12. Review of performance

- (a) Performance of the current quarter against the immediate preceding year corresponding quarter.

The Group reported revenue of RM119.6 million and profit before tax of RM7.9 million for the current quarter under review as compared to revenue of RM76.9 million and profit before tax of RM12.7 million in the preceding year corresponding quarter.

The improved Group's revenue reported this quarter was primarily due to increase contribution from the property development division mainly arising from higher progressive profit recognition in North Tower of Emerald Hills in Cheras and better sales from our Oval project. Notwithstanding the increase in revenue, the gross profit was lower mainly due to better gross margin recorded in the immediate preceding year corresponding quarter following the finalisation of the development cost of Garden Terrace and South Tower of Emerald Hills and further suppressed by the rise of construction cost from material price increases.

The performance of the hospitality division has also improved with higher occupancy and better average room rates recorded from the increase in tourist arrivals, enhanced domestic commercial and social activities.

The Group incurred lower finance cost mainly due to decrease in outstanding loans and borrowings, which mitigated the impact of higher interest rate. The share of results of associates and joint ventures reported lower contributions as there are fewer on-going projects in our Rawang projects in the current quarter, following the completion of Mallow Lakepark Homes and Garland Residence 2.

- (b) Performance of the current financial period against the preceding year corresponding financial period.

The Group recorded revenue of RM238.8 million and profit before tax of RM16.9 million for the current financial period as compared to revenue of RM183.7 million and profit before tax of RM16.5 million in the preceding year corresponding financial period.

The property development division reported higher revenue in the current financial period mainly due to the completion of the first phase of Emerald 9 in Cheras, higher progressive project profit recognition in North Tower of Emerald Hills in Cheras and better sales from our Oval project. Despite the increase in revenue, the gross profit was lower mainly due to the reasons explained in 12(a) above.

The performance of the hospitality division also saw improvement with higher occupancy and better average room rates in line with the encouraging rebound in social and travel activities.

The Group incurred higher administrative expenses by RM1.4 million in the current financial period arising mainly from increased casual workers employed and higher general expenses in line with the better performance in hospitality division. The higher finance income by RM1.0 million is contributed by the increase in deposit interest rate. The finance cost incurred by the Group reduced by RM1.1 million as compared to the preceding year corresponding financial period largely contributed by lower outstanding loans and borrowings, which mitigated the impact of higher interest rate.

13. Material change in profit before tax for the current quarter compared with the immediate preceding quarter

The Group recorded a profit before tax in the current quarter of RM7.9 million as compared to a profit before tax of RM9.0 million in the immediate preceding quarter. The decrease was mainly attributed by the lower contribution from the property development division.

14. Prospects

Malaysia's Gross Domestic Product (GDP) is estimated to be 3.4 per cent in the fourth quarter of 2023 and recorded a growth of 3.8 per cent in 2023 but which was lower as compared 8.7 per cent in the previous year. All sectors experienced positive growth. However, challenges persist in the domestic property sector from elevated interest rates and rising construction costs leading to depressed profit margin of the property sector. Property sales remain challenging due to oversupply of properties in different markets and segments. The Group's key focus remains the timely completion of its on-going development projects and monetisation of its inventories. New product launches will be phased in line with the prevailing market conditions. Furthermore, the Group remains vigilant in seeking opportunities to expand its landbanks.
