EXPLANATORY NOTES TO THE INTERIM FINANCIAL REPORT FOR THE 2^{ND} HALF-YEAR ENDED 30 SEPTEMBER 2018

A. NOTES TO THE FINANCIAL REPORT

A1. Basis of Preparation

The interim financial report of Polymer Link Holdings Berhad ("Polymer Link Holdings" or the "Company") and its subsidiaries ("**the Group**") are unaudited and have been prepared in accordance with Malaysian Financial Reporting Standard ("**MFRS**") 134 "Interim Financial Reporting" issued by the Malaysian Accounting Standards Board ("**MASB**") and Rule 6.12 and Appendix 6A of the Listing Requirements.

This is the interim financial report on the Company's unaudited condensed consolidated financial results for the 2nd half-year ended 30 September 2018 announced in compliance with the Listing Requirements and as such, there are no comparative figures for the preceding year's correspondence period.

A2. Significant Accounting Policies

The accounting policies and presentation adopted for the interim financial statements are consistent with those adopted as disclosed in the Auditors' Report in the Information Memorandum.

At the beginning of the current financial year, the Group adopted amendments/improvements to MFRS and the Issues Committee ("IC") Interpretation which are mandatory for the financial periods beginning on or after 1 January 2017.

Initial application of the amendments/improvements to the standards did not have any material impact on the Group's unaudited interim financial statements.

The adoption of the above accounting standards and/or interpretations (including the consequential amendments, if any) is expected to have no material impact on this unaudited financial statement of the Group upon their initial application except as follows:

a) MFRS 9 replaces MFRS 139 Financial Instruments: Recognition and Measurement and all previous version of MFRS 9. MFRS 9 being together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. MFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

The Group and the Company plan to adopt the new standard on the required effective date and will not restate comparative information. During the current financial year, the Group and the Company had performed a detailed impact assessment of all three aspects of MFRS 9. This assessment is based on currently available information and may subject to changes arising from further reasonable and supportable information being made available to the Company in the next financial year when the Group and the Company will adopt MFRS 9. Overall, the Group and the Company expect no significant impact on their statements of financial position and equity.

(i) Classification and measurement of financial assets

Loans as well as trade receivables are held to collect contractual cash flows and are expected to give rise to cash flows representing solely payments of principal and interest. The Group and the Company analysed the contractual cash flow characteristics of those instruments and concluded that they meet

(Company No: 1041798-A)

(Incorporated in Malaysia under the Companies Act, 1965)

the criteria for amortised cost measurement under MFRS 9. Therefore, reclassification for these instruments is not required.

(ii) Impairment of financial assets

MFRS 9 requires the Group and the Company to record expected credit losses on all of its loans and receivables, either on a 12-month or lifetime basis. The Company will apply the simplified approach and record lifetime expected losses on all trade receivables. The Group and the Company have determined that the loss allowance is insignificant to the financial statements.

b) MFRS 15 established a five-step model to account for revenue arising from contracts with customers. Under MFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under MFRS. Either a retrospective application or a cumulative effect application is required for annual periods beginning on or after 1 January 2018, with early adoption permitted. The Group plans to adopt the new standard on the required effective date using the cumulative effect method. During the financial year, the Group performed a detailed analysis of MFRS 15

(i) Sales of goods

For contracts with customers in which the sales of goods is generally expected to be the only performance obligation, adoption of MFRS 15 is not expected to have any impact on the Group's revenue and profit or loss. The Group expects the revenue recognition to occur at a point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

In preparing to adopt MFRS 15, the Group has considered variable consideration and rights of return and expects that the adoption of MFRS 15 will not have a significant impact to the financial statements.

(ii) Presentation and disclosure requirements

The presentation and disclosure requirements in MFRS 15 are more detailed than under current MFRS. The presentation requirements represent a significant change from current practise and significantly increases the volume of disclosures required in the Group's financial statements. Many of the disclosure requirements in MFRS 15 are new and the Group has assessed that the impact of some of these disclosure requirements will be significant.

(iii) Other adjustments

In addition to the major adjustments described above, the recognition and measurement requirements in MFRS 15 are also applicable for recognition and measurement of any gains or losses on disposal of non-financial assets (such as items of property, plant and equipment), when that disposal is not in the ordinary course of business. However, on transition, the effect of these changes is not expected to be material for the Group.

In summary, the Group expects no significant impact of MFRS 15 adoption other than additional disclosures.
