NOTES

1. Basis of Preparation

The interim financial report is unaudited and has been prepared in accordance with the Financial Reporting Standard ("FRS") 134 "Interim Financial Reporting" and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 30 June 2010. The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 30 June 2010.

2. Changes in Accounting Policies

The significant accounting policies adopted in this interim financial report are consistent with those adopted in the annual financial statements for the financial year ended 30 June 2010 except for the adoption of the relevant new FRSs, amendments to FRSs and IC Interpretations that are effective for financial periods beginning on or after 1 January 2010 and 1 July 2010. Other than the implications as discussed below, the adoption of the new FRSs, amendments to FRSs and IC Interpretations do not result in significant changes in the reported profit or equity or on the disclosures in the interim financial statements of the Group:

i. FRS 101: Presentation of Financial Statements (revised)

The revised FRS 101 separates owner and non-owner changes in equity. Therefore, the consolidated statement of changes in equity will now include only details of transactions with owners. All non-owner changes in equity are presented as a single line labeled as total comprehensive income. The revised FRS also introduces the statement of comprehensive income: presenting all items of income and expense recognised in the income statement, together with all other items of recognised income and expense, either in one single statement, or in two linked statements.

The Group has adopted the two statements format for presentation of comprehensive income. Comparative information has been re-presented to be in conformity with the revised FRS. The revised FRS does not have any impact on the financial position and results of the Group.

ii. FRS 139: Financial Instruments: Recognition and Measurement and Amendments to FRS 139: Financial Instruments: Recognition and Measurement

The Group classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, held-to-maturity, and available-for-sale. The classification depends on the nature of the assets and the purpose for which the asset was acquired. Management determines the classification of its financial assets at initial recognition.

The Group's non-current investments other than investments in subsidiaries, associates, jointly controlled entities and investment properties were previously stated at cost less impairment losses.

Following the adoption of FRS 139, these investments are now being classified as available for sale financial assets which are not for trading. Subsequent to initial recognition, they are measured at fair value and changes therein, other than for impairment losses, and foreign exchange gains and losses on available-for-sale monetary items, are recognised directly in equity. When an investment is derecognised, the cumulative gain or loss in equity is transferred to the income statement.

iii. Amendment to FRS 117 Leases:

Prior to the adoption of the Amendment to FRS 117, leasehold lands were treated as operating leases. The considerations paid were classified and presented as leasehold land use rights in the statement of financial position. With the adoption of the Amendment to FRS 117, the classification of a leasehold land as a finance lease or an operating lease is based on the extent to which risks and rewards incident to ownership lie. Accordingly, the Group has reclassified its leasehold land to property, plant and equipment. This change in classification has no effect on the results of the Group. The reclassification has been made retrospectively in accordance with the transitional provision and certain comparative balances have been restated as follows:

		Effect of adopting the	
As at 30 June 2010	As previously	Amendment	As
	reported	to FRS 117	restated

15. Material changes in profit before taxation

The Group's current quarter profit before tax of RM0.3 million is lower as compared to the immediate preceding quarter's RM7.3 million.
