### PART A - EXPLANATORY NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE $2^{ND}$ HALF YEAR ENDED 31 DECEMBER 2019 (CONT'D)

#### A2. CHANGES IN ACCOUNTING POLICIES (CONT'D)

The adoption of these new MFRS, amendments and IC interpretations did not have any material impact on the interim financial report of the Group except for the following:

#### MFRS 16 Leases

MFRS 16 eliminates the classification of leases by the lessee as either finance leases or operating leases. MFRS 16 introduces a single accounting model, requiring the lessee to recognise the 'right-of-use' of the underlying asset and the lease liability reflecting future lease payments for most leases. The 'right-to-use' is depreciated in accordance with the principles in MFRS 116 'Property, Plant and Equipment' and the lease liability is accreted over time with interest expense to be recognised in statements of profit or loss. This effectively means all leases are reflected on the statements of financial position for lessees. For lessors, MFRS 16 retains most of the requirements in MFRS 117 and lessors continue to classify all leases as either operating or finance lease and account for them differently. There are recognition exemptions for short term leases and leases of low-value items.

On the adoption of this standard, the Group has capitalised its rented premises on the statements of financial position by recognising them as 'right-of-use' assets and their corresponding lease liabilities for the present value for future lease payments.

As permitted under the standard, the Group has adopted MFRS 16 retrospective from 1 January 2019 using the simplified transition approach and has not restated comparatives for the 2018 reporting period.

The Group recorded a loss of RM1.60 million for the financial period ended 31 December 2019 mainly due to significant increased in the administrative and other operating expenses of the Group.

Administrative and other operating expenses has increased in the current financial period as our Group continues to invest heavily on marketing and advertising activities as well as participating in various exhibition to promote our new and existing products and brand name to our target customers.

In addition, the increased in expenses compared to 31 December 2018 mainly arises from the amortisation of intangibles assets, allowance for slow moving inventories, commission, professional fees and impairment on the development costs.
