## A2. Significant Accounting Policies (Cont'd)

(b) FRS 101: Presentation of Financial Statements

The adoption of revised FRS 101 will have the following impact on the consolidated financial statements:

- i) This Standard introduces the titles "statement of financial position" and "statement of cash flows" to replace the current titles "balance sheet" and "cash flow statement" respectively. A new statement known as the "statement of comprehensive income" is also introduced in this Standard whereby all non-owner changes in equity are required to be presented in either one statement of comprehensive income or in two statements (i.e. a separate income statement and a statement of comprehensive income). Components of comprehensive income are not permitted to be presented in the statement of changes in equity.
- ii) This Standard also introduces a new requirement to present a statement of financial position as at the beginning of the earliest comparative period if there are applications of retrospective restatements that are defined in FRS 108, or when there are reclassifications of items in the financial statements.
- iii) Additionally, FRS 101 requires the disclosure of reclassification adjustments and income tax relating to each component of other comprehensive income, and the presentation of dividends recognised as distributions to owners together with the related amounts per share in the statement of changes in equity or in the notes to the financial statements.
- iv) This Standard introduces a new requirement to disclose information on the objective, policies and processes for managing capital based on information provided internally to key management personnel as defined in FRS 124 *Related Party Disclosures*. Additional disclosures are also required for puttable financial instruments classified as equity instruments.
- (c) FRS 139: Financial Instruments Recognition and Measurement

FRS 139 establishes principles for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items. The Group adopted FRS 139 prospectively on 1 January 2010 in accordance with the transitional provisions. The effects arising from the adoption of this Standard has been accounted for by adjusting the opening balance of retained earnings as at 1 January 2010. Comparatives are not restated. The details of the changes in accounting policies and the effects arising from the adoption of FRS 139 are discussed below:

i) Available-for-sale ("AFS") investments

Prior to 1 January 2010, the Group classified its investments which were held for non-trading purposes as non-current investments. Such investments were carried at cost less impairment losses. Upon adoption of FRS 139, these investments are designated at 1 January 2010 as available-for-sale financial asset and accordingly are stated at fair value.

Investments that do not have quoted market price in an active market of which fair value cannot be reliably measured at 1 January 2010 shall continue to be carried at cost less impairment loss.

#### ii) Borrowings

Prior to 1 January 2010, the Group's non-current borrowings were carried at cost. Upon adoption of FRS139, borrowings are initially measured at fair value and subsequently at amortised cost using the effective interest rate (EIR) method. Gains and losses arising from the derecognition of the borrowings, EIR amortisation and impairment losses are recognised in the statement of comprehensive income.
