Part A: Explanatory Notes Pursuant to Malaysian Financial Reporting Standard 134 ("MFRS 134") Interim Financial Reporting

A1. Basis of Preparation

The unaudited condensed interim financial statements for the Group and the Bank have been prepared under the historical cost convention except for the following assets and liabilities that are stated at fair values: financial assets at fair value through other comprehensive income, financial assets and liabilities at fair value through profit or loss, derivative financial instruments and investment properties.

The unaudited condensed interim financial statements have been prepared in accordance with the requirements of Chapter 9, part K of the Listing Requirements of Bursa Malaysia Securities Berhad, MFRS 134 *Interim Financial Reporting* and IAS 34 *Interim Financial Reporting*.

The unaudited condensed interim financial statements do not include all the information and disclosures required in the audited annual financial statements, and should be read in conjunction with the audited annual financial statements for the financial year ended 31 December 2017. These explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and of the Bank since the financial year ended 31 December 2017.

The unaudited condensed interim financial statements of the Group include Islamic banking and insurance business. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic securities under the Shariah principles. Insurance business refers to the underwriting of general and life insurance business, the management of general and family takaful business and investment-linked business.

The significant accounting policies and methods of computation applied by the Group and the Bank are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2017 except for adoption of the following new Malaysian Financial Reporting Standards ("MFRSs"), amendments to MFRSs, annual improvements to MFRSs and IC Interpretations which are effective for annual periods beginning on or after 1 January 2018:

- MFRS 2 Share-based Payment Classification and Measurement of Share-based Payment Transactions (Amendments to MFRS 2)
- MFRS 9 Financial Instruments
- MFRS 15 Revenue from Contracts with Customers
- Applying MFRS 9 Financial Instruments with MFRS 4 Insurance Contracts (Amendments to MFRS 4)
- Annual Improvements to MFRSs 2014-2016 Cycle
 - (i) Amendments to MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards
 - (ii) Amendments to MFRS 128 Investments in Associates and Joint Ventures
- MFRS 140 Transfers of Investment Property (Amendments to MFRS 140)
- IC Interpretation 22 Foreign Currency Transactions and Advance Consideration

The adoption of the above new MFRSs, amendments to MFRSs, annual improvements to MFRSs and IC Interpretations do not have any significant financial impact to the Group's and the Bank's financial statements, except for as disclosed below:

MFRS 9 Financial Instruments

The adoption of this standard resulted in changes in accounting policies and adjustments to the financial statements. The accounting policies that relate to the classification, measurement and impairment of financial assets are amended to comply with this standard, while the hedge accounting policies are not impacted. In accordance with the transition provisions in the standard, comparatives are not restated and the financial impact of the adoption of the standard is recognised in retained profits, fair value through other comprehensive income reserve and regulatory reserve as at 1 January 2018.

A1. Basis of Preparation (cont'd.)

MFRS 9 Financial Instruments (cont'd.)

The adoption of MFRS 9 resulted in the following changes to the Group's and Bank's accounting policies:

(i) Classification and measurement

The Group and the Bank classify financial assets on the basis of two criteria:

- (1) The business model within financial assets are managed; and
- (2) The contractual cash flow characteristics.

At initial recognition, each financial assets is classified as either amortised cost, fair value through other comprehensive income ("FVOCI"), or fair value through profit or loss ("FVTPL") as summarised in below table:

Amortised Cost	Fair V	alue
	FVOCI	FVTPL
 Financial assets will be measured at amortised cost if the assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows which represent solely payments of principal and interest. 	 Financial assets will be measured at FVOCI if the assets held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and the contractual cash flows represent solely payments of principal and interest. Equity instruments are normally measured at FVTPL. However, for non-traded equity instruments, with an irrevocable option at inception, to measure changes through FVOCI (without recycling profit or loss upon derecognition). 	 Financial assets will be measured at FVTPL if the assets that are held for trading or financial assets that qualify for neither held at amortised cost nor at FVOCI. Equity instruments that were not elected for FVOCI will be measured at FVTPL.

Classification and measurement of financial liabilities remain largely unchanged, other than the fair value gains and losses attributable to changes in 'own credit risk' for financial liabilities designated and measured at FVTPL to be presented in OCI. The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss.

(ii) Impairment

The MFRS 9 impairment requirements are based on an Expected Credit Loss ("ECL") model that replaces the Incurred Loss model under the MFRS 139. The ECL model applies to financial assets measured at amortised cost or at FVOCI, irrevocable loan commitments and financial guarantee contracts, which include loans, advances and financing and debt instruments held by the Group and the Bank. The ECL model also applies to contract assets under MFRS 15 *Revenue from Contracts with Customers* and lease receivables under MFRS 117 *Leases*.

A1. Basis of Preparation (cont'd.)

MFRS 9 Financial Instruments (cont'd.)

(ii) Impairment (cont'd.)

The measurement of expected credit loss involves increased complexity and judgement that include:

Determining a significant increase in credit risk since initial recognition

The assessment of significant deterioration since initial recognition is key in establishing the point of switching between the requirement to measure an allowance based on 12-month ECL and one that is based on lifetime ECL. The quantitative and qualitative assessments are required to estimate the significant increase in credit risk by comparing the risk of a default occurring on the financial assets as at reporting date with the risk of default occurring on the financial assets as at reporting and the Bank apply a three-stage approach based on the change in credit quality since initial recognition:

	Stage 1	Stage 2	Stage 3	
3-Stage approach	Performing	Under- performing	Non-performing	
ECL Approach	12-month ECL	Lifetime ECL	Lifetime ECL	
Criterion	No significant increase in credit risk	Credit risk increased significantly	Credit-impaired assets	
Recognition of interest/profit income	On gross carrying amount	On gross carrying amount	On net carrying amount	

ECL Measurement

There are three main components to measure ECL which are a probability of default model ("PD"), a loss given default model ("LGD") and the exposure at default model ("EAD"). The model is to leverage as much as possible the Group's and the Bank's existing Basel II models and performed the required adjustments to produce MFRS 9 compliant model.

MFRS 9 does not distinguish between individual assessment and collective assessment. Therefore, the Group and the Bank have decided to continue measure the impairment mainly on an individual transaction basis for financial assets that are deemed to be individually significant.

Expected life

Lifetime expected credit losses must be measured over the expected life. This is restricted to the maximum contractual life and takes into account expected prepayment, extension, call and similar options, except for certain revolver financial instruments such as credit cards and overdrafts. The expected life for these revolver facilities generally refers to their behavioural life.

Forward looking information

Expected credit losses are the unbiased probability-weighted credit losses determined by evaluating a range of possible outcomes and considering future economic conditions. The reasonable and supportable forward looking information is based on the Group's and the Bank's research arm, Maybank Kim Eng ("MKE"). In addition, the MKE Research's assumptions and analysis are also based on the collation of macroeconomic data obtained from various sources such as, but not limited to regulators, government and foreign ministries as well as independent research organisations.

A1. Basis of Preparation (cont'd.)

MFRS 9 Financial Instruments (cont'd.)

(iii) Hedge accounting

The requirements for general hedge accounting have been simplified for hedge effectiveness testing. Overall, there is no significant financial impact on the Group and the Bank arising from adoption of new hedge accounting requirements under MFRS 9.

The financial impact of the adoption of MFRS 9 on the financial statements of the Group and of the Bank are disclosed in Note A41.

MFRS 15 Revenue from Contracts with Customers

MFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under MFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in MFRS 15 provide a more structured approach (i.e. five-step model) to measure and recognise revenue. The five-step model that applies to revenue recognition under MFRS 15 is as follows:

- (1) Identify the contract(s) with a customer;
- (2) Identify the performance obligations in the contract;
- (3) Determine the transaction price;
- (4) Allocate the transaction price to the performance obligations in the contract; and
- (5) Recognise revenue when (or as) the entity satisfies a performance obligation.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies how to account for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract. New disclosure requirements under MFRS 15 include disaggregated information about revenue and information about the performance obligations remaining at the reporting date.

The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under MFRS (including MFRS 111 *Construction Contracts*, MFRS 118 *Revenue*, IC Interpretation 13 *Customer Loyalty Programmes*, IC Interpretation 15 *Agreements for the Construction of Real Estate*, IC Interpretation 18 *Transfers of Assets from Customers* and IC Interpretation 131 *Revenue – Barter Transactions Involving Advertising Services*). Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018. The Group and the Bank have adopted the standard on its effective date, using the modified retrospective method of adoption. The standard does not apply to income or revenue associated with financial instruments scoped in MFRS 9 such as loan, advances and financing and financial investment securities. The adoption of this standard has no material financial impact other than the disclosures made in Note A31 of the Group's and the Bank's financial statements.

Applying MFRS 9 Financial Instruments with MFRS 4 Insurance Contracts (Amendments to MFRS 4)

In December 2016, the MASB issued amendments to MFRS 4 to address issues arising from the different effective dates of MFRS 9 and the upcoming new insurance contracts standard (IFRS 17) to be issued by the International Accounting Standards Board.

The amendments introduce two alternative options for entities issuing contracts within the scope of MFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of MFRS 9 for annual periods beginning before 1 January 2021 at the latest whilst the overlay approach allows an entity applying MFRS 9 to reclassify between profit or loss and other comprehensive income an amount that results in the profit or loss at the end of the reporting period for the designated financial assets being the same as if an entity had applied MFRS 139 to these designated financial assets.

The Group has opted not to apply the exemptions permitted under these amendments and has commenced full adoption of MFRS 9 effective on 1 January 2018.

A1. Basis of Preparation (cont'd.)

Revised Financial Reporting Guidelines issued by Bank Negara Malaysia ("BNM")

On 2 February 2018, BNM issued a revised Financial Reporting Guidelines. The revised guidelines apply to financial institutions in Malaysia that covers licensed banks, licensed investment banks, licensed Islamic banks and licensed insurers. The revised guidelines have superseded two guidelines issued by BNM previously, namely *Financial Reporting* dated 28 January 2015 and *Classification and Impairment Provision for Loans/Financing* dated 6 April 2015. The revised guidelines were updated to include as follows:

 Require a banking institution to maintain, in aggregate, loss allowance for non-credit impaired exposures (commonly known as Stage 1 and Stage 2 provisions) and regulatory reserves of no less than 1% of total credit exposures, net of loss allowance for credit-impaired exposures;

The Group and the Bank have presented the regulatory reserves in the Unaudited Statement of Changes in Equity and in Note A41.

(ii) Additional disclosure in annual financial statements i.e. intercompany charges with a breakdown by type of services received and geographical distribution;

The Group will present these information in the annual financial statements for the year ending 31 December 2018 accordingly.

- (iii) Additional disclosure on placement of funds in an investment account with an Islamic banking institution:
 - (a) present the placement, as a separate line item in the statement of financial position, as either "investment account placement" or "investment account placement (asset description)"; and
 - (b) disclose in the explanatory notes the nature of the underlying assets for the investment.

The additional disclosures are presented in Note A11.

- (iv) Clarify on the classification of a credit facility as credit-impaired:
 - (a) where the principal or interest/profit or both of the credit facility is past due for more than 90 days or 3 months. In the case of revolving credit facilities (e.g. overdraft facilities), the facility shall be classified as credit-impaired where the outstanding amount has remained in excess of the approved limit for a period of more than 90 days or 3 months;
 - (b) where the amount is past due or the outstanding amount has been in excess of the approved limit for 90 days or 3 months or less, and the credit facility exhibits weaknesses in accordance with the banking institution's credit risk measurement framework; or
 - (c) when the credit facility is classified as rescheduled or restructured in the Central Credit Reference Information System (CCRIS) in accordance with the CCRIS reporting requirements in Appendix 1 of the revised guidelines.

The Group and the Bank have adopted the above classification criteria in deriving the Group's credit-impaired exposures, which leads to the computation of regulatory reserves and loss allowance for credit-impaired exposures as required in (i) above.

A2. Significant Accounting Policies

The audited annual financial statements of the Group and of the Bank for the financial year ended 31 December 2017 were prepared in accordance with MFRS and International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act 2016 in Malaysia. The significant accounting policies adopted in preparing these unaudited condensed interim financial statements are consistent with those of the audited annual financial statements for the financial year ended 31 December 2017 except for the adoption of the new MFRSs, amendments to MFRSs, annual improvements to MFRSs and IC Interpretations which are effective for annual periods beginning on or after 1 January 2018 and new requirements of the BNM's Policy Documents as disclosed in Note A1.

A3. Significant Accounting Estimates and Judgements

The preparation of unaudited condensed interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of income, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Although these estimates and judgements are based on management's best knowledge of current events and actions, actual results may differ.

In preparing these unaudited condensed interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited annual financial statements for the financial year ended 31 December 2017 except for the measurement of expected credit loss under MFRS 9 which involves increased complexity and judgement as disclosed in Note A1.

A4. Auditors' Report on Preceding Audited Annual Financial Statements

The auditors' report on the audited annual financial statements for the financial year ended 31 December 2017 was not qualified.

A5. Seasonal or Cyclical Factors

The operations of the Group and of the Bank were not materially affected by any seasonal or cyclical factors during the third quarter ended 30 September 2018.

A6. Unusual Items Due to Their Nature, Size or Incidence

During the third quarter ended 30 September 2018, save as disclosed in Note A8 below, there were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group and of the Bank.

A7. Changes in Estimates

There were no material changes in estimates during the third quarter ended 30 September 2018.

A8. Changes in Debt and Equity Securities

(i) The following are the changes in debt and equity securities for the Group and the Bank during the third quarter ended 30 September 2018:

(a) Share capital

The share capital of the Bank increased from RM44,250,380,043 as at 31 December 2017 to RM45,828,431,142 as at 30 September 2018 via:

- (A) Issuance of 158,063,100 new ordinary shares amounting to RM1,532,110,665 to eligible employees who exercised their options under the current Maybank Group Employees' Share Scheme ("ESS") which commenced on 23 June 2011, for a period of 7 years; and
- (B) Issuance of 4,387,816 new ordinary shares amounting to RM45,940,434 to eligible employees under the Restricted Share Unit ("RSU") which is part of the current Maybank Group ESS.

A9. Dividends Paid/Payable

Dividends paid/payable during the third quarter ended 30 September 2018 are as follows:

(a) During the Annual General Meeting held on 12 April 2018, a final dividend in respect of the financial year ended 31 December 2017 of 32 sen single-tier dividend per ordinary share was approved by the shareholders.

The dividend consists of cash portion of 18 sen per ordinary share amounting to RM1,969,788,059 and an electable portion of 14 sen per ordinary share amounting to RM1,532,057,379 where the electable portion could be elected to be reinvested in new Maybank shares in accordance with the Dividend Reinvestment Plan ("DRP").

On 2 July 2018, Maybank announced that Board of Directors has resolved to exercise its rights not to proceed with the implementation of the 16th DRP in view of the softer equities market which has also affected its share price. The payment of the entire final cash dividend of 32 sen per ordinary share, amounting to a net dividend paid of RM3,501,845,438 was completed on 6 July 2018.

(b) A single-tier interim dividend, in respect of the financial year ending 31 December 2018 of 25 sen per ordinary share, was declared by the Bank on 30 August 2018.

The dividend consists of 15 sen to be paid in cash amounting to RM1,641,779,429 and an electable portion of 10 sen amounting to RM1,094,519,619 which can be elected to be reinvested in new ordinary shares in accordance with the DRP.

The financial statements for the current financial quarter ended 30 September 2018 record 15 sen cash portion and a portion of an electable portion of the dividends assumed to be paid in cash.

The Book Closure date and the payment date for the single-tier interim dividend and DRP were fixed on 2 October 2018 and 30 October 2018 respectively.

(c) Dividends paid by Maybank's subsidiaries to non-controlling interests amounted to RM94,043,000 during the third quarter ended 30 September 2018.

Included in the Bank's loans/financing to financial institutions is financing granted to Maybank Islamic Berhad ("MIB"), a subsidiary of the Bank, under Restricted Profit-Sharing Investment Account ("RPSIA") amounting to RM17,213.5 million (31 December 2017: RM18,068.2 million). The RPSIA is a contract based on the Mudharabah principle between two parties to finance a financing where the Bank acts as the investor who solely provides capital to MIB whereas the business venture is managed solely by MIB as an entrepreneur. The profit of the business venture is shared between both parties based on preagreed ratios. Losses, if any, are borne by the Bank.

* The credit equivalent amount and the risk-weighted amount are derived at using the credit conversion factors and riskweights respectively as specified by Bank Negara Malaysia for regulatory capital adequacy purposes.

(i) The Group's and the Bank's derivative financial instruments are subject to market, credit and liquidity risks, as follows:

Market Risk

Market risk on derivatives is the potential loss to the value of these contracts due to changes in price of the underlying items such as equities, interest rates, foreign exchange rates, credit spreads, commodities or other indices. The notional or contractual amounts provide only the volume of transactions outstanding at the reporting date and do not represent the amount at risk. Exposure to market risk may be reduced through offsetting items from on and off-balance sheet positions.

Credit Risk

Credit risk arises from the possibility that a counterparty may be unable to meet the terms of a contract in which the Bank and certain subsidiaries have a gain position. As at 30 September 2018, the amount of credit risk in the Group, measured in terms of the cost to replace the profitable contracts, was RM7,551.8 million (31 December 2017: RM6,704.7 million). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

Liquidity Risk

Liquidity risk on derivatives is the risk that the derivative position cannot be closed out promptly. Exposure to liquidity risk is reduced through contracting derivatives where the underlying items are widely traded.

A35. Commitments and Contingencies (cont'd.)

- (ii) During the third quarter ended 30 September 2018, the Group and the Bank have entered into a new credit derivative financial contract credit default swap.
- (iii) Other than as disclosed in Note (ii) above, there have been no changes since the end of the previous financial year in respect of the following:
 - (a) the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
 - (b) the risk management policies in place for mitigating and controlling the risks associated with these derivative financial contracts; and
 - (c) the related accounting policies.

A36. Capital Adequacy

(a) Capital Adequacy Framework

(i) Bank Negara Malaysia ("BNM") had on 2 February 2018 issued the Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components) on the computation of capital and capital adequacy ratios for Conventional banks and Islamic banks respectively. All financial institutions shall hold and maintain at all times, the following minimum capital adequacy ratios:

Common Equity Tier 1 (CET1)	Tier 1 Capital Ratio	Total Capital Ratio
4.5%*	6.0%	8.0%

- * Excluding Capital Conservation Buffer of 2.5% of total risk-weighted assets ("RWA") which is subject to phase-in arrangement effective on 1 January 2016 as well as Countercyclical Capital Buffer ranging between 0% 2.5% of total RWA and any other capital buffers which may be introduced by BNM.
- (ii) Total RWA is calculated as the sum of credit RWA, market RWA, operational RWA and large exposure risk requirements as determined in accordance with the Capital Adequacy Framework (Basel II - Risk-Weighted Assets) and Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets) both issued by BNM on 2 February 2018 for Conventional banks and Islamic banks respectively.

The sum of the above is further adjusted to take into account any profit-sharing investment accounts ("PSIA") recognised as risk absorbent for capital adequacy purposes, in the manner stipulated under the Guidelines on Recognition and Measurement of PSIA as Risk Absorbent as updated by BNM on 26 July 2011.

Any exposures which are deducted in the calculation of CET1 Capital, Tier 1 Capital and Total Capital are not subjected to any further capital charges in the computation of RWA.

(b) Compliance and application of capital adequacy ratios

The capital adequacy ratios of the Group and of the Bank are computed in accordance with BNM's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) both issued on 2 February 2018. The total RWA are computed based on the following approaches:

- (A) Credit risk under Internal Ratings-Based Approach;
- (B) Market risk under Standardised Approach; and
- (C) Operational risk under Basic Indicator Approach.

On an entity level basis, the computation of capital adequacy ratios of the subsidiaries of the Group are as follows:

- (i) For Maybank Islamic Berhad, the computation of capital adequacy ratios are based on BNM's Capital Adequacy Framework for Islamic Banks (Capital Components) and Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets) both issued on 2 February 2018. The total RWA are computed based on the following approaches:
 - (A) Credit risk under Internal Ratings-Based Approach;
 - (B) Market risk under Standardised Approach; and
 - (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.5%, 6.0% and 8.0% of total RWA for the current financial year ending 31 December 2018 (2017: 4.5%, 6.0% and 8.0% of total RWA).

A36. Capital Adequacy (cont'd.)

(b) Compliance and application of capital adequacy ratios (cont'd.)

- (ii) For Maybank Investment Bank Berhad, the computation of capital adequacy ratios are based on BNM's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) both issued on 2 February 2018. The total RWA are computed based on the following approaches:
 - (A) Credit risk under Standardised Approach;
 - (B) Market risk under Standardised Approach; and
 - (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.5%, 6.0% and 8.0% of total RWA for the current financial year ending 31 December 2018 (2017: 4.5%, 6.0% and 8.0% of total RWA).

- (iii) For PT Bank Maybank Indonesia Tbk, the computation of capital adequacy ratios are in accordance with local requirements, which is based on the Basel II capital accord. The total RWA are computed based on the following approaches:
 - (A) Credit risk under Standardised Approach;
 - (B) Market risk under Standardised Approach; and
 - (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirement for PT Bank Maybank Indonesia Tbk is 10% up to less than 11% (2017: 10% up to less than 11%) of total RWA.

(c) The capital adequacy ratios of the Group and of the Bank

With effect from 30 June 2013, the amount of declared dividend to be deducted in the calculation of CET1 Capital under a DRP shall be determined in accordance with BNM's Implementation Guidance on Capital Adequacy Framework (Capital Components) ("Implementation Guidance") issued on 8 May 2013. Under the said Implementation Guidance, where a portion of the dividend may be reinvested under a DRP (the electable portion), the amount of declared dividend to be deducted in the calculation of CET1 Capital may be reduced as follows:

- (i) where an irrevocable written undertaking from shareholder has been obtained to reinvest the electable portion of the dividend; or
- (ii) where there is no irrevocable written undertaking provided, the average of the preceding 3-year take-up rates subject to the amount being not more than 50% of the total electable portion of the dividend.

Pursuant to Note A9(b), in arriving the capital adequacy ratios for the nine months financial period ended 30 September 2018, the cash portion and a portion of the electable portion of declared dividend which assumed to be paid in cash have been deducted from the calculation of CET1 Capital.

Based on the above, the capital adequacy ratios of the Group and of the Bank are as follows:

A38. Fair Value Measurements of Financial Instruments

Fair value hierarchy

For disclosure purposes, the level in the hierarchy within which the instruments are classified in its entirety is based on the lowest level input that is significant to the position's fair value measurements:

(a) Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities

Refers to financial instruments which are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices which represent actual and regularly occurring market transactions in an arm's length basis. Such financial instruments include actively traded government securities, listed derivatives and cash products traded on exchange.

(b) Level 2: Valuation techniques for which all significant inputs are, or are based on, observable market data

Refers to inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices). Examples of Level 2 financial instruments include over-thecounter ("OTC") derivatives, corporate and other government bonds, illiquid equities and consumer loans and financing with homogeneous or similar features in the market.

(c) Level 3: Valuation techniques for which significant inputs are not based on observable market data

Refers to instruments where fair value is measured using significant unobservable inputs. The valuation techniques used are consistent with Level 2 but incorporates the Group's and the Bank's own assumptions and data. Examples of Level 3 instruments include corporate bonds in illiquid markets, private equity investments and loans and financing priced primarily based on internal credit assessment.

The following tables show the Group's and the Bank's financial assets and financial liabilities that are measured at fair value analysed by level within the fair value hierarchy as at 30 September 2018 and 31 December 2017.

Valuation techniques

The valuation techniques used for the financial instruments that are not determined by reference to quoted prices (Level 1) are described below:

Derivatives

The fair values of the Group's and the Bank's derivative instruments are derived using discounted cash flows analysis, option pricing and benchmarking models.

Financial assets designated at fair value through profit or loss, financial investments at fair value through profit or loss, financial investments at fair value through other comprehensive income, financial investments held-for-trading and financial investments available for sale.

The fair values of these financial assets/financial investments are determined by reference to prices quoted by independent data providers and independent brokers. Fair values for unquoted equity securities held for socio economic reasons (classified as Level 3) are determined based on the net tangible assets of the companies.

Loans, advances and financing at fair value through other comprehensive income

The fair values are estimated based on expected future cash flows of contractual instalment payments, discounted at applicable and prevailing rates at reporting date offered for similar facilities to new borrowers with similar credit profiles.

Financial liabilities designated at fair value through profit or loss

The fair values of financial liabilities designated at fair value through profit or loss are derived using discounted cash flows.

B1. Performance Review

(i) Current Period-to-Date vs Previous Corresponding Period-to-Date

The Group posted profit after tax and zakat attributable to equity holders of RM5,786.9 million for the ninemonth financial period ended 30 September 2018, an increase of RM398.5 million or 7.4% compared to the previous corresponding nine-month financial period ended 30 September 2017.

The Group's net interest income and Islamic Banking income for the nine-month financial period ended 30 September 2018 increased by RM287.0million or 2.2% to RM13,076.5 million compared to the previous corresponding nine-month financial period ended 30 September 2017.

The Group's net earned insurance premiums from the Insurance and Takaful subsidiaries increased by RM614.3 million or 16.1% to RM4,431.4 million for the nine-month financial period ended 30 September 2018 compared to the previous corresponding nine-month financial period ended 30 September 2017.

Other operating income of the Group for the nine-month financial period ended 30 September 2018 was RM3,758.0 million, a decrease of RM671.2 million or 15.2% from RM4,429.2 million in the previous corresponding nine-month financial period ended 30 September 2017. The decrease was mainly due to net loss in investment income of RM79.1 million for the nine-month financial period ended 30 September 2018 as compared to net gain in investment income of RM769.8 million in the previous corresponding nine-month financial period ended 30 September 2017, unrealised mark-to-market loss on revaluation of financial assets/liabilities at FVTPL and derivatives of RM10.5 million for the nine-month financial period ended 30 September 2018 as compared to unrealised mark-to-market gain on revaluation of financial assets/liabilities at FVTPL and derivatives of RM10.5 million. The decrease was, however, mitigated by higher foreign exchange gain of RM229.5 million, higher realised gain on derivatives of RM112.5 million and higher gain on disposal of property, plant and equipment of RM54.7 million compared to the previous corresponding nine-month financial period ended 30 September 2017.

The Group's overhead expenses for the nine-month financial period ended 30 September 2018 recorded a decrease of RM268.4 million or 3.2% to RM8,145.2 million compared to the previous corresponding ninemonth financial period ended 30 September 2017. The decrease in overhead expenses was mainly due to lower administration and general expenses of RM333.0 million and lower establishment costs of RM100.2 million. The decrease was, however, mitigated by higher personnel expenses of RM127.0 million and higher marketing expenses of RM37.8 million.

The Group's allowances for impairment losses on loans, advances, financing and other debts decreased by RM249.3 million or 14.2% to RM1,509.9 million for the nine-month financial period ended 30 September 2018.

B1. Performance Review (cont'd.)

(i) Current Period-to-Date vs Previous Corresponding Period-to-Date (cont'd.)

The Group's profit before taxation and zakat for the nine-month financial period ended 30 September 2018 compared to the previous corresponding nine-month financial period ended 30 September 2017 is further segmented based on the operating segments of the Group as follows:

Group Community Financial Services ("Group CFS")

Group CFS's profit before taxation and zakat increased by RM454.6 million or 11.8% to RM4,312.3 million for the nine-month financial period ended 30 September 2018 from RM3,857.6 million for the previous corresponding nine-month financial period ended 30 September 2017. The increase was mainly due to lower overhead expenses of RM244.4 million, lower allowances for impairment losses on loans, advances, financing and other debts of RM225.0 million and higher net interest income and income from IBS operations of RM6.9 million. This was, however, offset by lower other operating income of RM22.3 million.

Group Global Banking

a) Group Corporate Banking & Global Markets

Group Corporate Banking & Global Markets' profit before taxation and zakat decreased by RM53.2 million or 1.5% to RM3,411.7 million for the nine-month financial period ended 30 September 2018 from RM3,464.9 million for the previous corresponding nine-month financial period ended 30 September 2017. The decrease was mainly due to lower other operating income of RM123.3 million and lower share of profits in associates and joint ventures of RM110.2 million. The decrease was, however, mitigated by higher net writeback of impairment losses on financial investments and other financial assets of RM69.0 million, lower overhead expenses of RM57.4 million, higher net interest income and income from IBS operations of RM41.8 million and lower net allowances for impairment losses on loans, advances, financing and other debts of RM12.2 million.

b) Group Investment Banking (Maybank IB and Maybank Kim Eng)

Group Investment Banking's profit before taxation and zakat increased by RM118.6 million to RM227.4 million for the nine-month financial period ended 30 September 2018 from RM108.8 million for the previous corresponding nine-month financial period ended 30 September 2017. The increase was mainly driven by higher other operating income of RM78.9 million, lower overhead expenses of RM47.0 million, higher writeback of impairment losses on loans, advances, financing and other debts of RM6.6 million. The increase was, however, offset by lower net interest income and income from IBS operations of RM14.5 million.

c) Group Asset Management

Group Asset Management recorded a loss before taxation and zakat of RM71.8 million for the nine-month financial period ended 30 September 2018 compared to a profit before taxation and zakat of RM72.2 million for the previous corresponding nine-month financial period ended 30 September 2017. The loss was mainly due to lower other operating income of RM134.2 million, higher net allowances for impairment losses on financial investments and other financial assets of RM20.6 million and higher overhead expenses of RM2.1 million. This loss was, however, mitigated by higher net interest income and income from IBS operations of RM12.4 million.

Group Insurance and Takaful

Group Insurance and Takaful's profit before taxation and zakat decreased by RM141.6 million or 23.9% to RM451.0 million for the nine-month financial period ended 30 September 2018 from RM592.6 million for the previous corresponding nine-month financial period ended 30 September 2017. The decrease was contributed mainly by lower other operating income of RM622.3 million, higher net insurance benefits and claims incurred, net fee and commission expenses, change in expense liabilities and taxation of life and takaful fund of RM135.7 million and higher overhead expenses of RM78.3 million. This was mitigated by higher net earned insurance premiums of RM614.3 million, net writeback of impairment losses on financial investments and other financial assets of RM39.2 million, higher net interest income of RM36.3 million and net writeback of impairment losses on loans, advances, financing and other debts of RM5.0 million.

The Group's net earned insurance premiums for the quarter ended 30 September 2018 decreased by RM60.0 million to RM1,430.0 million compared to RM1,490.0 million in the preceding quarter ended 30 June 2018.

Other operating income of the Group for the quarter ended 30 September 2018 increased by RM440.5 million to RM1,448.5 million compared to RM1,008.0 million in the preceding quarter ended 30 June 2018. The increase was mainly due to unrealised mark-to-market gain on revaluation of financial assets/liabilities at FVTPL and derivatives of RM332.8 million for the quarter ended 30 September 2018 as compared to unrealised mark-to-market loss on revaluation of financial assets/liabilities at FVTPL and derivatives of RM337.8 million for the preceding quarter ended 30 June 2018 and higher fee income of RM25.9 million. The increase was, however, offset by lower realised gain on derivatives of RM36.6 million and lower investment income of RM36.6 million.

The Group's net insurance benefits and claims incurred, net fee and commission expenses, change in expense liabilities and taxation of life and takaful fund increased by RM573.3 million to RM1,573.0 million for the quarter ended 30 September 2018 compared to RM999.7 million in the preceding quarter ended 30 June 2018. The increase was mainly attributable to higher net insurance benefits and claims incurred by the Insurance and Takaful subsidiaries of RM504.3 million.

The Group posted an increase of RM20.0 million in overhead expenses to RM2,698.8 million for the quarter ended 30 September 2018 compared to RM2,678.8 million in the preceding quarter ended 30 June 2018. The increase was mainly due to higher establishment costs of RM31.8 million, higher marketing expenses of RM11.9 million and higher personnel expenses of RM6.5 million. The increase was, however, mitigated by lower administration and general expenses of RM30.2 million.

The Group's allowance for impairment losses on loans, advances, financing and other debts decreased by RM163.6 million to RM418.5 million in the quarter ended 30 September 2018 compared to RM582.1 million in the preceding guarter ended 30 June 2018.

B3. Prospects

The world's real GDP growth momentum is expected to be sustained at +3.8% in 2018E (2017: +3.7%), underpinned by a pick up in the US (2018E: +2.9%; 2017: +2.2%) and improved growth in selected BRIC markets such as Brazil (2018E: +1.3%; 2017: +1.0%), Russia (2018E: +1.8%; 2017: +1.5%) and India (2018E: +7.4%; 2017: +6.7%). Global growth is expected to see some moderation in 2H 2018 amid the outlook for slower expansion in China (2018E: +6.6%; 2017: +6.9%), the Eurozone (2018E: +2.0%; 2017: +2.4%) and Japan (2018E: +1.1%; 2017: +1.7%).

The ASEAN-6 countries are expected to chart a stable pace of growth in 2018E at +5.1% (2017: +5.1%), in spite of headwinds such as global monetary policy normalisation and US-China trade war risk. Maybank Group's home markets Malaysia and Singapore are expected to see slower growth in 2018E, at +4.7% (2017: +5.9%) and +3.2% (2017: +3.6%) respectively while Indonesia maintains growth at +5.2% (2017: +5.1%).

Malaysia's real GDP growth in 2018 will be supported by an expected pick-up in consumer spending. External demand growth will also expand in 2018 but the pace of growth is expected to moderate after the high growth experienced in 2017. Reviews of major infrastructure projects may affect investment growth but Maybank Malaysia's consumer loan growth is expected to be in-line with industry growth.

Singapore's GDP is expected to grow at 3.2% in 2018 amid some cooling off in the manufacturing sector. In 2018, the services sector is likely to maintain its growth momentum, although recent property cooling measures are expected to moderate the outlook on property-related business services and construction. Maybank Singapore's loan growth will mainly be driven by SME, consumer financing and corporate lending. Maybank Singapore will also focus on building its wealth management services by expanding our investment and insurance products and deepening cross-selling across key customer segments.

Indonesia is expected to maintain its GDP growth of 5.2% in 2018, driven by domestic demand and government infrastructure spending. Maybank Indonesia will remain focused on corporate lending growth among top-tier clients while protecting its net interest margin by maintaining pricing discipline across all products. Another area of growth for Maybank Indonesia will be the expansion of its fee income streams through strategic partnerships in bancassurance and general insurance as well as e-channel transactions.

At Maybank Group, key priorities for 2018 include maintaining pricing discipline across our products, focus on attaining cheaper funding sources to support loan growth, growing our loan portfolio within our risk appetite, while proactively managing our asset quality. The Group has implemented MFRS 9 on 1st January 2018, of which the impairment assessment is based on the expected credit loss model that uses forward looking assumptions as opposed to an incurred loss model under the previous accounting standard. The Group's capital and liquidity positions remain strong notwithstanding the implementation of MFRS 9.

Barring any unforeseen circumstances, the Group expects its financial performance for 2018 to be satisfactory against the expected growth prospects of its key home markets. The Group has set its Headline Key Performance Indicator for Return on Equity of approximately 11%.

The Bank's effective tax rate for the third quarter ended 30 September 2018 was lower than the statutory tax rate due to certain income not subject to tax.

Domestic income tax for the Bank is calculated at the Malaysian statutory tax rate of 24% of the estimated chargeable profit for the financial year. Taxation for foreign subsidiaries in other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

B6. Status of Corporate Proposals Announced but Not Completed

On 4 October 2018, Maybank announced that the Monetary Authority of Singapore has on 3 October 2018 granted a full banking licence to Maybank Singapore Limited ("MSL") to operate as a subsidiary with Asian Currency Unit capabilities in Singapore with effect from 5 November 2018. MSL was incorporated in Singapore on 2 February 2018 and fully in operations on 5 November 2018. MSL is directly wholly-owned by an intermediate holding company, Cekap Mentari Berhad (MSL was previously held by Maybank International Holdings Sdn Bhd), which in turn is directly wholly-owned by Malayan Banking Berhad.

The incorporation is not expected to have any material impact on the earnings, net assets and gearing of Maybank Group for the financial year ending 31 December 2018.

B7. Status of Utilisation of Proceeds Raised from Corporate Proposal

The proceeds raised from the borrowings, issuance of subordinated obligations and capital securities have been used for working capital, general banking and other corporate purposes, as intended.

B8. Deposits from Customers, Investment Accounts of Customers, Deposits and Placements from Financial Institutions and Debt Securities

Please refer to Note A14, A15, A16, A17 and A40g.

B9. Derivative Financial Instruments

Please refer to Note A37.

B10. Changes in Material Litigation

There is no material litigation during the third quarter ended 30 September 2018.

B11. Dividend

No interim dividend has been recommended during the third quarter ended 30 September 2018.

B12. Earnings Per Share ("EPS")

Basic EPS

The basic EPS of the Group is calculated by dividing the net profit for the quarter/period attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue during the period.

	Third Quarter Ended		Cumulative 9 Months Ended	
	30 September 2018	30 September 2017	30 September 2018	30 September 2017
Net profit for the quarter/period attributable to equity holders of the Bank (RM'000)	1,956,856	2,027,206	5,786,905	5,388,443

Basic earnings per share	17.91 sen	19.86 sen	53.12 sen	52.05 sen

Diluted EPS

The diluted EPS of the Group is calculated by dividing the net profit for the quarter/period attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue, which has been adjusted for the number of ordinary shares that could have been issued under the Maybank Group Employee Share Scheme ("ESS") and the Dividend Reinvestment Plan ("DRP").

B12. Earnings Per Share ("EPS")(cont'd.)

Diluted EPS (cont'd.)

In the diluted EPS calculation, it was assumed that certain number of ordinary shares under the ESS relating to the RSU are vested and awarded to employees through issuance of additional ordinary shares. A calculation is done to determine the number of ordinary shares that could have been issued at fair value (determined as the average price of the Bank's ordinary shares during the quarter/period) based on the monetary value of the ESS entitlement attached to the outstanding RSU granted and the number of ordinary shares that could have been issued at an assumed price (determined as the 5-day average price of the Bank's ordinary shares as at 30 September 2018 and 30 September 2017) based on the electable portion of the dividends issued under the DRP. This calculation serves to determine the number of dilutive shares to be added to the weighted average ordinary shares in issue for the purpose of computing the dilution. No adjustment was made to the net profit for the quarter/period.
