A2. Significant Accounting Policies

The significant accounting policies and presentations adopted by the Group for this interim financial statements are consistent with those adopted in the Audited Financial Statements of the Group for the financial year ended 31 December 2018 except for the adoption of the following amendments/improvements to MFRSs which are applicable to the Group with effect from 1 January 2019:

Amendments/Improvements to MFRSs

MFRS 16 Leases

MFRS 16 eliminates the classification of leases by the lessee as either finance leases or operating leases. MFRS 16 introduces a single accounting model, requiring the lessee to recognise the "right-of-use" of the underlying asset and the lease liability reflecting future lease payments liabilities in the statement of financial position.

On the adoption of this standard, the Group had capitalized its rented premises on the statements of financial position by recognizing them as 'right-of-use' assets and their corresponding lease liabilities for the present value for future lease payments.

As permitted under the standard, the Group has adopted MFRS 16 retrospectively from 1 January 2019 using the simplified transition approach and has not restated comparatives for the 2018 reporting period.
