

## Notes to the Interim Financial Statements

### 1. Basis of preparation

The condensed consolidated interim financial statements are unaudited and have been prepared in accordance with Malaysian Financial Reporting Standard (“MFRS”) 134: Interim Financial Reporting, International Accounting Standard (“IAS”) 34: Interim Financial Reporting and paragraph 9.22 and Appendix 9B of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Malaysia”), and should be read in conjunction with the Group’s audited financial statements for the financial year ended 31 December 2020, which were prepared in accordance with the Malaysian Financial Reporting Standards (“MFRSs”) and International Financial Reporting Standards (“IFRSs”).

The explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to gain an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2020.

### 2. Significant accounting policies

The accounting policies adopted by the Group for the quarterly financial statements are consistent with those adopted in the Group’s consolidated audited financial statements for the financial year ended 31 December 2020, except for the adoption of the following amendments/interpretation to MFRS:

<u>Description</u>	<u>Effective Date</u>
Covid-19-Related Rent Concessions (Amendment to MFRS 16 <i>Leases</i> )	1 June 2020
Interest Rate Benchmark Reform - Phase 2 (Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16)	1 January 2021

Other than as discussed above, the adoption of the above amendments/interpretation to standards issued by Malaysian Accounting Standards Board (“MASB”) in the current financial year do not have any material impact to the financial statements of the Group.

### 3. Status of audit qualification

There was no audit qualification in the annual financial statements for the preceding financial year ended 31 December 2020.

### 4. Seasonal/cyclical factors

The business operations of the Group are subject to the sales cycle of the life insurance business and asset management services.

### 5. Unusual items

There were no unusual items affecting assets, liabilities, equity, net income or cash flows for the financial period ended 30 June 2021.

## **Notes to the Interim Financial Statements (Continued)**

### **6. Change in estimates**

The Group's insurance subsidiaries, Manulife Insurance Berhad and Manulife Insurance Labuan Limited value policy liabilities using a prospective actuarial valuation. The expected future liabilities are determined using best estimate assumptions with the appropriate allowance for provision of risk charge for adverse deviation from expected experience. Valuation assumptions used includes mortality, morbidity, lapse, expense, participating life fund expected long term yield, Malaysian Government Securities (MGS) risk-free interest rate and USD treasury yields.

For the current financial period ended 30 June 2021, the applicable estimate changes on the above assumptions resulted in lower actuarial liabilities of RM42.5 million (30 June 2020: lower actuarial liabilities of RM14.7 million), with a corresponding increase in unallocated surplus for the participating business of RM18.6 million (30 June 2020: increase in unallocated surplus of RM23.0 million) and increase in net profit before tax of RM23.9 million (30 June 2020: decrease in net profit before tax of RM8.3 million).

Other than as disclosed above, there were no changes in the basis used for accounting estimates for the current financial period ended 30 June 2021.

### **7. Debt and equity securities**

There were no issuances, cancellation, repurchases, resale and repayment of debt and equity securities during the current quarter ended 30 June 2021.

### **8. Dividends**

A First and Final dividend of 7.0 sen per share, amounting to RM14,488,878 for the financial year ended 31 December 2020, was approved at the Annual General Meeting held on 4 June 2021. A Dividend Reinvestment Plan (DRP) as determined by the Board of Directors on 23 February 2021 has been carried out, which will give shareholders an option to elect to reinvest cash dividend in new ordinary shares of Manulife Holdings Berhad.

The payment date for the cash dividend and issuing of new ordinary shares under the DRP was completed on 21 July 2021. The take up rate of the new shares represent approximately 64.74% of the maximum number of shares that would have been issued pursuant to the DRP had all the entitled shareholders of Manulife elected to reinvest the electable portion of their 2020 Final Dividend.

No dividend has been declared in respect of the current financial period ended 30 June 2021.

### **9. Material events subsequent to the end of the financial period**

There is no material event subsequent to the end of the financial period under review that has not been reported in the interim financial statements for the current financial period to date.

### **10. Changes in composition of the Group**

There were no significant changes in the composition of the Group for the current financial period to date.

### **11. Contingent liabilities**

There are no contingent liabilities as at the date of this report since the date of the last annual statement of financial position.

## **Notes to the Interim Financial Statements (Continued)**

### **12. Current financial year prospects**

The economic & political outlook remains challenging for Malaysia as evidenced by the sharp plunge in manufacturing PMI in June-21 to 39.9 from May-21's 51.3. Unemployment appears to have plateaued at mid-4% range and still way off from pre-pandemic levels of 3% - 3.3%. While BNM has maintained the OPR at 1.75%, there is a downward bias to the OPR as the year progresses given the effects of the pandemic and lockdowns on the economy. Q1'21 GDP came in at -0.5% (Q4 2020: -3.4%) (full year 2020: -5.6%) and MOF had indicated in early July-21 that official projections may be revised closer to 4%.

Malaysia is currently in multiple phases of the National Recovery Program (NRP) and Klang valley is still in Phase 1 (strictest phase) as number of cases are still high at 19,991 new cases as of 10th August, with 201 reported deaths. As at end of 10th August, total population vaccinated is at 28.3%, with the government still targeting to fully vaccinate the population by October and aims to achieve herd immunity against COVID 19 by December 2021.

#### Life Insurance Business

The pandemic is foreseen to increase consumer demand for life insurance once the economy starts to recover, as customers realize the importance of health and life insurance. Also, digitization and the ability to perform non face to face transactions will be customers' expectation as we live through this pandemic. The Group's life insurance business will continue our focus on executing our strategies and Covid proofing our business, under our 6 pillars of Manulife's NEXT initiatives by focusing on:

- Growing new business and scale via inorganic opportunities and business expansion.
- Focusing on value creation for shareholders by actively managing expenditure and optimising resource utilisation.
- Improving free cash flow and in force management via active persistency and medical business management.
- Establishing a strong customer value proposition based on customers' needs.
- Enhancing high performing team and culture.

#### Asset Management Business

The continued high daily Covid-19 case count and mobility restrictions has derailed the country's economic recovery timeline and we see downside risks to growth as long as Covid-19 infections are not brought under control. Nevertheless, with vaccination picking up pace, there will be buying opportunities for stocks benefiting from reopening of the economy if we look beyond the current Covid situation. Over the longer term, we remain positive on the prospects of the market, thanks to anticipation of eventual global economic recovery.

## Notes to the Interim Financial Statements (Continued)

### 19. Review of performance (continued)

#### **Financial Period ended 30 June 2021 vs Financial Period ended 30 June 2020**

The Group's operating revenue for the financial period ended 30 June 2021 increased by RM32.8 million or 5.0% compared to the corresponding financial period ended 30 June 2020 (2021: RM686.3 million, 2020: RM653.5 million). The Group's profit before tax for YTD June 2021 was RM56.6 million, an increase of RM41.7 million or 279.8% as compared to the profit before tax for YTD June 2020 of RM14.9 million.

Performance of the respective operating business segments are as follows:

**Investment holding** – Operating revenue and profit before tax fell by RM1.5 million compared to the previous year mainly due to lower interest income from bonds.

**Life insurance business** – Operating revenue of life insurance business increased by RM13.9 million or 2.4% mainly due to higher premium income collected and higher dividend income. Profit before tax rose by RM37.1 million mainly due to lower reserving of insurance contract liabilities as a result of increase in interest rate and higher gains from equity investments.

**Asset management services** – Operating revenue and profit before tax increased by RM20.4 million and RM6.1 million respectively mainly due to higher unit trust sales and higher management fee income from higher Asset-under-Management ("AUM").

#### **2nd Quarter 2021 vs 2nd Quarter 2020**

The Group's operating revenue for the quarter ended 30 June 2021 rose by RM56.6 million compared to the corresponding quarter last year (2021: RM342.1 million, 2020: RM285.5 million). The Group's profit before tax was RM24.3 million for the current quarter, which represents an increase of RM22.9 million compared to the profit before tax for the quarter ended 30 June 2020 of RM1.4 million.

Performance of the respective operating business segments are as follows:

**Investment holding** – Operating revenue fell slightly by RM0.5 million due to lower interest income, while profit before tax decreased by RM1.0 million due to realised gains on disposal of investments in Q2 2021.

**Life insurance business** – Operating revenue of life insurance business increased by RM47.4 million mainly due to higher premium income compared to corresponding quarter in the prior year. Profit before tax rose by RM21.1 million in the current quarter due to lower reserving of insurance contract liabilities from higher interest rates.

**Asset management services** – Operating revenue and profit before tax increased by RM9.7 million and RM2.8 million respectively mainly due to higher unit trust sales and higher management fee income from higher AUM.

<b>Total</b>	<b>24,321</b>	<b>32,248</b>	<b>(7,927)</b>

The Group's operating revenue for the current quarter under review ("Q2 2021") fell by RM2.1 mil as compared to the preceding quarter ended 31 March 2021 ("Q1 2021"). The Group recorded a profit before tax of RM24.3 million in Q2 2021 as compared to a profit before tax of RM32.2 million in Q1 2021. The fall in profit before tax by RM7.9 million was contributed by the following segments:

**Investment holding** – Operating revenue arising mainly from investment income increased marginally by RM0.3 million since Q1 2021. Profit before tax increased by RM0.9 million mainly due to higher realised gains on disposal of investments.

**Life insurance business** – Operating revenue of life insurance business increased by RM2.9 million in Q2 2021 compared with Q1 2021 mainly due to higher premium income from Labuan insurance business. However, profit before tax fell by RM7.3 million mainly due to worsened claim experience and lower investment gains.

**Asset management services** – Operating revenue and profit before tax fell by RM5.3 million and RM1.5 million respectively due to lower fee income from sales of unit trust funds in Q2 2021 compared with Q1 2021.

Included in the current tax assets are a pending appeal case arising from two notices of additional assessment ("Forms JA") of RM22.2 million for years of assessment ("YA") 2017 and 2018, and tax paid in excess to the Inland Revenue Board ("IRB") in relation to the Company's subsidiary, Manulife Insurance Berhad ("MIB"). The High Court rejected MIB's application for leave to apply for judicial review in a decision delivered on 14<sup>th</sup> July 2021. MIB will not be appealing against the decision of the High Court. A hearing date for MIB's application to the Special Commissioner of Income Tax ("SCIT") on the assessments has yet to be fixed.

## Notes to the Interim Financial Statements (Continued)

### 28. Current tax assets/(liabilities) (continued)

MIB has made the above tax payment in 2021. In line with the opinion by the external advisor, the Group believes strongly that MIB has good grounds to contest the additional assessment and hence has treated the above tax payment as tax recoverable.

### 29. Cash and cash equivalents

Cash and cash equivalents as at the date of statement of financial position are held in the following business segments:

**33. Financial asset/(liability) at fair value through profit or loss**

Derivatives

The table below shows the fair value of derivative financial instruments, recorded as asset or liability, together with their notional amounts. The notional amount, recorded at gross, is the amount of the derivative's underlying asset and is the basis upon which changes in the value of derivatives are measured. Derivative financial instruments held by the Group are forward foreign exchange contract to hedge its currency risk, any fair value gains/losses on this financial instrument are recognised as financial asset/liability.

	Notional amount RM'000	Fair value (losses)/gains recognised as		Net carrying amount RM'000

There is no change in risks and policies associated with the derivatives and its related accounting policies since the financial year ended 31 December 2020.

## Notes to the Interim Financial Statements (Continued)

### 34. Determination of fair values and fair value hierarchy

#### a) Freehold property and investment property

The fair value of the Group's freehold property and investment property is determined based on the income method conducted by an independent qualified valuer.

Under the income method, the market value of the properties is determined based on the net annual income which is derived by deducting the annual outgoings from the gross annual income and capitalising the net income by a suitable rate of return consistent with the type and quality of the investment.

#### Fair value hierarchy

A level is assigned to each fair value measurement based on the lowest level input significant to the fair value measurement in its entirety. The three-level hierarchy is defined as follows:-

Level 1 – Fair value is derived from unadjusted quoted price in active markets for identical properties that the entity can access at the measurement date.

Level 2 – Fair value is estimated using inputs that are observable for the properties, either directly or indirectly.

Level 3 – Fair value is estimated using unobservable inputs for the properties.

The fair value of freehold property and investment property is classified within Level 3 of the fair value hierarchy. The fair value of the property is as follows:

	<b>Freehold property</b>		<b>Investment property</b>	
	<b>As at 30.06.2021 RM'000</b>	<b>As at 31.12.2020 RM'000</b>	<b>As at 30.06.2021 RM'000</b>	<b>As at 31.12.2020 RM'000</b>
Carrying amount	<u>27,290</u>	<u>27,026</u>	<u>77,974</u>	<u>77,974</u>
Fair value as stated in valuation report*	<u>27,026</u>	<u>27,026</u>	<u>77,974</u>	<u>77,974</u>

\* Based on the valuation conducted by an independent qualified valuer on 31 December 2020.

## Notes to the Interim Financial Statements (Continued)

### 34. Determination of fair values and fair value hierarchy (continued)

#### a) Freehold property and investment property (continued)

Description of valuation techniques used and significant unobservable inputs to valuation of freehold property and investment property:

	Valuation technique	Significant unobservable inputs	Range
<b>2020</b>			
Freehold/ investment property	Income method	Term period's net yield Reversionary period's net yield Void factor Average rental for term period Average rental for reversionary period Outgoings for term period Outgoings for reversionary period	5.00% - 6.50% 6.00% 5.00% RM4.55 psf RM4.76 psf RM1.75 psf RM1.75 psf

Significant increase or decrease in each of the unobservable inputs used in the valuation would result in a correspondingly higher or lower fair value of the properties.

The reconciliation from beginning to ending balances for the freehold property and investment property are as follows:

	Freehold property		Investment property	
	2021	2020	2021	2020
	RM'000	RM'000	RM'000	RM'000
At 1 January	27,026	26,407	77,974	82,593

At 30 June/31 December	27,290	27,026	77,974	77,974

#### b) Financial assets and financial liabilities

##### (i) Determination of fair values

The fair values of the Group's financial assets and financial liabilities are determined as follows:

- (i) The carrying amounts of financial assets and financial liabilities, such as loans and receivables, insurance receivables, cash and bank balances, insurance payables and other payables (other than the amount payable under Distribution Agreement), are reasonable approximations of their fair values due to the relatively short term maturity of these balances and the immaterial impact of discounting;
- (ii) The carrying amount of amount payable under Distribution Agreement which is the remaining present value of the expected future cash flow discounted using the discount rate that reflects the current market assessment of the time value of money, are reasonable approximations of their fair values;
- (iii) The fair values of quoted equities and investments in real estate investment trusts are based on quoted market prices as at the reporting date;
- (iv) The fair values of Malaysian Government Securities, Government Investment Issues and both quoted and unquoted corporate debt securities are based on indicative market prices;

## **Notes to the Interim Financial Statements (Continued)**

### **34. Determination of fair values and fair value hierarchy (continued)**

#### **b) Financial assets and financial liabilities (continued)**

##### **(i) Determination of fair values (continued)**

The fair values of the Group's financial assets and financial liabilities are determined as follows:  
(continued)

- (v) The fair values of negotiable instruments of deposit are calculated using the discounted cash flow method based on the maturity of the instruments at discount rates representing the average market rates quoted by at least two licensed banks;
- (vi) The fair values of investments in mutual funds and unit trust funds are valued based on the net asset values of the underlying funds as at the reporting date;
- (vii) The fair values of foreign exchange forward contracts are based on valuations provided by the financial institutions making reference to quoted market prices; and
- (viii) The fair values of private equities are measured based on private equities' net asset value or fair values reported in investees' financial statements as a measure of fair value.

##### **(ii) Fair value hierarchy**

The Group categorises its fair value measurements according to a three-level hierarchy. The hierarchy prioritises the inputs used by the Group's valuation techniques for determining the fair value of the financial instruments.

A level is assigned to each fair value measurement based on the lowest level input significant to the fair value measurement in its entirety. The three-level hierarchy is defined as follows:

Level 1 –Fair value measurements that reflect unadjusted, quoted prices in active markets for identical assets and liabilities that the Group has the ability to access at the measurement date. Valuations are based on quoted prices reflecting market transactions involving assets or liabilities identical to those being measured.

Level 2 –Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs that are observable that are not prices (such as interest rates, credit risks, etc) and inputs that are derived from or corroborated by observable market data.

Level 3 –Fair value measurements using significant non market observable inputs. These include valuations for assets and liabilities that are derived using data, some or all of which is not market observable, including assumptions about risk.

In determining the fair value of its financial instruments, the Group uses observable market data, when available, and minimises the use of unobservable inputs to the extent possible when determining fair value.
