.

B3. Prospects

The government of Malaysia ("Government") is working towards increasing the use of renewable energy ("RE") resources, including mini-hydro, biomass, biogas and solar as an initiative to reduce carbon dioxide (CO₂) emission. In relation thereto, the Energy Commission of Malaysia had, on 12 March 2021, announced the awards of 823.06 MW of solar quota pursuant to the LSS programme under the "Malaysian Electricity Industry to Attract RE Investment" (dubbed as LSS@MEnTARI) which is the fourth LSS programme and is for Peninsular Malaysia. This LSS@MEnTARI involves the largest total solar quota awarded thus far as compared to the previous LSS1, LSS2 and LSS3 programmes which ranged between 250 MW and 500 MW.

This will provide us with opportunities to provide EPCC of solar PV systems and power plants. We will continue to leverage on our core competency and experience in providing end-to-end services for potential solar PV projects. In addition, we also provide RE and environmental consulting services to customers who are in the preparation phase of their bidding of solar PV projects under LSS programmes.

B. ADDITIONAL INFORMATION REQUIRED BY THE ACE MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD (CONT'D)

B3. Prospects (cont'd)

We will also continue to strengthen our core competency in EPCC by expanding locally (i.e. through the establishment of sales and technical support offices, and purchase of new equipment and tools to support our EPCC projects) and internationally (i.e. starting with setting up a sales and technical support office in Vietnam in the near term to explore business opportunities in the southern part of Vietnam).

Apart from EPCC services for solar type of RE power plants, we have also ventured into providing EPCC services for biomass RE power plants to diversify our source of revenue. The achievement of this venture has been encouraging as proven by the award of 2 EPCC contracts in relation to the development of a 10 MW and a 2 MW biomass RE power plants, both of which are located in Terengganu.

In addition, we are also in the midst of developing a 1.2 MW biogas power plant in Kelantan, upon commissioning of which in 2023 will provide our Group with a new revenue stream that is recurrent in nature from the sale of electricity produced by the power plant to the state's power grid.

Our Group does not foresee any material adverse effect on the financial position or business of our Group arising from the implementation of NRP as we are allowed to operate with strict compliance to SOP. However, the Group will continue to monitor the situation to assess and address the impact of current development of COVID-19 disease on its business and financial position.

Barring any unforeseen circumstances, the Board is cautiously optimistic that the Group's performance will remain satisfactory for the financial year ending 30 June 2022.

The Group did not issue any profit forecast or guarantee during the current financial quarter under review.
