Segmental reporting by geographical location has not been prepared as the Group's operations are substantially carried out in Malaysia.

9. Valuations of property, plant and equipment and investment properties

The valuations of property, plant and equipment and investment properties were brought forward without any amendments from the previous annual financial statements.

10. Material subsequent events not reflected in the financial statements

There were no material subsequent events not reflected in the financial statements.

11. Changes in the composition of the Group

There were no changes in the composition of the Group during the quarter under review, including business combinations, acquisition or disposal of subsidiaries and long-term investments, and restructuring other than as mentioned below:

- (a) The following indirect subsidiaries of GLM have been placed under member's voluntary winding up:
 - i. DC Offices Sdn Bhd; and
 - ii. JB Parade Condominium Sdn Bhd.
- (b) Megawise Philippines, Inc., an indirect subsidiary of GLM, has been dissolved voluntarily.

12. Review of performance

- (a) Performance of the current quarter against the immediate preceding year corresponding quarter.

The Group reported revenue of RM89.0 million and profit before tax of RM3.1 million for the current quarter under review as compared to revenue of RM112.4 million and profit before tax of RM12.1 million in the preceding year corresponding quarter. The lower Group revenue and profit before tax reported in this quarter was primarily due to reduced revenue from the property development division which was partially offset by better performance in the hospitality division.

The performance of property development division showed a lower contribution in the current quarter as compared to the preceding year corresponding quarter mainly due to lower progressive profit recognition in North Tower of Emerald Hills in Cheras and fewer ongoing projects following the handover of the first phase of Emerald 9 in the first quarter of the current financial year.

The performance of the hospitality division improved in the quarter under review with higher occupancy and better average room rates recorded from the increase in tourist arrivals, enhanced domestic commercial and social activities.

The Group incurred lower administrative expenses as compared to previous corresponding period with savings in various operational expenses. The share of results of associates and joint ventures showed lower contributions as there were fewer on-going projects in our Rawang projects in the current quarter, following the completion of Mallow Lakepark Homes and Garland Residence 2.

- (b) Performance of the current financial period against the preceding year corresponding financial period.

The Group recorded revenue of RM327.7 million and profit before tax of RM20.0 million for the current financial period as compared to revenue of RM296.1 million and profit before tax of RM28.5 million in the preceding year corresponding financial period.

The higher Group revenue reported this period was primarily contributed by the better performance from the property development arising from the completion of the first phase of Emerald 9 in Cheras and better sales from our Oval project. In addition, the performance of the hospitality division also saw improvement with higher occupancy and better average room rates in line with the encouraging rebound in social and travel activities.

Despite the increase in revenue, the gross profit was lower in the current financial period mainly due to better gross profit margins recorded in preceding year corresponding financial period following the finalisation of the development cost of Garden Terrace and South Tower of Emerald Hills while the rise of construction cost from material price increases in the current financial period further eroded margins.

Finance income in the current period increased by RM1.2 million as a result of the rise in deposit interest rate. The finance cost incurred by the Group was lowered by RM1.4 million as compared to the preceding year corresponding financial period following reductions in outstanding loans and borrowings, which mitigated the impact of higher interest rate. The share of results of associates and joint ventures reported lower contributions mainly due to the reasons explained in 12(a) above.

The figures have not been audited

13. Material change in profit before tax for the current quarter compared with the immediate preceding quarter

The Group recorded a profit before tax in the current quarter of RM3.1 million as compared to a profit before tax of RM7.9 million in the immediate preceding quarter. The decrease was mainly attributed to the reduced contribution from the property development division and lower share of results from associates and joint ventures.

14. Prospects

Malaysia's economy is expected to grow faster at 4% to 5% this year, driven by improved investment and external demand. The recovery of the electrical and electronic sector as well as new and existing investment projects would spur domestic growth. Headline inflation is expected to remain moderate in 2024, averaging between 2.0% and 3.5%. Challenges, however, remain in the domestic property sector from elevated interest rates and rising construction costs leading to depressed profit margin. Property sales remain challenging due to oversupply of properties in different markets and segments. The Group's key focus remains the timely completion of its on-going development projects and monetisation of its inventories. New product launches will be phased in line with the prevailing market conditions. Furthermore, the Group remains vigilant in seeking opportunities to expand its landbanks.

15. Profit forecast/Profit guarantee

Not applicable.
