**UNAUDITED REPORT FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2019****E. NOTES TO THE INTERIM REPORT****1. BASIS OF PREPARATION**

This unaudited quarterly financial report has been prepared in accordance with Malaysian Financial Reporting Standard (“MFRS”) 134, Interim Financial Reporting, Paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad and should be read in conjunction with the Group’s financial statements for the financial year ended 31 December 2018.

A number of new standards and amendments to standards and interpretations are effective for the current financial year beginning on 1 January 2019. None of these are expected to have any significant effect on the consolidated financial statements of the Group except for MFRS 16 ‘Leases’ superseded Financial Reporting Standard (“FRS”) 117 ‘Leases’ and the related interpretations.

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of times in exchange for a consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on statement of financial position) or operating leases (off statement of financial position). MFRS 16 requires a lessee to recognise a “right-of-use” of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 ‘Property, Plant and Equipment’ and the lease liability is accreted over time with interest expense recognised in the profit or loss.

For lessors, MFRS 16 retains most of the requirements in FRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

The Group has applied the standard from the mandatory adoption date of 1 January 2019. The Group applies the simplified transition approach and as such, not applied a restatement of comparative amounts for the year prior to first adoption. Right-of-use assets for property leases will be measured on transition as if the new rules had always been applied. Based on the assessment undertaken to-date, the adoption of this standard will impact the Group’s financial position with the recognition of right-of-use assets and lease liabilities.

**2. AUDIT REPORT OF THE PRECEDING ANNUAL FINANCIAL STATEMENTS**

The audit report of the Group’s preceding annual financial statements was not subject to any qualification.

**3. SEASONAL OR CYCLICAL FLUCTUATIONS**

The businesses of the Group were not materially affected by any seasonal or cyclical fluctuations during the financial quarter under review.

\* Included in the performance guarantees extended to third parties is an amount of RM31.3 million that has been called on by third parties. The Group has instituted injunction proceedings against the third parties. The performance guarantees which have been called upon have not been provided in the financial statements as the Board of Directors, as advised by external experts, are of the opinion the third parties are not likely to succeed, and thus these will not have a material effect on the financial position of the business of the Group.

Pursuant to paragraph 8.23(1)(ii) of Bursa Malaysia Securities Berhad's Listing Requirements, the financial assistance provided by the Company is as follow:

**Company Guarantee**

The Company and its joint venture partner, George Kent (Malaysia) Berhad ("GKMB"), issued proportionate corporate guarantees to guarantee the due performance and obligations of MRCB George Kent Sdn Bhd ("MRCBGK") in relation to the design and construction work of the Light Rail Transit Line 3 from Bandar Utama to Johan Setia. MRCBGK is a jointly controlled entity of the Company and equally owned by GKMB and the Company.

The directors are of the opinion that the transaction above has been entered into in the normal course of business.

There were no material contingent assets to be disclosed.

The dividend income received from the Group's associate, MQ REIT is taxable. The computation of the effective tax rate of 44.5% for the current financial period has been adjusted accordingly. The effective tax rate is higher than the statutory rate of taxation, mainly due to non-recognition of deferred tax assets on certain subsidiaries' losses and expenses being non-tax deductible.

The deferred tax was mainly due to the net impact from the reversal of deferred tax liabilities and some non-deductible temporary differences, as well as recognition of unabsorbed tax losses and deductible timing differences as deferred tax assets.

<sup>^</sup> AUD 48,826,025 @ 2.826 with a weighted average interest rate of 4.66% per annum as at 30 September 2019.

The net decrease of RM2.033 billion in the Group's borrowings was mainly due to full settlement of the Senior and Junior Sukuk of RM1,058 million and other Group borrowings after the Settlement Sum pertaining to the Eastern Dispersal Link ("EDL") Expressway Concession Termination was received from the Government of Malaysia and the proceeds from the disposal of Lands by Rukun Juang Sdn Bhd to the Group's associated company, Bukit Jalil Sentral Properties Sdn Bhd.

As at 30 September 2019, the borrowings consist mainly of:

Secured term loans

- (a) Financing facility of RM311 million for the Group's working capital purposes;
- (b) Other project loans of RM1,260 million for the Group's on-going property development and construction projects.

Unsecured short term loans

- (c) Short term borrowings of RM154 million to finance on-going construction projects and working capital.

Other than the secured Australian Dollar long term loan of AUD48.8 million, the Group's other borrowings as at 30 September 2019 were denominated in Ringgit Malaysia. The weighted average interest rate as at 30 September 2019 was 5.461% per annum (30 September 2018: 5.73%).

The Group's Net Gearing as at 30 September 2019 was 0.27 times (30 September 2018: 0.71 times).

In the 9 months ended 30 September 2019, the Group recorded revenue and profit before tax of RM847.8 million and RM32.5 million respectively, compared to RM1.5 billion and RM114.1 million respectively recorded in the corresponding period ended 30 September 2018.

The higher revenue in 2018 was due to the sale of two pieces of freehold land in Jalan Kia Peng in Kuala Lumpur and Batu Feringgi Penang for a total cash consideration of RM387 million. The lower revenue in the 9 months ended 30 September 2019 was also due to the Group's significant high-rise residential development projects still being in the early phase of construction, when revenue recognition is very minimal. In addition, revenue from a significant number of completed residential units sold during the period was not recognised as they were still pending Sales and Purchase completion.

The two land sales which resulted in total one-off pre-tax profit gains of RM66.8 million in 2018, compounded by the lower revenue recognised from the Group's significant high-rise residential development projects during the current financial period, as well as lower income recognition due to the re-timing of the LRT 3 project, resulted in a significant decline in profit before tax compared to the corresponding period in 2018.

The Group's 50%-owned LRT 3 project joint venture company MRCB George Kent Sdn Bhd contributed profit after tax of only RM1.24 million, compared with RM20.7 million in the corresponding period in 2018. This is considerably lower than previously budgeted due to the deferment of progress billings resulting from the re-modelling of the project from a PDP to a fixed price turnkey project by the Government.

The Group's 27.94% equity owned MQ REIT and associated company, MRCB Quill Management Sdn Bhd, combined contributed a total of RM12.4 million profit after tax to the Group.

The revenue and profit of the Group was mainly attributable to the two core operating segments below:

**(i) Property Development & Investment**

In the 9 months ended 30 September 2019, the Property Development & Investment Division recorded a 58% decline in revenue to RM371.4 million, compared to the corresponding period in 2018 which saw the sale of two pieces of freehold lands for a total cash consideration of RM387 million. The decline was also due to the Group's significant high-rise residential development projects still being in the early phase of construction (sub-structure, basement, carpark and podium levels) when revenue recognition is very minimal, and revenue from a significant number of completed residential units sold during the period not yet recognised pending Sales and Purchase completion. The main revenue contributors were on-going development projects, Sentral Suites in KL Sentral, the 9 Seputeh mixed residential development in Jalan Klang Lama and the office towers in PJ Sentral Garden City as well as the completed Sentral Residences and Kalista Park Homes in Bukit Rahman Putra.

Operating profits of RM66.5 million in the first 9 months of 2019 were 21% lower compared to the RM88.9 million recorded in the corresponding period in 2018, largely due to the two land sales in 2018, which resulted in total one-off pre-tax profit gains of RM66.8 million and the lower revenue recognised in the period under review.

The Group's investment holding in MQ REIT also continued to contribute recurring income of RM12.4 million in the financial period ended 30 September 2019.

**E. NOTES TO THE INTERIM REPORT (cont'd)**

**19. FINANCIAL REVIEW FOR CURRENT QUARTER AND FINANCIAL YEAR TO DATE (cont'd)**

**(ii) Engineering, Construction & Environment**

The division recorded revenue of RM420.9 million in the 9 months ended 30 September 2019, a 25% decline compared to the corresponding period in 2018. The bulk of the Division's revenue was contributed by its on-going construction projects, namely the Mass Rapid Transit Line 2 Package V210, Damansara-Shah Alam Elevated Highway Package CB2, TNB HQ Campus, Sungai Besi-Ulu Kelang Elevated Expressway Package CA2, Larkin Indoor Stadium and construction works for most of the property development projects stated in (i) above, as well as several smaller civil engineering projects in the Klang Valley.

The lower revenue earned during the period, compounded by the prudent expensing of certain costs while awaiting for the completion of the final accounts of completed projects and the results of legal proceedings relating to certain projects, resulted in the Engineering, Construction & Environment Division recording an operating profit of RM3.3 million in the financial period under review.

The Group's 50%-owned LRT 3 project joint venture company MRCB George Kent Sdn Bhd contributed lower profit after tax of RM1.24 million, compared with RM20.7 million in the corresponding period in 2018. This was considerably lower than previously budgeted due to the deferment of progress billings as a result of the re-modelling of the project from a PDP to a fixed price turnkey project by the Government.

Total profit attributable to equity holders of the Company	2,518	11,057	(8,539) / (77%)

In the quarter ended 30 September 2019, the Group recorded revenue and a profit before taxation of RM372.7 million and RM14.3 million respectively, compared to revenue of RM241.0 million and profit before taxation of RM9.8 million recorded in the preceding quarter ended 30 June 2019.

The higher profit before tax of RM14.3 million in the quarter under review was mainly due to the better performance from the Engineering, Construction & Environment Divisions, which contributed an operating profit of RM1.8 million compared to a loss of RM15.2 million in the immediate preceding quarter.

**UNAUDITED REPORT FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2019****E. NOTES TO THE INTERIM REPORT (cont'd)****21. PROSPECTS**

The Group's major source of revenue and operating profits come from its Property Development & Investment and Engineering, Construction & Environment Divisions.

**(i) Property Development & Investment**

As at 30 September 2019, the Group's Property Development & Investment Division sold RM398.1 million worth of properties. This refers to properties that have been sold to buyers, which will be progressively recognised as revenue as the properties are constructed. These were mainly derived from Sentral Suites, which recorded RM90.3 million sales, followed by TRIA the second phase of 9 Seputeh, with RM125.1 million sales.

Of the Group's residential projects currently in development, 1060 Carnegie in Melbourne, Australia has achieved a sales rate of 82%, while Sentral Suites has achieved a sales rate of 77%, and Kalista Park Homes 80%.

The Division will continue to focus its marketing efforts on its residential development projects, namely Sentral Suites in KL Sentral (GDV: RM1,528 million), 1060 Carnegie in Melbourne (GDV: RM300 million) and Kalista Park Homes in Bukit Rahman Putra (GDV: RM101 million), as well as the remaining completed unsold units in Sentral Residences and VIVO in 9 Seputeh, which has historically achieved good sales. The opening of the new link bridge connecting the Old Klang Road with the New Pantai Expressway has improved connectivity considerably to the 9 Seputeh development and should help spur further sales within this development. As at 30 September 2019, Sentral Residences has achieved a sales rate of 95%, and VIVO in 9 Seputeh has achieved a sales rate of 77%.

Revenue and operating profit in the Property Development & Investment Division will continue to be progressively recognised in line with construction progress in 2019. Sentral Suites is targeted to be only 25% constructed by the end of 2019, and therefore will only be expected to contribute more significant revenue and operating profits in 2020, when construction has progressed above the podium levels for all three towers of the development. The two office towers sold in PJ Sentral Garden City will continue to contribute revenue and operating profit until their physical completion in 2020, while TRIA, the second phase of 9 Seputeh, should commence contributing more significant revenues after the end of this year, when construction progress will be more advanced. In Melbourne, 1060 Carnegie, the Group's mixed residential and commercial development which has already attained 92% construction completion, will only contribute to revenue and operating profit upon 100% construction completion and subsequently the handover of units to purchasers and financial settlement targeted in the first half of 2020.

Overall, the Group had total cumulative unbilled sales in its Property Development & Investment Division which are expected to deliver RM1,679 million in revenue to be booked over the construction timescale of its projects, approximately 92% of which are residential and 8% commercial projects.

With interests in 282 acres of urban land, the Group has a sustainable supply of future projects with a total GDV of RM31 billion, as shown in the following table:

<b>Developments</b>	<b>Land Size (Acres)</b>	<b>GDV (RM' Mil)</b>
Transport Oriented Developments	149.87	24,463

International	1.00	305
Others	15.63	-
<b>Grand Total</b>	<b>282.11</b>	<b>31,065</b>

The Division also earns a relatively stable recurring income stream from its residual investment property in Shah Alam and from Celcom Tower, as well as its 27.94% equity interest in MQ REIT.

**UNAUDITED REPORT FOR THE FINANCIAL PERIOD ENDED 30 SEPTEMBER 2019****E. NOTES TO THE INTERIM REPORT (cont'd)****21. PROSPECTS (cont'd)****(ii) Engineering, Construction & Environment**

The Engineering, Construction & Environment Division continues to actively tender for more contracting projects to replenish its order book. The division currently has open tenders valued at RM1,215 million, and is placing greater emphasis on seeking infrastructure projects. As at 30 September 2019, the external client order book stood at RM22.3 billion, which is amongst the highest in the industry. This will ensure that the division has a steady pipeline of contracts to sustain its business over many years. As the pace of construction progress picks up, these projects are anticipated to form the backbone of the division's revenue and operating profit recognition moving forward through the remainder of 2019 and beyond. The LRT3 project, which is currently 23% completed, will see the pace of its profit recognition accelerate in line with construction completion by 2024.

Impairment losses

Generally, the property units sold under the property development segment are progressively invoiced and settled by end-buyers' financiers posing minimal credit risk. The Group is also exposed to significant concentration of risk to a few customers under engineering, construction & environment segment, mainly consisting of Government-linked Companies of which the Group considers the risk of default as low.

In view of that, the Group has not recognised any impairment losses in respect of trade receivables arising from its property development and engineering, construction and environment segments.

The Group applies MFRS 9 'Financial Instruments' simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for trade receivables of property investment and facilities management & parking segments.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The loss allowance as at 30 September 2019 and 31 December 2018 was determined as follows for trade receivables of property investment and facilities management & parking segments are reflected in the tables below.
