### B. ADDITIONAL INFORMATION REQUIRED UNDER THE LEAP LR

#### **B1.** Performance review

#### 2H FYE 31 December 2020 vs 2H FYE 31 December 2019

The Group's revenue increased by RM22.48 million or approximately 206.56% during the 6-months period ended 31 December 2020 ("2H FY20") as compared to the corresponding period of previous year. Corresponding to the increase in revenue, the Group's GP increased by RM1.45 million or approximately 142.80% during the 2H FY20 as compared to corresponding period of previous year. The increase in the Group's revenue and GP are mainly due to the Group's new business venture into the Palm Oil Business in June 2020 which is partially offset by lower performance from renewable energy segment and OPT segment wherein the construction progress of EPCC projects and the demand for OPT products from property sector in Malaysia had been affected by the COVID-19 pandemic and various movement control orders imposed by the Malaysian government.

Despite the improvement to revenue and GP, the Group recorded a loss before taxation of RM2.21 million for 2H FY20 as compared to the corresponding period of previous year, mainly due to:

- increase in depreciation of right-of-use assets arising from the leasing of palm oil mill, equipment and machineries from Borneo Samudera Sdn Bhd;
- increase in unrealised loss on foreign exchange due to increased outstanding balance of trade receivables and trade payables in foreign currencies; and
- increase in finance cost as a result of increased utilisation of banking facilities for the Group's working capital.

### **B2.** Prospects

Given the on-going COVID-19 pandemic and the uncertainties in global and domestic economic environment, any prolonged global spread of the pandemic and imposition of stricter movement control orders by the Malaysian government may have a material impact to the Group's business, cash flows and financial condition and results of operations. Hence, the Group will continuously monitor the impact of COVID-19 on the operations and financial performance and will remain agile and focus on streamlining its existing processes, continue with its strategies to expand the product range and markets for its renewable energy and OPT products segments, as well as expand its revenue base via the Group's Palm Oil Business segment.

As at 19 March 2021 (being the latest practicable date not earlier than 7 market days from the date of this report) ("**LPD**"), the total contract value secured by the Group's for EPCC projects under renewable energy segment is approximately RM46.89 million.

### **B3.** Variance of actual profit from profit forecast and profit guarantee

The Company has not issued any profit forecast or profit guarantee in any form of public documentation and announcement.
