* Above price and net asset value per unit are not shown as ex-distribution.

Note:

- (1) Total return is the actual/annualised return of the Fund for the respective financial period/years computed based on the net asset value per unit and net of all fees.
- (2) Distribution yield is calculated based on the total distribution for the respective financial years divided by the closing quoted price.
- (3) Management expense ratio ("MER") is calculated based on the total fees and expenses incurred by the Fund divided by the average fund size calculated on a daily basis. The MER decreased by 0.01% as compared to 0.16% per annum for the financial year ended 31 December 2019 mainly due to decrease in expenses.
- (4) Portfolio turnover ratio ("PTR") is calculated based on the average of the total acquisitions and total disposals of investment securities of the Fund divided by the average fund size calculated on a daily basis. The PTR decreased by 0.13 times (68.4%) as compared to 0.19 times for the financial year ended 31 December 2019 mainly due to decrease in investing activities.

Market Review	Local bond market retraced in early June as market sentiment weakened amid supply risk in 2H2020, following the announcement of a 4th fiscal stimulus plan, the Economic Recovery Plan (PENJANA) coupled with mixed market views on Overnight Policy Rate (OPR) cuts in 2H2020. Malaysia Government Securities (MGS) yields climbed 7-22bps along the curve in early June. The front and belly of the MGS yield curve had then gradually declined and traded range bound throughout the month, largely buoyed by bank books and real money investors. The month ended with a steeper yield curve, relative to May with yields from 7yr onwards climbed by 5-20bps (MoM).						
	The Ministry of Finance (MoF) has guided an increase the 2020 budget deficit 5.8%-6.0% of Gross Domestic Product (GDP) from about 4.7% previously, from additional direct fiscal impact of MYR10b under the Economic Recovery Plan. addition, the Minister of Finance is of the view that there is no need for further O (2.00%) cuts given the ample liquidity in the market. While the supply risks and mini- views on further OPR cuts in 2H2020 bear steepened the MGS yield curve, the M and Government Investment Issue (GIIs) auction/reopening during the month gained decent support from real money investors. The 30-year MGS auction and						

	 year GII reopening garnered BTC of 2.17x and 2.05x respectively. A couple of Government Guaranteed (GG) Sukuks tapped the primary market as well, namely Prasarana and Malaysia Rail Link (MRL) with MYR1.5 to MYR2b issuance sized at longer tenures of 9 year and above. Separately, S&P's revision outlook to negative on Malaysia's sovereign rating, had a muted impact on the MGS market, which we opine is within market expectation and also as major foreign outflows had occurred during the March sell-down. Meanwhile, at end-June, Government Bond Index-Emerging Markets (GBI-EM) Global Diversified index added MGS 3/23 and removed MGS7/21 with little change in Malaysia's weightage of 6.9% in the index. This is the 3rd consecutive month of index rebalancing in 2020. Since early 2019, GBI-EM has been adding net total of 8 MGS/GII to the Index which have increased Malaysia's weightage of 5.5% in 2018 to the current 6.9%.
Market Outlook	Heading into 2H2020, uncertainties still lie ahead in the domestic and global economy with the risks of second wave Covid-19 pandemic, United States (US)-China trade tensions and domestic political risk. Given the subdued inflationary pressure amid low oil prices, on-going risks weighing on economic recovery coupled with dovish Bank Negara Malaysia (BNM) policy, we do not discount further OPR cuts in 2H2020. Bond yields are expected to remain low in the near to medium term especially for tenures below 10 years. Longer-ends are expected to remain steep in the near-term as bond supply risks persist. Nonetheless, we expect the steepness of longer tenured yields to be largely capped by real money investors. Moving into the second half of 2020, we expect Central Banks around the World to remain dovish, particularly in developed nations, where the economic activity is still stuttering. That said, we expect global rates to stay low, given the idiosyncratic risk. Emerging market, including Malaysia, which have relatively high real yield will continue to attract inflows.
	We think the bond market will continue to do well in the 3Q2020, given the abundance of liquidity. Inflows from Macro and Exchange-Traded Fund (ETF) Funds will provide the support in near term, riding on the impetus from the US Fed's corporate bond purchase programme. Back in Malaysia, the probability of another rate cut is still high and BNM may continue to stay dovish, as the balance of growth risk point to the downside. Nevertheless, we expect the domestic economy to pick-up in 2H2020, with the full re-opening of all sectors in coming months.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

1. GENERAL INFORMATION

ABF Malaysia Bond Index Fund ("the Fund") was established pursuant to a Deed dated 12 July 2005 as amended by Deeds Supplemental thereto ("the Deed"), between AmFunds Management Berhad as the Manager, HSBC (Malaysia) Trustee Berhad as the Trustee and all unit holders.

The Fund was set up with the objective for investors who seek an "index-based" approach to investing in a portfolio of Ringgit Malaysia denominated Government and Quasi-Government debt securities. As provided in the Deeds, the "accrual period" or financial year shall end on 31 December and the units in the Fund were first offered for sale on 13 July 2005.

The financial statements were authorised for issue by the Manager on 24 August 2020.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards 134: Interim Financial Reporting ("MFRS 134") as issued by the Malaysian Accounting Standards Board ("MASB") and Securities Commission Malaysia's Guidelines on Exchange Traded Funds in Malaysia.

Standards effective during the financial period

The adoption of MFRS which have been effective during the financial period did not have any material financial impact to the financial statements.

Standards issued but not yet effective

The Fund will adopt the following MFRSs and Amendments to MFRSs when they become effective in the respective financial periods and these MFRSs and Amendments to MFRSs are not expected to have any material impact to the financial statements of the Fund upon initial application.

Effective for financial periods beginning on or after MFRS 17 Insurance Contracts 1 January 2021 Amendments to MFRS 101: Presentation of Financial Statements Classification of Liabilities as Current or Non-Current 1 January 2022 Amendments to MFRSs contained in the document entitled 1 January 2022

"Annual Improvements to MFRS Standards 2018-2020"

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS (CONT'D.)

Standards issued but not yet effective (cont'd.)

	Effective for financial periods beginning on or after
Reference to the Conceptual Framework (Amendments to MFRS 3 Business Combinations)*	1 January 2022
Property, Plant and Equipment – Proceeds before Intended Use (Amendments to MFRS 116 <i>Property, Plant and Equipment</i>)*	1 January 2022
Onerous Contracts – Cost of Fulfilling a Contract (Amendments to MFRS 137 <i>Provisions, Contingent Liabilities and Contingent Assets</i>)	1 January 2022
Amendments to MFRS 10 and MFRS 128: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred

* These MFRS and Amendments to MFRSs are not relevant to the Fund.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Interest income

For all interest-bearing financial assets, interest income is calculated using the effective interest method. Effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.1 Income recognition (cont'd.)

(ii) Gain or loss on disposal of investments

On disposal of investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the investments. The net realised gain or loss is recognised in profit or loss.

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

3.4 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash equivalents are short-term, highly liquid investments that are readily convertible to cash with insignificant risk of changes in value.

3.5 Distribution

Distributions are at the discretion of the Fund. A distribution to the Fund's unit holders is accounted for as a deduction from realised income. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the unit holders on the income payment date. Reinvestment of units is based on the NAV per unit on the income payment date, which is also the time of creation.

3.6 Unit holders' capital

The unit holders' capital of the Fund meets the definition of puttable instruments and is classified as equity instruments under MFRS 132 Financial Instruments: Presentation ("MFRS 132").

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.7 Financial assets – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial asset. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

3.8 Financial assets – classification and subsequent measurement

The classification and subsequent measurement of debt instruments held by the Fund are determined based on their business model and cash flow characteristics.

Business model

The business model reflects how the Fund manages the financial assets in order to generate cash flows. That is, whether the Fund's objective is solely to collect the contractual cash flows from the assets, or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. the financial assets are held for trading purposes), then the financial assets are classified as part of "other" business model. Factors considered by the Fund in determining the business model for a portfolio of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.8 Financial assets – classification and subsequent measurement (cont'd.)

Cash flow characteristics

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Fund assesses whether the financial assets' contractual cash flows represent solely payment of principal and interest ("SPPI"). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPI.

3.9 Financial assets under MFRS 9

(i) <u>Classification and measurement</u>

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPI test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPI test determines whether the contractual cash flows are solely for payments of principal and interest and the assessment is performed on a financial instrument basis.

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Fund includes in this category deposit with financial institution, cash at banks, amount due from financial institutions, amount due from the Manager and other receivables.

Financial assets at FVOCI

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial asset. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets under MFRS 9 (cont'd.)

(i) <u>Classification and measurement (cont'd.)</u>

Financial assets at FVOCI (cont'd.)

These investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in "Net gain or loss on financial assets at FVTPL". Interest earned element of such instrument is recorded in "Interest income".

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

3.10 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the holder. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.11 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
 - the Fund has transferred substantially all the risks and rewards of the asset, or
 - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

3.12 Financial instruments – expected credit losses ("ECL")

The Fund assesses on a forward-looking basis the ECL associated with its financial assets at amortised cost. The Fund recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

3.13 Determination of fair value

Investments are stated at fair value on a portfolio basis in accordance with the provisions of the Deed. Fair value is determined based on prices provided by the index provider, Markit Indices Limited, plus accrued interest. Adjusted cost of investments relates to the purchased cost plus accrued interest, adjusted for amortisation of premium and accretion of discount, if any, calculated over the period from the date of acquisition to the date of maturity of the respective securities as approved by the Manager and the Trustee. The difference between the adjusted cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss. Unrealised gain or loss recognised in profit or loss is not distributable in nature.

3.14 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.15 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its investments as financial assets at FVTPL as the Fund may sell its investments in the short-term for profit-taking or to meet unit holders' cancellation of units.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

6. AMOUNT DUE TO MANAGER

	Note	30.6.2020 RM	31.12.2019 RM
Due to Manager Manager's fee payable	(i)	150,246	146,125

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

6. AMOUNT DUE TO MANAGER (CONT'D.)

(i) Manager's fee is at a rate of 0.10% (31.12.2019: 0.10%) per annum on the NAV of the Fund, calculated on a daily basis.

The normal credit period in the previous financial year and current financial period for Manager's fee payable is one month.

7. AMOUNT DUE TO TRUSTEE

Up until 31 August 2019, Trustee's fee was charged at a rate of 0.05% per annum on the NAV of the Fund, calculated on a daily basis. Effective from 1 September 2019, the Trustee's fee was charged at a rate of 0.04% per annum on the NAV of the Fund, calculated on a daily basis.

The normal credit period in the previous financial year and current financial period for Trustee's fee payable is one month.

8. AMOUNT DUE TO INDEX PROVIDER

Amount due to index provider is the licence fee payable to Markit Indices Limited, the provider of the benchmark index.

Licence fee is calculated on a daily basis at the following rate:

Fund Size	% p.a.
From 1 July 2008 onwards	
For amount equal to or less than Initial Funding For amount above Initial Funding, but equal to or less than 275%	0.0175
of Initial Funding	0.01
For amount above 275% of Initial Funding	No charge

Subject to a minimum annual fee of USD21,234

* Initial Funding for the Fund was USD115,400,000.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

	units	RM	units	RM
AmInvestment Bank Berhad*	23,180,030	28,418,717	39,428,530	47,511,379

* The financial institution related to the Manager is the legal and beneficial owner of the units. The Manager did not hold any units in the Fund as at 30 June 2020 and 31 December 2019.

12. INCOME TAX

Income tax payable is calculated on investment income less deduction for permitted expenses as provided for under Section 63B of the Income Tax Act, 1967.

Pursuant to Schedule 6 of the Income Tax Act, 1967, provided that the exemption shall not apply to the interest paid on credited to a unit trust that is a wholesale fund which is a money market fund. Interest income earned by Funds other than wholesale money market fund is exempted from tax.

A reconciliation of income tax expense applicable to net income before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Fund is as follows:

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

12. INCOME TAX (CONT'D.)

	1.1.2020 to 30.6.2020 RM	1.1.2019 to 30.6.2019 RM

Ex-Distribution - 23 June 2020/24 June 2019		
NAV	1,548,592,556	1,494,641,585
NAV per unit	122.17 sen	117.99 sen

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

13. DISTRIBUTION (CONT'D.)

Included in the distribution for the financial period ended 30 June 2020 was RM15,855,407 (2019: RM1,539,962) distributed from previous financial period's realised income.

14. MANAGEMENT EXPENSE RATIO ("MER")

The Fund's MER is as follows:

	1.1.2020 to 30.6.2020 % p.a.	1.1.2019 to 30.6.2019 % p.a.
Manager's fee	0.10	0.10
Trustee's fee	0.04	0.05
Licence fee	0.01	0.01
Fund's other expenses	_*	-*
Total MER	0.15	0.16

* represents less than 0.01%

The MER of the Fund is the ratio of the sum of annualised fees and expenses incurred by the Fund to the average NAV of the Fund calculated on a daily basis.

15. PORTFOLIO TURNOVER RATIO ("PTR")

The PTR of the Fund, which is the ratio of average total acquisitions and disposals of investments to the average NAV of the Fund calculated on a daily basis, is 0.06 times (2019: 0.08 times).

16. SEGMENTAL REPORTING

In accordance with the objective of the Fund, substantially all of the Fund's investments are made in the form of fixed income instruments in Malaysia. The Manager is of the opinion that the risk and rewards from these investments are not individually or segmentally distinct and hence the Fund does not have a separately identifiable business or geographical segments.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

17. TRANSACTIONS WITH FINANCIAL INSTITUTIONS

Details of transactions with financial institutions for the financial period ended 30 June 2020 are as follows:

Financial institutions	Tra RM	Insaction value %
Citibank Berhad	63,429,237	37.11
Bank Islam Malaysia Berhad	52,094,978	30.48
Standard Chartered Bank Malaysia Berhad	41,889,140	24.51
AmBank (M) Berhad*	13,503,693	7.90
Total	170,917,048	100.00

* A financial institution related to the Manager. The Manager is of the opinion that the above transactions have been entered in the normal course of business and have been established under terms that are no less favourable than those arranged with independent third parties.

The above transactions were in respect of fixed income instruments. Transactions in these investments do not involve any commission or brokerage.

18. FINANCIAL INSTRUMENTS

(a) Classification of financial instruments

The significant accounting policies in Note 3 describe how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the financial assets and liabilities of the Fund in the statement of financial position by the class of financial instrument to which they are assigned, and therefore by the measurement basis.

	Financial assets at FVTPL RM	Financial assets at amortised cost RM	Financial liabilities at amortised cost RM	Total RM
30 June 2020 Assets				
Investments Deposit with financial	1,602,441,727	-	-	1,602,441,727

18. FINANCIAL INSTRUMENTS (CONT'D.)

(a) Classification of financial instruments (cont'd.)

	Income, expense, gains and losses	
	1.1.2020 to 30.6.2020 RM	1.1.2019 to 30.6.2019 RM
Net gain from financial assets at FVTPL Income, of which derived from:	39,642,678	48,608,673
 Interest income from financial assets at FVTPL Interest income from financial assets 	30,008,408	28,950,106
at amortised cost	112,564	144,485

(b) Financial instruments that are carried at fair value

The Fund's financial assets and liabilities are carried at fair value.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair values are observable; either directly or indirectly; or
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by the level of the fair value hierarchy:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
30 June 2020 Financial assets at FVTPL	<u> </u>	1,602,441,727		1,602,441,727
31 December 2019 Financial assets at FVTPL		1,571,430,663		1,571,430,663

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

18. FINANCIAL INSTRUMENTS (CONT'D.)

(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value due to their short period to maturity or short credit period:

- Deposit with financial institution
- Cash at banks
- Amount due to Manager
- Amount due to Trustee
- Amount due to Index provider
- Distributions payable
- Sundry payables and accrued expenses

There are no financial instruments which are not carried at fair values and whose carrying amounts are not reasonable approximation of their respective fair values.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, management risk and non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of investments coupled with stringent compliance to investment restrictions as stipulated by the Capital Market and Services Act 2007, Securities Commission's Guidelines on Exchange Traded Funds and the Deed as the backbone of risk management of the Fund.

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

Financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel coronavirus known as Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The outcome of global and local financial markets are highly uncertain and cannot be predicted at this point in time. Due to this, the Manager of the Fund is unable to reliably estimate the quantitative impact of Covid-19 towards the Fund's performance for the next twelve months. The Manager of the Fund will continue to actively monitor the developments in the market to minimise any potential impact to the Fund.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(a) Market risk (cont'd.)

The Funds's market risk is affected primarily by the following risks:

(i) Interest rate risk

Interest rate risk will affect the value of the Fund's investments, given the interest rates movements, which are influenced by regional and local economic developments as well as political developments.

Domestic interest rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

The result below summarised the interest rate sensitivity of the Fund's NAV, or theoretical value due to the parallel movement assumption of the yield curve by +100bps and -100bps respectively:

Percentage shift in yield	Sensitivity of the Fund's NAV, or theoretical value		
curve by:	30.6.2020 RM	31.12.2019 RM	
+100 bps	(99,695,867)	(98,408,479)	
-100 bps	111,801,395	110,517,796	

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. The Fund can invests up to 100% of the NAV in fixed income instruments. As such the Fund would be exposed to the risk of bond issuers and financial institutions defaulting on its repayment obligations which in turn would affect the NAV of the Fund.

(i) Credit quality of financial assets

The following table analyses the Fund's portfolio of debt securities by rating category as at 30 June 2020 and 31 December 2019:

Credit rating	RM	As a % of debt securities	As a % of NAV
30.6.2020 NR*	1,602,441,727	100.00	101.37
31.12.2019			
AAA	6,069,814	0.39	0.39
NR*	1,565,360,849	99.61	100.43
	1,571,430,663	100.00	100.82
*Non-rated			

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(b) Credit risk (cont'd.)

(i) Credit quality of financial assets (cont'd.)

For deposits with financial institution, the Fund only makes placements with financial institutions with sound rating. The following table presents the Fund's portfolio of deposits by rating category as at 30 June 2020 and 31 December 2019:

Credit rating	RM	As a % of deposits	As a % of NAV
30.6.2020 P1/MARC-1	25,427,414	100.00	1.61
31.12.2019 P1/MARC-1	8,362,710	100.00	0.54

Cash at banks are held for liquidity purposes and are not exposed to significant credit risk.

(ii) Credit risk concentration

Concentration of risk is monitored and managed based on sectorial distribution. The table below analyses the Fund's portfolio of debt securities by sectorial distribution as at 30 June 2020 and 31 December 2019:

		As a % of debt	As a % of
Sectors	RM	securities	NAV
30.6.2020			
Public finance	1,573,745,000	98.21	99.55
Transportation	28,696,727	1.79	1.82
	1,602,441,727	100.00	101.37
31.12.2019			
Diversified holdings	6,069,814	0.39	0.39
Public finance	1,537,544,483	97.84	98.65
Transportation	27,816,366	1.77	1.78
	1,571,430,663	100.00	100.82

There is no geographical risk as the Fund invests only in investments in Malaysia.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise of deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

The following table presents the undiscounted contractual cash flows from different asset and liability classes in the Fund:

	Contractual cash flows (undiscounted)					
	0 – 1 year RM	1 – 2 years RM	2 – 3 years RM	3 – 4 years RM	4 – 5 years RM	More than 5 years RM
30.6.2020						
Financial assets

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2020 TO 30 JUNE 2020

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(d) Single issuer risk

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

(e) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(f) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(g) Non-compliance risk

This is the risk of the Manager, the Trustee or the Fund not complying with internal policies, the Deed of the Fund, securities law or guidelines issued by the regulators. Non-compliance risk may adversely affect the investments of the Fund when the Fund is forced to rectify the non-compliance.

20. CAPITAL MANAGEMENT

The primary objective of the Fund's capital management is to ensure that it maximises unit holders' value by expanding its fund size to benefit from economies of scale and achieving growth in NAV from the performance of its investments.

The Fund manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Fund may issue new or bonus units, make distribution payment, or return capital to unit holders by way of redemption of units.

No changes were made in the objective, policies or processes during the financial period/year ended 30 June 2020 and 31 December 2019.

STATEMENT BY THE MANAGER

I, Goh Wee Peng, as the Director of AmFunds Management Berhad (the "Manager"), do hereby state that in the opinion of the Manager, the accompanying financial statements are drawn up in accordance with Malaysian Financial Reporting Standards so as to give a true and fair view of the financial position of ABF Malaysia Bond Index Fund (the "Fund") as at 30 June 2020 and the comprehensive income, the changes in equity and cash flows of the Fund for the financial period then ended and comply with the requirements of the Deeds.

For and on behalf of the Manager

GOH WEE PENG Executive Director

Kuala Lumpur, Malaysia 24 August 2020
