The Group recorded revenue of RM50.95 million for the current quarter compared to RM27.88 million in the preceding year corresponding quarter (4Q21). This increase in revenue of RM23.08 million is due to the increase in revenue from new projects and increase in construction activities in the current quarter. The Group's loss after tax for the current quarter stands at RM10.47 million, representing a decrease in net loss of RM13.80 compared to 4Q21. This is because of the reduction in work scope and shorter work duration that resulted from the shutdown in 4Q21, coupled with provisions for additional costs such as material and defect liability claims and also impairment to contract assets in 4Q21.

Gross profit saw an increase of RM14.10 million from a gross loss of RM11.15 million in 4Q21 to a gross profit of RM2.96 million as construction sites in Malaysia were allowed to operate at full capacity as compared to a year ago. The Group had also completed two (2) ECRL projects which was previously revised to loss-making projects. These loss-making projects were subjected to delays due to shutdowns and also affected by the increase in cost of materials subsequently.

A provision of RM11.20 million for the impairment of contract assets was taken up of which we wrote off RM11.05 million arising from the reduction in work scope upon finalization of accounts for some of the projects in Malaysia. The balance of RM0.15 million impaired was for a project executed by the Group's Indonesian subsidiary, PT Aneka Jaringan Indonesia (PTAJI) whereby the client had declared bankruptcy.

The Group's other income of RM1.62 million for the current quarter primarily consists of an insurance claim of RM1.05 million for damages incurred on a boring machine. The balance comprises of rental and interest income. Administrative expenses amounted to RM2.40 million for the current quarter. Finance costs stood at RM1.07 million, comprising of hire purchase loans and trade facilities.
