For the current quarter under review, the Group recorded revenue of RM18.18 million and profit after tax of RM2.02 million. The nameplates segment and the plastic injection moulded parts segment contributed RM10.94 million (60.16%) and RM7.24 million (39.84%) respectively.

For the current year-to-date under review, the Group's revenue and profit after tax have increased by 38.88% and 97.49% to RM72.95 million and RM6.68 million respectively. The significant increase in performance was mainly due to the higher demand across the key customers from both the nameplates segment and the plastic injection moulded parts segment on the backdrop of gradual reopening of the global economy in year 2021 as compared to year 2020.

There are no comparative figures for the corresponding preceding quarter's results as this is the fourth interim financial report being announced by the Company in compliance with the ACE Market Listing Requirements of Bursa Malavsia Securities Berhad.

B2. Performance Review - Comparison with Immediate Preceding Quarter

	Current Quarter 31.12.2021 (Unaudited)	Immediate Preceding Quarter 30.9.2021 (Unaudited)	Variano	ce
	RM'000	RM'000	RM'000	%
Revenue	18,183	16,062	2,121	13.21

Profit for the period	2,016	1,418	598	42.17
Profit attributable to the owners of the Company	2,016	1,418	598	42.17

The Group's revenue for the current quarter increased by RM2.12 million or 13.21% from RM16.06 million in the previous quarter to RM18.18 million in the current quarter. This was mainly due to the gradual recovery in demand for the nameplates products despite the ongoing chips shortage that affects the electrical & electronics industry and higher orders for the plastic injection moulded parts from the key customers.

The Group's profit after tax for the current quarter increased by RM0.60 million or 42.17% from RM1.42 million in the previous quarter to RM2.02 million in the current quarter mainly due to higher production efficiencies and in line with the increase in revenue.

B3. Commentary on Prospects

We are cautiously optimistic about the outlook for our products' end-user industries such as electrical & electronics industry which is expected to register positive growth. For the nameplate segment, there is a gradual recovery in demand despite the ongoing chips shortage that affects the electrical & electronics industry. For the plastic injection moulding segment, the orders across key customers are expected to remain positive for the next quarter. Barring any unforeseen circumstances such as disruption of Covid-19, we are of the opinion that our financial results for the next financial year will remain favourable.
