MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019

Unless otherwise stated, the following accounting policies have been applied consistently in dealing with items that are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Exchange-Traded Fund (“the Fund”) have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”).

The financial statements have been prepared under the historical cost convention, except as disclosed in the summary of significant accounting policies.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the financial period. It also requires the Manager to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the Manager’s best knowledge of current events and actions, actual results may differ.

Estimates and judgements are continually evaluated by the Manager and the Trustee and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Fund’s results and financial position are tested for sensitivity to changes in the underlying parameters.

(a) Standards, amendments to published standards and interpretations that are effective

The Fund has applied the following amendments for the first time for the financial year beginning on 1 January 2019:

- Amendments to MFRS 112 ‘Income Taxes’ clarify that where income tax consequences of dividends on financial instruments classified as equity is recognised (either in profit or loss, other comprehensive income or equity) depends on where the past transactions that generated distributable profits were recognised.

Accordingly, the tax consequences are recognised in profit or loss when an entity determines payments on such instruments are distribution of profits (that is, dividends). Tax on dividend should not be recognised in equity merely on the basis that it is related to a distribution to owners.

There are no other standards, amendments to standards or interpretations that are effective that have a material effect on the financial statements of the Fund

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

B INCOME FROM SHARIAH-COMPLIANT FINANCIAL INSTRUMENTS (CONTINUED)

Profit income

Profit income from short term deposits with licensed Shariah-compliant financial institutions are recognised based on effective profit rate method on an accrual basis.

Profit is calculated by applying the effective profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective profit rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Dividend income

Dividend income is recognised on the ex-date when the right to receive payment is established.

For quoted equities, realised gains and losses on sale of investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on a weighted average cost basis.

C NON SHARIAH-COMPLIANT INCOME

Any income or distribution received by the Fund from its investment portfolio which relates to profit income or dividend income from fortuitous activities (does not comply with the Shariah principles) of the underlying companies is considered non Shariah-compliant income.

This non Shariah-compliant Income is subject to an income purification process as determined by the Index Provider from time to time and without limitation based on the impure ratio for each component stock as determined by MSCI Inc. The non Shariah-compliant income may be distributed to organisations considered beneficial to the public at large which are endorsed by the Shariah Adviser and approved by the Trustee. The amount is recognised as an expense in profit or loss.

D TAXATION

Current tax expense is determined according to the Malaysian tax laws and includes all taxes based upon the taxable profits.

E CASH AND CASH EQUIVALENTS

For the purpose of the cash flow statement, cash and cash equivalents comprise cash and bank balances and deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

F FINANCIAL ASSETS AND LIABILITIES

(i) Classification

Financial assets are designated at fair value through profit or loss when they are managed and their performance evaluated on a fair value basis.

The Fund classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either other comprehensive income or through profit or loss), and
- those to be measured at amortised cost

The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Fund's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents, dividend receivables and amount due from stockbrokers as financial assets at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to Manager, amount due to Trustee, amount due to stockbrokers, auditors' remuneration, tax agent's fee, Shariah adviser's fee and payables as other financial liabilities subsequently measured at amortised cost.

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date, the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in profit or loss.

Financial liabilities are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Unrealised gains or losses arising from changes in the fair value of the financial assets at fair value through profit or loss are presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit and loss' in the period in which they arise.

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

F FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income when the Fund's right to receive payments is established.

Investments principally consist of quoted investments which are initially recognised at fair value and subsequently re-measured at fair value based on the market price quoted on the relevant stock exchanges at the close of the business on the valuation day, where the close price falls within the bid-ask spread. In circumstances where the close price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value. Purchases and sales of investments are accounted for on the trade date.

If a valuation based on the market price does not represent the fair value of the securities, for example during the abnormal market conditions or no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by Trustee, the securities are valued as determined in good faith by the Manager, based on the methods and bases approved by the Trustee after appropriate technical consultation.

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised as profit or loss when the liabilities are derecognised and through the amortisation process.

Islamic deposits with licensed financial institutions are stated at cost plus accrued profit calculated in the effective profit method over the period from the date of placement to the date of maturity of the respective deposits. Financial assets at amortised cost and financial liabilities are subsequently carried at amortised cost using the effective profit rate method.

(iii) Impairment of financial assets

The Fund measures credit risk and expected credit losses using probability of default and loss given default. Management considers both historical analysis and forward looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12 month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due or a counterparty credit rating which has fallen below BBB/Baa.

Definition of default and credit-impaired financial assets

Any contractual payment which is more than 90 days past due is considered credit impaired.

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

F FINANCIAL ASSETS AND LIABILITIES (CONTINUED)

(iii) Impairment of financial assets (continued)

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Fund may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains. There are no write-offs/recoveries during the financial period.

G AMOUNT DUE FROM/TO STOCKBROKERS

Amounts due from and to stockbrokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the date of the statement of financial position respectively. The amount due from brokers balance is held for collection.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required.

If the credit risk increases to the point that it is considered to be credit impaired, profit income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

Any contractual payment which is more than 90 days past due is considered credit impaired.

H UNIT HOLDERS' CAPITAL

The unit holders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net asset value;
- the units are the most subordinated class and class features are identical;
- there is no contractual obligations to deliver cash or another financial asset other than the obligation on the redemption of units; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial period if unit holder exercises the right to put the unit back to the Fund.

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

H UNIT HOLDERS' CAPITAL (CONTINUED)

Units are created and cancelled at prices based on the Fund's net asset value per unit at the time of creation or cancellation. The Fund's net asset value per unit is calculated by dividing the net assets attributable to unit holders with the total number of outstanding units. In accordance with the Securities Commission ("SC") Guidelines on Exchange-Traded Funds, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for creations and cancellations.

I PRESENTATION AND FUNCTIONAL CURRENCY

The financial statements are presented in Ringgit Malaysia, which is the Fund's presentation and functional currency.

J SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer ("CEO") of the Fund's manager that undertakes strategic decisions for the Fund.

K DISTRIBUTION

Distributions are at the discretion of the Fund. A distribution to the Fund's unit holders is accounted for as a deduction from realised reserves. A proposed distribution is recognised as a liability in the year in which it is approved by the Board of Directors of the Manager.

The basis for ascertaining income available for distribution by the Fund to its unit holders, which are subject to conditions imposed by the SC, are as follows;

- (i) The distributable income is the net realised income from profit, dividend and other distributions, after deducting the costs/expenses as allowed by the Deed;
- (ii) No adjustment will be made from any realised capital gains or losses as a result of price appreciation or depreciation of the underlying securities;
- (iii) Unrealised income or gains of the Fund will not be distributed to Unit holders and unrealised losses (including capital losses) will not be deducted.

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019

1 INFORMATION ON THE FUND

The Exchange-Traded Fund (the “Fund”) was constituted under the name MyETF MSCI Malaysia Islamic Dividend pursuant to the execution of a trust deed dated 23 December 2013 and supplemental deed dated 9 December 2016, 19 June 2017 and 16 August 2018 (the “Deed”) entered into between i-VCAP Management Sdn. Bhd. (the “Manager”) and Deutsche Trustees Malaysia Berhad (the “Trustee”).

The Fund was launched on 27 February 2014 and will continue its operations until terminated in accordance with Part 26 of the Deed.

The Fund is an Exchange-Traded Fund that is designed to provide investment results that closely correspond to the performance of the MSCI Malaysia IMI Islamic High Dividend Yield 10/40 Index (“Benchmark Index”) regardless of its performance. The Benchmark Index is a free-float adjusted, market capitalisation weighted, price return index representing securities of 16 to 30 leading Shariah-compliant Malaysian companies listed on Bursa Malaysia Securities Berhad as determined by MSCI Inc. All investments will be subjected to the SC Guidelines on Exchange-Traded Funds, the Deed and the objective of the Fund.

As provided in the Deed, the financial year shall end on 31 December.

The Manager is a company incorporated in Malaysia. The principal activity of the Manager is the provision of Shariah investment management services.

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks which include market risk, profit rate risk and credit/default risk from the following financial instruments:

	Note	Amortised cost RM	Financial asset at fair value through profit or loss RM	Total RM
<u>30 June 2019</u>				
Cash and cash equivalents	6	532,439	-	532,439

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

All current liabilities are financial liabilities which are carried at amortised cost.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated in the SC Guidelines on Exchange-Traded Funds.

Market risk

Price Risk

The Fund is exposed to equity securities price risk arising from investments held by the Fund for which prices in the future are uncertain. The very nature of an exchange-traded fund, however, helps mitigate this risk because a fund would generally hold a well-diversified portfolio of securities from different market sectors so that the collapse of any one security or any one market sector would not impact too greatly on the value of the fund.

At 30 June, the fair value of equities exposed to price risk was as follows:

	<u>30 June 2019</u> RM	<u>31 December 2018</u> RM
Financial assets at fair value through profit or loss	44,262,905	51,836,926

The table below summarises the sensitivity of the Fund's unrealised income or loss to equity price movements as at the end of the financial year. The analysis is based on the assumptions that the MSCI Malaysia IMI Islamic High Dividend Yield 10/40 Index ("the Index") increased by 10% and decreased by 10%, with all other variables held constant, and that the fair value of the Fund's portfolio of equity securities moved in correlation with the Index.

<u>% Change in benchmark index</u>	<u>Benchmark index</u>	<u>Market value</u> RM	<u>Impact to profit after tax/NAV</u> RM
<u>30 June 2019</u>			
-10%	2,317.75	42,352,837	(1,910,068)

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

2 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (continued)

Price Risk (continued)

The Index is used as a benchmark as the Fund is designed to provide investment results that closely correspond to the performance of the Index.

Profit rate risk

Cash flow profit rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market profit rates.

The fund's exposure to profit rate risk is mainly confined to Shariah-compliant deposits with licensed banks. The Manager overcomes this by way of maintaining deposits on a short term basis.

The fund's exposure to profit rate risk associated with Shariah-compliant deposits with licensed banks is not material as the deposit is held on a short-term basis.

Credit/Default risk

The Fund is exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The credit risk arising from placements of deposits in licensed financial institutions is managed by ensuring that the Fund will only place deposits in reputable licensed financial institutions. The settlement terms of the proceeds from the creation of units receivable from the Manager are governed by the SC's Guidelines on Exchange-Traded Funds.

The credit/default risk is minimal as all transactions in quoted investments are settled/paid upon delivery using approved brokers.

The maximum exposure to credit risk before any credit enhancements at 30 June 2019 is the carrying amount of the financial assets as set out below:

	<u>Cash and cash equivalents</u> RM	<u>Dividends receivable</u> RM	<u>Amount due from stockbrokers</u> RM	<u>Total</u> RM
<u>30 June 2019</u>				
Financial institutions			-

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

3 CAPITAL AND LIQUIDITY RISK MANAGEMENT

The capital of the Fund is represented by the net assets attributable to unit holders as shown in the Statement of Financial Position. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily creations and cancellations of units at the discretion of unit holders. The Manager will provide perfect basket which comprises a portfolio of the Benchmark Index shares in substantially the same composition and weighting as the Benchmark Index and cash component to be delivered by the investors in the case of creations and to be transferred to the unit holders in the case of cancellations. The Fund maintains sufficient quantity of shares and cash in proportion to the perfect basket.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position date to the contractual maturity date. The amounts in the table below are the contractual undiscounted cash flows.

	<u>Within one month</u> RM	<u>One month to one year</u> RM	<u>Total</u> RM

The units are held legally by the Manager for booking purposes. The units are held beneficially by Valuecap and the shareholders of Valuecap.

12 MANAGEMENT FEE

The Manager is entitled to a management fee at a rate not exceeding 3.0% per annum on the Net Asset Value ("NAV") of the Fund calculated on a daily basis, as provided under Clause 15.1(b) of the Deed.

For the financial period ended 30 June 2019, the management fee was recognised at a rate of 0.4% (2018: 0.4%) per annum on the NAV of the Fund, calculated on a daily basis.

There will be no further liability to the Manager in respect of management fee other than the amounts recognised above.

13 TRUSTEE'S FEE

The Trustee is entitled to an annual fee at a rate not exceeding 0.2% per annum on the Net Asset Value ("NAV") of the Fund, subject to a minimum of RM12,000 per annum, as provided under Clause 15.2(b) of the Deed.

For the financial period ended 30 June 2019, the Trustee's fee was recognised at a rate of 0.045% (2018: 0.045%) per annum on the NAV of the Fund, subject to a minimum of RM12,000 per annum, inclusive of local custodian fee, calculated on a daily basis.

There will be no further liability to the Trustee in respect of trustee fee other than the amounts recognised above.

17 INCOME DISTRIBUTION

Distribution to unit holders is from the following sources:

	<u>2019</u> RM	<u>2018</u> RM
Undistributed net exempt income brought forward	1,181,280	809,280
Exempt dividend income	-	-
Profits from money market placements	-	-
	<hr/>	<hr/>
	1,181,280	809,280
Less: Expenses		
Exempt non Shariah-compliant income	-	-
Fund related expenses	-	-
	<hr/>	<hr/>
Total amount of income distribution	<u>1,181,280</u>	<u>809,280</u>

The net asset value per unit prior and subsequent to the income distribution was as follows:

<u>Distribution date (ex-date)</u>	<u>Cum-distribution</u> RM	<u>Distribution per unit</u> RM	<u>Ex-distribution</u> RM
2019			
11 March 2019	1.1357	0.0276	1.1081
2018			
1 March 2018	1.2117	0.0281	1.1836

The net asset value prior and subsequent to the income distribution was as follows:

<u>Distribution date (ex-date)</u>	<u>Cum-distribution</u> RM	<u>Total distribution amount</u> RM	<u>Ex-distribution</u> RM
2019			
11 March 2019	48,608,394	1,181,280	47,427,114
2018			
1 March 2018	39,632,678	809,280	38,823,398

Included in the above is an amount of RM1,181,280 distributed from previous financial year's undistributed net realised exempt income.

The first and final income distribution for the financial year ended 31 December 2018 of 2.76 sen per unit was declared on 21 February 2019 based on the financial position of the Fund as at 31 December 2018 with the ex-date of 11 March 2019 and entitlement date of 13 March 2019. The total amount of income distributed was RM1,181,280.00 based on 42,800,000 of the Fund's units in circulation, which was paid out to unit holders on 13 March 2019.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

18 MANAGEMENT EXPENSE RATIO (“MER”)

	<u>30 June 2019</u> %	<u>30 June 2018</u> %
MER	0.30	0.32

MER is derived from the following calculation:

$$\text{MER} = \frac{(A + B + C + D + E + F + G)}{H} \times 100$$

A	=	Management fee
B	=	Trustee’s fee
C	=	License fee
D	=	Auditors’ remuneration
E	=	Tax agent’s fee
F	=	Shariah adviser’s fee
G	=	Other expenses (excluding goods and services tax on transaction costs)
H	=	Average net asset value of Fund calculated on daily basis

The average net asset value of the Fund for the financial period calculated on a daily basis is RM48,817,897 (30 June 2018: RM45,337,340).

19 PORTFOLIO TURNOVER RATIO (“PTR”)

	<u>30 June 2019</u>	<u>30 June 2018</u>
PTR (times)	0.25	1.02

PTR is derived from the following calculation:

$$\text{PTR} = \frac{(\text{Total acquisition for the financial period} + \text{total disposal for the financial period}) \div 2}{\text{Average net asset value of the Fund for the financial period calculated on daily basis}}$$

where: total acquisition for the financial period = RM8,533,224 (30 June 2018: RM46,049,509)
total disposal for the financial period = RM16,156,048 (30 June 2018: RM46,586,860)

The average net asset value of the Fund for the financial period calculated on a daily basis is RM48,817,897 (30 June 2018: RM45,337,340).

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

20 SEGMENT REPORTING

The Fund is designed to provide investment results that closely correspond to the performance of the Benchmark Index. The Manager attempts to achieve a tracking error of less than 3% between the net asset value of the Fund and the Benchmark Index.

The internal reporting provided to the CEO for the fund's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS. The CEO is responsible for the performance of the Fund and considers the business to have a single operating segment.

The investment objective of the Fund is to provide investments results that, before expenses, closely correspond to the performance of the Benchmark Index, regardless of its performance.

There were no changes in the reportable segments during the financial period.

21 NON CASH TRANSACTIONS

Creations and cancellations are done by transferring the perfect basket from and to the unit holders respectively. A reconciliation of the cash flows used in creation and cancellation and the total creation and cancellation as presented in the statement of changes in equity is presented below:

	<u>30 June 2019</u> RM	<u>30 June 2018</u> RM
Creation		
- Fair value of benchmark index shares	-	28,550,919
- Cash component	-	1,022,201
	<u>-</u>	<u>29,573,120</u>
Cancellation		
- Fair value of benchmark index shares	7,752,988	29,530,888
- Cash component	67,772	55,232
	<u>7,820,760</u>	<u>29,586,120</u>

22 FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets and financial liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the period end date.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

MyETF MSCI MALAYSIA ISLAMIC DIVIDEND

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JANUARY 2019 TO 30 JUNE 2019 (CONTINUED)

22 FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>30 June 2019</u>				
Financial assets at fair value through profit or loss				
- Quoted shares	44,262,905	-	-	44,262,905

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include quoted shares. The Fund does not adjust the quoted prices for these instruments.

- (ii) The carrying values of cash and cash equivalents, amount due from stockbrokers, dividend receivable and all current liabilities are a reasonable approximation of the fair values due to their short term nature.
