B3. PROSPECTS AND OUTLOOK FOR THE CURRENT FINANCIAL YEAR

The rubber glove industry has been our major revenue contributor and our financial performance is in tandem with the performance of the rubber glove industry.

The rubber glove industry underwent oversupply from aggressive expansions coupled with excessive stockpiling during the pandemic which have led to market supply-demand imbalances in FYE 2022 and such situation is expected to be continued in 2023. Notwithstanding the current sentiment, the rubber glove industry is expected to recover within the horizon in view of the increasing glove usage from the overall hygiene awareness amongst consumers post pandemic.

In addition, the Group has implemented the following plans not only to secure existing core business in rubber glove industry but also exploring other opportunities, such as:

- a) to expand our range of industrial brushes by developing customisable industrial brushes and continue to strengthen our market position in the industrial brush industry in Malaysia as well as international markets;
- b) to explore and expand more industrial hardware and machinery parts in trading business segment; and
- c) to explore other market or industries such semiconductor, timber, glass and agricultural sector to expand our customer base whilst reducing our dependency on the rubber gloves industry.
