INTERIM FINANCIAL REPORT FOR THE SECOND QUARTER ENDED 31 OCTOBER 2022

PART B: EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE ACE MARKET LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review of Performance for current quarter and the six (6) months financial period ended 31 October 2022⁽¹⁾

The Group recorded revenue of RM15.4 million and RM29.2 million for the current quarter and the 6 months financial period ended 31 October 2022, respectively. The Group's revenue for the financial period to date was mainly attributable by the following:

- (i) revenue generated from distribution segment amounting to RM7.1 million, representing 24.5% of total revenue;
- (ii) revenue generated from manufacturing segment amounting to RM22.1 million, representing 75.5% of total revenue;

The Group recorded profit before taxation ("**PBT**") of RM0.5 million for the current quarter and RM2.6 million for the financial period ended 31 October 2022. Administrative expenses of current quarter and financial period to date have included a one-off listing expense of approximately RM1.2 million and RM1.3 million respectively. The adjusted PBT after excluding the listing expenses will be RM1.7 million for the current quarter and RM3.9 million for the financial period to date ended 31 October 2022.

Notes:

(1) This is the second interim financial report announced in compliance with the Listing Requirements. There are no comparative figures for the preceding corresponding quarter and year-to-date as no interim financial report was prepared for the comparative financial period.

B2. Review of performance for current quarter ended 31 October 2022 (Q2FY2023) with the immediate preceding quarter ended 31 July 2022 (Q1FY2023)

	Q2FY2023	Q1FY2023	Q1FY2023 Varian	
	RM'000	RM'000	RM'000	%
Revenue	15,407	13,842	1,565	11.3%
Gross profit	3,888	3,578	310	8.7%
Gross profit margin (%)	25.2	25.8	N/A	N/A
Profit before taxation	499	2,080	(1,581)	-76.0%

The Group revenue increased from RM13.8 million in Q1FY2023 to RM 15.4 million in Q2FY2023 by approximately RM1.6 million due to the increase in manufacturing segment by RM2.6 million netted off against the decrease in distribution segment by RM1.0 million.

The gross profit margin remains consistent with the immediate preceding quarter.

Profit before taxation decreased by approximately RM1.6 million from RM2.1 million in Q1FY2023 to RM0.5 million in Q2FY2023. This is due to the higher non-recurring listing expenses of RM1.2 million incurred in Q2FY2023 compared to RM0.1 million in Q1FY2023 and increase in carriage outwards expenses of RM0.6 million in Q2FY2023 due to increase in export sales.

B3. Commentary on Prospects

With the utilisation of IPO proceeds as disclosed in Note B12 and our Prospectus, the Group's expansion plan is expected to contribute positively in the future.

The Group has completed its Acquisition of New Building which is a piece of industrial land with existing and ready built factory as well as office in Balakong industrial area on 27 September 2022. As disclosed in Section 4.5 of the Company's Prospectus dated 14 September 2022 in relation to its IPO, the Group plans to consolidate and centralise the management, operation and production space of Cosmos Instruments Sdn Bhd and Marc Conleth Industries Sdn Bhd ("MCI") in the New Building. MCI plans to transfer its manufacturing operations and production space to the New Building after completion of renovation work. This move will enable the Group to streamline all the internal administrative and finance processes, increase efficiency and reduce travel time and costs.

In addition, the Group intends to upgrade its manufacturing capacities by adopting new and improved machineries that provides higher efficiency, higher precision, higher output and increased automation. The relocation of the Group's operation provides the Group an opportunity to redesign the manufacturing processes and systems, identify and reduce inefficiencies of the use of production space.

Reducing the high non-revenue water ("NRW") rate has always been a challenge to the local authorities in Malaysia, especially in Perlis and Pahang. The Malaysian government is continuously taking initiatives to reduce the NRW rates, mainly by replacing old or damaged water flowmeter and building new water treatment plants to overcome water shortage issue. This can be seen through the latest budget allocation for water treatment projects in Kelantan and proposed study on the construction and system upgrade of the water treatment plant in Johor. While in Selangor and Terengganu, there are also several upgrading projects for NRW and billing works as well as replacement of water instrumentations which are open for tender. Cosmos has tendered and intends to tender for these projects. With our track record for our water instrumentations, we are optimistic to be awarded for part of these projects. The projects above have contributed to the strong market demand for fluid control and telemetry products in Malaysia.

The Organisation of the Petroleum Exporting Countries (OPEC) is expecting to see robust global oil demand growth in 2023, therefore the Group remains optimistic with the market demand for the fabricated metal products which is mainly driven by the oil demand.

The uncertainty in the global economy remains a concern for management. Nevertheless, the management remains cautiously optimistic and shall proactively manage any challenges the Group may face in the future.
