B3. Group's Prospects

Moving forward, the Group intends to strengthen its presence via its expansion plans to open more retails outlets to various towns and cities in Malaysia, in particular the Northern and Southern regions. The Group intends to establish 18 new retail outlets within 36 months from its Listing. The expansion into new areas will enable the Group to build awareness and increase the visibility and presence of its brand. Additionally, in order to further strengthen and expand its market share with new customers, the Group will continuously launch additional rewards and promotional activities for its existing and new members.

The Group's SSFHOME mobile application will be upgraded to include improved user interface with web view access, new payment module to enable purchases to be made over the mobile application and integration to the Group's new enterprise-wide resource planning system. The Group expects that the addition of payment module and improved user interface will enable them to expand their reach and provide customers with an increased channel to purchase the Group's products.

The Malaysian home furnishing retail industry declined by 9.7% to RM36.94 billion in 2020 before rebounding to RM39.77 billion in 2021. The industry was valued at RM46.93 billion in 2022 and is anticipated to continue its resilient growth trend during the forecast period from 2023 to 2027. In the medium to long-term, a recovery from the expected economic slowdown coupled with higher proliferation of smart technology for home furnishing and better prospects in the local property market is expected to encourage continued growth of the industry. The home furnishing retail industry is projected to grow from RM50.25 billion in 2023 to RM73.17 billion in 2027, representing a compound annual growth rate of 9.3% during the forecast period (Source: Independent Market Research Report by Protégé Associates Sdn Bhd dated 18 August 2023).

Based on the above, the Group remains confidence in the future prospects of the Group.
