The Group's revenue for the current financial period ended 31 January 2018 decreased by 5.8% compared to the preceding year corresponding period mainly due to the strengthening of Ringgit against AUD in the translation of the results of Australian operations for Group consolidation purpose (2018: RM3.14 per AUD; 2017: RM3.31 per AUD). The Group's pre-tax loss of RM38.7 million in the current quarter arose mainly from unrealised foreign exchange losses of RM52.8 million recognised for the Group's overseas investments. In the preceding year's period, the Group's results included a foreign exchange gain of RM39.8 million.

The performances of the respective business sectors are as follows:

Property Investment

Revenue for the current quarter increased marginally compared to preceding year corresponding period. There was no major change in the occupancy rates and rental rates of the Group's properties for the current quarter under review.

Higher profit before tax for the quarter under review was mainly due to lower building maintenance costs and staff costs.

Property Development

Revenue for the current quarter was derived from the work progress recognition over units of AIRA Residence sold. However, the losses for the quarter arose from marketing costs on AIRA Residence, corporate and administrative costs allocated to this division, which exceeded the recognised revenue.

Investment Holding

The Group recorded higher investment income of RM3.7 million from its overseas investments in the current quarter compared to RM3.4 million in the preceding year corresponding period. Distribution income of RM0.8 million from unit trust placements was lower in the current quarter compared to RM1.0 million in the preceding year corresponding period as a result of lower remaining fund balances subsequent to utilisation for dividend payments in March 2017.

The current quarter's loss of RM49.9 million included a foreign exchange loss of RM52.8 million which arose from the strengthening of Ringgit against the USD (2018: RM3.90 per USD; 2017: RM4.44 per USD) and SGD (2018: RM2.97 per SGD; 2017: RM3.20 per SGD). On the converse, the preceding year corresponding period recorded a RM37.9 million profit at the back of a foreign exchange gain of RM39.8 million.

1. Review of Performance (Cont'd.)

Australian Operations

Lower revenue recorded for the current quarter compared to preceding year corresponding period was primarily due to a lower exchange rate at RM3.16 per AUD (2017: RM3.31 per AUD) applied in the translation of Australian Dollars for Group's results consolidation purpose.

Australian operations recorded a higher profit for the current quarter compared to preceding year corresponding period primarily due to lower operating expenses and finance costs.

Group revenue for the current financial period ended 31 January 2018 decreased by 36.6% compared to the preceding quarter. The higher revenue in the preceding quarter was contributed by a distribution income of RM6.2 million from land development projects in Australia during the quarter. The Group's pre-tax loss of RM38.7 million in the current quarter arose mainly from unrealised foreign exchange losses of RM52.8 million recognised for the Group's overseas investments while a foreign exchange loss of RM12.4 million was recorded in the immediate preceding quarter. The higher profit in the immediate preceding quarter was due to the inclusion of fair value adjustment on properties of RM21.9 million.

The performances of the respective business sectors are as follows:

Property Investment

Property investment recorded a profit before tax of RM8.0 million for the current quarter compared to a profit before tax (excluding fair value adjustment) of RM5.5 million in the immediate preceding quarter. The lower profit in the preceding quarter was due to the inclusion of provisions for building maintenance costs. The net loss of RM1.1 million in the immediate preceding quarter was due to the recognition of fair value losses of RM6.6 million.

Property Development

For the quarter under review, the property development division recorded a lower loss of RM3.1 million as compared to RM5.6 million loss in the preceding quarter mainly due to lower marketing expenses and lower staff costs.

Investment Holding

The quarter under review recorded a loss of RM49.9 million compared to a profit of RM1.0 million in the preceding quarter. This is mainly due to a foreign exchange loss of RM52.8 million recorded in the current quarter as the Ringgit has strengthened further against USD (Q1 2018: RM3.90 per USD; Q4 2017: RM4.23 per USD) and SGD (Q1 2018: RM2.97 per SGD; Q4 2017: RM3.11 per SGD), compared to a RM12.4 million loss recorded in the preceding quarter.

Australian Operations

For the quarter under review, it recorded a profit of RM6.3 million as compared to a profit of RM40.4 million in the preceding quarter. The higher profit in the preceding quarter was mainly due to fair value gain on investment properties of RM28.5 million recognised.

3. Prospects

While the Malaysian economy is expected to grow at 5.4% in 2018 driven by domestic demand, the property market is expected to remained subdued due to the oversupply of the commercial and office space, and the residential sub-sectors. Pursuant to the current situation, the Government had decided in November 2017 to temporarily freeze residential developments priced above RM1 million with the aim of alleviating the oversupply.

For the current financial year, the Group's investment properties in Malaysia and Australia are expected to maintain their present occupancy and rental rates. In view of the subdued property markets in both countries, it is not expected that there will be any significant change in fair values of the properties for the year.

With increasing marketing efforts, the Group expects additional sales of units in AIRA Residence project during the year to contribute towards the Group's revenue and profit. As construction progress on the site advances, higher progress billings to customers will be generated. The target launch of Bukit Permata Phase 4 in the second quarter is expected to generate more sales which will add to the Group's revenue.

Due to the Government's freeze on residential developments priced above RM1 million, the Group will re-assess the development planning of Wisma Damansara site to determine the appropriate time to commence construction work as well as sales launch.

The Group expects to maintain its investment holdings with no significant changes in portfolios. No significant gains/losses in operations has been anticipated. However, these overseas investments which are held in foreign currencies will continue to be affected by fluctuations in foreign exchange.

In summary, barring unforeseen circumstances, the Group expects its operations in all business segments to remain stable for the current financial year.

The foreign currency term loans comprise 2 loans of AUD37,500,000 each (2017: AUD40,000,000 and AUD 35,000,000) which bear interest at rates ranging from 1.77% to 2.96% per annum. These loans are secured by registered mortgages over investment properties of the Group. During the quarter under review, both loans were extended for a further 3 years to 28 February 2021 and as such have been reclassified to long term. These loans are translated at RM3.16 per AUD (2017: RM3.36 per AUD) at the reporting date.

The Group has secured a Commodity Murabahah Financing-i (Islamic term loan) and bank guarantee facilities of RM160,000,000 and RM18,000,000 respectively to finance the AIRA Residence Project. These facilities are secured by third-party first legal charge over an investment property and a corporate guarantee by a subsidiary company of the Group. The loan bears interest ranging from 3.93% to 4.15% per annum.

8. Derivatives

The Group has the following derivative agreement to hedge against interest rate risk:

| Type of Derivatives | Notional Value | Notional Value | Fair Value | Fair Value |
|---------------------|-----------------|-----------------|-----------------|-----------------|
| | as at 31.1.2018 | as at 31.1.2018 | as at 31.1.2018 | as at 31.1.2018 |
| | AUD '000 | RM '000 | AUD '000 | RM '000 |
| Interest rate swap | | | | |

| 1 to 3 years | 20,000 | 63,214 | 6 | 18 |

The interest rate swap contracts were entered to hedge the exposure to changes in cash flow of the Group arising from the floating rate of the secured term loans denominated in AUD in order to minimise its exposure to the volatility of the interest rate. The market risk associated with the derivative is the potential fluctuation in the fair value arising from the change in interest rates in Australia.

There is no cash requirement for this derivative other than the repayment obligation for the underlying bank borrowings.

There have been no changes since the end of the previous financial year ended 31 October 2017 in respect of the accounting policies.
