A6. Material Changes in Accounting Estimates

There were no material changes in estimates for the current financial quarter under review.

A7. Material Events Subsequent to the Statement of Financial Position Date

Save as disclosed below, there was no material event subsequent to the end of the current financial quarter under review:

The Government has re-imposed the movement control order ("MCO") from 13 January 2021 to 18 February 2021 in Wilayah Persekutuan, Sabah, Selangor, Penang, Johor and Melaka. Subsequently, the Government lifted the MCO and placed several states (including Melaka) under conditional MCO between 19 February 2021 to 4 March 2021. On 5 March 2021, Melaka, Pahang, Terengganu, Sabah, Putrajaya, Labuan, and Perlis were placed under the recovery MCO ("RMCO"). The implementation of RMCO in Melaka was further extended until 28 April 2021. Since then, the Government has re-imposed various forms of MCOs and a full lockdown effective 1 June 2021 following a steep climb of coronavirus 2019 ("COVID-19") cases that breached the 8,000 daily mark in May 2021. During this full lockdown period, the Group has obtained approval from Ministry of International Trade and Industry ("MITI") to continue its operations at 60% capacity.

As at the date of this report, the Group has 4 employees who were tested positive for COVID-19. As a precautionary measure undertaken by the Group, the Group temporarily ceased operations at one of its production factories from 14 May 2021 to 17 May 2021 for deep cleaning and sanitisation work. The Group resumed operations at the said factory on 18 May 2021.

Save as disclosed in Note B2 below, the re-imposition of various forms of MCOs did not have material impact on the operations and financial performance of the Group as at the date of this interim financial report as the Group continued to operate during these periods. However, the Board of Directors of the Company ("**Board**") will continue to assess the impact of COVID-19 on the Group's operations and financial performance and will make an announcement on this, if applicable.

A8. Changes in Composition of the Group

There were no changes in the composition of the Group for the current financial quarter under review.

A9. Merger Deficit

The merger deficit arose from the difference between the carrying value of the investment and the nominal value of the shares of subsidiaries upon consolidation under the merge accounting principles.

A10. Capital Commitments

Save as disclosed below, there were no other material capital commitments incurred or known to be incurred:

The carrying amounts of cash and cash equivalents, short-term receivables and payables reasonably approximate their fair values due to the relatively short-term nature of these financial instruments and insignificant impact of discounting.

The carrying amounts of long-term floating rate borrowings approximate their fair value as the borrowings will be repriced to market interest rate on or near reporting date.

There was no gain or loss arising from fair value changes of the Group's financial liabilities for the current quarter and financial period under review.

A18. Ultimate Holding Company

The Directors regard Aurora Meadow Sdn Bhd, a company incorporated in Malaysia, as the ultimate holding company.

B. ADDITIONAL INFORMATION REQUIRED BY THE LISTING REQUIREMENTS

B1. Review of Financial Performance

The Group recorded a revenue of approximately RM25.19 million and RM106.68 million in the current financial quarter and the cumulative financial quarter ended 31 May 2021 respectively. The Group's revenue is mainly attributable to sales of corrugated and non-corrugated packaging in the current financial quarter and the cumulative financial quarter ended 31 May 2021.

The Group recorded a profit before tax of approximately RM3.21 million and RM18.97 million in the current financial quarter and cumulative financial quarter ended 31 May 2021 respectively.

B2. Variation of Results Against Immediate Preceding Quarter

For the current financial quarter, the Group has registered a higher revenue of approximately RM25.19 million as compared to approximately RM23.59 million in the preceding financial quarter. The increase in revenue by approximately 6.78% in the current financial quarter against its revenue for the preceding financial quarter was mainly due to the increase in sales of paper-based packaging to its major customers mainly in the consumer electrical & electronics ("Consumer E&E") industry.

The overall gross profit margin decreased from approximately 27.65% in the preceding financial quarter to approximately 23.52% in the current financial quarter was mainly due to an increase in the cost of paper. Although the Group had successfully secured the negotiation with some of its major customers to pass on such increase to them, the price adjustment only took effect in the middle of the financial period under review.

The Group's profit before tax decreased from approximately RM4.58 million in the previous financial quarter to approximately RM3.21 million in the current financial quarter mainly due to higher cost of sales resulting from the increase in paper cost as well as lower other income.

With the various forms of MCOs imposed from 12 May 2021 until 28 June 2021 in Malaysia, customers have reduced their orders due to the restriction of capacity imposed by MITI and temporary closure of some of their factories as a result of confirmed COVID-19 cases in their factories.

B3. Commentary on Prospects

The new standard format printing machine that the Group acquired was delivered in March 2021. This new standard format printing machine has replaced one of the Group's existing standard format printing machines which is 11 years in age. The new standard format printing has better printing quality and colour accuracy, reduce printing defects and wastage and will automate blanket cleaning, amongst others.

The Group intends to expand its rigid box business by acquiring an additional rigid box production line during 2022, subject to the volume of orders from the customers. This will double the Group's production capacity and allow the Group to secure more rigid box production orders which would enable the Group to grow this revenue source and improve its financial performance moving forward.

Moving forward, the Group also intends to expand its reach to a wider customer base in both the local and overseas markets by participating in local and overseas tradeshows and exhibitions. As at the date of this report, the Group has not been able to participate in any tradeshows or exhibitions due to the restrictions imposed by the Government to curb the spread of COVID-19.

The demand for packaging printing globally is expected to be supported by demand for consumer goods including, amongst others, Consumer E&E, food and beverages and pharmaceuticals. This is because packaging plays a significant role in the preservation and protection of consumer products from physical damage and to provide aesthetic and branding appeal. As such, the Group sees opportunities to grow and expand its paper-based packaging printing business in these sectors overseas.

In response to the COVID-19 pandemic, the Group has and will continue to implement various precautionary measures at its factories and offices to minimise the risk of COVID-19 infections and to ensure compliance with the standard operating procedures imposed by the Government. The Group has no specific plans that are required to be implemented to ensure continuity and sustainability of its business or to address the impact of the COVID-19 pandemic. Nonetheless, the Board will continue to monitor the developments arising from the COVID-19 pandemic and will adopt the necessary strategies to mitigate any potential risks and/or seize the opportunities arising therefrom.

The Group has registered to participate in the Public-Private Partnership COVID-19 Industry Immunisation Programme (PIKAS) vaccine program organised by MITI. As at the date of this report, the Group is still awaiting MITI's further instruction on PIKAS arrangement.

Premised on the above, the Board is of the opinion that the Group's prospects for the financial year ending 31 May 2022 remains favourable.

B6. Status of Corporate Proposal

The total enlarged issued share capital of the Company subsequent to the IPO will be 388,430,000 ordinary shares.

Bursa Securities had, vide its letter dated 17 November 2020, approved the Company's admission to the Official List and the listing of and quotation for its entire enlarged issued share capital on the ACE Market of Bursa Securities, subject to certain conditions.

The Listing is an exempt transaction under Section 212(8) of the Capital Markets and Services Act, 2007 and is therefore not subject to the approval of the SC. The SC had, vide its letter dated 19 November 2020, approved the resultant equity structure of the Company under the equity requirement for public listed companies pursuant to the Group's Listing, subject to the Company allocating shares equivalent to at least 12.5% of its enlarged number of issued shares at the point of listing to Bumiputera investors. This includes the shares offered to Malaysian public via balloting, of which at least 50% are to be offered to Bumiputera public investors.

MITI had stated that it has taken note of and has no objection to the Listing vide its letter dated 14 January 2020.

The IPO and Listing were completed on 20 January 2021.
