Part A: Explanatory Notes Pursuant to Financial Reporting Standard 134 (“FRS 134”) and Revised Guidelines on Financial Reporting for Licensed Institutions (BNM/GP8) Issued by Bank Negara Malaysia

A1. Basis of Preparation

The audited condensed financial statements for the 4th quarter and the financial year ended 30 June 2008 of the Group and of the Bank have been prepared under the historical cost convention except for the following assets and liabilities that are stated at fair values: securities held-for-trading and available-for-sale, derivative financial instruments and investment properties.

The audited condensed financial statements have been prepared in accordance with the requirements of FRS 134: Interim Financial Reporting and Chapter 9, part K of the Listing Requirements of Bursa Malaysia Securities Berhad. The audited condensed financial statements should be read in conjunction with the audited financial statements for the year ended 30 June 2007. These explanatory notes attached to the audited condensed financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and the Bank since the year ended 30 June 2007.

The significant accounting policies and methods of computation applied by the Group and the Bank are consistent with those adopted in the most recent audited annual financial statements for the year ended 30 June 2007 except for the adoption of the following Financial Reporting Standards (“FRS”) effective from the financial periods beginning 1 July 2007:

- FRS 117 Leases
- FRS 124 Related Party Transaction
- FRS 6 Exploration for and Evaluation of Mineral Resources
- FRS 107 Cash Flow Statements
- FRS 111 Construction Contracts
- FRS 112 Income Taxes
- FRS 118 Revenue
- FRS 119 Employee Benefits
- FRS 120 Accounting for Government Grants and Disclosures of Government Assistance
- FRS 126 Accounting and Reporting by Retirements Benefit Plans
- FRS 129 Financial Reporting in Hyperinflationary Economies
- FRS 134 Interim Financial Reporting
- FRS 137 Provisions, Contingent Liabilities and Contingent Assets
- Amendments to FRS 121: The Effects of Changes in Foreign Exchange Rates - Net Investments in a Foreign Exchange Operation

- IC Interpretation 2: Members' Shares in Co-operative Entities and Similar Instruments
- IC Interpretation 5: Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds

The above FRS, amendments to FRS and Interpretations are expected to have no significant impact on the financial statements of the Group and the Bank upon their initial application except for FRS 117. The principal effects of the changes in accounting policies resulting from the adoption of FRS 117 is discussed in Note A1(a) below.

A1. Basis of Preparation (Contd.)

The allowance for doubtful debts and financing of the Group and the Bank are computed based on the requirements of BNM/GP3, which is consistent with the adoption made in the previous audited annual financial statements. Specific allowances are made for doubtful debts which have been individually reviewed and specifically identified as bad and doubtful. Additional allowances are made for long outstanding non-performing loans aged more than five years. In addition, a general allowance based on a certain percentage of total risk-weighted assets for credit risk, which takes into account all balance sheet items and their perceived credit risk levels, is maintained.

(a) FRS 117: Leases. Leasehold land held for own use

Prior to 1 July 2007, lease of land held for own use was classified as property, plant and equipment and was stated at cost less amortisation and impairment loss. The adoption of the revised FRS 117: Leases with effect from 1 July 2007 resulted in a change in the accounting policy relating to the classification of leases of land. Under FRS 117, lease of land and buildings are classified as operating or finance leases in the same way as leases of other assets. As a result, leasehold land held for own use is now classified as operating lease. The up-front payments made represent prepaid land lease payment and is amortised on a straight-line basis over the remaining lease term.

The Group and the Bank have applied the change in accounting policy in respect of leasehold land in accordance with the transitional provisions of FRS 117. At 1 July 2007, the unamortised carrying amount of leasehold land is classified as prepaid land lease payments. The reclassification of leasehold land as prepaid land lease payments has been accounted for retrospectively. Certain comparatives of the balance sheets of the Group and the Bank as at 30 June 2007 have been restated as set out in Note 28(b).

A2. Significant Accounting Estimates and Judgments

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates. Critical accounting estimates and assumptions used that are significant to the financial statements, and areas involving higher degree of judgement and complexity, are as follows:

(i) Fair Value Estimation of Securities Held-for-trading (Note 9(i)), Securities Available-for-sale (Note 9(ii)) and Derivative Financial Instruments

The fair value of securities and derivatives that are not traded in an active market are determined using valuation techniques based on assumptions of market conditions existing at the balance sheet date, including reference to quoted market prices and independent dealer quotes for similar securities and discounted cash flows method.

(ii) Valuation of Investment Properties

The measurement of the fair value for investment properties is arrived at by reference to market evidence of transaction prices for similar properties and is performed by professional independent valuers.

A2. Significant Accounting Estimates and Judgments (contd.)

(iii) Impairment of Goodwill

The Group tests annually whether the goodwill that has an indefinite life has suffered any impairment by measuring the recoverable amount of the goodwill based on the value-in-use method, which requires the use of estimates of cash flow projections, growth rates and discount rates. Changes to the assumptions used by management, particularly the discount rate and the terminal growth rate, may significantly affect the results of the impairment.

(iv) Impairment of Other Intangible Assets

The Group's and the Bank's intangible assets that can be separated and sold and have a finite useful life are amortised over their estimated useful life.

The determination of the estimated useful life of these intangible assets requires the Bank's management to analyse the circumstances, the industry and market practice and also to use judgment. At each balance sheet date, or more frequently when events or changes in circumstances dictate, intangible assets are assessed for indications of impairment. If indications are present, these assets are subject to an impairment review. The impairment review comprises a comparison of the carrying amount of the assets with its recoverable amount.

(v) Liabilities of Insurance Business

The actuarial estimate of future contingent policy liabilities is computed in accordance with the standards and basis prescribed under the Insurance Act and Regulations, and uses a level net premium methodology with allowances for acquisition costs through the application of a zilmer or full preliminary term adjustments, whichever produces higher reserves.

For general claims, reserve is made upon notification of a new claim where the potential liability will be assessed based on information available. Where little or no information is available, a "blind" reserve will be used. The blind reserves are based on class of business and are reviewed annually in line with Bank Negara Malaysia guidelines. As and when more information becomes available regarding a claim, the reserve is amended accordingly.

(vi) Deferred Tax and Income Taxes

The Group and the Bank is subject to income taxes in many jurisdictions and significant judgment is required in estimating the provision for income taxes. There are many transactions and interpretations of tax law for which the final outcome will not be established until some time later. Liabilities for taxation are recognized based on estimates of whether additional taxes will be payable. The estimation process includes seeking expert advice where appropriate. Where the final liability for taxation is different from the amounts that were initially recorded, the differences will affect the income tax and deferred tax provisions in the period in which the estimate is revised or the final liability is established.

A2. Significant Accounting Estimates and Judgments (contd.)

(vii) Allowances for Bad and Doubtful Debts

The Group and Bank review the doubtful loans, advances and financing at each reporting date to assess whether allowances for impairment should be recorded in the financial statements. In particular, judgement is required in the identification of doubtful loans and the estimation of realisation amount from the doubtful loans when determining the level of allowance required.

The Group and Bank have adopted certain criteria in the identification of doubtful loans, which include classifying loans as non-performing when repayments are in arrears for more than three (3) months (one (1) month after maturity date for trade bills, bankers' acceptances and trust receipts). Specific allowances for doubtful loans are provided after taking into consideration of the values assigned to collateral. The values assigned to collateral are estimated based on market value and/or forced sales value, as appropriate and conforms to BNM guidelines. In addition to the specific allowances made, the Group and Bank also make general allowance against exposure not specifically identified based on a certain percentage of total risk-weighted assets for credit risk. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

A3. Auditors' Report on Preceding Annual Financial Statements

The auditors' report on the audited annual financial statements for the financial year ended 30 June 2007 was not qualified.

A24. Commitments and Contingencies and Off-Balance Sheet Financial Instruments (contd.)

Market Risk

Market risk is the potential change in value caused by movement in market rates or prices. The contractual amounts provide only a measure of involvement in these types of transactions and do not represent the amounts subject to market risk. Exposure to market risk may be reduced through offsetting on and off-balance sheet positions. As at 30 June 2008, the amount of contracts that was not hedged in the Group and the Bank and, hence, exposed to market risk was RM245.6 million (30 June 2007: RM135.9 million).

Credit Risk

Credit risk arises from the possibility that a counter-party may be unable to meet the terms of a contract in which the Group and the Bank has a gain in a contract. As at 30 June 2008, the amount of credit risk in the Group and the Bank, measured in terms of the cost to replace the profitable contracts, was RM302.5 million (30 June 2007: RM159.1 million). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

Part B – Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia Securities Berhad

B1. Performance Review

The Group's pre-tax profit for the financial year ended 30 June 2008 registered a decrease of 6.4% or RM277.6 million to RM4,086 million compared to the previous financial year. Net Profit attributable to equity holders was lower by 7.9% or RM250.2 million to RM2,928 million compared to the previous financial year.

In the year under review, the Group's performance was impacted by higher allowance made for losses on loans, advances and financing, and allowance made for non-refundable deposit. In the former, the higher loan loss provision came mainly from general loan loss allowance, which was higher by RM95.9 million or 30.0% when compared to the previous year, on the back of higher loan growth. Group's net loans, advances and financing recorded an increase of RM23.9 billion or 17.0% when compared to corresponding financial year.

A provision of RM483.8 million has been made for allowance for non-refundable deposit in the Group's financial statements arising from the recent revocation of approval by Bank Negara Malaysia on 29 July 2008 for the proposed acquisition of up to 100% of Sorak Financial Holdings Pte Ltd, the controlling shareholder of PT Bank Internasional Indonesia Tbk.

At Group's operating level, its operating profit however registered higher growth of RM310.3 million or 6.1% when compared to previous year on the back of higher net interest income and non-interest income. Net interest income registered an increase of RM293.9 million or 5.7% when compared to the previous year on the back of higher loans growth. Non-interest income also registered an increase of RM375.8 million or 13.1%, attributable mainly to higher fee-based income and foreign exchange profit, but was partly offset by higher unrealised loss on revaluation of securities held-for-trading and derivatives of RM200.4 million as against RM74.4 million in the previous year.

B2. Variation of Results Against Preceding Quarter

The Group registered a marginally lower pre-tax profit of RM1,019 million in the current quarter compared with a pre-tax profit of RM1,020 million for the preceding quarter ended due mainly to higher allowance made for losses on loans, advances and financing, and allowance made for non-refundable deposit. The higher allowances made was partly offset by higher non interest income earned from foreign exchange profit and lower unrealised losses on revaluation of securities held-for-trading and derivatives.

B3. Prospects

The rising inflation coupled with slower economic growth amid a moderation in external demand presents a challenge for the banking industry in Malaysia and other regional economies where Maybank is expanding its overseas presence. With its well-established risk management framework and prudent business practices, the Group is expected to leverage on its strengths to cope with these challenges.

With its dominant domestic presence and working towards adding value to its overseas businesses, the Group expects to record a stable performance for the financial year 2008/2009.

B4. Profit Forecast or Profit Guarantee

Neither the Group nor the Bank made any profit forecast or issued any profit guarantee.

B8. Status of Corporate Proposals Announced but Not Completed

(a) Establishment of an Islamic Banking Subsidiary- Maybank Islamic Berhad

Bank Negara Malaysia (“BNM”) had given its approval on 21 July 2007 for Maybank to establish a subsidiary under the name “Maybank Islamic Berhad” (“MIB”) to undertake the Islamic banking business and the setting up of an International Currency Business Unit within MIB.

On 16 November 2007, Maybank had entered into a business acquisition agreement with MIB to transfer its Islamic banking business in Malaysia to MIB for a total consideration to be determined later (“Business Acquisition Agreement”). In accordance with the order from High Court of Malaya (which was obtained on 12 December 2007) and the terms and conditions of the Business Acquisition Agreement, the aforesaid transfer has been completed on 1 January 2008. B11. Changes in Material Litigation

- (a) In 2005, a subsidiary, Mayban Trustees Berhad (“MTB”) and eleven other defendants were served with a writ of summons by ten plaintiffs / bondholders for an amount of approximately RM157.8 million. MTB was alleged to have acted in breach of trust and negligently in its capacity as Trustee for the bonds issued. MTB does not admit any liability to the claim and is defending the suit. The suit is pending determination at trial.

On 7 July 2008, the plaintiffs entered judgement by consent against the 1st, 4th and 6th to 12th defendants for the sum of RM149,315,000.00 as well as withdrew the claim against the 5th defendant. The entering of the said judgement by consent is not in any way an implication of liability on the part of MTB and MTB shall continue to defend the suit.

The above contingent liability is covered by an existing Banker Blanket Bond Policy between the Bank and a subsidiary, Mayban General Assurance Berhad (“MGAB”), which had entered into a facultative reinsurance contract for an insured sum of RM150 million with three other reinsurers

No provision is made in the Group’s financial statements.

B11. Changes in Material Litigation (Contd.)

The 1st Defendant has on 4 August 2008 served a counterclaim on MTB for almost RM535 million being loss of profit, expenses and damages stated to have been incurred by it which allegedly arises as a result of MTB unlawfully declaring an Event Of Default ("EOD") on the bonds. MTB's solicitors shall defend the Counterclaim and their opinion is that the Counterclaim is without merit as the 1st Defendant had failed to perform their obligations under the bonds. Further, the 1st Defendant had on 7 July 2008 consented to judgement, thereby admitting the EOD and liability for the sum of RM149,315,000. MTB is of the view that the EOD was declared lawfully and MTB is in any event entitled under the trust deed to be indemnified by the bondholders for the Counterclaim.

- (b) In 2004, Etiqa Takaful Berhad ("ETB") (formerly known as Takaful Nasional Berhad), now a subsidiary of the Bank, commenced a civil suit against a borrower ("the 1st Defendant") and three guarantors, for the sum of approximately RM25.8 million, following the recall of the relevant facility which was preceded by the 1st Defendant's failure to pay monthly instalments.

The 1st Defendant counter-claimed for loss and damage amounting to approximately RM284 million as a result of ETB's failure to release the balance of the facility of RM7.5 million. It is alleged that the 1st Defendant was unable to carry on its project and therefore suffered loss and damage, ETB are proceeding with their claim and are resisting the 1st Defendant's counter-claim. ETB have filed its defence to the counterclaim and an application to strike out the counterclaim as well.

ETB are of the view that they have a good chance of succeeding in the action and in securing a dismissal of the 1st Defendant's counterclaim.

- (c) A corporate borrower has issued a writ of summon against Aseambankers in 2005 in its capacity as agent bank for the syndicate lenders claiming general, special and exemplary damages arising from alleged breach of duty owed by Aseambankers. Although it has not been quantified, the claim value is estimated at approximately RM450 million.

The credit facilities consist of a bridging loan of RM58.5 million and a revolving credit facility of RM4.0 million which were granted by Aseambankers and three other financial institutions as the syndicated lenders. The loan was restructured in 2002 to RM38 million with terms for repayment. In 2006, Aseambankers and three other syndicated lenders filed a suit against the corporate borrower for the recovery of the loan. The two suits were then ordered by the court to be heard together.

Out of the estimated claim of RM450.0 million, Maybank's exposure is RM189.0 million. (inclusive of the assets and liabilities of KBB (one of the syndicated lenders) and from Aseambankers which had been vested to the Bank in respective of this account pursuant to a vesting order dated 28 September 2006 and 21 May 2007 respectively).

Based on advice from its solicitors, Aseambankers are of the view that it has a more than even chance of succeeding in defending the corporate borrower's claim.

Other than that stated above, the Group and the Bank do not have any other material litigation that would materially and adversely affect the financial position of the Group and the Bank.

Diluted

The diluted EPS of the Group is calculated by dividing the net profit for the quarter and the financial year attributable to ordinary share holders of the parent by the weighted-average number of ordinary shares in issue, which has been adjusted for the number of shares that could have been issued under the Maybank Group Employee Share Option Scheme.

In the diluted EPS calculation, it was assumed that the share options were exercised into ordinary shares. A calculation is done to determine the number of shares that could have been issued at fair value (determined as the average price of the Bank's shares during the quarter) based on the monetary value of the subscription rights attached to the outstanding share options. This calculation serves to determine the number of dilutive shares to be added to the weighted-average ordinary shares in issue for the purpose of computing the dilution. No adjustment was made to the net profit for the quarter.
