PBT/Loss before Tax ("LBT") (1)	4,328	(152)	4,480	(2,947.37)

The Group recorded a revenue of RM28.98 million for the current financial quarter ended 30 June 2024 which is 19.95% lower than the revenue recorded in the preceding financial quarter ended 31 March 2024 of RM36.20 million. The decrease in the revenue was primarily driven by lower construction revenue recognized from the Cooling Energy segment this quarter.

The Group recorded a PBT of RM4.33 million for the current financial quarter ended 30 June 2024 as compared to a LBT of RM0.15 million in the preceding quarter ended 31 March 2024, mainly due to the absence of listing expenses in the current financial quarter ended 30 June 2024 (as compared to non-recurring listing expenses of RM4.26 million which were included in administrative expenses in the preceding quarter ended 31 March 2024).

### **NOTES:**

(1) Administrative expenses included non-recurring listing expenses of RM4.26 million for the preceding financial quarter ended 31 March 2024. For illustration purposes only, the Group's financial performance after adjusting for the non-recurring listing expenses is as follows:

#### B3. PROSPECTS AND OUTLOOK FOR THE CURRENT FINANCIAL PERIOD

Malaysia's economy is projected to grow between 4% and 5% in 2024¹, supported by resilient domestic demand, stable inflation, and robust fiscal management. Key drivers include strong consumer spending, a positive turnaround in exports, and sustained investment in key sectors such as manufacturing and services. In the second quarter of 2024, Malaysia's gross domestic product grew strongly by 5.9%, surpassing the growth rate in the first quarter of 2024 and marking the highest growth since the fourth quarter of 2022². This growth is supported by highest household spending, improving exports of goods and services, and stronger expansion in investment activities, which could bode well for KJTS's upcoming expansion plans.

The operating landscape for KJTS Group remains dynamic and promising. Malaysia's construction sector continues to demonstrate growth, bolstered by the government's planned RM90 billion expenditures for the year<sup>3</sup>. The sector has already seen a significant increase in activity, with the value of work done rising by 20.2% to RM38.9 billion in the second quarter of 2024<sup>4</sup>. This growth, driven by the civil engineering and residential building sub-sectors, positions KJTS Group to strategically capitalize on these expanding opportunities within the market. With our recent listing, we are well-equipped to leverage these favorable conditions, fostering both growth and innovation in our sector.

Our commitment to growth remains unwavering, anchored in our core competencies and the strengths of our Cooling Energy Segment business. This entails providing cooling energy management services and executing EPCC of cooling energy systems to enhance our presence in Malaysia. Moreover, strategic expansion plans are underway to strengthen our footprint in key operating regions, including Malaysia, Singapore, and Thailand.

Energy efficiency has become an important focus area for Malaysia, especially in light of rising energy costs and the global push towards sustainability. The Malaysian Government's launch of the National Energy Transition Roadmap (NETR) aims to address climate change and establish a resilient, sustainable energy infrastructure. Energy Efficiency (EE) is a key lever within the NETR, recognized as a crucial tool for optimizing resources and providing a cost-effective, sustainable solution to reduce energy consumption.

KJTS Group is committed to supporting these national goals by integrating Environmental, Social, and Governance (ESG) principles into our operations. Our focus on environmental sustainability involves implementing measures to reduce energy consumption and carbon emissions effectively. For instance, our cooling energy system projects that involved the upgrading and/or retrofit of existing cooling energy systems followed by providing cooling energy management services have collectively saved approximately 60,707 megawatt hours (MWh) of electricity and avoided around approximately 46,016 tonnes of carbon dioxide (CO<sub>2</sub>) emissions since January 2017 until June 2024.

KJTS Group remains dedicated to fostering growth, driving innovation, and maintaining our position in the building support services sector.

The Group's business and growth strategies encompass:

- (i) Expanding our cooling energy management services in Malaysia by allocating additional funds to finance EPCC projects for suitable clientele; and
- (ii) Scaling up our EPCC business for cooling energy systems on an independent basis, enhancing our market presence and competitiveness.

The effective tax rate was lower than the statutory tax rate for the current financial quarter ended 30 June 2024 mainly due to the tax effects of the utilisation of unused tax losses. Nevertheless, for the current financial year-to-date ended 30 June 2024, the effective tax rate was higher than the statutory tax rate. This increase was due to non-recurring listing expenses of RM4.26 million incurred in the preceding financial quarter ended 31 March 2024, which reduced the PBT. The decrease in PBT resulted in the Group's effective tax rate being higher than the statutory tax rate.
