Portfolio Turnover Ratio (times) ²	1.40	2.01	1.67
Tracking Error	1.36	2.14	1.40

Basis of calculation and assumption made in calculating the returns:-

The performance figures are a comparison of the growth/decline in Net Asset Value (“NAV”) for the stipulated period taking into account all the distribution payable (if any) during the stipulated period.

An illustration of the above would be as follow:-

Capital return	=	NAV per Unit end / NAV per Unit begin – 1
Income return	=	Income distribution per Unit / NAV per Unit ex-date
Total return	=	(1+Capital return) x (1+Income return) – 1

¹The TER of the Fund was lower than previous year due to lower expenses incurred by the Fund during the financial year.

²The Fund recorded a lower PTR than previous year due to decreased trading activities of the Fund during the financial year.

Income Distribution / Unit Split

No income distribution or unit splits were declared for the financial year ended 31 March 2024.

Income Distribution Breakdown

No income distribution were declared for the financial year ended 31 March 2024.

MANAGER'S REPORT

Performance Review (1 April 2023 to 31 March 2024)

For the period 1 April 2023 to 31 March 2024, the Fund registered a 23.10% return compared to the benchmark return of 20.72%. The Fund thus outperformed the Benchmark by 2.38%. The Net Asset Value ("NAV") of the Fund as at 31 March 2024 was RM1,138,170.24 (RM1.1382 per unit) while the NAV as at 31 March 2023 was RM924,645.43 (RM0.9246 per unit).

Since commencement, the Fund has registered a return of 13.82% compared to the benchmark return of 18.25%, underperforming by 4.43%.

Figure 1: Movement of the Fund versus the Benchmark since commencement.

"This information is prepared by AHAM Asset Management Berhad for information purposes only. Past earnings or the fund's distribution record is not a guarantee or reflection of the fund's future earnings/future distributions. Investors are advised that unit prices, distributions payable and investment returns may go down as well as up. Source of Benchmark is from Bloomberg."
Benchmark: Dorsey Wright Technical Leaders Malaysia Index

Asset Allocation

As at 31 March 2024, the Exchange-Traded Fund's ("ETF's") asset allocation stood at 97.63% into listed securities, while the remaining was held in cash and cash equivalent. This provided the ETF the exposure it required to track the performance of the Dorsey Wright Technical Leaders Malaysia Index.

Strategies Employed

The Manager continues to adopt the full replication strategy. The Manager invested into domestic equities to provide investment results that closely correspond to the performance of the Benchmark.

Market Review

To provide a broad overview of markets over the financial year under review, on a total return basis the Standard and Poor's ("S&P") 500 Index returned 29.72% with the Morgan Stanley Capital International ("MSCI") World index slightly behind at 25.62%. Specific to the Asian region, MSCI AC Asia ex Japan Index

saw a relatively weaker return of 3.66% while locally, the Financial Times Stock Exchange (“FTSE”) Bursa Malaysia Kuala Lumpur Composite Index (“KLCI”) fared better at 12.10% in Ringgit terms on a total return basis. Within bond markets, Bloomberg Barclays Global Aggregate Index gained 0.51% over the financial year under review while domestically, the bond markets’ benchmark 10-year Malaysian Government Securities (“MGS”) yield closed at 3.86%.

The United States (“US”) Federal Reserve (“Fed”) conducts monetary policy by setting a target range for the federal funds rate, which does not directly affect firms and household in the economy. Instead, monetary policy effect cascades to the broader economy by affecting financial conditions including the longer-term interest rates and the exchange value of the dollar. Analysts posit that the Fed’s actions of supporting the US economy during the peak of the coronavirus crisis by initiating large purchases of US government and mortgage-backed securities, lending to support household and employers could have been overdone and led to the unwelcome surge in increased inflationary pressures. The Fed has been engaging in a tightening monetary policy stance throughout 2023 to address said inflationary pressures, only relenting towards the end of 2023 when signs of tighter policy was slowing down the economy. Unprecedented global events that unfolded in 2023 also contributed to the Fed’s challenge in reigning in inflation rates.

One of the most significant events of 2023 was the eruption of the Israel-Palestinian conflict in October, which led to a sharp depreciation of the Israeli shekel. Gold, viewed as a safe-haven asset surged significantly in the short term and investors’ bullish sentiment towards oil also intensified from concern over a disruption to oil supplies in the Middle East, a major oil-producing region. The strained banking sector in US triggered by the collapse of Silicon Valley Bank (“SVB”) weighed heavily on investors sentiments. With an abundant of deposits over loans, SVB had placed them into available-for-sale and held-to-maturity securities like Treasuries and mortgage-backed securities when yields were at all-time lows. However, as interest rates began to rise rapidly, it recorded massive outflows in deposits alongside the rest of the banking sector. SVB sold substantially all of its available-for-sale securities to accommodate the outflows, incurring a massive loss which eventually led to a bank run. Smaller US banks were caught also caught in the turmoil as concerns spread.

Since the debut of ChatGPT, last year also saw the surge of Artificial Intelligence (“AI”) technology and explosive growth of generative AI tools like image recognition and image generation. Google launched the Bard the chatbot and later released Gemini, touted as the largest and most versatile AI model. Nvidia also dominated the market with its flagship chip, leading to a doubling in its stock price and contributing to the AI boom. The market’s biggest tech stocks, which investors dub the magnificent seven of the Nasdaq 100 – Microsoft, Apple, Alphabet, Nvidia, Amazon, Meta and Tesla saw massive outperformance relative to the Nasdaq composite and S&P500 over the past year.

Global financial markets confounded gloomy expectations in 2023. Despite a lacklustre start to the year, even prolonging to the second half of 2023, the stock market eventually rallied, bonds reversed heavy losses made early in the year as recession fears were replaced by increasing confidence that an economic soft landing would be achieved. The rally began in November as Fed chair, Jerome Powell fanned hopes that borrowing costs had peaked. Entering 2024, US equities started the year on a strong note to the surprise of investors, underpinned by robust economic indicators that fortified the case for a soft landing. The gains were also supported by good corporate earnings, including from the top technology names of the market.

Within Malaysia, several policy announcements made by the government in July 2023 caught the attention of investors as markets started to gain. These positive sentiments lifted foreign investors’ confidence as they poured into local equities. They include the Ekonomi Madani Plan which outlined several key economic targets, Part 1 of the National Energy Transition Roadmap (“NETR”) which intends to achieve 70% renewable energy capacity mix by 2050 and Part 2 of the NETR as well as the New Industrial Masterplan. The unveiling of Budget 2024 in October 2023 also helped shed light on the government’s policies and laid down the groundwork for the government’s path to fiscal consolidation. According to the Budget, the government aims to narrow the fiscal deficit from 5.0% to 4.3% in 2024 in line with its broader policy objective to bring it down to 3.10% by 2026. Towards the end of the financial year, the benchmark KLCI surged with Johor-focused names taking the spotlight following the installation of the new Yang Di-Pertuan Agong.

Investment Outlook

As at the end of the financial year, the Kuala Lumpur Composite Index (“KLCI”) experienced a brief pause as investors engaged in profit-taking activities. Despite this temporary setback, the market outlook remains positive, bolstered by the government’s implementation of quality policy rollouts and fiscal reform measures. These initiatives have instilled confidence in the market, underpinned by solid and broad-based earnings growth across various sectors.

In addition, the central bank released its Annual Report for 2023, projecting the country’s gross domestic product (“GDP”) to expand between 4% and 5% in 2024, aligning with previous government projections outlined in Budget 2024. Bank Negara Malaysia (“BNM”) expects growth to be underpinned by resilient domestic expenditure, coupled with a rebound in exports. Similarly, inflationary pressures are expected to remain moderate, with BNM forecasting the Consumer Price Index (“CPI”) to rise between 2.0% and 3.5% in 2024, up from 2.5% in 2023. The central bank notes that the wider forecast range considers potential upside price pressure from the implementation of subsidy rationalisation measures.

Furthermore, the next significant catalyst anticipated to drive the market forward is the recovery of the Malaysian ringgit. A stronger ringgit is expected to enhance investor sentiment and stimulate further economic activity, providing a robust foundation for continued market resilience and growth. The combination of strategic policy measures, fiscal reforms, and an improving currency suggests a promising trajectory for the KLCI in the coming months.

State of Affairs of the Fund

There is neither any significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unit holders during the period under review.

Soft Commissions received from Brokers

Soft commissions received from brokers/dealers may be retained by the management company only if the –

- (i) goods and services provided are of demonstrable benefit to unit holders of the Fund; and
- (ii) goods and services are in the form of research and advisory services that assists in the decision making process.

During the financial year under review, the Fund has received soft commissions from brokers/dealers who have also executed trades for other funds managed by AHAM Asset Management Berhad. The soft commissions were utilised for goods and services in the form of research materials, data and quotation services, investment-related publications, market data feed, industry benchmarking agencies and investment-related publications to assist the Manager in the investment decision-making process. The soft commission received were for the benefit of the fund and there were no churning of trades.

Cross Trade

No cross trade transactions have been carried out during the reported period.

Securities Financing Transactions

The Fund has not undertaken any securities lending or repurchase transactions during the financial year under review.

Changes Made to the Fund's Prospectus

A replacement Prospectus dated 15 September 2023 was issued over the financial year under review with effective date 15 September 2023. A list detailing the changes made to the Prospectus is available in the following pages.

TRADEPLUS DWA MALAYA MOMENTUM TRACKER (“FUND”)

LIST HIGHLIGHTING THE AMENDMENTS FROM THE PROSPECTUS 9 JULY 2020 (“PROSPECTUS”) AS MODIFIED BY THE REPLACEMENT PROSPECTUS (“REPLACEMENT PROSPECTUS”) IN RELATION TO THE FUND.

NO.	(A) PROSPECTUS	(B) REPLACEMENT PROSPECTUS
<p><u>Introduction:</u></p> <p>In general, the amendments made to the Prospectus are to reflect the following:</p> <ol style="list-style-type: none"> 1. Requirements of Guidelines on Exchange-Traded Funds (Revised: 28 November 2022) (“Revised GETF”) and Prospectus Guidelines For Collective Investment Schemes (Revised: 1 September 2022) (“Revised PCIS”); 2. Change in the shareholding of AHAM which took effect on 29 July 2022 whereby AHAM ceased to be a subsidiary of Affin Hwang Investment Bank and the Affin Banking Group. AHAM’s ultimate major shareholders now, is CVC Capital Partners Asia Fund V, a private equity fund managed by CVC Capital Partners (“Change in Shareholding”); and 3. Amendments made to the First Supplemental Deed which was registered and lodged with the SC on 13 June 2023 (“Supplemental Deed”). <p>We are of the view that the amendments reflected in the Replacement Prospectus do not materially prejudice the unit holders’ interests as they do not result in (1) change to the nature/objective of the Fund; (2) change to the risk profile of the Fund; (3) change in the distribution policy; (4) introduction of a new category of fees/charges; or (5) increase in fees/charges of the Fund (collectively known as “Material Prejudice Circumstances”). Hence a unit holders’ approval is not required under paragraph 11.25 of the Revised GETF and section 295(4)(a) of the Capital Markets and Services Act 2007.</p> <p>We will make an announcement to Bursa Malaysia Securities Berhad (“Bursa Securities”) on the Proposed Amendments pursuant to paragraph 9.47(1)(m) of the Main Market Listing Requirements of Bursa Securities (“MMLR”).</p>

Accordingly, if a Unit Holder needs to sell his Units at a time when no active market for them exists, the price he receives for his Units (assuming he is able to sell them) is likely to be lower than the price received if an active market did exist. Whilst the market maker has been appointed by the Manager, there can be no assurance that such liquidity risk will be fully mitigated.</p> <p>Investors should note, however, that the liquidity in the market for the Units may be adversely affected if the market maker fails or ceases to fulfil its role as a market maker. It is the Manager’s intention that there will always be at least one</p>

NO.	(A) PROSPECTUS	(B) REPLACEMENT PROSPECTUS
	<p>ceases to fulfil its role as a market maker. It is the Manager’s intention that there will always be at least one market maker for the Fund.</p>	<p>market maker for the Fund.</p> <p><u>In addition, the Fund may invest in illiquid securities and such investments may have a negative effect on the returns of the Fund because the Fund may be unable to sell the illiquid securities at an advantageous time or price. Liquid investments may become illiquid or less liquid after purchase by the Fund, particularly during periods of market turmoil or economic uncertainty. If the Fund is forced to sell the underlying securities at reduced prices or under unfavorable conditions to meet redemption requests or for other cash needs, the Fund may suffer a loss.</u></p> <p><u>An inability to sell a particular underlying security or portion of the Fund Assets may have a negative impact to the value of the Fund and may have negative implications for investors being able to redeem, on the primary market, in a timely fashion. Additionally, investors who remain invested in the Fund may also be adversely affected.</u></p> <p><u>We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet any Redemption Applications with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. To manage the liquidity risk, we have put in place the following procedures:</u></p> <p>a) <u>Regular review on the Fund’s investment portfolio including its liquidity stress testing in times of exceptional market conditions;</u></p> <p>b) <u>The Manager may limit the total number of Units that can be redeemed on a Trade Day. If the total number of Units (for which Redemption Applications have been received by the Manager) on a Trade Date exceeds 10% (or such higher percentage as the Manager may determine) of the NAV of the Fund on that day, the Manager shall be entitled to limit the total number of Units to be redeemed on that day to 10% (or such higher percentage as the Manager may</u></p>

NO.	(A) PROSPECTUS	(B) REPLACEMENT PROSPECTUS
		<p>determine) of the NAV of the Fund;</p> <p>c) <u>The Fund may hold a maximum of 10% of its NAV in money market instruments and/or deposits. This will allow the Fund to have sufficient buffer to meet any Redemption Applications;</u></p> <p>d) <u>The Fund may borrow up to 10% of the Fund’s NAV for the purpose of meeting Redemption Applications, where the borrowing period must not exceed one month; and</u></p> <p>e) <u>Suspension of Redemption Applications under exceptional circumstances where the market value or fair value of a material portion of the Fund Assets cannot be determined as a result of political, military, economic or monetary events or other circumstances beyond the control, responsibility and power of the Manager. During the suspension period, the Redemption Applications will not be accepted and such Redemption Applications will be dealt on the next Business Day once the suspension is lifted. That said, the action to suspend Redemption Applications shall be exercised only as a last resort by the Manager having considered the best interests of Unit Holders.</u></p> <p><u>Investors should note that there is a risk that the tools available may be ineffective to manage liquidity and redemption risk.</u></p>
7.2	<p>2.1 General Risks of Investing in ETFs and the Fund in Particular</p> <p>➤ Trading in Units on Bursa Securities may be Suspended or Units may be De-Listed Unit Holders and potential Unit Holders will not be able to buy, nor will Unit Holders be able to sell Units on Bursa Securities during any period in which trading of the Units is suspended. Bursa Securities may suspend the trading of Units pursuant to Bursa Securities’ rules and policies whenever Bursa Securities determines that it is appropriate in the interests of a fair and/orderly market to protect Unit Holders. The creation and</p>	<p>➤ Trading in Units on Bursa Securities may be Suspended or Units may be De-Listed Unit Holders and potential Unit Holders will not be able to buy, nor will Unit Holders be able to sell Units on Bursa Securities during any period in which trading of the Units is suspended. Bursa Securities <u>or the Manager</u> may suspend the trading of Units pursuant to Bursa Securities’ rules and policies <u>whenever</u> it is appropriate <u>and</u> in the interests of a fair and orderly market to protect Unit Holders. 	<p>redemption of Units may also be suspended if the trading of Units is suspended.</p> <p>Further, Bursa Securities imposes certain requirements for the continued listing of securities, including the Units, on Bursa Securities. Investors cannot be assured that the Fund will continue to meet the requirements necessary to maintain the listing of the Units on the Main Market or that Bursa Securities will not change the Listing Requirements. The Fund may be terminated if its Units are de-listed from Bursa Securities.</p>	<p>Further, Bursa Securities imposes certain requirements for the <u>continuous</u> listing of securities, including the Units, on Bursa Securities. Investors cannot be assured that the Fund will continue to meet the requirements necessary to maintain the listing of the Units on the Main Market <u>of Bursa Securities</u> or that Bursa Securities will not change the Listing Requirements. The Fund may be terminated if its Units are de-listed from Bursa Securities.</p>
7.3	-	<p>Inserted under “2.2 Specific Risks of Investing in the Fund” after “Securities Lending Transactions Risk”:</p> <ul style="list-style-type: none"> ➤ <u>Risk Associated with Investments in Collective Investment Schemes</u> <u>Any adverse effect on the collective investment scheme which the Fund is investing in will impact the NAV of the Fund. For example, the respective collective investment schemes may underperform its benchmark due to poor market conditions and as a result, the NAV of the Fund will be adversely affected as the performance of the Fund is dependent on the performance of the respective collective investment schemes. In addition, any mismanagement of the collective investment scheme or poor decisions taken on the collective investment scheme may adversely affect the net asset value of the collective investment scheme and hence the Fund.</u> ➤ <u>Credit and Default Risk</u> <u>Credit risk relates to the creditworthiness of the issuers of the money market instruments and the Financial Institutions where the deposits are placed (hereinafter referred to as “investment”) and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer and/or Financial Institution may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk of an issuer and/or a Financial Institution of the investment either defaulting on payments or failing to make</u>

NO.	(A) PROSPECTUS	(B) REPLACEMENT PROSPECTUS
		<p>payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.</p> <p>➤ Interest Rate Risk <u>This risk refers to the impact of interest rate changes on the valuation of money market instruments (hereinafter referred to as “investment”). Generally, movement in interest rates affects the prices of investment inversely. For example, when interest rates rise, prices of investment will fall. The fluctuations of the prices of investment will also have an impact on the NAV of the Fund. This risk can largely be eliminated by holding investment until their maturity. We also manage interest rate risk by considering each investment’s sensitivity to interest rate changes. When interest rates are expected to increase, the Fund would then likely seek to switch to investment that are less sensitive to interest rate changes. For investment in deposits, the fluctuations in the interest rates will not affect the placement of deposits but will result in the opportunity loss by the Fund if the placement of deposits is made at lower interest rate.</u></p>

During the financial year ended 2024, there were no public sanction or penalty that was imposed on the management company by the relevant regulatory bodies.

The Custodian (Trustee’s Delegate)

The Trustee has appointed Standard Chartered Bank Malaysia Berhad (“SCBMB”) as the custodian of the quoted and unquoted investments of the Fund. SCBMB was incorporated in Malaysia under the same name on 29 February 1984 under the Companies Act 1965 as a public limited company and is a subsidiary of Standard Chartered PLC (the holding company of a global banking group). SCBMB was granted a license on 1 July 1994 under the Financial Services Act 2013.

SCBMB is responsible for the Fund’s assets settlement and custodising the Fund’s asset. The assets are held in the name of the Fund through the custodian’s wholly owned subsidiary and nominee company, Cartaban Nominees (Tempatan) Sdn Bhd. All investments are automatically registered into the name of the Fund. The custodian acts only in accordance with the instructions from the Trustee.

TRUSTEE'S REPORT

TO THE UNIT HOLDERS OF TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER ("Fund")

We have acted as Trustee of the Fund for the financial year ended 31 March 2024 and we hereby confirm to the best of our knowledge, after having made all reasonable enquiries, AHAM Asset Management Berhad has operated and managed the Fund during the year covered by these financial statements in accordance with the following:

1. Limitations imposed on the investment powers of the management company under the Deed, securities laws and the Guidelines on Exchange-Traded Funds;
2. Valuation and pricing is carried out in accordance with the deed; and
3. Any creation and cancellation of units are carried out in accordance with the Deed and any regulatory requirement.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

SUMMARY OF MATERIAL ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024

The following accounting policies have been used in dealing with items which are considered material in relation to the financial statements.

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”) and International Financial Reporting Standards (“IFRS”). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with MFRS and IFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported financial year. It also requires the Manager to exercise their judgement in the process of applying the Fund’s accounting policies. Although these estimates and judgement are based on the Manager’s best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note J.

- (a) Standards, amendments to published standards and interpretations that are applicable and effective:

There are no standards, amendments to standards or interpretations that are applicable and effective for annual periods beginning on 1 January 2023 that have a material effect on the financial statements of the Fund.

- (b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective:

- Amendments to MFRS 101 ‘Classification of liabilities as current or non-current’ (effective 1 January 2024) clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity’s expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). In addition, the amendments clarify that when a liability could be settled by the transfer of an entity’s own equity instruments (e.g. a conversion option in a convertible bond), conversion option meeting the definition of an equity instrument in MFRS 132 ‘Financial Instruments: Presentation’ does not impact the current or non-current classification of the convertible instrument.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

SUMMARY OF MATERIAL ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

A BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (CONTINUED)

- (b) Standards and amendments that have been issued that are applicable to the Fund but not yet effective: (continued)

The amendments also specify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification of a liability as current or non-current, even if the covenant is only assessed after the reporting date.

The adoption of the above standards, amendments to standards or interpretations is not expected to have a material effect on the financial statements of the Fund.

B INCOME RECOGNITION

Dividend income

Dividend income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income as part of gross dividend income on the ex-dividend date, when the right to receive the dividend has been established.

Realised gains and losses on sale of investments

For quoted investments, realised gains and losses on sale of investments are accounted for as the difference between the net disposal proceeds and the carrying amount of investments, determined on a weighted average cost basis.

C TRANSACTION COSTS

Transaction costs are costs in relation to any particular transaction or dealing, all stamp duty and other duties, taxes, government charges, brokerage fees, bank charges, transfer fees, registration fees, transaction levies, and other duties and charges whether in connection with the Fund's Assets or the creation, issue, transfer, cancellation or redemption of units or the acquisition or disposal of Fund's assets or otherwise which may have become or may be payable in respect of, and whether prior to, upon or after the occasion of, such transaction or dealing. Transaction costs, when incurred, are immediately recognised in the statement of comprehensive income as expenses.

D TAXATION

Current tax expense is determined according to the Malaysian tax laws at the current rate based upon the taxable profits earned during the financial year.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

SUMMARY OF MATERIAL ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

E FUNCTIONAL AND PRESENTATION CURRENCY

Items included in the financial statements of the Fund are measured using the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements are presented in Ringgit Malaysia (“RM”), which is the Fund’s functional and presentation currency.

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES

(i) Classification

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss, and
- those to be measured at amortised cost.

The Fund classifies its investments based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed, and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as financial assets measured at fair value through other comprehensive income.

The contractual cash flows of the Fund’s debt securities are solely payments of principal and interest (“SPPI”). However, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund’s business model’s objective. Consequently, all investments and derivatives not designated as hedging instruments are measured at fair value through profit or loss.

The Fund classifies cash and cash equivalents and dividends receivable as financial assets measured at amortised cost as these financial assets are held to collect contractual cash flows consisting of the amount outstanding.

The Fund classifies amount due to Manager, amount due to Trustee, payables for tax agent’s fee and other payables and accruals as financial liabilities measured at amortised cost.

(ii) Recognition and measurement

Regular purchases and sales of financial assets are recognised on the trade-date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognised at fair value. Transaction costs are expensed in the statement of comprehensive income.

Financial liabilities, within the scope of MFRS 9, are recognised in the statement of financial position when, and only when, the Fund becomes a party to the contractual provisions of the financial instrument.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

SUMMARY OF MATERIAL ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(ii) Recognition and measurement (continued)

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expired.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category is presented in the statement of comprehensive income within 'net gain/(loss) on financial assets at fair value through profit or loss' in the period which they arise.

The fair value of financial assets traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the last traded market price for financial assets where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of the fair value.

If a valuation based on the market price does not represent the fair value of the securities, for example during abnormal market conditions or when no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee, then the securities are valued as determined in good faith by the Manager, based on the methods or basis approved by the Trustee after appropriate technical consultation.

Financial assets at amortised cost and other financial liabilities are subsequently carried at amortised cost using the effective interest method.

(iii) Impairment

The Fund's financial assets measured at amortised cost are subject to expected credit losses. The Fund measures credit risk and expected credit losses using probability of default, exposure at default and loss given default. Management considers both historical analysis and forward-looking information in determining any expected credit loss. Management considers the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund.

Significant increase in credit risk

A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

SUMMARY OF MATERIAL ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

F FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONTINUED)

(iii) Impairment (continued)

Definition of default and credit-impaired financial assets

The Fund defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

Any contractual payment which is more than 90 days past due is considered credit-impaired.

Qualitative criteria:

The debtor meets unlikeliness to pay criteria, which indicates the debtor is in significant financial difficulty. The Fund considers the following instances:

- the debtor is in breach of financial covenants;
- concessions have been made by the lender relating to the debtor's financial difficulty;
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganization; and
- the debtor is insolvent.

Financial instruments that are credit-impaired are assessed on individual basis.

Write-off

The Fund writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount.

The Fund may write off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in bad debt recoveries. There are no write-offs/recoveries during the financial year.

G CASH AND CASH EQUIVALENTS

For the purpose of statement of cash flows, cash and cash equivalents comprise cash and bank balances and short-term deposits held in highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

SUMMARY OF MATERIAL ACCOUNTING POLICIES FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

H UNITHOLDERS' CAPITAL

The unitholders' contributions to the Fund meet the criteria to be classified as equity instruments under MFRS 132 "Financial Instruments: Presentation". Those criteria include:

- the units entitle the holder to a proportionate share of the Fund's net asset value ("NAV");
- the units are the most subordinated class and class features are identical;
- there are no contractual obligations to deliver cash or another financial asset other than the obligation on the Fund to repurchase; and
- the total expected cash flows from the units over its life are based substantially on the profit or loss of the Fund.

The outstanding units are carried at the redemption amount that is payable at each financial year if unitholders exercise the right to put the unit back to the Fund.

Units are created and cancelled at the Participating Dealer's option at prices based on the Fund's NAV per unit at the time of creation or cancellation. The Fund's NAV per unit is calculated by dividing the net assets attributable to unitholders with the total number of outstanding units.

I SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the strategic asset allocation committee of the Manager that makes strategic decisions.

J CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information contents on the estimates, certain key variables that are anticipated to have material impact to the Fund's results and financial position are tested for sensitivity to changes in the underlying parameters.

Estimates and judgements are continually evaluated by the Manager and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

However, the Manager is of the opinion that there are no accounting policies which require significant judgement to be exercised.

In undertaking any of the Fund's investment, the Manager will ensure that all assets of the Fund under management will be valued appropriately, that is at fair value and in compliance with the Securities Commission's ("SC") Guidelines on Exchange-Traded Funds.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024

1 INFORMATION ON THE FUND

The Exchange-Traded Fund was constituted under the name TradePlus DWA Malaysia Momentum Tracker (the “Fund”) pursuant to the execution of a Deed dated 21 February 2020 and modified by First Supplemental Deed dated 2 June 2023 (the “Deeds”) entered into between AHAM Asset Management Berhad (the “Manager”) and TMF Trustees Malaysia Berhad (the “Trustee”).

The Fund commenced operations on 13 July 2020 and will continue its operations until terminated by the Trustee as provided under Section 26 of the Deed.

The Fund may invest in the following permitted investments:

- (i) Authorised Securities;
- (ii) Derivatives;
- (iii) Units or shares in collective investment schemes;
- (iv) Money market instruments;
- (v) Deposits; and
- (vi) Any other investments permitted by the SC from time to time.

All investments will be subjected to the SC’s Guidelines on Exchange-Traded Funds, the Deed and the objective of the Fund.

The Fund is listed on the main market of Bursa Malaysia and its objective is to provide investment results that closely correspond to the performance of the Dorsey Wright Technical Leaders Malaysia Index (“Benchmark Index”) – an equally weighted index which is designed to measure the performance of the top 20 Malaysian listed companies that demonstrates powerful relative strength, i.e. the top 20 Malaysian listed companies with the highest momentum movement in pricing measured based on historical price activity.

The Manager is a company incorporated in Malaysia. The principal activities of the Manager are establishment and management of unit trust funds, exchange-traded funds and private retirement schemes as well as providing fund management services to private clients.

The financial statements were authorised for issue by the Manager on 20 May 2024.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

2 FINANCIAL INSTRUMENTS, RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk

The Fund is exposed to a variety of risks which include market risk (price risk), credit risk, liquidity risk and capital risk.

Financial risk management is carried out through internal control processes adopted by the Manager and adherence to the investment restrictions as stipulated by the SC's Guidelines on Exchange-Traded Funds.

(a) Price risk

Price risk arises mainly from the uncertainty about future prices of investments. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Fund is structured as an index tracking fund that tracks its benchmark index, the Dorsey Wright Technical Leaders Malaysia Index, which comprises of a diversified list of equity securities in its constituents. As such, the Manager believes that the Fund is able to minimise its price risk through the diversification that it has in its portfolio of underlying securities that replicates its benchmark index.

The Fund's overall exposure to price risk was as follows:

	<u>2024</u> RM	<u>2023</u> RM
Quoted investments		
Quoted equities	1,111,165	915,510

The table below summarises the sensitivity of the Fund's profit or loss, and NAV to movements in prices of its benchmark index. The analysis is based on the assumption that the benchmark index fluctuates by 9.38% (2023: 7.04%), which is the 1-year annualised standard deviation as at 31 March 2024. If all other variables are held constant, and that the fair value of the investments move in the same quantum with the fluctuation of the Benchmark Index, this would represent the Management's best estimates of a reasonable possible shift in the quoted securities.

The Fund's overall exposure to price risk was as follows:

<u>% Change in benchmark index</u>	<u>Market value</u> RM	Impact on profit /(loss) after <u>tax/NAV</u> RM
<u>2024</u>		
-9.38%	1,006,938	(104,227)
0%	1,111,165	-

<u>% Change in benchmark index</u>	<u>Market value</u> RM	Impact on profit/(loss) after tax/NAV RM
<u>2023</u>		
-7.04%	851,058	(64,452)
0%	915,510	-
+7.04%	979,962	64,452
	<u><u> </u></u>	<u><u> </u></u>

Credit risk

Credit risk refers to the ability of an issuer or counterparty to make timely payments of interest, principals and proceeds from realisation of investments. The Manager manages the credit risk by undertaking credit evaluation to minimise such risk.

Credit risk arising from cash and bank balances is managed by ensuring that they are held by parties with credit rating of AA or higher.

The following table sets out the credit risk concentrations of the Fund:

	<u>Cash</u> <u>and cash</u> <u>equivalents</u> RM	<u>Dividends</u> <u>receivable</u> RM	<u>Total</u> RM

	<u>12,469</u>	<u>1,539</u>	<u>14,008</u>

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its financial obligations. The Manager manages this risk by maintaining sufficient level of cash to meet anticipated payments for operating expenses and cancellation of units by unitholders.

The Fund's units can be redeemed either in-kind or in cash. For in-kind redemptions, an in-kind redemption basket comprising the authorised securities of the Fund, determined by the Manager on each dealing day will be delivered to the investor. For cash redemptions, a redemption basket of securities is liquidated and a cash sum equivalent to the redemption price multiplied by the number of units redeemed will be delivered to the investors. The Fund maintains a sufficient amount of cash and liquid securities to meet the ongoing operating expenses and liquidity requirements of the Fund.

Other payables and accruals	-	950	950
	<u>423</u>	<u>4,450</u>	<u>4,873</u>

Capital risk

The capital of the Fund is represented by equity consisting of unitholders' capital and retained earnings (2023: unitholders' capital net of accumulated losses). The amount of equity can change significantly on a daily basis as the Fund is subject to daily subscriptions and redemptions at the discretion of unitholders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unitholders and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Fund.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

3 FAIR VALUE ESTIMATION

Financial instruments comprise financial assets and financial liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of financial assets traded in active markets (such as trading securities) is based on quoted market prices at the close of trading on the financial year end date. The Fund utilises the bid price for financial assets which falls within the bid-ask spread.

An active market is a market in which transactions for the asset take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value of financial assets that are not traded in an active market is determined by using valuation techniques.

(i) Fair value hierarchy

The table below analyses financial instruments carried at fair value. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active market for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2)
- Inputs for the asset and liability that are not based on observable market data (that is, unobservable inputs) (Level 3)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Fund. The Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

3 FAIR VALUE ESTIMATION (CONTINUED)

(i) Fair value hierarchy (continued)

The following table analyses within the fair value hierarchy the Fund's financial assets (by class) measured at fair value:

	<u>Level 1</u> RM	<u>Level 2</u> RM	<u>Level 3</u> RM	<u>Total</u> RM
<u>2024</u>				
Financial assets at fair value through profit or loss:				
- quoted equities	<u>1,111,165</u>	<u>-</u>	<u>-</u>	<u>1,111,165</u>
<u>2023</u>				
Financial assets at fair value through profit or loss:				
- quoted equities	<u>915,510</u>	<u>-</u>	<u>-</u>	<u>915,510</u>

Investments whose values are based on quoted market prices in active markets, and are therefore classified within Level 1, include active listed equities. The Fund does not adjust the quoted prices for these instruments.

- (ii) The carrying values of cash and cash equivalents, dividends receivable and all current liabilities are a reasonable approximation of the fair values due to their short-term nature.

4 MANAGEMENT FEE

In accordance with the Deed, the Manager is entitled to a management fee at a rate up to 3.00% per annum of the NAV of the Fund, calculated on a daily basis.

For the financial year ended 31 March 2024, management fee is recognised at a rate of 0.50% (2023: 0.50%) per annum on the NAV of the Fund, calculated on a daily basis.

There will be no further liability to the Manager in respect of management fee other than the amounts recognised above.

TRADEPLUS DWA MALAYSIA MOMENTUM TRACKER

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2024 (CONTINUED)

5 TRUSTEE FEE

In accordance with the Deed, the Trustee is entitled to an annual fee, at a rate up to 0.10% per annum of the NAV of the Fund, calculated on a daily basis (excluding foreign sub-custodian fees and charges).

For the financial year ended 31 March 2024, the Trustee fee is recognised at a rate of 0.04% (2023: 0.04%) per annum on the NAV of the Fund, calculated on a daily basis as stated in the Fund's Prospectus.

There will be no further liability to the Trustee in respect of Trustee fee other than the amount recognised above.

6 INDEX LICENCE FEE

The index licence fee is recognised at minimum of USD10,000 (2023: USD10,000) per annum or 0.12% (2023: 0.12%) of the average daily asset under management, whichever is higher.

The Index Licence Fee was borne by the Manager for the financial year ended 31 March 2024 and 31 March 2023.

7 AUDITORS' REMUNERATION

Auditors' remuneration of the Fund is recognised at RM20,000 (2023: RM20,000).

Auditors' remuneration were borne by the Manager for the financial year ended 31 March 2024 and 31 March 2023.

8 TAX AGENT'S FEE

Tax agent's fee of RM3,500 is recognised during the financial year ended 31 March 2024 and 31 March 2023.

15 PORTFOLIO TURNOVER RATIO (“PTR”)

	<u>2024</u>	<u>2023</u>
PTR (times)	<u>1.40</u>	<u>2.01</u>

PTR is derived from the following calculation:

$$\frac{(\text{Total acquisition for the financial year} + \text{total disposal for the financial year}) \div 2}{\text{Average NAV of the Fund for the financial year calculated on a daily basis}}$$

where: total acquisition for the financial year = RM1,255,001 (2023: RM1,921,574)
total disposal for the financial year = RM1,218,047 (2023: RM2,191,681)

16 SEGMENT INFORMATION

The strategic asset allocation committee of the Investment Manager makes the strategic resource allocations on behalf of the Fund. The Fund has determined the operating segments based on the reports reviewed by the Manager that are used to make strategic decisions.

The committee is responsible for the Fund’s entire portfolio and considers the business to have a single operating segment. The committee’s asset allocation decisions are based on a single, integrated investment strategy and the Fund’s performance is evaluated on an overall basis.

The reportable operating segments derive their income by seeking investments to achieve targeted returns consummate with an acceptable level of risk within each portfolio. These returns consist of dividends and gains on the appreciation in the value of investments and are derived from quoted equities in Malaysia.

The Fund has a diversified unitholders population. However, as at 31 March 2024, there were 1 (2023: 1) unitholders who held more than 10% of the Fund’s NAV. The unitholders’ holdings were 49.51% (2023: 40.23%) respectively.

There were no changes in the reportable segments during the financial year.

The internal reporting provided to the committee for the Fund’s assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of MFRS and IFRS.

INDEPENDENT AUDITORS' REPORT
TO THE UNITHOLDERS OF TRADEPLUS DWA MALAYSIA MOMENTUM
TRACKER

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of TradePlus DWA Malaysia Momentum Tracker (“the Fund”) give a true and fair view of the financial position of the Fund as at 31 March 2024, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

What we have audited

We have audited the financial statements of the Fund, which comprise the statement of financial position as at 31 March 2024, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 1 to 30.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the “Auditors’ responsibilities for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

**INDEPENDENT AUDITORS' REPORT
TO THE UNITHOLDERS OF TRADEPLUS DWA MALAYSIA MOMENTUM
TRACKER (CONTINUED)**

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements of the Fund. In particular, we considered where the Manager made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Fund, the accounting processes and controls, and the industry in which the Fund operates.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Fund for the financial current year. These matters were addressed in the context of our audit of the financial statements of the Fund as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p>Valuation and existence of financial assets at fair value through profit or loss</p> <p>Refer to Note F, Note 3 and Note 10 to the financial statements.</p> <p>The investment portfolio at the financial year end comprised quoted equities valued at RM1,111,165.</p> <p>We focused on the valuation and existence of investments because they represent the most significant elements of the net assets recognised in the financial statements.</p>	<p>We have tested the valuation of the quoted equities as at financial year end by independently agreeing the prices used in the valuation to the quoted prices published by the relevant stock exchanges.</p> <p>We have tested the existence of the investment portfolio by obtaining independent confirmation from the custodian of the investment portfolio held as at 31 March 2024.</p>

TRACKER (CONTINUED)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Manager of the Fund is responsible for the other information. The other information comprises the Manager's Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager of the Fund is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal controls as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to terminate the Fund, or has no realistic alternative but to do so.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- (d) Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

- (e) Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the Fund for the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
