and its subsidiaries

EXPLANATORY NOTES:

A1. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with MFRS 134, Interim Financial Reporting issued by the Malaysian Accounting Standards Board ("MASB") and paragraph 9.22 of the Listing Requirements of Bursa Malaysia. These financial statements also comply with IAS 34, Interim Financial Reporting.

The financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the annual financial statements of the Group for the financial year ended 31 March 2013 which are available upon request from the Company's registered office at Level 22, Bangunan AmBank Group, No. 55, Jalan Raja Chulan, 50200 Kuala Lumpur.

These condensed consolidated interim financial statements incorporate those activities relating to Islamic banking which have been undertaken by the Group. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic securities under Shariah principles.

The accounting policies and methods of computation applied in these condensed consolidated interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 March 2013 except for the adoption of the following financial reporting standards, which did not have any impact on the accounting policies, financial position or performance of the Group:

Standards effective for financial year ending 31 March 2014:

- MFRS 3, Business Combinations (IFRS 3, Business Combinations issued by IASB in March 2004)
- MFRS 10. Consolidated Financial Statements
- MFRS 11, Joint Arrangements
- MFRS 12, Disclosure of Interests in Other Entities
- MFRS 13, Fair Value Measurement
- MFRS 127, Separate Financial Statements
- MFRS 128, Investments in Associates and Joint Ventures
- Amendments to MFRS 7, Disclosures: Offsetting Financial Assets and Financial Liabilities
- Amendments to MFRS 10, MFRS 11 and MFRS 12: Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance
- Amendments to MFRS 101, Presentation of Items of Other Comprehensive Income
- Amendments to MFRSs contained in the document entitled "Annual Improvements 2009–2011 Cycle"

Standards issued but not yet effective

The following are financial reporting standards issued by MASB that will be effective for the Group in future years. The Group intends to adopt the relevant standards when they become effective.

Standards effective for financial year ending 31 March 2015:

- Amendments to MFRS 10, MFRS 12 and MFRS 127: Investment Entities
- Amendments to MFRS 132: Offsetting Financial Assets and Financial Liabilities
- Amendments to MFRS 136: Recoverable Amount Disclosures for Non-Financial Assets
- Amendments to MFRS 139: Novation of Derivatives and Continuation of Hedge Accounting
- IC Interpretation 21: Levies

Standards effective for financial year ending 31 March 2016:

- MFRS 9, Financial Instruments

Accounting for acquisition of AmGeneral Insurance Berhad in previous financial period

Upon completion of the purchase price allocation exercise and allocation of goodwill to the relevant cash generating units, the carrying amount of intangible assets and residual goodwill are adjusted accordingly on a retrospective basis. The financial effects arising from these adjustments are disclosed in Note A32.

A2. AUDIT QUALIFICATION

There was no audit qualification in the annual financial statements for the year ended 31 March 2013.

A3. SEASONALITY OR CYCLICALITY OF OPERATIONS

The operations of the Group are not materially affected by any seasonal or cyclical fluctuation in the current financial quarter.

A4. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE OR INCIDENCE

There were no unusual items during the current financial quarter.

A5. CHANGES IN ESTIMATES

Following the revision of Bursa rules, with effect from 2 May 2013, the Group revised its impairment assessment for the stockbroking business to be fully MFRS compliant.

In accordance with MFRS, where there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred.)

Estimated future cash flows evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data and management expert judgement to reflect the effects of current conditions on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently.

Other than as disclosed above, there was no material changes in estimates of amounts reported in the prior financial years that have a material effect on the financial period ended 31 December 2013.

A6. ISSUANCE, REPURCHASE AND REPAYMENT OF DEBT AND EQUITY SECURITIES

The Company has issued an additional tranche of senior medium term notes amounting to RM400.0 million under its Medium Term Note Programme during the financial period ended 31 December 2013.

There were no share buy-backs, share cancellations, shares held as treasury shares nor resale of treasury shares by the Company during the financial quarter.

A7. DIVIDENDS PAID

During the financial period ended 31 December 2013, a final single tier dividend of 15.0% for the financial year ended 31 March 2013 amounting to RM452,127,727 was paid on 12 September 2013 to shareholders whose names appear in the record of Depositors on 30 August 2013.

Property and equipment are stated at cost less accumulated depreciation and impairment losses.

A25. EVENTS SUBSEQUENT TO REPORTING DATE

There were no other significant events subsequent to reporting date other than as disclosed in Note B6.

A26. CHANGES IN THE COMPOSITION OF THE GROUP AND THE COMPANY

There were no material changes in the composition of the Group and the Company for the current financial quarter.

A27. COMMITMENTS AND CONTINGENCIES

In the normal course of business, AmBank (M) Berhad, AmInvestment Bank Berhad, AmIslamic Bank Berhad and AmInternational (L) Ltd, make various commitments and incur certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions other than those where provision had been made in the financial statements. The commitments and contingencies are not secured against the Group's assets.

A27. COMMITMENTS AND CONTINGENCIES (CONT'D.)

As at the reporting date, other commitments and contingencies of the Group and of the Company are as follows:

- (a) The Company has given unsecured guarantees amounting to RM150,000,000 (31 March 2013: RM225,000,000) on behalf of a subsidiary for the payment and discharge of all monies due on trading accounts maintained by customers with the said subsidiary.
- (b) The Company has given a continuing undertaking totalling SGD40,000,000 (31 March 2013: SGD40,000,000) to the Monetary Authority of Singapore on behalf of AmFraser Securities Pte Ltd to meet its liabilities and financial obligations and requirements.
- (c) AmBank (M) Berhad has given a continuing guarantee to Labuan Financial Services Authority ("LFSA") on behalf of AmInternational (L) Ltd ("AMIL"), AmBank's offshore banking subsidiary, to meet all its liabilities and financial obligations and requirements.
- (d) The Company has given a guarantee to HSI Services Limited ("HSI") and Hang Seng Data Services Limited ("HSDS") on behalf of its subsidiary, AmLife Insurance Berhad ("AmLife"), for the performance and discharge by AmLife of its obligations under the licence agreement with HSI and HSDS for use of the Hang Seng China Enterprise Index in respect of AmLife's investment-linked product called AmAsia Link-Capital Guaranteed Fund.
- (e) AmTrustee Berhad ("AmTrustee") was served with a Writ and Statement of Claim dated 12 December 2005 by solicitors acting for Meridian Asset Management Sdn Bhd ("Meridian") for alleged loss and damage amounting to RM27,606,169.65 together with interest and costs arising from the provision of custodian services by AmTrustee to Meridian ("Meridian Suit").

AmTrustee was served on 24 March 2006 with a Writ and Statement of Claim dated 25 January 2006 by solicitors acting for Malaysian Assurance Alliance Berhad ("MAA") for alleged loss and damages amounting to RM19,602,119.23 together with interest and costs ("MAA Suit"). MAA had appointed Meridian as an external fund manager for certain of its insurance funds, and part of the insurance funds were deposited by Meridian with AmTrustee. The claim by MAA in the MAA Suit is part of the portion of the claim as mentioned in the above Meridian Suit. Just before the trial proceeded, MAA added Meridian as a Co-Defendant in the MAA Suit.

AmTrustee was also served on 2 September 2009 with a copy of a Third Party Notice dated 12 August 2009 by solicitors acting for Meridian. The Third Party Notice was taken against AmTrustee by Meridian to indemnify Meridian on a suit filed by Kumpulan Wang Persaraan (DiPerbadankan) ("KWAP") against Meridian in 2007. AmTrustee filed an application to strike out the Third Party Notice. The court allowed AmTrustee's application. Meridian appealed against this decision to the Court of Appeal and the Court of Appeal dismissed the appeal on 1 November 2010 ("Order"). With this Order, AmTrustee is no longer involved in KWAP's claim against Meridian. Decision was handed down by the High Court against Meridian in KWAP's claim on 5 May 2012 for a sum of RM7,254,050.42 with interest on the said sum from the date of the misappropriation of the said sum to the date of judgment and a further interest of 8% on the said sum from the date of judgment to the date of settlement of the judgment sum.

In the MAA Suit, prior to the commencement of the trial, MAA amended its Statement of Claim to include Meridian as a second Defendant. Prior to this MAA's amendment, AmTrustee had already filed a Third Party Notice against Meridian on 6 November 2006 in the MAA Suit seeking indemnification/contribution from Meridian. Meridian in turn filed a counter claim against AmTrustee over AmTrustee's Third Party Notice which in essence introduced the same argument and claim as in their Meridian Suit.

Parties filed several interim applications in the Meridian Suit amongst which was an application by Meridian to:-

- add another subsidiary of the Banking Group, namely AmInvestment Bank Berhad as Co-Defendant; and
- to increase the alleged loss and damage from RM27,606,169.65 to RM36,967,166.84.

The High Court dismissed Meridian's application to add AmInvestment Bank Berhad as a party to the Meridian's Suit "Order" but allowed Meridian's application to increase its claim against AmTrustee from RM27,606,169.65 to RM36,967,166.84. No appeal was filed by Meridian against this "Order", hence no litigation is pending today against AmInvestment Bank Berhad by Meridian.

As facts of both the Meridian and MAA suit are similar in nature with the same parties involved, the court has ordered that these two suits are to be heard together.

Trial proceeded on 3rd to 5th of December 2012 and on 10th and 13th December 2012 and continued on 18th to 20th February 2013. Matter was fixed for decision and or clarification on 11 April 2013.

After clarification of the matter on 11 April 2013 the court decided as follows ("Decision"):

A27. COMMITMENTS AND CONTINGENCIES (CONT'D.)

(e) In the MAA Suit:

- the court dismissed MAA's claim against AmTrustee with costs of RM100,000.00 and interest at 5% on the cost from the date of the decision to the date of settlement. Meridian on the other hand was found to be fully liable to MAA and was ordered to pay the sum of RM19,602,119.23 with interest from the date of filing of the writ to the date of realization and costs of RM100,000.00 with interest at 5% on the cost from the date of the decision to the date of settlement.

In the Meridian Suit:

- the court found that AmTrustee is liable to contribute and indemnify Meridian for 40% of the amount that Meridian has been found liable to MAA and KWAP.

This essentially means that Meridian has to pay MAA and KWAP for all the damages claimed by MAA and KWAP and AmTrustee has to pay 40% of that amount that Meridian has paid to MAA and KWAP. Court further awarded Meridian to pay AmTrustee cost of RM20,000.00.

Both Meridian and MAA to date have filed their appeals (against the Decision on 8 May 2013 and 9 May 2013 respectively. The appeals were called up for Case Management on 20 June 2013, wherein parties were directed to take steps prior to the actual hearing of the appeals and is now refixed for further Case Management on 6 August 2013.

Am Trustee obtained solicitors advice on MAA appeal and Meridian appeal. AmTrustee's solicitors advised Am Trustee to file its cross appeals against MAA's appeal and Meridian's appeal so as to reduce Am Trustee's 40% contribution of amount that Meridian has paid to MAA and KWAP. Am Trustee's solicitors are of the view that Am Trustee has a fair chance of succeeding in its cross-appeals.

On 6 August 2013, the Court of Appeal ordered MAA and Meridian to file their Supplementary Record of Appeal by 23 August 2013 and AmTrustee to file its notice of cross-appeals by 2 September 2013.

On 23 August 2013, MAA and Meridian filed their Supplementary Record of Appeal on 23 August 2013 and AmTrustee filed its notice of cross-appeals on 30 August 2013.

Altogether, there will be 6 appeals by the parties in the Court of Appeal:

MAA Suit:

- (i) MAA's appeal against the Decision in the MAA Suit;
- (ii) Meridian's appeal against the Decision in the MAA Suit;
- (iii) AmTrustee's cross-appeal against MAA's appeal in the MAA Suit;
- (iv) AmTrustee's cross-appeal against Meridian's appeal in the MAA Suit;

Meridian's Suit: (v) Meridian's appeal against the Decision in the Meridian Suit;

(vi) AmTrustee's appeal against Meridian's appeal in the Meridian Suit.

The Court of Appeal was fixed the appeals for further case management on 5 September 2013 for parties to update Court of Appeal on the status of their appeals. On 5 September 2013 the Court of Appeal fixed 29 January 2014 for the parties to file Written Submissions. The Court of Appeal also had fixed the hearing on the appeals and cross appeals on 14 February 2014.

On 22 November 2013, the Court of Appeal notified that hearing for the appeals is now re-scheduled to 21 April 2014.

Purpose of engaging in financial derivatives

Financial derivative instruments are contracts whose value is derived from one or more underlying financial instruments or indices. They include swaps, forward rate agreements, futures, options and combinations of these instruments. Derivatives are contracts that transfer risks, mainly market risks. Financial derivative is one of the financial instruments engaged by the Group both for client solutions generating revenue for future as well as to manage the Group's own market risk exposure.

The principal foreign exchange rate contracts used are forward foreign exchange contracts, cross currency swaps and foreign exchange options. Forward foreign exchange contracts are agreements to buy or sell a specified quantity of foreign currency on a specified future date at an agreed rate. A cross currency swap generally involves the exchange, or notional exchange, of equivalent amounts of two currencies and a commitment to exchange interest periodically until the principal amounts are reexchanged on a future date. A foreign exchange option is a financial derivative that provides the buyer of the option with the right, but not obligation, to buy/sell a specified amount of one currency for another currency at a nominated strike rate during a certain period of time or on a specific date.

A28. DERIVATIVE FINANCIAL ASSETS/LIABILITIES (CONT'D.)

Purpose of engaging in financial derivatives (Cont'd.)

An Interest Rate Option ("IRO") is a financial derivative that provides the buyer of the option with the right, but not obligation, to buy/sell a specified underlying interest rate related asset e.g. the KLIBOR index at a nominated strike rate during a certain period of time or on a specific date. Basic IRO includes interest rate cap and interest rate floor.

The principal interest rate contracts used are interest rate futures, interest rate swaps and forward rate agreements. Forward rate agreements are contracts for the payment of the difference between a specified interest rate and a reference rate on a notional deposit at a future settlement date. There is no exchange of principal. An interest rate futures contract is an exchange traded contract whose value is based on the difference between a specific interest rate and a reference rate on a notional deposit or fixed income security at a future settlement date. Interest rate swap transactions generally involve the exchange of fixed and floating interest payment obligations without the exchange of the underlying principal amounts.

The principal equity contracts used are equity option, equity futures and equity swaps. An equity option is a financial derivative that represents a contract sold by one party (option writer) to another party (option holder). The contract offers the buyer the right, but not the obligation, to buy (call) or sell (put) an equity at an agreed-upon price (the strike price) during a certain period of time or on a specific date (exercise date). An equity futures contract is an exchange traded contract to buy specific quantities of an equity at a specified price with delivery set at a specified time in the future. Equity Swaps are one of the most basic equity derivatives products and are usually traded over-the-counter ("OTC") with financial institutions and corporates. It is a contractual agreement between parties to exchange two streams of payments, one based on a predetermined index or equity price, and the other based on a reference interest rate (ie KLIBOR or LIBOR). The underlying reference for Equity Swaps is usually to an index, a basket of stocks or a single underlying stock.

The Group maintains trading positions in these instruments and engages in transactions with customers to satisfy their needs in managing their respective interest rate, equity and foreign exchange rate exposures. Derivative transactions generate income for the Group from the buy-sell spreads. The Group also takes conservative exposures, within acceptable limits, to carry an inventory of these instruments in order to provide market liquidity and to earn potential gains on fluctuations in the value of these instruments.

As part of the asset and liability exposure management, the Group uses derivatives to manage the Group's market risk exposure. As the value of these financial derivatives are principally driven by interest rate and foreign exchange rate factors, the Group uses them to reduce the overall interest rate and foreign exchange rate exposures of the Group. These are performed by entering into an exposure in derivatives that produces opposite value movements vis-à-vis exposures generated by other non-derivative activities of the Group. The Group manages these risks on a portfolio basis. Hence, exposures on derivatives are aggregated or netted against similar exposures arising from other financial instruments engaged by the Group.

Risk associated with financial derivatives

As derivatives are contracts that transfer risks, they expose the holder to the same type of market and credit risk as other financial instruments, and the Group manages these risks in a consistent manner under the overall risk management framework.

Market risk of derivatives used for trading purposes

Market risk arising from the above interest rate-related, foreign exchange-related and equity-related derivatives contracts measures the potential losses to the value of these contracts due to changes in market rates/prices. Exposure to market risk may be reduced through offsetting on and off-balance sheet positions.

The contractual amounts of these contracts provide only a measure of involvement in these types of transactions and do not represent the amounts subject to market risk, Value at risk method is used to measure the market risk from these contracts. Value at risk, is a statistical measure that estimates the potential changes in portfolio value that may occur, brought about by daily changes in market rates over a specified holding period at a specific confidence level under normal market condition.

A28. DERIVATIVE FINANCIAL ASSETS/LIABILITIES (CONT'D.)

General disclosure for derivatives and counterparty credit risk

Market related credit risk is present in market instruments (derivatives and forward contracts), and comprises counterparty risk (default at the end of contract) and pre-settlement risk (default at any time during the life of contract). Market related credit risk requires a different method in calculating the pre-settlement risk because actual and potential market movements impact the Group's exposure. The markets covered by this treatment for transactions entered by the Group include interest rates, foreign exchange, credit default swaps and equities.

Exposure to the counterparty risk is governed by setting a credit limit to manage such exposure. This limit is governed under the Group Risk Appetite Framework approved by the Board.

Other than credit limit setting, the Group's primary tool to mitigate counterparty credit risk by having collateral arrangement with the counterparty. Standard market documentation governs the amount of collateral required and the re-margining frequency between counterparties. Some of the standard market documentation has link between the amount of collateral required and external ratings, as well as minimum transfer amounts. This means that if the Group's or a counterparty's external rating were downgraded, the Group or the counterparty would likely to be required to place additional collateral. The amount required to be placed would depend upon the underlying instruments and the state of the markets, so would be different at each re-margining interval.

Liquidity risk of derivatives

Two types of liquidity risk are associated with derivatives: market liquidity risk and funding risk.

Market liquidity risk arises when a position cannot be sold or closed out quickly or risk be eliminated by entering into an offsetting position. In general, an over-the counter ("OTC") market tends to offer less liquidity than an exchange market due to the customized nature of some OTC contracts. OTC contracts include foreign exchange contracts, cross currency swaps, interest rate swaps and FX options while interest rate futures, equity futures and equity options are examples of exchange traded derivatives. The liquidity risk of a position can be estimated by the notional amount of contracts held and the market value of the contract position. Both the OTC and exchange markets have liquid and illiquid contracts.

Funding risk is the risk of derivative activities placing an adverse funding and cash flow pressure on the Group, arising from the need to post collateral (i.e. like a margin call due to mark-to-market valuations) to compensate for an existing out of the money position (note: if collateral isn't posted, the counterparty can close out their position and claim such mark-to-market loss from the Group. This would also result in the Group no longer being hedged).

Generally, the Group measures and monitors funding risk through the cash flow gap analysis according to specified time interval. The Group's access to deposits and funding markets is dependent on its credit rating. A downgrading in the credit rating could adversely affect its access to liquidity, as well as the competitive position, and could increase the cost of funding.

The primary objective of funding risk management is to ensure the availability of sufficient funds at a reasonable cost to honour all financial commitments as they fall due under normal market condition and on contingency basis.

A28. DERIVATIVE FINANCIAL ASSETS/LIABILITIES (CONT'D.)

Derivative Financial Instruments and Hedge Accounting

Derivative financial instruments are recognised at fair value upon inception in the statements of financial position, and are subsequently remeasured at fair value. Fair values of exchange-traded derivatives are obtained from quoted market prices. Fair values of over-the-counter derivatives are obtained using valuation techniques, including the discounted cash flows method and option pricing models. Financial derivatives are classified as assets when their fair values are positive and as liabilities when their fair values are negative.

The Group enters into derivative transactions for trading and for hedging purposes. For derivatives held-for-trading, fair value changes are recognised in the income statements. For derivative transactions that meet the specific criteria for hedge accounting, the Group applies either fair value, cash flow or net investment hedge accounting.

At the time a financial instrument is designated as a hedge, the Group formally documents the relationship between the hedging instrument and the hedged item, including the nature of the risk to be hedged, the risk management objective and strategy for undertaking the hedge and the method used to assess hedge effectiveness. Hedges are expected to be highly effective and are assessed on an ongoing basis to ensure that they remain highly effective throughout the hedge period. For actual effectiveness to be achieved, the changes in fair value or cash flows of the hedging instrument and the hedged item must offset each other in the range of 80% to 125%.

The Group discontinues hedge accounting if the hedging instrument expires, is sold, terminated or exercised or if the hedge no longer meets the criteria for hedge accounting or is revoked.

(i) Fair value hedge

Fair value hedges are hedges against exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment that is attributable to a particular risk and could affect profit or loss. For qualifying fair value hedges, the changes in fair value of the hedging instrument and the hedged item relating to the hedged risk are recognised in the income statements. In the event the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of the hedged item is amortised to the income statements over the expected life of the hedged item.

(ii) Cash flow hedge

Cash flow hedges are hedges of the exposure to variability in future cash flows that is attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction and could affect profit or loss. For qualifying cash flow hedges, the effective portion of the change in fair value of the hedging instrument is taken to equity as a cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognized immediately in the income statements. Amounts accumulated in equity are released to the income statements in the periods when the hedged forecast transactions affect the income statements. If the hedged forecast transactions result in the recognition of a non-financial asset or a non-financial liability, the gain and loss previously deferred in equity is transferred from equity and included in the initial measurement of the cost of the asset or liability.

The capital adequacy ratios on a consolidated basis of the banking institution include the financial related services within the Group. The Group have adopted the Standardised Approach for Credit Risk and Market Risk and the Basic Indicator Approach for Operational Risk. With effect from 1 January 2013, the capital adequacy ratios are computed in accordance with BNM's guidelines on Capital Adequacy Framework (Capital Components) issued on 28 November 2012, which is based on the Basel III capital accord. The minimum regulatory capital adequacy requirements are as follows:

B1. PERFORMANCE REVIEW ON THE RESULTS OF THE GROUP

Year-on-year (yoy), the Group's earnings grew 9.0% to RM1,329.6 million, supported by good income growth and acquisitions.

Divisional performance for 9MFY2014 compared to 9MFY2013:

Retail Banking: Higher profits from integrating MBF Cards and better asset quality

PAT rose 15.2% yoy to RM504.6 million partly benefiting from integration of MBF Cards and better asset quality. Strong customer deposits ad low cost deposits growth underpinned by new integrated campaigns, new segment based strategies, and leveraging existing and new channels as well as alliances.

Business Banking: Improved asset quality, stronger deposits growth

PAT up 4.4% yoy to RM281.6 million underpinned by higher net interest income in line with stronger loans growth and lower provisions. Low cost deposits registered strong growth.

Corporate and Institutional Banking: Sustained loans growth

PAT at RM277.5 million in the absence of last year's non-recurring private equity divestment gains. Lower deposits reflect management of depositors concentration.

Investment Banking: Diversified contribution across businesses

PAT at RM31.4 million, good diversified contributions across all businesses offset by proactive provisioning relating to AmFraser.

Markets: Performance impacted by continued volatility in market

PAT at RM111.7 million, healthy volume flows from foreign exchange and derivatives sales made up for the paucity of trading revenue, especially from Fixed Income. High market volatility caused temporary deferment of deal flows.

General Insurance: Higher premium from integration of Kurnia

PAT rose 54.8% to RM137.4 million from enlarged scale from the integration of Kurnia as well as stronger investment and trading income. Integrations on track, continue focusing on both motor and niche general insurance segments.

Life Assurance& Family Takaful: Stronger gross written premiums growth

PAT rose to RM40.3 million with stronger gross written premiums from both agency and corporate channels.

The Group's PAT increased by RM55.7 million in the current reporting quarter as compared to the previous year corresponding quarter. Earnings improvement was broad based across a few divisions.

B2. REVIEW OF MATERIAL CHANGES IN PROFIT BEFORE TAXATION

The Group reported a higher pre-tax profit of RM623.5 million for the third quarter ended 31 December 2013 as compared to RM602.5 million for the second quarter ended 30 September 2013. This was contributed by lower expenses reported from other operating expenses by RM22.0 million and lower impairments on sundry receivables and foreclosed properties by RM15.0 million and RM5.9 million. In addition, higher incomes are reported from other operating income and net interest income by RM33.7 million and RM16.0 million respectively. There was no impairment on property, equipment and intangible assets and transfer to profit equalisation reported for current reporting quarter as compared to previous quarter totalling RM3.7 million.

This was offset by impairment on loans and advances and provision for commitments and contingencies of RM34.9 million and RM3.2 million as compared to writeback of RM10.6 million and 15.5 million for the previous quarter. Besides, higher impairment on financial investments by RM6.3 million and lower net income from insurance business by RM5.9 million were reported for current reporting quarter.

B3. PROSPECTS FOR 31 MARCH 2014

For full year 2013, our projection on Malaysia economy to grow 4.6% year-on-year (yoy) remains unchanged. Moving into 2014, the Group expects a moderate growth of 4.8% yoy driven by private investments and supported by exports. Private investment will benefit from improved speed on the implementation of Economic Transformation Programme, more value-added foreign direct investments flowing in and positive impacts from exports complemented by Visit Malaysia Year 2014.

As the authorities continue to adopt prudent and pragmatic macroeconomic policies, reining in fiscal deficit and public debt, domestic demand is expected to moderate. Consumer loans demand may soften given the various responsible lending measures to address household debts and easing consumer spending from on-going rationalization of subsidy.

At AmBank Group, we remain agile and adaptive to the changing environment and will continue our disciplined approach in executing to our strategic priorities. Our medium term strategic priorities remain unchanged, (1) Integrate acquisitions and deliver synergies; (2) Simplify business model and streamline processes; (3) Accelerate organic growth with focus on cross-sell, flow business, small business, and emerging affluent customers; (4) Build scale in specialist businesses with strategic partners; and (5) Optimise capital and holding company structures.

B4. VARIANCE FROM PROFIT FORECAST AND SHORTFALL FROM PROFIT GUARANTEE

This is not applicable to the Group.

The total tax charge of the Group for the financial quarter ended 31 December 2013 and 2012 reflect an effective tax rate which is higher than the statutory tax rate mainly due to disallowances of certain expenses.

B6. CORPORATE PROPOSALS

- As at 31 December 2013, the trustee of the ESS held 6,828,600 ordinary shares (net of ESS shares vested to employees) representing 0.23% of the issued and paid-up capital of the Company. These shares are held at a carrying amount of RM46,841,228.
- 2 The Company announced on 16 October 2012 that it has obtained the approval of Bank Negara Malaysia ("BNM") for the Company to commence negotiations with Friends Life FPL Limited ("Friends Life") for the proposed repurchase of the 30% equity interest held by Friends Life in the two joint ventures, namely, AmLife Insurance Berhad ("AmLife") and AmFamily Takaful Berhad ("AmTakaful").

Subsequently, on 31 December 2012 the Company announced that it has received the notification of BNM (via letter dated 28 December 2012) that the Minister of Finance has approved the repurchase. The approval for the repurchase is subject to the Company or AMAB Holdings Sdn Bhd completing the sale of part of its stake in AmLife and AmTakaful to a new strategic partner within one year of the completion of the repurchase. On 7 January 2013, the Company announced that the repurchase was completed on 4 January 2013 at an aggregate cash consideration of RM245 million.

On 26 August 2013, the Company announced that BNM (via letter dated 26 August 2013) has no objection in principle for the Company to commence negotiations with several shortlisted global insurers in relation to the establishment of a new strategic partnership for its life insurance and family takaful businesses. This exercise is subject to the prior approval of the Minister of Finance/BNM before the Company and the selected strategic partner may enter into any agreement in relation thereto.

On 19 December 2013, the Company announced that it has reached an agreement with MetLife International Holdings Inc. ("MetLife"), a wholly-owned subsidiary of MetLife Inc. to seek regulatory approval of a proposed strategic partnership involving AmLife and AmTakaful (the "Proposal").

Upon receipt of regulatory approvals and satisfaction of certain other conditions, the Proposal will result in MetLife owning fifty percent plus one share in AmLife with the remaining shares to be owned by the Group, and the Group owning fifty percent plus one share in AmTakaful with the remaining shares to be owned by MetLife. In addition, the Proposal will see AmLife and AmTakaful entering into exclusive twenty-year bancassurance and bancatakaful agreements for the distribution of life insurance and family takaful products through the distribution network of the Company's banking subsidiaries, AmBank (M) Berhad and AmIslamic Bank Berhad, across Malaysia. The total consideration for the Proposal payable by MetLife is RM812 million upon completion, subject to customary adjustment.

The Proposal is subject to the prior written approval of Bank Negara Malaysia and/or the Minister of Finance. Upon the receipt of the aforesaid regulatory approvals, the Company and MetLife will execute definitive agreements, after which the Proposal will close upon the satisfaction of certain other conditions. Further announcements in relation to the Proposal will be made at the appropriate time.
