B. ADDITIONAL INFORMATION REQUIRED UNDER THE LEAP MARKET LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review of Performance

The Group registered a revenue of RM13.11 million for the first half year ended 31 December 2023 ("1H FY2024") compared to a revenue of RM11.67 million for the first half year ended 31 December 2022 ("1H FY2023"), an improvement of 12.4% was mainly attributable to revenue contribution from AZTI Group amounted to RM1.53 million.

The Group's gross profit increased by RM0.32 million or 7.7% for 1H FY2024 compared to 1H FY2023 primarily due to gross profit contribution from AZTI Group.

Administrative expenses increased by RM1.00 million or 72.3% to RM2.38 million for 1H FY2024 compared to 1H FY2023 mainly due to expenses incurred pursuant to the acquisition of AZTI and higher administrative expenses for the India's subsidiary arising from more active business operations.

The Group recorded profit after taxation of RM1.72 million for 1H FY2024 compared to RM2.05 million for 1H FY2023, representing a decline of 16.2% or RM0.33 million was mainly due to higher administrative expenses.

B2. Prospects

The World Bank forecasted that 2024 global growth would fall to 2.4% from 2.6% in 2023, due to weak global trade and the effects of elevated interest rates that central banks hiked to cool inflation. The global economy was surprisingly resilient in 2023, surpassing expectations with positive growth across regions. This resilience marks an encouraging beginning for 2024, especially when compared to the previous year (The World Bank, Global Economic Prospects dated 9th January 2024).

Malaysia's economy expanded in line with expectations last year, and growth is expected to improve in 2024, supported by a recovery in exports and resilient domestic expenditure. Overall, both headline and core inflation for 2023 are within expectations, averaging for the year at 2.5% and 3.0%, respectively. In 2024, inflation is expected to remain modest, broadly reflecting stable cost and demand conditions. The recent ringgit movements are primarily driven by external factors, and not reflective of the current domestic economic performance and prospects. As the risk of heightened volatility in the global financial and foreign exchange markets remains, Bank Negara Malaysia will continue to ensure sufficient liquidity to support the orderly functioning of the domestic foreign exchange market. (Bank Negara Malaysia, Monetary Policy Statement dated 24th January 2023).

The Board is cognisant of the challenging macro-economic environment and will continue to adopt various business strategies to strengthen its market and financial position. The Board believes that the recently completed acquisition of 51% of equity interest in AZTI Technology Sdn Bhd ("AZTI") will enable the Group to achieve the above objectives as the acquisition shall expand the Group's portfolio of technology operations and diversification of its customer's base.

B3. Variance of Actual Profit from Profit Forecast and Profit Guarantee

The Group has not issued any profit forecast or profit guarantee in any form of public documentation and announcement.
