17. PERFORMANCE REVIEW

The Group's profit before tax decreased by RM2.4 million or 6.1 per cent to RM36.9 million for the first quarter ended 31 March 2005 from RM39.3 million the corresponding quarter ended 31 March 2004.

Total revenue recorded for the first quarter of 2005 was RM73.6 million, 15.9 per cent lower than the total revenue of RM87.5 million recorded for the corresponding quarter in 2004. The reduction was mainly due to the lower operating revenue of RM52.7 million compared to RM66.3 million in the first quarter of 2004. This was attributable primarily to lower clearing and SCORE fees of RM28.2 million in first quarter of 2005. Total turnover value transacted on Bursa Securities for the current quarter ended 31 March 2005 was RM64.4 billion or 26.8 per cent lower compared to the RM88.0 billion recorded for the corresponding quarter last financial year.

There was a net gain on disposal of investments of RM3.3 million in the current quarter, compared to only RM0.1 million in the first quarter of 2004. Furthermore, a gain from disposal of property, plant and equipment of RM2.1 million was recorded by the Group in the current quarter compared to a similar gain of RM1.4 million in the first quarter of 2004.

Total operating costs however, were also significantly lower in the first quarter of 2005 at RM36.7 million compared to RM48.2 million in the corresponding quarter of 2004, or a 23.9 per cent reduction. This was primarily due to a 36.0 per cent reduction in staff costs which resulted from the Voluntary Separation Scheme ("VSS") undertaken in 2004. Depreciation, upkeep and maintenance of information technology and building maintenance costs were also lower.

18. COMMENT ON MATERIAL CHANGE IN PROFIT BEFORE TAXATION

The Group's profit before taxation for the current quarter ended 31 March 2005 of RM36.9 million represents an increase of RM13.1 million or 55.0 per cent from the preceding quarter ended 31 December 2004 of RM23.8 million. The significant improvement in profit before taxation during the current financial quarter was mainly attributable to higher total revenue resulting from higher trading activities on the securities exchange and higher other income coupled with lower operating expenses.

Total revenue increased by 9.7 per cent from RM67.1 million the preceding quarter to RM73.6 million for the current quarter in tandem with the higher market activities. Total value transacted on Bursa Securities had increased by 10.8 per cent to RM64.4 billion in the current quarter compared to the RM58.1 billion turnover recorded during the quarter ended 31 December 2004. During the current quarter, 23 new listings were recorded on Bursa Securities, bringing the total number of listed companies as at 31 March 2005 to 982.

Other income grew by 30.6 per cent to RM20.9 million for the current quarter compared to RM16.0 million in the preceding quarter due to a RM2.1 million gain on disposal of property, plant and equipment and higher gain on disposal of investments in securities.

(Incorporated in Malaysia)

18. COMMENT ON MATERIAL CHANGE IN PROFIT BEFORE TAXATION (CONTD.)

Total operating expenses dropped by 15.2 per cent due to the reduction in staff costs and other operating expenses. The decrease in expenses was partly due to the VSS exercise which was completed at the end of 2004 and other cost reduction measures undertaken by the Group.

19. COMMENTARY ON PROSPECTS

The Group's focus on enhancing cost efficiency has started to show results and this will continue to be a top strategic priority. Whilst reduction in staff cost has been the most evident, the Group will also concentrate on information technology and building maintenance cost reduction. Depreciation cost is expected to increase primarily due to the completion of Phase 1A of the Common Trading Platform.

Trading revenue from equities market in the first quarter of 2005 constitutes 64.1 per cent and 45.9 per cent of operating revenue and total revenue, respectively. As such, turnover value of the securities market for the rest of the year will continue to have a significant impact on the Group's performance.

Interest income from cash investments is expected to be lower on a quarterly basis in view of the lower cash and cash equivalent position that the Group is in following the capital repayment.

Barring any unforeseen circumstances, the directors expect the Group to meet or exceed the forecast net profit of RM60.3 million as stated in the Prospectus issued pursuant to the IPO.

20. PROFIT FORECAST
