MANAGER'S REPORT

Dear Unitholders,

We are pleased to present you the Manager's report and the unaudited quarterly accounts of FTSE Bursa Malaysia KLCI etf ("FBM KLCI etf") ("Fund") for the financial period from 1 April 2014 to 30 June 2014.

Salient Information of the Fund

Name	FTSE Bursa Malaysia KLCI etf ("Fund")			
Category/ Type	ETF/ Equity			
Objective	The Fund is to achieve a price and yield performance, before fees, expenses and tax, that is generally similar to that of the benchmark index, balanced with the need to facilitate liquidity provision. Any material change to the Fund's investment objective will require the holders' approval by way of special resolution.			
Index Component	Details of the index component as at 30 June 2014 are as follows:			
	Stock code	Company's name	Percentage weight (%)	Shares in issue ('million units)
	1295	Public Bank Berhad	11.50	3,885.12
	1155	Malayan Banking Berhad	7.99	8,440.13

	Closing quoted price (RM)	1.9000	1.8400	1.8100	1.6400	1.5250
	Highest quoted price (RM)	1.9000	1.8400	1.8200	1.6750	1.5950
		(Forward)				

	3 months ended 30-6-2014	3 months ended 31-3-2014	FY 2013	FY 2012	FY 2011
Lowest quoted price (RM)	1.8200	1.7850	1.6250	1.4900	1.3200
Benchmark performance (%)	1.81	-0.35	14.11	14.31	4.45
Total return (%) ⁽¹⁾	2.35	-0.63	12.71	12.76	2.97
- Capital growth (%)	2.35	-0.63	10.84	10.07	1.54
- Income distribution (%)	-	-	1.87	2.69	1.43
Gross distribution (sen per unit)	-	-	3.24	4.43	2.31
Net distribution (sen per unit)	-	-	3.20	4.20	2.19
Distribution yield (%) ⁽²⁾	-	-	1.77	2.56	1.44
Management expense ratio (%) ⁽³⁾	1.06	1.17	1.21	1.07	1.11
Portfolio turnover ratio (times) ⁽⁴⁾	0.01	0.02	0.33	0.04	0.09

* Above prices and net asset value per unit are not shown as ex-distribution.

Note:

- (1) Total return is the actual return of the Fund for the respective financial periods/years computed based on the net asset value per unit and net of all fees.
- (2) Distribution yield is calculated based on the total distribution for the years divided by the closing quoted price.
- (3) Management expense ratio ("MER") is calculated based on the total fees and expenses incurred by the Fund divided by the average fund size calculated on a daily basis. The MER decreased by 0.11% as compared to 1.17% per annum for the financial period ended 31 March 2014 mainly due to decrease in expenses.
- (4) Portfolio turnover ratio ("PTR") is calculated based on the average of the total acquisitions and total disposals of investment securities of the Fund divided by the average fund size calculated on a daily basis. The PTR decreased by 0.01 times (50.0%) as compared to 0.02 times for the financial period ended 31 March 2014 mainly due to decrease in investing activities.

Average Total Return (as at 30 June 2014)

	FBM KLCI etf^(a) %	FBM KLCI/ FBM30 Index^(b) %
One year	7.88	9.84
Three years	8.30	9.69
Five years	12.37	15.65
Since launch (19 July 2007)	5.86	8.59

Annual Total Return

Financial Years Ended (31 December)	FBM KLCI etf^(a) %	FBM KLCI/ FBM30 Index^(b) %
2013	12.71	14.11
2012	12.76	14.31
2011	2.97	4.45
2010	20.56	23.80
2009	46.42	50.00

(a) *Independently verified by Novagni Analytics and Advisory Sdn. Bhd.*

(b) *Effective from 6 July 2009, the FTSE Bursa Malaysia Large 30 Index (“FBM30Index”) has been renamed FTSE Bursa Malaysia KLCI (“FBM KLCI”).*

The Fund performance is calculated based on the net asset value per unit of the Fund. Average total return of the Fund and its benchmark for a period is computed based on the absolute return for that period annualised over one year.

Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

Fund Performance

For the financial period under review, the Fund registered a return of 2.35% which was entirely capital growth in nature.

Thus, the Fund’s return of 2.35% has outperformed the benchmark’s return of 1.81% by 0.54%.

As compared with the financial period ended 31 March 2014, the net asset value (“NAV”) of the Fund increased by 2.35% from RM3,155,404 to RM3,229,508. The NAV per unit of the Fund increased by 2.35% from RM1.8872 to RM1.9315, while units in circulations remain unchanged at 1,672,000 units.

The closing price of the Fund quoted on Bursa Malaysia increased by 3.26% from RM1.8400 to RM1.9000.

(Forward)

The line chart below shows comparison between the annual performances of FBM KLCI etf and its benchmark FBM KLCI/FBM30 Index, for the financial years ended 31 December.

Note: Past performance is not necessarily indicative of future performance and that unit prices and investment returns may go down, as well as up.

Strategies and Policies Employed

For the financial period under review, the Manager had been indexing using complete or partial replication. This will generally result in the Fund investing all or substantially all of its assets in the constituents of the benchmark index. In managing the Fund, the Manager aims to achieve performance, over time, with a correlation of 95% or better between the Fund's portfolio NAV and the benchmark index. The Manager will be responsible to monitor the correlation and if, in the Manager's belief, the current portfolio is not tracking the benchmark index and that it will lead to correlation below the objective of 95%, then the Manager may judiciously rebalance the portfolio to improve correlation or to rectify the divergence. Except for index changes, where rebalancing of the portfolio may have to take place prior to, upon or after the index changes, rebalancing of the portfolio will be carried out, no more than once a month. Where the Manager deems appropriate, the Manager may allow a Participating Dealer that has been pre-approved, to tender Zero Strike Call Options equivalent in value to an In-Kind Creation Basket or multiples thereof, in exchange for ETF units, to facilitate the liquidity provision process.

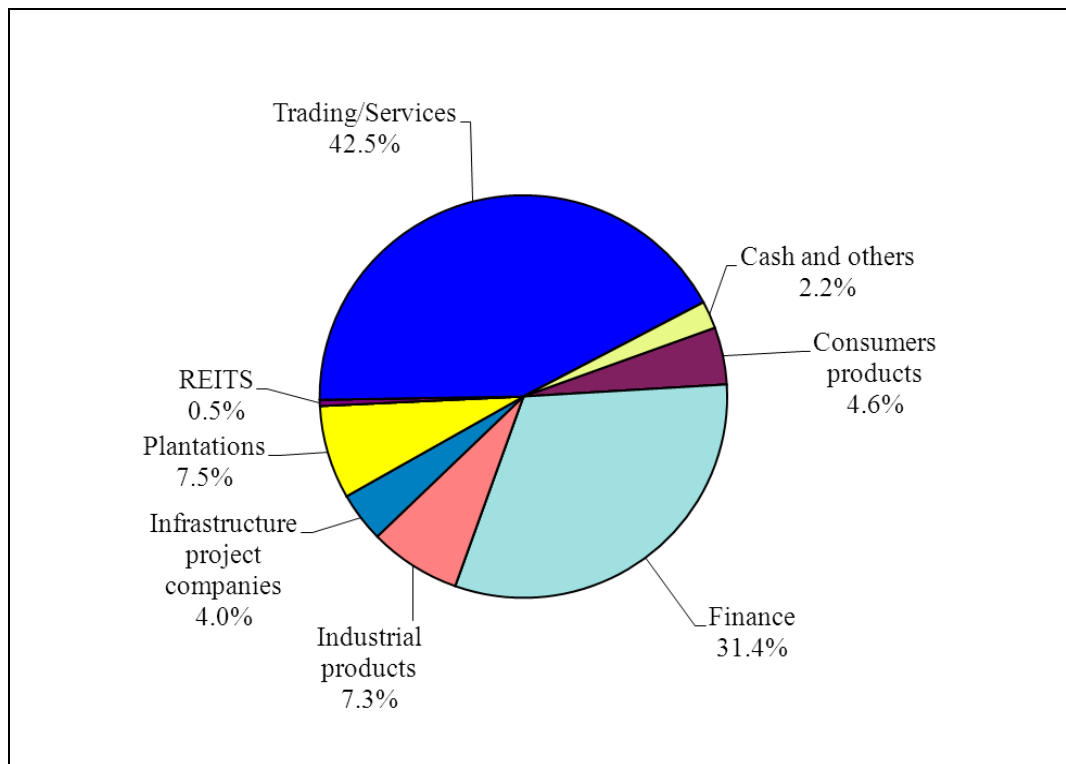

Portfolio Structure

This table below is the asset allocation of the Fund for the financial periods under review.

	As at 30-6-2014 %	As at 31-3-2014 %	Changes %
Consumers products	4.6	4.9	-0.3
Finance	31.4	31.4	-
Industrial products	7.3	7.4	-0.1
Infrastructure project companies	4.0	3.9	0.1
Plantations	7.5	7.6	-0.1
Properties	-	0.8	-0.8
REITS	0.5	-	0.5
Trading/Services	42.5	42.9	-0.4
Cash and others	2.2	1.1	1.1
Total	100.0	100.0	

For the financial period under review, there were no significant changes to sector weights.

This pie chart below shows the sectoral composition of the Fund for the financial period under review.

**Distribution/
unit splits**

There was no income distribution and unit split declared for the financial period under review.

**State of
Affairs of the
Fund**

There has been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the financial period under review.

Rebates and Soft Commission	<p>It is our policy to pay all rebates to the Fund. Soft commission received from brokers/dealers are retained by the Manager only if the goods and services provided are of demonstrable benefit to unitholders of the Fund.</p> <p>During the financial period under review, the Manager had received on behalf of the Fund, soft commissions in the form of fundamental database, financial wire services, technical analysis software and stock quotation system incidental to investment management of the Fund. These soft commissions received by the Manager are deem to be beneficial to the unitholders of the Fund.</p>
Market Review	<p>FBM KLCI gained 1.81% for the Q2 2014, closing at 1882.71. FBM KLCI rose to record high of 1892.33 on 24 June 2014. This was due to market optimism. However, it ended lower at end of quarter due to profit taking.</p>
Market Outlook	<p>Kuala Lumpur Compositr Index (KLCD) appears stable with valuation not at excessive levels and with foreign shareholdings close to the lower band. With the ETP progressing well and export growth picking up momentum, the KLCI will be well supported. Sectors that we prefer are still ETP related plays such as oil and gas, construction and infrastructure stocks.</p> <p>We are also comfortable with the plantation sector. Based on Bank Negara's latest statement, there is expectation that interest rates will increase by 25 bps to 50 bps in the second half of 2014. As the increase in rates is not significant, it will have a minimal impact to the market.</p>

The Fund has also not engaged in any material litigation and arbitration, including those pending or threatened, and any facts likely to give any proceedings, which might materially affect the Fund.

Investment Manager

We have appointed AmInvestment Management Sdn Bhd, a licensed fund manager approved by Securities Commission Malaysia on 4 March 1997, to implement the Fund's investment strategy on behalf of us to achieve the objectives of the Fund. AmInvestment Management Sdn Bhd, a wholly owned subsidiary of AmInvestment Group Berhad, has been in the fund management industry since Year 1982.

Investment Committee

The Investment Committee reviews the Fund's investment objective and guidelines; and to ensure that the Fund is invested appropriately. For the financial period under review from 1 April 2014 to 30 June 2014, there were two (2) Investment Committee meetings held by the Manager.

NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

FBM KLCI etf (“the Fund”) was established pursuant to a Deed dated 18 January 2007 as amended by the Deeds Supplemental thereto (“the Deed”), between AmInvestment Services Berhad as the Manager, HSBC (Malaysia) Trustee Berhad as the Trustee and all unitholders.

On 6 July 2009, the Fund’s benchmark, FTSE Bursa Malaysia Large 30 Index (“FBM30”) has been renamed to FTSE Bursa Malaysia KLCI and concurrent with this change, the Fund also announced the change of name to FTSE Bursa Malaysia KLCI etf (short name: FBM KLCI etf). The Fund’s change of its name is pursuant to the Third Supplemental Deed dated 29 June 2009.

The Fund was set up with the objective to achieve a price and yield performance, before fees, expenses and tax, that is generally similar to that of the benchmark index, FTSE Bursa Malaysia KLCI, balanced with the need to facilitate liquidity provision. As provided in the Deeds, the “accrual period” or financial year shall end on 31 December and the units in the Fund were first offered for sale on 7 June 2007.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”) as issued by the Malaysian Accounting Standards Board (“MASB”) and also prepared in compliance with International Financial Reporting Standards.

The financial statements of the Fund have been prepared under the historical cost convention, unless otherwise stated in the accounting policies.

Standards effective during the financial period

The adoption of MFRS which have been effective during the financial period did not have any material financial impact to the financial statements.

Standards issued but not yet effective

As at the date of authorisation of these financial statements, the following Standards, Amendments and Interpretations of the Issues Committee (“IC Interpretations”) have been issued by MASB but are not yet effective and have not been adopted by the Fund.

		Effective for financial periods beginning on or after
Amendments to MFRS 132	Offsetting Financial Assets and Financial Liabilities	1 January 2014
Amendments to MFRS 139	Novation of Derivatives and Continuation of Hedge Accounting	1 January 2014
Amendments to MFRS 10, MFRS 12 and MFRS 127	Investment Entities	1 January 2014
Amendments to MFRS 136	Recoverable Amount Disclosures for Non-Financial Assets	1 January 2014
IC Interpretation 21	Levies	1 January 2014
Amendments to MFRS 9	Financial Instruments – Classification and Measurement	To be announced by MASB

The Fund plans to adopt the above pronouncements when they become effective in the respective financial periods. These pronouncements are expected to have no significant impact to the financial statements of the Fund upon their initial application except as described below:

MFRS 9 *Financial Instruments*

MFRS 9, as issued, reflects the first phase of the International Accounting Standards Board’s (“IASB”) work on the replacement of MFRS 139 Financial Instruments: Recognition and Measurement (“MFRS 139”) and applies to classification and measurement of financial assets and financial liabilities as defined in MFRS 139 and replaces the guidance in MFRS 139.

In subsequent phases, the IASB will address hedge accounting and impairment of financial assets. The adoption of the first phase of MFRS 9 may have an effect on the classification and measurement of the Fund’s financial assets but will not have an impact on the classification and measurement of financial liabilities. The Fund will quantify the effect in conjunction with the other phases when the final standard including all phases is issued.

3. **SIGNIFICANT ACCOUNTING POLICIES**

Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

Dividend income is recognised when the Fund’s right to receive payment is established. Interest income on short-term deposits is recognised on an accrual basis using the effective interest method.

Application fee is recognised at pre-determined amount upon the creation or redemption of units or the cancellation of such requests.

Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. This is the Ringgit Malaysia which reflects the currency of the economy in which the Fund competes for funds, issues and redeems units. The Fund has also adopted Ringgit Malaysia as its presentation currency.

Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash equivalents are short-term, highly liquid investments that are readily convertible to cash with insignificant risk of changes in value.

Distribution

Distributions are at the discretion of the Fund. A distribution to the Fund's unitholders is accounted for as a deduction from realised reserves except where distribution is sourced out of distribution/loss equalisation which is accounted for as a deduction from unitholders' capital. A proposed distribution is recognised as a liability in the period in which it is approved.

Unitholders' capital

The unitholders' capital of the Fund meets the definition of puttable instruments and is classified as equity instruments under MFRS 132 Financial Instruments: Presentation ("MFRS 132").

Distribution/loss equalisation

Distribution/loss equalisation represents the average distributable amount included in the creation and cancellation prices of units. This amount is either refunded to unitholders by way of distribution and/or adjusted accordingly when units are cancelled.

Financial assets

Financial assets are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

The Fund determines the classification of its financial assets at initial recognition, and the categories applicable to the Fund include financial assets at fair value through profit or loss (“FVTPL”) and loans and receivables.

(i) Financial assets at FVTPL

Financial assets are classified as financial assets at FVTPL if they are held for trading or are designated as such upon initial recognition. Financial assets held for trading by the Fund include equity securities acquired principally for the purpose of selling in the near term.

Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in ‘Net gain or loss on financial assets at fair value through profit or loss’. Dividend revenue and interest earned elements of such instruments are recorded separately in ‘Gross dividend income’ and ‘Interest income’ respectively.

For investments in quoted securities, market value is determined based on the closing price quoted on Bursa Malaysia Securities Berhad. Unrealised gains or losses recognised in profit or loss are not distributable in nature.

On disposal of investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the investments. The net realised gain or loss is recognised in profit or loss.

(ii) Loans and receivables

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables.

Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Impairment of financial assets

The Fund assesses at each reporting date whether there is any objective evidence that a financial asset is impaired.

(i) Loans and receivables carried at amortised cost

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Fund considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If any such evidence exists, the amount of impairment loss is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows discounted at the financial asset’s original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of the financial asset is reduced through the use of an allowance account. When loans and receivables become uncollectible, they are written off against the allowance account.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities, within the scope of MFRS 139, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

The Fund's financial liabilities are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at fair value through profit or loss are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its investments as financial assets at FVTPL as the Fund may sell its investments in the short-term for profit-taking or to meet unitholders' cancellation of units.

No other major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within next financial period.

	RM	RM
At beginning of the period/year	750,658	809,321
Net unrealised gain/(loss) attributable to investments held transferred from realised reserve [Note 9(b)]	32,244	(16,560)
At end of the period/year	782,902	792,761

10. UNITS HELD BY RELATED PARTIES

	30-6-2014		31-12-2013	
	Number of units	RM	Number of units	RM
Parties related to the Manager *	349,076	663,244	376,276	681,060

* The parties related to the Manager are the legal and beneficial owners of the units. The Manager did not hold any units in the Fund as at 30 June 2014 and 31 December 2013.

11. INCOME TAX

	1-4-2014 to	1-4-2013 to
	30-6-2014	30-6-2013
	RM	RM
Current period	-	1,800
Under provision of tax in prior periods	-	-
	-	1,800

Income tax payable is calculated on investment income less deduction for permitted expenses as provided for under Section 63B of the Income Tax Act, 1967.

Pursuant to Schedule 6 of the Income Tax Act, 1967, interest income derived by the Fund is exempted from tax.

A reconciliation of income tax expense applicable to net income before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Fund is as follows:

	1-4-2014 to 30-6-2014 RM	1-4-2013 to 30-6-2013 RM
Net income before tax	<u>74,104</u>	<u>206,366</u>
Taxation at Malaysian statutory rate of 25%	18,500	51,600
Tax effects of:		
Income not subject to tax	(20,600)	(51,800)
Restriction on tax deductible expenses for unit trust fund	1,100	1,300
Non-permitted expenses for tax purposes	900	700
Permitted expenses not used and not available for future periods	<u>100</u>	<u>-</u>
Tax expense for the financial period	<u>-</u>	<u>1,800</u>

12. DISTRIBUTION

Distribution to unitholders declared on 19 June 2013 for the previous financial period are from the following sources:

	1-4-2014 to 30-6-2014 RM	1-4-2013 to 30-6-2013 RM
Gross dividend income	-	8,994
Net realised gain on sale of investments	<u>-</u>	<u>10,005</u>
	-	18,999
Less: Expenses	-	(8,839)
Tax	<u>-</u>	<u>(1,800)</u>
Total amount of distribution	<u>-</u>	<u>8,360</u>

(Forward)

	1-4-2014 to 30-6-2014 RM	1-4-2013 to 30-6-2013 RM
Gross distribution per unit (sen)	-	0.5023
Net distribution per unit (sen)	-	0.5000
Distribution made out of:		
– Realised reserve	-	8,360
Comprising:		
Cash distribution	-	8,360

13. MANAGEMENT EXPENSE RATIO (“MER”)

The Fund’s MER is as follows:

	1-4-2014 to 30-6-2014 % p.a.	1-4-2013 to 30-6-2013 % p.a.
Manager’s fee	0.50	0.50
Trustee’s fee	0.06	0.06
Licence fee	0.04	0.04
Trust administrative expenses	0.46	0.59
Total MER	1.06	1.19

The MER of the Fund is the ratio of the sum of annualised fees and expenses incurred by the Fund to the average net asset value of the Fund calculated on a daily basis.

14. PORTFOLIO TURNOVER RATIO (“PTR”)

The PTR of the Fund is the ratio of average total acquisitions and disposals of investments to the average net asset value of the Fund calculated on a daily basis, is 0.01 times (2013: 0.10 times).

15. SEGMENTAL REPORTING

In accordance with the objective of the Fund, substantially all of the Fund’s investments are made in the form of quoted equity securities in Malaysia. The Manager is of the opinion that the risk and rewards from these investments are not individually or segmentally distinct and hence the Fund does not have a separately identifiable business or geographical segments.

16. TRANSACTIONS WITH FINANCIAL INSTITUTION

Details of transactions with financial institution for the financial period ended 30 June 2014 are as follows:

Financial institution	Transaction value		Brokerage fee, stamp duty and clearing fee	
	RM	%	RM	%
AmInvestment Bank Berhad*	75,932	100.00	1,008	100.00
Total	75,932	100.00	1,008	100.00

* A financial institution related to the Manager. The Manager and the Trustee are of the opinion that the above transactions have been entered in the normal course of business and have been established under terms that are no less favourable than those arranged with independent third parties.

The above transactions were in respect of listed securities.

18. FINANCIAL INSTRUMENTS

(a) Classification of financial instruments

The significant accounting policies in Note 3 describe how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognised. The following table analyses the financial assets and liabilities of the Fund in the statement of financial position by the class of financial instrument to which they are assigned, and therefore by the measurement basis.

	Financial assets at FVTPL RM	Loans and receivables at amortised cost RM	Financial liabilities at amortised cost RM	Total RM
30 June 2014				
Assets				
Investments	3,178,238	-	-	3,178,238
Dividends receivable	-	16,701	-	16,701
Cash at banks	-	72,932	-	72,932
Total financial assets	3,178,238	89,633	-	3,267,871
Liabilities				
Amount due to Manager	-	-	1,567	1,567
Amount due to Trustee	-	-	164	164

(Forward)

	Financial assets at FVTPL RM	Loans and receivables at amortised cost RM	Financial liabilities at amortised cost RM	Total RM
30 June 2014				
Liabilities				
Amount due to index provider	-	-	1,875	1,875
Sundry payables and accrued expenses	-	-	32,544	32,544
Total financial liabilities	-	-	36,150	36,150
31 December 2013				
Assets				
Investments	3,170,420	-	-	3,170,420
Dividends receivable	-	31,623	-	31,623
Cash at banks	-	61,409	-	61,409
Total financial assets	3,170,420	93,032	-	3,263,452
Liabilities				
Amount due to Manager	-	-	1,579	1,579
Amount due to Trustee	-	-	166	166
Amount due to index provider	-	-	2,234	2,234
Distributions payable	-	-	45,144	45,144
Sundry payables and accrued expenses	-	-	39,525	39,525
Total financial liabilities	-	-	88,648	88,648
Income, expense, gains and losses				
			1-4-2014 to 30-6-2014 RM	1-4-2013 to 30-6-2013 RM
Net gain from financial assets at FVTPL			56,189	172,979
Income, of which derived from:				
– Gross dividend income from financial assets at FVTPL			26,378	42,226

(b) **Financial instruments that are carried at fair value**

The Fund's financial assets at FVTPL are carried at fair value. The fair values of these financial assets were determined using prices in active markets for identical assets.

Quoted equity instruments

Fair value is determined directly by reference to their published market prices at the reporting date.

For instruments quoted on Bursa Malaysia Securities Berhad, the market prices are determined by reference to the theoretical closing market prices as published by Bursa Malaysia Securities Berhad.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair values are observable; either directly or indirectly; or

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by the level of the fair value hierarchy:

	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
30 June 2014				
Financial assets at FVTPL	<u>3,178,238</u>	<u>-</u>	<u>-</u>	<u>3,178,238</u>
31 December 2013				
Financial assets at FVTPL	<u>3,151,357</u>	<u>19,063</u>	<u>-</u>	<u>3,170,420</u>

(c) **Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value**

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value due to their short period to maturity or short credit period:

- Dividends receivable
- Cash at banks
- Amount due to Manager
- Amount due to Trustee
- Amount due to index provider
- Distributions payable
- Sundry payables and accrued expenses

There were no financial instruments which are not carried at fair values and whose carrying amounts are not reasonable approximation of their respective fair values.

19. RISK MANAGEMENT POLICIES

The Fund is exposed to a variety of risks that included market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, management risk and non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of investment coupled with stringent compliance to investment restrictions as stipulated by the Capital Market and Services Act 2007, Securities Commission's Guidelines on Exchange Traded Funds and the Deed as the backbone of risk management of the Fund.

Market risk

Market risk is the risk that the value of a portfolio would decrease due to changes in market risk factors such as equity prices, foreign exchange rates, interest rates and commodity prices.

(a) Objectives and limitations of the Value at Risk ("VaR") methodology

The Fund models the Value-at-Risk based on Gaussian distribution to assess possible changes in the market value of the portfolio. Based on 180 weekly historical data points, the potential loss at the 99% confidence level is estimated. The VaR model is designed to measure market risk during normal market conditions. Due to the fact that VaR relies on historical data to provide information and that there is no prediction of the future change in the risk factors, the probability of large market movement may be underestimated. VaR may also be under- or over-estimated due to the interdependence between the market risk factors. Even though positions may change throughout the day, the VaR only represents the risk of the portfolio at the close of each business day. Analysis is carried out to estimate potential losses at 99% confidence level.

In practice, the actual portfolio results will differ from the VaR calculation. In particular, the calculation does not provide a meaningful indication of losses under stressed market conditions.

(b) VaR assumptions

The VaR that the Fund measures is an estimate, using a confidence level of 99%, of the potential loss that is not expected to be exceeded if the current market risk positions were to be held unchanged for one day. The use of a 99% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur, on average under normal market conditions, not more than once every hundred days.

	Value-at-Risk (%)	
	Equities risk	Total VaR
30 June 2014	0.79	0.79
Average Daily	0.85	0.85
Highest	0.92	0.92
Lowest	0.79	0.79

(Forward)

	Value-at-Risk (%)	
	Equities risk	Total VaR
30 June 2013	1.06	1.06
Average Daily	1.05	1.05
Highest	1.09	1.09
Lowest	0.99	0.99

Based on Gaussian VaR, using historical weekly data for the past 180 weeks, FTSE Bursa Malaysia KLCI etf's portfolio that invests mainly in the constituents of the FTSE Bursa Malaysia KLCI Index had a daily 1% Value-at-Risk (VaR) of approximately 0.79% (2013: 1.06%). This implies that not more than 1 out of 100 trading days the Fund would record a daily loss exceeding 0.79% (2013: 1.06%) of the net asset value.

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. Credit risk applies to debt instruments such as term deposits, bonds, debentures and dividends receivable. The issuer of such instruments may not be able to fulfil the required interest payments or repay the principal invested. These risks may cause the Fund's investments to fluctuate in value.

Cash at banks are held for liquidity purposes and are not exposed to significant credit risk.

Liquidity risk

Liquidity risk is defined as the risk of being unable to raise funds or borrowings to meet payment obligations as they fall due. This is also the risk of the unit trust fund experiencing large redemptions, when the Investment Manager could be forced to sell large volumes of its holdings at unfavorable prices to meet redemption requirements.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unitholders. Liquid assets comprise of deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

Single issuer risk

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its net asset value. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the net asset value of the Fund.

Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the net asset value of the Fund.

Non-compliance risk

This is the risk of the Manager, the Trustee or the Fund not complying with internal policies, the Deed of the Fund, securities law or guidelines issued by the regulators. Non-compliance risk may adversely affect the investments of the Fund when the Fund is forced to rectify the non-compliance.

20. CAPITAL MANAGEMENT

The primary objective of the Fund's capital management is to ensure that it maximises unitholders' value by expanding its fund size to benefit from economies of scale and achieving growth in net asset value from the performance of its investments.

The Fund manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Fund may issue new or bonus units, make distribution payment, or return capital to unitholders by way of redemption of units.

No changes were made in the objective, policies or processes during the financial periods ended 30 June 2014 and 30 June 2013.
