Notes To the Unaudited Condensed Consolidated Interim Financial Report for the Fourth Quarter Ended 31 December 2023

B1. REVIEW OF PERFORMANCE

(Incorporated in Malaysia)

	Individua	al Quarter	<u>Variance</u>		
		Unaudited			
	Unaudited	Preceding Year

	Quarter	Quarter

Loss before tax	(1,309)	(1,345)	(36)	(3)	
Loss after tax	(1,383)	(1,130)	253	22	

The Group recorded revenue of RM4.9 million in the fourth quarter ended 31 December 2023 as compared to the preceding year's corresponding quarter of RM5.3 million, representing a decrease of 7%. The decrease in revenue is mainly due to lesser sales order received from local and overseas customers.

The Group recorded a gross profit margin of 15% in the fourth quarter ended 31 December 2023 which shows a significant decrease as compared to preceding year's corresponding quarter of 24%. The decrease in the margin was mainly due to the unfavourable impact of production cost, compounded by the decrease in revenue as well as significant contribution of low margin yielding trading transaction during the period under review.

The Group posted loss after tax of RM1.4million in the current quarter as compared to loss after tax of RM1.1million in the preceding year corresponding quarter. The loss in current quarter was mainly due to lower margins as stated above, provision of expenses that include expected credit loss, inventories written down and deferred taxation. Furthermore, there were losses related to the sharing from associate entity and the initial set up cost arising from the new subsidiary company in Thailand in the period under review.

The Group's performance in the manufacturing segment for the current period under review had improved with increased revenue though it still registered a loss after tax due to pressure in production and other related operating costs as stated above. Meanwhile, the performance was also marginally impacted by the losses incurred in the trading segment.

Nevertheless, the Group's sustainability is positive and it continues to generate gross operating profit from its core operation activities. The Group will continue to closely monitor and adapt to the latest business environment by diversifying into other industries.

B2. PERFORMANCE COMPARISON WITH PRECEDING QUARTER'S RESULTS

The Group recorded revenue of RM4.9 million in the fourth quarter ended 31 December 2023 as compared to the preceding quarter of RM5.6 million, representing a decrease of 13%. The decrease in revenue is mainly due to lesser sales order received from local and overseas customers.

The Group recorded a gross profit margin of 15% in the fourth quarter ended 31 December 2023 as compared to preceding quarter of 26%. The decrease in the margin was mainly due to the unfavourable impact of production cost, compounded by the decrease in revenue as well as significant contribution of low margin yielding trading transaction during the period under review.

The loss in the current quarter was mainly due to lower margins as stated above, provision of expenses that include expected credit loss, inventories written down and deferred taxation. Furthermore, there were losses related to the sharing from associate entity and the initial set up cost for the new subsidiary company in Thailand in the period under review.

As compared to preceding quarter, the loss is mainly due to provision of income tax expense

The Group's performance in the manufacturing segment for the current period under review has improved with increased revenue though it still registered loss after tax due to pressure in production and other related operating costs as stated above. Meanwhile, the performance was also marginally impacted by the losses incurred in the trading segment.

B3. PROSPECTS AND OUTLOOK FOR THE CURRENT FINANCIAL YEAR

The positive outlook for the Company's core business in the long term has gradually improved largely due to the recovery of our primary revenue driver which is the glove industry. Demand for gloves have been demonstrating a return to pre-pandemic levels while the average selling price is starting to show normalcy with less to no indication of excess dumping by glove manufacturers. With our extensive experience as a glove industry brush provider, we are confident on our ability to offer support and services to the glove industry as they regain their momentum in their respective markets.

Meanwhile, our Group have been actively engaged in identifying and capitalizing on emerging opportunities within the global glove market and its peripheral industries. This proactive approach ensures that we remain agile and responsive to this evolving and dynamic industry.
