2. Changes in Accounting Policies (cont'd)

(a) FRS 101: Presentation of Financial Statements

The adoption of the revised FRS 101 has affected the presentation of minority interest, share of net after-tax results of associates and other disclosures. In the consolidated balance sheet, minority interests are now presented within total equity. In the consolidated income statement, minority interests are presented as an allocation of the total profit or loss for the period. A similar requirement is also applicable to the statement of changes in equity. FRS 101 also requires disclosure, on the face of the statement of changes in equity, total recognized income and expenses for the period, showing separately the amounts attributable to equity holders of the parent and to minority interest.

The current period's presentation of the Group's financial statements is based on the revised requirements of FRS 101, with the comparatives restated to conform with the current period's presentation.

(b) FRS 140: Investment Property

The adoption of FRS 140 has resulted in a change in accounting policy for investment properties. Investment properties are now stated at fair value, representing open-market value determined by external valuers. Gains or losses arising from changes in the fair values of investment properties are recognized as profit or loss in the period in which they arise. Prior to 1 July 2006, investment properties are stated at cost less impairment losses. In accordance with the transitional provision of FRS 140, this change in accounting policy is applied prospectively and the comparatives as at 30 June 2006 are not restated. Instead, the changes have been accounted for by restating the following opening balances in the balance sheet as at 1 July 2006:-

	As at 1 July 2006 RM'000
Increase in investment properties	1,982
Decrease in property, plant and equipment	(339)
