In the current quarter ended 30 September 2023 and financial year-to-date, the Group reported revenue of RM63.35 million and RM106.79 million respectively. The Group's revenue is mainly attributed from the vehicle audio and visual products segment which accounted for RM50.70 million or 80.03% for the current quarter and RM84.34 million or 78.98% for the financial year-to-date. The Group's revenue was entirely derived from customers in Malaysia which contributed for 100% of the Group's total revenue.

The Group recognised PBT of RM7.56 million for the current quarter and RM13.87 million for financial year-to-date after deducting expenses which are mainly attributed to administrative and other operating expenses amounting to RM2.65 million for the current quarter and RM4.86 million for the financial year-to-date. The administrative expenses and other operating expenses mainly consists of staff costs, depreciation, professional fees, utilities, loss on disposal of assets and amortisation of intangible assets.

B2. Comparison with Immediate Preceding Quarter's Results (Continued)

The Group's revenue for the current quarter under review rises by RM19.9 million or 45.80% as compared to the immediate preceding quarter to RM63.35 million. The increase is largely attributed to the increase in the volume of production by Perusahaan Otomobil Kedua Sdn Bhd ("**Perodua**") across all of its car models. Majority of the revenue in the current quarter is contributed by the vehicle audio and video products at RM50.70 million (Preceding quarter: RM 33.63 million). The vehicle accessories segment also recorded an increase from RM9.81 million in the preceding quarter to RM12.64 million in the current quarter under review.

The GP margin however recorded a decline from 18.33% in the preceding quarter to 15.72% for the current quarter under review. The drop in GP margin for the current quarter under review was mainly due to the continuous appreciation of the United States Dollars ("**USD**") against the Malaysian Ringgit ("**MYR**") which peaked at USD 1 to MYR4.70 towards the end of the quarter.

The PBT margin similarly recorded a decline from 14.53% in the preceding quarter to 11.93% for the current quarter under review. This drop is attributable to increase in staff costs, expenses relating to domestic and overseas exhibitions as well as loss on disposal of property, plant and equipment.

B3. Prospects of the Group

On the back of a strong performance of the automotive industry, the Malaysian Automotive Association had in July 2023, revised upwards their forecasted Total Industry Volume for 2023 from 650,000 units to 725,000 units.

For the nine months of 2023, Perodua has recorded sales for 233,227 units, an increase of 18.78% compared to last year of 196,354 units sold. Correspondingly, Perodua's total production volume has registered an increase of 18.62% from 206,837 units to 245,341 units.

On 7th November 2023, Perodua has revised its sales volume target from 314,000 vehicles to 325,000 vehicles driven by improved parts supply and healthy demand for its vehicles. To support the higher sales volume target, Perodua has also revised its production volume target from 330,000 units to 338,000 units.

The Group however remains cautious in facing prevailing uncertainties especially on the macro-economic factors which include the weakening of ringgit, which falls to a 25-year low since the 1997 financial crisis and other domestic and global economic environment.

The Group will continue to monitor the situation and take appropriate measures to safeguard its business and profitability. In views of the above, the Group is cautiously optimistic of its potential performance for the current financial year.

In terms of its future plans, the Group are currently implementing the following plans:-

- a) Expand its research & development ("**R&D**") office space, storage space and ancillary facilities in order to better anticipate future demands and also to accommodate the increasing order volume.

*(Incorporated in Malaysia)***B. ADDITIONAL INFORMATION REQUIRED BY ACE MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD (CONTINUED)****B3. Prospects of the Group (Continued)**

- b) Upgrade its manufacturing capacities to adopt aspects of IR 4.0 by utilising automation, artificial intelligence (AI), internet of things (IoT) and real time data. Thus, the Group plans to invest in software and system development including smart warehousing and material handling system to better manage the movement of our inventories and also printed circuit boards (PCB) router and robotic soldering machines in order to improve the quality, efficiency and productivity. These software and robotic machines are expected to be up and running by the end this financial year.
- c) Through the MOU signed with Shenzhen Zhonghong Technology Co. Ltd., the Group expects to acquire and develop new technology, technical know-how and access to new resources and customer base which would improve the Group's future revenue growth.

Based on the above, the Board of Directors of the Company ("**Board**") is optimistic about the future prospects of the Group.

B4. Variance of actual profits from forecast profits

The Group did not issue any profit forecast or profit guarantee in the current financial quarter under review.

Notes:-

- (1) From the date of listing of the Company.
- (2) The Group is of the view that the purchase of new process equipment may take until first quarter of 2024 to be fully utilised. The delayed in timeline is a result of unforeseen challenges including the constraints in equipment's long lead time and logistical issues which the Group required additional time to make the purchases.
