NOTES

1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with Financial Reporting Standard (“FRS”) 134: Interim Financial Reporting and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The interim financial report should be read in conjunction with the audited financial statements of the Group for the financial year ended 30 June 2014. The explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 30 June 2014.

2. Changes in accounting policies

The accounting policies and presentation adopted for this interim financial report are consistent with those adopted for the annual financial statements for the financial year ended 30 June 2014 except for the adoption of the relevant new FRSSs, amendments to FRSSs and IC Interpretations that are effective for annual periods beginning on or after 1 January 2014 and 1 July 2014 respectively. The Group has not early adopted the standards that have been issued by the Malaysian Accounting Standards Board (“MASB”) but are not yet effective for the annual periods beginning on or after 1 July 2014.

The adoption of the new FRSSs, amendments to FRSSs and IC Interpretations does not have any material impact on the financial position and results of the Group.

On 19 November 2011, the MASB issued a new MASB approved accounting framework, the Malaysian Financial Reporting Standards (“MFRS Framework”).

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 “Agriculture” and IC Interpretation 15 “Agreements for Construction of Real Estate”, including its parent, significant investor and venturer (herein called “Transitioning Entities”).

Transitioning Entities are allowed to defer adoption of the new MFRS Framework. Consequently, adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2017.

The Group falls within the definition of “Transitioning Entities” and accordingly, will adopt the MFRS Framework for the financial year beginning on 1 July 2017.

14. Review of performance

(a) Performance of the current quarter against the preceding year corresponding quarter

The Group recorded revenue of RM52.7 million for the current quarter under review as compared to RM58.4 million in the preceding year corresponding quarter. The decrease in revenue was mainly due to lower contribution from the Group's commercial development sub-segment. The reduction in the contribution from commercial project was partly mitigated by the increased contribution in the residential development sub-segment.

The Group recorded lower profit before tax of RM16.2 million for the current quarter as compared to RM19.1 million in the preceding year corresponding quarter due principally to the reason mentioned above as well as lower contribution from joint ventures.

(b) Performance of the current period against the preceding year corresponding period

The Group recorded a revenue and profit before tax of RM136.6 million and RM28.7 million respectively for the current financial period as compared to RM178.6 million and RM52.8 million respectively in the preceding year corresponding financial period. The decrease in revenue and profit were mainly due to lower contribution from property development division due to factors as mentioned in Note 14(a) above.

15. Material change in profit before tax for the current quarter compared with the immediate preceding quarter

The Group recorded a profit before tax of RM16.2 million for the current quarter as compared to RM8.0 million as reported in the immediate preceding quarter. The increase in current quarter was mainly due to higher profit contributed by the property development segment and higher contribution from associate.

16. Prospects

The Group expects the property market outlook and sentiment to remain cautious amid credit tightening rules and uncertain economic environment. The performance of the Group is therefore expected to be challenging for the current financial year.

17. Profit forecast/profit guarantee

Not applicable.

Type of Derivative	Contract/ Notional value RM'000	Net fair value gain RM'000
