Current quarter

The Group reported a lower revenue of approximately RM16.30 million during the quarter under review as compared to the previous year's corresponding quarter of approximately RM28.52 million, which represented a decrease of approximately RM12.22 million or 42.85%. The decrease in revenue compared to the previous year's corresponding quarter was mainly attributable to lower completion and delivery of its IT infrastructure solutions and cybersecurity projects during the quarter under review.

During the current financial quarter, the Group also recorded higher administrative expenses, mainly due to expenses incurred for the incorporation of subsidiary companies in Japan and India, legal and professional fees, higher travelling expenses, staff salaries and related benefits, withholding tax, depreciation and amortisation due to business expansion.

The lower revenue and higher administrative expenses, which were partly offset by the higher other income mainly arising from the writeback of impairment losses on financial assets amounting to approximately RM1.90 million during the quarter under review, resulted in the Group recording a lower PBT of approximately RM7.16 million compared to approximately RM9.89 million recorded in the previous year's corresponding quarter. Notwithstanding the lower PBT being recorded for the current quarter, the PBT margin for the current quarter is approximately 43.90% as compared to approximately 34.66% recorded in the previous year's corresponding quarter.

Cumulative quarter (9 months)

The Group recorded a revenue of approximately RM45.01 million for the 9-months financial period ended 30 September 2023 as compared to the previous year's corresponding period of approximately RM44.47 million, representing a slight increase of approximately RM0.54 million or approximately 1.21%. Such increase in revenue was mainly attributable to delivery of new and completion of the Group's IT infrastructure solutions projects, as well as managed IT services and trading of ancillary hardware and software for the current financial period ended 30 September 2023.

The Group also recorded higher administrative expenses compared to the same financial period last year, mainly due to expenses incurred for the incorporation of subsidiary companies in Japan and India, legal and professional fees following the listing of the Company, higher travelling expenses, staff salaries and related benefits, withholding tax, depreciation and amortization due to business expansion.

INTERIM REPORT ON UNAUDITED CONSOLIDATED RESULTS FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2023

B1 Review of performance (continued)

Cumulative guarter (9 months) (continued)

Due to the higher PBT margin for the 9-months financial period ended 30 September 2023,, the Group achieved a higher PBT of approximately RM14.21 million, in contrast to RM12.27 million reported during the same period last year.

B2 Comparison with immediate preceding quarter's results

| | | Unaudited Current Quarter | Unaudited Preceding Quarter | Varianc | ariance | |
|-----------------------------------|-----|---------------------------------|-----------------------------------|---------|---------|--|
| | | 30 September 2023 RM'000 | 30 June 2023 RM'000 | RM'000 | % | |

| Profit after tax | | 5,203 | 3,698 | 1,505 | 40.70 | |

The Group recorded a higher revenue of approximately RM16.30 million during the quarter under review as compared to approximately RM16.18 million recorded in the immediate preceding quarter ended 30 June 2023. This was mainly due to successful delivery and completion of the Group's IT infrastructure solutions projects in the current quarter which was offset by lower revenue generated from managed IT services and trading of ancillary hardware and software segments compared to the immediate preceding quarter under review.

In the current quarter under review, the Group reported a higher PBT of approximately RM7.16 million as compared to approximately RM3.97 million recorded in the preceding quarter ended 30 June 2023 after taking into consideration of a higher other income mainly arising from the writeback of impairment losses on financial assets amounting to approximately RM1.90 million.

B3 Prospects

The outlook for the IT infrastructure and Cybersecurity sectors remains robust due to the uprising demand for IT solutions to support the digital transformations initiative across different industries. The Group remains buoyant on its growth trajectory for year 2023.

According to the National Tech Association of Malaysia ("PIKOM"), the digital economy in Malaysia is forecasted to contribute 24.4% to the national gross domestic product ("GDP") in year 2023 (2022:23.4%) and 25.5% contribution to the GDP in year 2024. In addition, according to the World Bank, the digital economy makes up more than 15% of the global GDP and has grown 2.5 times faster over the previous ten years than the GDP of the physical world. These developments will provide a positive avenue for the Group's endeavors in the business of IT infrastructure and cybersecurity solutions in both domestic and overseas markets.
