### EXPLANATORY NOTES:

**IMPORTANT NOTICE: In view of the outbreak of COVID-19 which is now a global pandemic, the Company has in place rules and control for the AGM in order to safeguard the health of attendees at AGM. Please follow the procedures provided in the Administrative Guide which can be downloaded from the Company's website or announcement via Bursa website.**

- 1) Agenda 1 – To receive the Audited Financial Statements

Agenda 1 is meant for discussion only in accordance with Section 340 (1) (a) of the Companies Act 2016 and does not require shareholders' approval. Hence, Agenda 1 will not be put forward for voting.

## EXPLANATORY NOTES: (Cont'd)

### 2) Ordinary Resolutions 1 and 2 – Payment of Directors' Fee and Payment of Directors' Benefits

Section 230 (1) of the Companies Act 2016 provides amongst others, that "fee" of the directors and "any benefits" payable to directors of a listed company and its subsidiaries shall be approved at a general meeting. Pursuant thereto, shareholders' approval is sought for these payments in two separate resolutions as follows:

#### Resolution 1: Payment of Directors' Fees

The Directors' fees include fees payable to the Chairman and members of the Board.

Based on the Remuneration Committee's recommendation, the Board decided that the Directors' fees in respect of the financial year ended 31 January 2020 shall remain unchanged.

#### Resolution 2: Payment of Directors' Benefits

The Directors' benefits (excluding Directors' Fees) comprises the Meeting Allowances payable to the Chairman and members of the Board and are calculated based on the current composition of the Board and Board Committees and the number of meetings scheduled for the Board and Board Committees.

### 3) Ordinary Resolutions 3, 4, and 5 – Re-election of Directors

Lau Joo Yong, Ng Seik Wah and Chan Seng Fatt are standing for re-election as Directors of the Company and being eligible have offered themselves for re-election at this 79<sup>th</sup> AGM.

The Board has via the Nominating Committee conducted an assessment on the effectiveness and contributions of the said retiring Directors including their skills, experience and strength in qualities and time commitment and has recommended for them to be re-elected to the Board. The profile of the retiring Directors is set out in the Annual Report 2020.

### 4) Ordinary Resolution 6 – Appointment of Auditors

The Audit Committee ("AC") has on 23 March 2020 carried out an assessment of the suitability and independence of the External Auditors, Baker Tilly Monteiro Heng PLT and was satisfied with the suitability of Baker Tilly Monteiro Heng PLT based on the quality of audit, performance, competency and sufficiency of resources the external audit team provided to the Group. The AC in its assessment also found Baker Tilly Monteiro Heng PLT to be sufficiently objective and independent.

The Board therefore approved the AC's recommendation on the re-appointment of Baker Tilly Monteiro Heng PLT as External Auditors of the Company for the financial year ending 31 January 2021 be put forward for the shareholders' approval at the 2020 AGM.

## EXPLANATORY NOTES: (Cont'd)

5) Ordinary Resolution 7 – Authority to Allot and Issue Shares in General Pursuant to Section 76 of the Companies Act 2016

The Ordinary Resolution proposed under item 7 if passed, will empower the Directors of the Company, from the date of the above AGM until the next AGM to allot and issue shares in the Company up to and not exceeding in total twenty percent (20%) of the issued share capital of the Company (excluding Treasury Shares) ("20% General Mandate"), provided that the following are being complied with:

- (a) Procure shareholders' approval for the 20% General Mandate at a general meeting;
- (b) Complies with all relevant applicable legal requirements, including its Constitution or relevant constituent document.

The 20% General Mandate is pursuant to directive letter from Bursa Securities dated 16 April 2020 in relation to a temporary relief measures in view of the trying and challenging times due to the COVID-19 pandemic for listed issuer to seek a higher general mandate of not more than 20% of the total number of issued shares (excluding treasury shares) instead of 10%. This 20% General Mandate may be utilized by listed issuer to issue new securities until 31 December 2021 and thereafter, the 10% general mandate will be reinstated.

The Board, having considered the current economic climate arising from the global Covid-19 pandemic and future financial needs of the Group, is of the opinion that this 20% General Mandate is in the best interests of the Company and its shareholders. This 20% General Mandate, if passed, will provide flexibility for the Company and empower the Directors to allot and issue new shares speedily in the Company up to an amount not exceeding in total 20% of the total number of issued share of the Company for purpose of funding the working capital or strategic development of the Group. This would eliminate any delay arising from and cost involved in convening a general meeting to obtain approval of the shareholders for such issuance of shares. This authority, unless revoked or varied by the Company at a general meeting, will expire at the next AGM. At this juncture, there is no decision to issue new shares. If there should be a decision to issue new shares after the general mandate is sought, the Company will make an announcement in respect thereof.

The Company did not allot and issue any shares pursuant to the general mandate granted by the shareholders at the previous AGM.

6) Ordinary Resolution 8 – Proposed Renewal of Share Buy Back Authority

The Ordinary Resolution proposed under item 8, if passed, will empower the Directors to purchase the Company's shares through Bursa Malaysia Securities Berhad up to 10% of the issued shares of the Company. Details of the Proposed Share Buy Back is set out in the Share Buy Back Statement of the Company, which is sent out together with the Company's 2020 Annual Report.

## Notes:

- 1) Pursuant to Paragraph 8.29A of the Listing Requirements, voting at general meeting will be conducted by poll rather than show of hands. Poll Administrator and Independent Scrutineers will be appointed to conduct the polling process and verify the results of the poll respectively.
- 2) A member (other than an exempt authorised nominee) entitled to attend and vote at the Meeting is entitled to appoint one (1) or two (2) proxies to attend and vote instead of him. A proxy must be 18 years and above and need not be a member of the Company.
- 3) Where a member appoints two (2) proxies, the appointments shall be invalid unless he/she specifies the proportions of his/her holdings to be represented by each proxy.
- 4) Where a member of the Company is an Exempt Authorised Nominee which holds ordinary shares in the Company in an Omnibus Account, there is no limit to the number of proxies which the Exempt Authorised Nominee may appoint in respect of each Omnibus Account it holds but the proportion of holdings to be represented by each proxy must be specified.
- 5) The instrument appointing a proxy shall be in writing under the hand of the appointer or his/her attorney duly authorised in writing or if the appointer is a corporation, either under the corporation's seal or under the hand of an officer or attorney duly authorised. If under the hand of attorney/authorised officer, the Power of Attorney or Letter of Authorisation must be attached.
- 6) The instrument appointing a proxy must be deposited at the office of the Share Registrar of our Company, Boardroom Share Registrars Sdn. Bhd. at 11<sup>th</sup> Floor, Menara Symphony, No. 5 Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor, Malaysia not less than 48 hours before the time appointed for holding the Meeting or adjourned Meeting either by hand, post, electronic mail to [bsr.helpdesk@boardroomlimited.com](mailto:bsr.helpdesk@boardroomlimited.com) or fax (603)78904670, otherwise the instrument of proxy should not be treated as valid.
- 7) For verification purposes, members and proxies are required to produce their original identity card at the registration counter. No person will be allowed to register on behalf of another person even with the original identity card of that other person.
- 8) Personal Data Privacy –

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the AGM and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the AGM (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "**Purposes**"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

# CORPORATE GOVERNANCE OVERVIEW STATEMENT

## INTRODUCTION

The Board of Directors recognizes the importance of adopting high standard of corporate governance throughout the Company and the Group as a fundamental part of discharging its responsibilities to protect and enhance stakeholders' value and to continue delivering sustainable performance. Pursuant to Paragraph 15.25 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("MMLR"), the Board is pleased to present the Group's application of the principles as set out in the Malaysian Code on Corporate Governance ("MCCG") 2017;

- A. Board Leadership and Effectiveness
- B. Effective Audit and Risk Management;
- C. Integrity in corporate reporting and meaningful relationship with stakeholders.

This Corporate Governance Overview Statement should be read together with Corporate Governance Report 2020 which is available on the Company's website at <https://www.comfort-rubber.com.my>.

## PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS

### *Principal Responsibilities of the Board*

The Group is led by an experienced and dynamic Board of Directors ("the Board") who is responsible for the long-term success of the Group and delivery of sustainable value to its stakeholders. The Board plays a pivotal role in the stewardship of the Group and ultimately enhancing the shareholders' value.

The Board is responsible for the Group's overall strategy direction and objectives whiles exercising oversight on management, its acquisition and divestment policies, major capital expenditure, establishing goals and monitoring the achievement of the goals through strategic action plans and careful deployment of the Group's assets and resources and the consideration of significant financial commitments. The Board monitors the decisions and actions of the Executive Directors to ensure that all are in sync towards better performance of the Group and act in accordance to the Group's governance assurance framework.

### *Board Charter*

The Board has established clear functions reserved for the Board and those delegated to Management in the Board Charter (the "Charter") which serves as a reference point for Board's activities. The Charter provides guidance for Directors and Management on the responsibilities of the Board, its Committees and requirements of Directors which are subject to periodical review to ensure consistency with the Board's strategic intent as well as relevant standards of corporate governance. The Charter is available at the Company's website at [www.comfort-rubber.com.my](http://www.comfort-rubber.com.my).

In promoting good governance practices and in order to enhance transparency and accountability, the Board has established and put in place the following policies and procedures, full details of which will be made available on the Company's website:

- Code of Conduct and Ethics
- Whistleblowing Policy and Procedures
- Sustainability Policy
- Anti-Bribery and Corruption Policy (approved on 12 May 2020)

The Board reviews the Board Charter as and when required to keep up to date with changes in Bursa Malaysia Securities Berhad's (Bursa Securities) Listing Requirements, other regulation and best practices and ensure its effectiveness and relevance to Board's objective and make necessary amendments to ensure in line with the needs of the Company and compliance with the regulations.

## **PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)**

### ***Board Composition and Independence***

The Board currently comprises six (6) members, made up of a Managing Director, two (2) Executive Directors, two (2) Independent Non-Executive Directors and one (1) Non-Independent Non-Executive Director. This composition allows for the applying of independent judgment on issues of strategy, performance, resource utilization and standards of conduct, all of which are vital to the Group. The mixture of technical, industry expertise, entrepreneurial, financial and business skills of the Directors also enhances the effectiveness of the Board.

There is a balance of power and authority in the Board, with three Executive Directors and two Independent Non-Executive Directors and one Non-Independent Non-Executive Director. The Company has thus satisfied the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("MMLR") pursuant to Paragraph 15.02(1) of having at least one-third (1/3) of the Board members as Independent Non-Executive Directors. The Independent Directors play a crucial role in the exercise of independent assessment and objective participation in Board deliberations and decision-making process. Hence, they do not participate and are not involved in any other relationships with the Company which could materially interfere with the exercise of their independent judgements.

The Company has taken note of Principle 4.2 of the Code that the tenure of an Independent Director should not exceed a cumulative term limit of nine (9) years. Upon completion of nine (9) years, an Independent Director may continue to serve on the Board subject to the director's re-designation as a Non-Independent Director. However, the Company does not have term limits policy for independent directors but the Nominating Committee ("NC") annually assesses the independence of the Directors based on the criteria stipulated in Paragraph 1.01 of the MMLR. Thus, the Board must justify and seek annual Shareholders' approval in the event it retains the director as an Independent Director beyond nine years.

The Board through the NC conducts an annual review of its size and composition from time to time to ensure its effectiveness and to determine if the Board has the right size and sufficient diversity with their ability to discharge their duties.

### ***Qualified and Competent Company Secretary***

The Board is supported by a qualified and competent Company Secretary who plays a vital role in advising the Board in relation to the Company's Constitution, Board policies and procedures and compliance with the relevant regulatory requirements, codes or guidance and legislations. She constantly keep herself abreast of the evolving capital market environment, regulatory changes and developments in corporate governance by attending the relevant training programmes/conferences.

The Company Secretary are also accountable to the Board and are responsible for the following:

- Advising the Board on matters related to corporate governance and the Listing Requirements;
- Maintaining records of the Board and ensuring effective management of the Company's statutory records;
- Managing processes pertaining to annual shareholder meeting;
- Preparing comprehensive minutes to document Board proceedings and ensuring conclusions are accurately recorded;
- Providing full access and services to the Board and carrying out other functions deemed appropriate by the Board from time to time;
- Preparing agendas and coordinating the preparation of the Board papers; and
- Serve as a focal point for stakeholders' communication and engagement on corporate governance issues.

The Board has direct access to the advice and services of the Company Secretary who is responsible to the Board for ensuring that all governance matters and Board procedures are in compliance with the applicable laws and regulations. This includes updating the Board on the Listing Requirements, circulars from Bursa Securities, other legal and regulatory developments, and their impact on the Group and its business.

## **PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)**

### ***Gender Diversity Policy***

With regards with Principle 4.5 of the gender diversity in the Board's composition, none of the Directors is a female. The Board has no immediate plan to implement a gender diversity policy or target as the Board views that any new appointment to the Board shall be based on the candidate's area of expertise, skills, educational background, gender, ethnicity as well as other factors that might provide the Board with a broader range of viewpoints and perspective. However, female representation in the Board will be considered when vacancies arise and suitable candidates are identified.

### ***Foster Commitment***

Paragraph 15.06 of MMLR provides that directors of listed company may not hold more than five (5) directorship in listed companies. None of the Board members of Comfort Gloves Berhad serve in more than five (5) listed companies.

### ***Roles and Responsibilities of the Board***

The positions of the Chairman and Managing Director are held by different individuals. The roles of the Chairman and the Managing Director are distinct and segregated with responsibilities clearly drawn out to ensure a balance of power and authority. The Chairman is responsible for instilling good corporate governance practices, leadership and effectiveness of the Board, ensuring Board carries out its responsibilities in the best interest of the Company and that all key issues are disclosed in a timely manner. The Chairman is also tasked with facilitating active discussion and participation by all the Directors. Whilst the Managing Director is primarily responsible for managing the Group's day-to-day operations and with his expert and intimate knowledge of the business of the Group, he is able to efficiently practice "hands on" management in his specific areas of responsibilities.

In addition, to ensure the effective discharge of its functions and responsibilities, the Board delegates the day-to-day management of the Group's business to the Management and had set and approved business authority limits which set out relevant matters. This authority limits are reviewed and revised as and when required, to ensure an optimum structure for efficient and effective decision-making in the Group.

The Non-Executive Directors are credible professionals of caliber, who play key supporting roles by contributing their knowledge, guidance and experience towards making independent judgement on issues of strategies, performance, resources and standards of conduct. The Executives and Non-Executive Directors together ensure that the strategies proposed by the management are fully discussed and examined and the long-term interests of the shareholders, employees, suppliers and customers are taken into account.

The Company has also formalized a set of ethical standards through a code of conduct, which is subject to periodical review, to ensure Directors practice ethical, businesslike and lawful conduct, including proper use of authority and appropriate decorum when acting as Board members.

Where any conflict of interests arises, it is a mandatory practice for the director concerned to declare his interest and abstain from the decision-making process.

## PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS (Cont'd)

### **Roles and Responsibilities of the Board (Cont'd)**

Key matters which are reserved for the Board's approval are as follows:

- Review and approval of corporate, strategic directions and financial plans of the Group
- Monitor financial performance including approval of annual and interim financial reports
- Overseeing the conduct of the business of the Group
- Approval of material acquisitions, and disposal of undertaking and properties or any significant which exceeds the authority limits delegated to the Managing Director or management
- Changes to the management and control structure within the Company and its subsidiaries
- Appointment of all other Board members, Board Committee members, CFO and the Company Secretary
- Any matters and/or transactions that fall within the ambit of the Board pursuant to the Companies Act 2016, the MMLR and the Company's Constitution.
- Internal Control System
- Succession planning for senior management
- Assume responsibility for good corporate governance

The Board also delegates and confers some of its authorities and discretion to the Executive Directors as well as relevant Board Committees. The Board Committees are entrusted by the Board with specific responsibilities to oversee the Group's affairs, with authority to act on behalf of the Board in accordance with their respective Terms of Reference ("TOR"). Any key issues and decisions arising from the Board Committees will be reported and tabled to the Board for approval, if required.

### **Board Meetings**

The Board meets five (5) times a year on a scheduled basis with additional meetings held when specific urgent or important matters are required to be considered and decided between the scheduled meetings.

A total of five (5) Board Meetings were held during the financial year under review and the details of attendance of the Directors at the Board Meetings are as follows:

### ***Access to Information and Advice***

The Board has a formal schedule of matters reserved specifically for its decision. The Board is supplied with information in a timely manner and appropriate quality to enable them to discharge their duties. Board papers providing financial and corporate developments, quarterly financial reports and minutes of the previous meetings are circulated five (5) business day prior to the Board Meetings to give the Directors time to peruse the issues to be discussed at the Board Meetings. The Directors have full access to all staff for any information they require on the Group's affairs and to the advice and services of the Company Secretaries, independent professional advisers, and internal/external auditors in appropriate circumstances at the Company's expense, if required.

The Secretary are charged with the duty of ensuring proper filing of all requisite documents and obtaining all the necessary information from the Directors, both for the Company's own records and for meeting statutory requirements and regulatory obligations. The Secretary also highlight all issues which she feels ought to be brought to the Board's attention. All resolutions are recorded and confirmed at the next Board meeting and all Board members would ensure the Minutes of Meetings accurately reflected the deliberations and decision of the Board, including any directors abstained from voting or deliberating on a particular matter.

The Directors are notified of any corporate announcements released to Bursa Securities. They are also notified of the impending restriction in dealing with the securities of the Company at least thirty (30) days before the targeted released date of the quarterly financial results announcement.

### ***Recruitment or Appointment of Directors***

For the recruitment or appointment of new Directors, the Nominating Committee ("NC") has its own review criteria that need to be met before making recommendations to the Board. These include the review of skills, experience and strength in the qualities necessary for the discharge of responsibilities in an effective and competent manner. Other factors considered by the NC includes the candidates' ability to commit sufficient time to Board matters, and the ability to satisfy the test of independence taking into account the candidate's character, integrity and professionalism. Diversity of the Board's composition is also important to facilitate optimal decision-making by harnessing different insights and perspectives.

### ***Re-Appointment and Re-Election of Directors***

In accordance with the Constitution of the Company, all directors who are appointed by the Board are subject to re-election at the first opportunity after their appointment and at least one third of the remaining directors are subject to re-election by rotation at each Annual General Meeting. The Constitution also provide that all directors shall retire at least once in three (3) years. However, retiring Directors are eligible under the Constitution, for re-election.

Where any Director is required to retire from office, the NC reviews the composition of the Board and decides whether to recommend such Director for-election taking into account the Director's attendance at their respective meetings, participation, contribution and time commitment. Upon its evaluation, the NC will make recommendation on the proposal to the Board for approval and the Board makes the final decision on the proposed appointment/re-election to be presented to shareholders for approval.

### ***Continuous Directors' Training***

The Board acknowledges the importance of continuous education and training broadens one's perspective and to keep abreast with the current and future developments in the industry and global markets, regulatory updates as well as management strategies to enhance the Board's skill and knowledge in discharging their duties. The Board has undertaken an assessment of the training needs of each Director.

# CORPORATE GOVERNANCE OVERVIEW STATEMENT (Cont'd)

## **PRINCIPLE B: EFFECTIVE AUDIT AND RISK MANAGEMENT**

### ***Risk Management and Internal Control***

The Board has established a Risk Management Committee that comprises the Managing Director, Executive Director and senior management to review the risk management framework and assess the various types of risks which might have an impact on the profitable operation of the Group's business. This includes operational, market, legal and environmental risks. The key features of the risk management framework are set out in the Statement on Risk Management and Internal Control of the Annual Report.

In accordance with the Code and the Main Market Listing Requirements of Bursa Securities, the Board has established an internal audit function which reports directly to the Audit Committee. The function is currently outsourced to an independent professional firm. The Audit Committee had also undertaken an annual assessment of the quality of the internal auditor based on an assessment questionnaire, and no material issue and major deficiency had been noted which pose a high risk to the overall system of internal control under review.

### ***Assessment of Suitability and Independence of External Auditors (EA)***

The Audit Committee ("AC") had on 23 March 2020 deliberated the outcome of the annual assessment of the EA, which included an assessment of the engagement teams' qualifications, credentials and experience, particularly in the financial services sector, their audit work approach, and their ability to provide value added advice and services, as well as to perform the work within the Group's timeline. The AC was satisfied with the suitability of Baker Tilly Monteiro Heng based on their quality of service and sufficiency of resources. Having regard to the outcome of the evaluations and the annual assessment of EA which supported the AC's recommendation on the suitability and independence of the external auditors, the Board approved the AC's recommendation for the shareholders' approval to be sought at the Annual General Meeting on the appointment of Baker Tilly Monteiro Heng as EA of the Company for the financial year ending 31 January 2021.

A statement by the Directors on their responsibilities in preparing the financial statements is set out on this Annual Report.

### ***Relationship with Auditors***

The Board has established a formal and transparent arrangement to meet the EA' professional requirements. The EA have continued to highlight to the Audit Committee and Board of Directors matters that require the Board's attention. The Audit Committee will have a private session with the EA without the presence of any executive of the Group at least twice a year. Liaison and unrestricted communication exist between the AC and the EA. The AC obtains reasonable assurance on the effectiveness of the internal control system through annual independent appraisal by the EA. The EA are invited to attend the Company's AGM.

## PRINCIPAL C: INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

### **Communication with Stakeholders**

The Board is committed to provide shareholders, investors and all other stakeholders accurate, useful and timely information about the Company, its business and its activities. The Company has regularly communicated with shareholders and investors in conformity with the disclosure requirements.

### **Conduct of General Meetings**

All general meetings of the Company serve as the principal forum for shareholders to have direct access to the Board and provide the opportunity for shareholders to raise questions pertaining to issues related to the Annual Report, Audited Financial Statements, corporate developments, resolutions being proposed and the businesses of the Group.

The Annual General Meeting ("AGM") remains the principal forum for communication and dialogue with shareholders. The AGM provides the opportunity for interaction amongst Shareholder, Directors and Management, where the shareholders are at liberty to raise questions on the AGM agenda. They will be given the opportunity to seek clarification on any matters pertaining to the Company's affairs and performance as the Directors and the representatives of the external Auditors will be present to answer any questions that they may have.

The Company despatches Annual Report to all shareholders of the Company which includes the notice of AGM, which notice is also advertised in the newspaper and released via Bursa Link. In line with good Corporate Governance practice, the Notice of the 79<sup>th</sup> AGM was issued at least 28 days before the date of AGM.

During the AGM, the Board encourages shareholders to participate in the question and answer session at AGM. The Board has ensured that each item of special business included in the notice of the AGM is accompanied by a full explanation of the effects of the proposed resolution. A summary of the key matters discussed at the 2019 AGM was published on the Company's website at [www.comfort-rubber.com.my](http://www.comfort-rubber.com.my).

### **Poll Voting**

As stipulated in the MMLR, voting of all resolutions at general meetings shall be carried by way of poll. In addition, the Company appointed scrutineer to validate the votes cast at the AGM.

### **Compliance with the Code**

The Group has complied with the Principles of Corporate Governance as contained in the Code except for the following exception that, in the opinion of the Directors, adequately suit the circumstances:

- Practice 4.1 (At least half of the board comprises independent directors);
- Practice 4.5 (The Board discloses in its annual report the Company's policies on gender diversity, its targets and measures to meet those targets);
- Practice 4.6 (The board utilises independent sources to identify suitably qualified candidates);
- Practice 7.2 (The Board discloses on a named basis the top five (5) senior management's remuneration in bands of RM50,000); and
- Practice 12.3 (Listed companies with a large number of shareholders or which have meetings in remote locations should leverage technology to facilitate–
  - including voting in absentia; and
  - remote shareholders' participation at General Meetings.

The explanation for departure is further disclosed in the CG Report.

The CG Overview Statement together with the CG Report was approved by the Board of Directors of Comfort Gloves Berhad on 12 May 2020.

| Diluted earnings per share | <b>5.75</b>        | 4.79               |

In this financial year, the Group's revenue increased by 8% from RM474.0 million to RM510.7 million driven by strong market demand for premium speciality gloves. Approximately 87% of our revenue was derived from synthetic gloves, while the remainder was from natural rubber gloves.

During FYE 2020, the Group's profit before taxation increased by RM6.1 million from RM35.4 million to RM41.5 million mainly due to strong market demand for premium speciality gloves.

The Group's net profit increased by 19% was corresponding to the increase in profit before taxation and higher taxation expenses of RM8.4 million in FYE 2020 as compared to RM7.5 million in FYE 2019. The Group reported gross profit margins and net profit margins of 13% and 6% respectively.

- **Significant events during the year**

On 27 November 2019, Comfort Rubber Gloves Industries Sdn. Bhd., a wholly owned subsidiary of the Group, has entered into a Sale and Purchase Agreement ("SPA") with the Director of the Group, Mr. Cheang Poy Ken for the purchase of two plots of land for a total cash consideration of RM1.9 million. The acquisition does not have any material impact on the Group for the financial year ending 31 January 2020 and was completed in accordance with the terms and conditions of the SPA.

- **Selling and marketing**

The selling and marketing expenses for FYE 2020 decreased by RM6.7 million or 50% as compared to FYE 2019 figure. The cost in FYE 2020 was lower due to one-off logistic cost of RM5.4 million incurred in FYE 2019.

- **Administrative expenses**

The administrative expenses for FYE 2020 increased by RM1.0 million or 8% as compared to FYE 2019 figure. The increase was mainly due to unrealised loss of RM0.7 million arising from foreign currency recognised as at year end.

- **Other income**

Other income has decreased by RM5.1 million during FYE 2020 as compared to FYE 2019 mainly due to lower gain on foreign exchange as disclosed in Note 21 of the Financial Statements.

# MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

## Financial Review (Cont'd)

- **Finance costs**

The increase in production and sales during FYE 2020, required higher utilisation of the Group's short-term financing facilities with finance cost increasing by RM2.5 million as compared to FYE 2019 for financing the purchase of raw materials necessary for the increase of glove production.

- **Liquidity and capital resources**

As at 31 January 2020, the Group has deposits, other cash and cash equivalents amounting to RM34.9 million as well as unutilised banking facilities amounting to RM43.1 million.

The Group has sufficient banking facilities for working capital.

Capital expenditure are driven by increased demand for synthetic premium speciality gloves. The Group's remaining capital commitment on property, plant and equipment for FYE 2020 amounted to RM9.8 million for installation of new production lines, heat recovery system and auxiliary and ancillary equipment in addition to production lines.

## Managing Risks

The operations of the Group are exposed to credit risk, foreign exchange risk, interest rate risk and liquidity risk. The Group has adopted policies on financial risk management as disclosed in the Statement on Risk Management and Internal Control.

## Operation Review

To be more cost competitive, we have invested in automatic and robotic in our plants to increase the productivity and efficiency. An energy saving system is installed to reduce our natural gas consumption. We are implementing on-going data capturing systems to capture data on real time basis so that operation team can react immediately to work out a solution. This system also provides us with a more accurate analytical information and eases the quality traceability.

To enable the Group to meet its vision of becoming a more capable and more adaptable manufacturer, an on-going emphasis is placed on developing techniques to improve operational efficiency and agile methods of manufacturing. To practise and refine these ideas, we have completed the additional 4 new production lines that will enable us to produce an additional 480 million pieces of speciality gloves. With the additional capabilities from these new lines, we are able to further produce a diverse range of products to serve more challenging market demand.

Our R&D is working closely with customers to develop speciality gloves that suit for various applications. Few products have been successfully developed in this year based on customer specification. These products have gained great satisfaction from customers and we have received repetitive orders from customers.

## Accolades & Awards

Our managing director, Mr. Cheang Phoy Ken was honoured with prominent accolades, i.e. Malaysia Top Achievers 2019 in the Leadership Excellence in Glove Manufacturing. At group level, Comfort Gloves Berhad had recently won Focus Malaysia Best Under Billion Awards 2019 for the Best Enterprise Value Growth (Category 150 mil-499mil).

# MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

## Forward Looking Statement

Our emphasis on natural and synthetic premium speciality gloves will continue to provide the Group opportunities for growth and improvement. However, it will not mitigate us from volatility in raw materials or increased energy cost from subsidy rationalisation. We will continue to emphasise research and development as the key to expand the market offerings and grow our sales.

Prospects for the rubber glove manufacturing sector remain strong with increasing demand arising from switching trends towards nitrile glove. As overall demand for nitrile gloves increases, the market is seeing increase segmentation and differentiation leading to an increase demand for speciality gloves. Through dedication to process rationalisation and improving operational agility, we are confident in capturing greater market share and strengthening margins. We believe that meeting customer expectations and continuous innovation will strengthen the Group position as the bespoke speciality glove manufacturer.

- **Dividend**

A final single tier dividend of 1.5 sen per ordinary share, in respect of the financial year ended 31 January 2019 had been approved by shareholders at the Annual General Meeting. It was paid on 26 September 2019 to depositors who were registered in the Record of Depositors at the close of business on 12 September 2019.

The directors do not recommend the payment of final dividend in respect of the financial year ended 31 January 2020.

## In appreciation

Our sincere gratitude and thanks to our team members for their hard work and dedication. We also wish to record our utmost appreciation to our valued customers, vendors and business associates for your support and strong confidence.

To our shareholders, we thank you for your interest and support in our company.

We believe our better days are ahead of us and look forward to your continued support, as we work with determination to deliver results.

Thank you.

## 3. GROUP INTERNAL AUDIT FUNCTION

The internal audit function of the Group has been outsourced to AlphaOne Governance Sdn. Bhd., a professional internal audit service provider and reports directly to the AC and assist the Board in reviewing the adequacy and integrity of the internal control systems to manage risks exposures over key processes within the Group.

The role of the internal audit function is to support the AC by providing it with independent and objective reports on the adequacy, integrity and effectiveness of the system of internal control and the extent of compliance with the procedures and by recommending ways to rectify shortfall and improve the existing control environment in relation to the Group's operations. It submits its findings and recommendations to the AC and senior management of the Group.

During the financial year, the following activities were carried out by the internal audit function:

- reviewed and assessed the adequacy and effectiveness of the system of internal control and compliance to the policies and procedures on credit control and collection and also the procedures of reporting for recurrent and non-recurrent related party transactions
- reported on the related party transactions to the Company Secretary, AC and Bursa Securities respectively, if any; and
- reviewed and reported on the follow-up status of previous audit findings taken by the Management.

Internal audits are carried out in accordance with the internal annual planning memorandum and reports are issued to the AC for tabling at the AC meeting. The AC deliberates on the findings and recommendations as reported by the Internal Auditors and monitors to ensure appropriate follow-up actions are taken on the recommendations of the Internal Auditors.

The cost incurred for the Internal Audit function of the Group for the financial year ended 31 January 2020 was RM15,000.

# STATEMENT OF RISK MANAGEMENT AND INTERNAL CONTROL

## INTRODUCTION

The Board of Directors (“the Board”) is committed to maintain a sound system of risk management and internal control in accordance to the Malaysian Code on Corporate Governance to safeguard shareholders’ investment and the Group’s assets.

Set out below is the Board of Directors’ Statement on Risk Management and Internal Control which has been prepared in accordance with the “Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers”.

## BOARD RESPONSIBILITIES

The Board has overall responsibility in maintaining an appropriate system of risk management and internal control in the Group. Thus, the Board has been proactive in identifying key business risks, determining risk tolerance, and deploying of internal control to address the identified risks.

The Board is committed to monitor and enhance its internal control system to ensure its continuing effectiveness. Periodic testing of the effectiveness and efficiency of the internal control procedures and processes are conducted to ensure that the system is reliable and robust.

Nonetheless, the board wishes to point out that all risk management systems and systems of internal control could only mitigate rather than eliminate risks of failure to achieve business objectives. Therefore, these systems of internal control and risk management in the Group can only provide a reasonable but not absolute assurance against material misstatements, frauds and losses.

## RISK MANAGEMENT AND INTERNAL CONTROL

Management is responsible for establishing and developing an adequate and reliable system of internal controls to manage risk. The controls are embedded in the culture, processes and structures of the company to minimise incidences of possible fraud, wastage and abuse. Management has adopted an on-going process for identifying, evaluating and managing significant risks that may prevent the achievement of business objectives.

Principal risks are continuously identified and incorporated into the risk register. Risk rating is placed on each risk identified with guidance of a matrix of possibility of occurrence and the associated impacts. Financial and non-financial consequences are duly considered. Owners of these risk factors will steer the risk mitigation measures towards achieving an acceptable risk tolerance.

The active subsidiary of the Group has ISO 9001:2015, ISO 13485:2016, EN ISO 13485:2016 and Regulation (EU)2016/425 accredited by SGS certification body for its operation processes. These policies and procedures form part of our Quality Management System that is certified by International Organisation for Standardisation (ISO). This system assists management in assessing risks and building in processes to address those problems immediately before they arise. The Quality Assurance Department conducts internal audit once a year on all departments (except for Finance and Accounts Department) to ensure that operations and documentations are in conformity with the standard procedures and area for improvements are identified.

This system is capable of responding quickly to likely business risks arising from events within the Group and changes in the business environment; it includes procedures for top-down and bottom up communication of any significant control failings or weaknesses that are identified together with details of corrective action to be taken.

# STATEMENT OF RISK MANAGEMENT AND INTERNAL CONTROL (Cont'd)

## RISK MANAGEMENT AND INTERNAL CONTROL (Cont'd)

The operations of the Group are exposed to a variety of risks. The nature of these risks and measures taken by the Group to minimise those risks are disclosed below:

(a) Credit risk

The Group is exposed to credit risk that leads to financial loss if trade receivables fail to pay when due. The management has a credit policy in place to monitor and minimise the exposure to default. Credit evaluations are performed on all customers requiring credit terms.

(b) Foreign currency risk

The Group incurs foreign currency risk on sales and purchases that are denominated in United States Dollar. Material foreign currency transaction exposures are managed through forward foreign currency contracts.

(c) Interest rate risk

The Group's exposure to interest rate risk arises primarily from their short term borrowings and short term deposits classified as cash and cash equivalents. The Group does not use derivative financial instruments to hedge its risk. However, the fluctuation in interest rates, if any, is not expected to have a material impact on the financial performance of the Group.

(d) Liquidity risk

The Group's exposure to liquidity risk arises principally from its various payables. The Group maintains a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

## INTERNAL AUDIT FUNCTION AND ITS ACTIVITIES

The Board recognises that the internal audit function is an integral part of the governance process. The Board has engaged an external independent party to perform the internal audits on material controls, including financial, operational and compliance controls. The Internal Auditor has a clear line of reporting to the Audit Committee and its performance is reviewed by the Audit Committee on an annual basis. Thus, the Internal Auditor is independent of the operational and management activities they audit.

The Internal Auditor develops risk-based audit plans to determine the priorities of the internal audit activities, consistent with the Group's objectives and activities. The Internal Auditor reports to the Audit Committee on the adequacy and effectiveness of the controls. During the Audit Committee meeting, the internal audit findings are discussed and control actions are agreed to mitigate possible risk. The implementation of the agreed corrective actions is verified by the Internal Auditor through its follow-up reviews.

For this current financial year, the internal auditors have reviewed the internal processes on credit control and collection.

# STATEMENT OF RISK MANAGEMENT AND INTERNAL CONTROL (Cont'd)

## OTHER KEY ELEMENTS OF RISK MANAGEMENT AND INTERNAL CONTROL

Apart from risk management and internal control function, the other key elements of the group internal control systems are as follows:

- Company policy and procedures that adhere to ISO 9001:2015 and ISO 13485:2016 management systems are in place and reviewed annually for their effectiveness.
- Whistleblowing policy in place to channel for facilitating whistleblowing process and safeguard the whistleblower.
- Organisational structure with clearly defined delegation of responsibility and accountability. Appropriate authority is established for the approval process.
- Management meeting held to provide timely and comprehensive information for monitoring the performance against strategic and operational plan.

## REVIEW OF THE STATEMENT BY EXTERNAL AUDITOR

The external auditor have reviewed this Statement on Risk Management and Internal Control for inclusion in the annual report of the Group for the year ended 31 January 2020 and reported to the Board that nothing has come to their attention that causes them to believe that the statement is inconsistent with their understanding of the process adopted by the Board in reviewing the adequacy and effectiveness of the risk management and internal control system.

## CONCLUSION

The Board has received assurance from the Managing Director ("MD") and Chief Financial Officer ("CFO") that the Group's risk management and internal control system is operating adequately and effectively in all material aspects.

The Board is satisfied that the existing level of systems of internal control and risk management are effective to enable the Group to achieve its business objectives. There is no material control deficiencies noted during the financial year under review which had a significant impact on the achievement of Group's business objectives and financial performance.

The Board maintains an on-going commitment to strengthening the Group's internal control and risk management environment and processes.

# SUSTAINABILITY STATEMENT

The Group recognises the importance and benefits of integrating Economic, Environmental and Social (EES) sustainability into its business. These include working within the law in order to be innovative and demonstrating initiative to meet the requirements of various stakeholders and other interest persons in this area.

## ECONOMIC

- **Process and Resources Efficiency**

We are actively investing in automation and robotic in our plants to remain cost competitive, environmental friendly and efficient. Our plants are linked to computer system on each operational stage to track and gather data on real time basis. With this, resources planning and energy consumption can be optimised throughout the entire manufacturing process.

We are committed to continuous process improvement to achieve optimal operating efficiency. Through materials and resources management, we can maximise cost saving without compromising quality and environmental expectations.

- **Our customer & product development**

The Group always aim to be a knowledgeable and supportive partner on sustainability to our customers. We interact with customers with a deep understanding of our responsibility for safeguarding our customers' brand. Our operation team work closely with customers to co-develop product, supply chain solution, and explore new production methodology that bring greater satisfaction and value-added benefits to customers. While we are working hard for customer retention and we are also aiming to grow our business together with our customers.

- **Our supplier**

Our goal is to achieve responsible sourcing by building strong and resilient partnership with suppliers and customers, for protecting our customers and our reputation as well as to mitigate risks and issues linked to raw material supply chain.

- **Investors**

To ensure timely and high quality disclosure, the Group has implemented a Corporate Disclosure Policy to ensure accurate, clear, timely and complete disclosure of material information necessary for informed investment decision and take reasonable steps to ensure that all who invest in the Company's securities enjoy equal access to such information to avoid selective disclosure.

To maximise the shareholder benefits, management always look out for opportunity that escalate the company growth for long term in responsible manner. With our Group strong fundamental and careful strategic planning, we are well positioned to seize any available opportunities to maximise shareholders' return while taking care of other stakeholders' interest.

# SUSTAINABILITY STATEMENT (Cont'd)

## ENVIRONMENT

- **Waste disposal**

The Group has endeavoured to reduce its water usage and recycle as much of its process water as is feasible. We are also targeting to reduce the amount of waste material we send to landfill by working with companies to repurpose our scrap gloves to be used as an alternative fuel source for power generation in other industries.

We have complied with Local Environmental Regulation by ensuring our Industrial Effluent System and Air Emission is within the limit specified. Our Scheduled Waste Management is in compliant with the provisions of local environmental law.

- **Energy saving**

Solar power panel system was installed as a renewable source of energy to reduce the usage of electricity. This system serves as a generator of independent source of renewable energy and has effectively reduced the carbon footprint.

Besides, we are always exploring new technologies that help in reducing energy consumption.

## SOCIAL

- **Giving back to Community**

Looking after the community where we operate is a key emphasis for us with the aim to integrate ourselves into the local communities and contribute to their development.

We have sponsored few non-profit organisations during the year. Namely, Cancerlink Foundation, Malaysian Association For The Blind, Malaysia Association For The Prevention Of Tuberculosis, Yayasan Jantung Malaysia, ST. John Ambulans Malaysia Kawasan Perak Utara and Perak Palliative Care Society.

Besides, we have also contributed gloves to medical centres and donated sundries and school bags to underprivileged families in Hujung Matang.

- **Human Rights and Equal Opportunities**

The Group believing in protecting human rights and providing equal opportunity with no regards to nationality, race, religion, gender, and age.

Human Resource have countermeasures during the employment by screening the age using official identification document such as identity card or passport to ensure no underage (below age of 18) workers are recruited. We are also emphasised in strict adherence to the current policies and laws regulating foreign workers in Malaysia. All foreign workers must not be less than 18 years old and not more than 45 years during recruitment.

All workers are paid not less than the minimum rates dictated by Malaysian Laws for their working hours or overtime. We are strictly adhered to working days and working hours stipulated in Laws of Malaysia – Employment Act 1955. They are required to work for 8 hours with no forced on contractual overtime daily.

# SUSTAINABILITY STATEMENT (Cont'd)

## SOCIAL (Cont'd)

- **Non-discrimination on foreign workers**

All foreign workers are applied through Foreign Workers Integrated Management System (ePPAx) and Online Application for Employment of Foreign Workers (SPPA). No recruitment fee is being deducted from their salaries. All foreign workers are voluntarily, and no forced workers taken place.

We have provided foreign workers' hostel in accordance to the guidelines on Minimum Standard of Accommodation. Hostels are ample with toilets for use. Beds and pillows are provided and free replaced when torn out. Hostel has been equiped with firefighting equipment, first aid box, water cooler for clean water etc. Fire drill also has been conducted at hostel.

We do not take custody of passport of foreign workers and they are allowed to go back to their country freely for long holiday without putting any security deposit with the company. They are also allowed to end their contract without any penalty imposed.

- **Safety and Health**

In an effort to provide employees with more convenient means of addressing health needs, we have established an in-house medical clinic in Matang factory. A more diet balanced foods are provided to foreign workers who are staying in hostels to ensure the wellbeing of their health.

We comply with current health and safety legislations with objective of ensuring that all reasonable and proper measures are taken to protect the safety and health of employees. We have provided all the workers with Personal Protective Equipment (PPE) and trained them on how to use all PPE equipment correctly. We also make sure chemical exposure monitoring, noise monitoring, audiometry test, chemical exposure, chemical health risk assessment and other safety inspections were conducted.

Factories and machineries are inspected and certified by DOSH. During recent annual workplace inspection, we were accorded a Grade A scoring. We also joined Systematic Occupational Health Enhancement Level Programme (SoHELP) conducted by DOSH and achieved Level 4 (High) result.

We have our own Safety & Health Policy to be followed and practised by all the employees. Workers also involved in company safety programmes and trainings such as fire drills, chemical spillage handling, chlorine safety handling, first aider training, and forklift driving training.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 2. BASIS OF PREPARATION (Cont'd)

### 2.2 Adoption of new MFRSs, amendments/improvements to MFRSs and new IC Interpretation ("IC Int") (Cont'd)

The adoption of the above new MFRSs, amendments/improvements to MFRSs and new IC Int did not have any significant effect on the financial statements of the Group and of the Company, and did not result in significant changes to the Group's and the Company's existing accounting policies, except for those as discussed below.

#### **MFRS 16 Leases**

Effective 1 January 2019, MFRS 16 has replaced MFRS 117 *Leases* and IC Int 4 *Determining whether an Arrangement contains a Lease*.

Under MFRS 117, leases are classified either as finance leases or operating leases. A lessee recognises on its statement of financial position assets and liabilities arising from finance leases. For operating leases, lease payments are recognised as an expense on a straight-line basis over the lease term unless another systematic basis is more representative of the time pattern of the user's benefit.

MFRS 16 eliminates the distinction between finance and operating leases for lessees. Instead, all leases are brought onto the statements of financial position except for short-term and low value asset leases.

The Group and the Company have applied MFRS 16 using the modified retrospective approach with any cumulative effect of initial application recognised as an adjustment to the opening balance of retained earnings at the date of initial application (i.e. 1 February 2019). As such, the comparative information was not restated and continues to be reported under MFRS 117 and IC Int 4.

#### **Definition of a lease**

MFRS 16 changes the definition of a lease mainly to the concept of control. MFRS 16 defines that a contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

The Group and the Company have elected the practical expedient not to reassess whether a contract contains a lease at the date of initial application. Accordingly, the definition of a lease under MFRS 16 was applied only to contracts entered or changed on or after 1 February 2019. Existing lease contracts that are still effective on 1 February 2019 will be accounted for as lease contracts under MFRS 16.

#### **Impact of the adoption of MFRS 16**

The application of MFRS 16 resulted in changes in accounting policies and adjustments to the amounts recognised in the financial statements as at the date of initial application. Other than the enhanced new disclosures relating to leases, which the Group and the Company have complied with in the current financial year, the application of this standard does not have any significant effect on the financial statements of the Group and the Company, except for those as discussed below.

## 2. BASIS OF PREPARATION (Cont'd)

### 2.2 Adoption of new MFRSs, amendments/improvements to MFRSs and new IC Interpretation ("IC Int") (Cont'd)

#### *MFRS 16 Leases (Cont'd)*

#### **Impact of the adoption of MFRS 16 (Cont'd)**

##### **(i) Classification and measurement**

As a lessee, the Group and the Company previously classified leases as operating or finance leases based on their assessment of whether the lease transferred significantly all the risks and rewards incidental to ownership of the underlying asset to the Group and to the Company.

On adoption of MFRS 16, for all their leases other than short-term and low value asset leases, the Group recognised the right-of-use asset in the statements of financial position as at the date of initial application and recognised depreciation of right-of-use assets in profit or loss for the current financial year.

*For leasehold land that were classified as property, plant and equipment under MFRS 116*

The Group recognised the carrying amount of the leasehold land under MFRS 116 as the carrying amount of the right-of-use assets at the date of initial application. The measurement requirements of MFRS 16 are applied after that date.

##### **(ii) Short-term lease**

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of hostel, warehouse and forklift that have a lease term of 12 months or less. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The effects of adoption of MFRS 16 as at 1 February 2019 (increase/(decrease)) are as follows:

|                                 | <b>Adjustments</b> | <b>Group Increase/ (Decrease) RM</b> |
|---------------------------------|--------------------|--------------------------------------|

| <b>Non-current assets</b>       |                    |                                      |

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 2. BASIS OF PREPARATION (Cont'd)

### 2.2 Adoption of new MFRSs, amendments/improvements to MFRSs and new IC Interpretation ("IC Int") (Cont'd)

#### ***Amendments to MFRS 3 Business Combinations and MFRS 11 Joint Arrangements***

Amendments to MFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. Amendments to MFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.

#### ***Amendments to MFRS 9 Financial Instruments***

Amendments to MFRS 9 allow companies to measure prepayable financial assets with negative compensation at amortised cost or at fair value through other comprehensive income if certain conditions are met.

The amendments also clarify that when a financial liability measured at amortised cost is modified without this resulting in derecognition, a gain or loss should be recognised in profit or loss.

#### ***Amendments to MFRS 112 Income Taxes***

Amendments to MFRS 112 clarify that an entity recognises the income tax consequences of dividends in profit or loss because income tax consequences of dividends are linked more directly to past transactions than to distributions to owners, except if the tax arises from a transaction which is a business combination or is recognised in other comprehensive income or directly in equity.

#### ***Amendments to MFRS 123 Borrowing Costs***

Amendments to MFRS 123 clarify that when a qualifying asset is ready for its intended use or sale, an entity treats any outstanding borrowing made specifically to obtain that qualifying asset as part of general borrowings.

#### ***IC Int 23 Uncertainty over Income Tax Treatments***

IC Int 23 clarifies that where there is uncertainty over income tax treatments, an entity shall:

- (i) assume that a taxation authority will examine amounts it has a right to examine and have full knowledge of all related information when making those examinations.
- (ii) reflect the effect of uncertainty in determining the related tax position (using either the most likely amount or the expected value method) if it concludes it is not probable that the taxation authority will accept an uncertain tax treatment.

<sup>#</sup> Amendments as to the consequence of effective of MFRS 17 Insurance Contracts

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 2. BASIS OF PREPARATION (Cont'd)

### 2.3 New MFRSs and amendments/improvements to MFRSs that have been issued, but yet to be effective (Cont'd)

- (b) The Group and the Company plan to adopt the above applicable new MFRSs and amendments/improvements to MFRSs when they become effective. A brief discussion on the above significant new MFRSs and amendments/improvements to MFRSs are summarised below.

#### ***Amendments to MFRS 3 Business Combinations***

The amendments clarify the definition of a business with the objective of assisting entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition. The distinction is important because an acquirer does not recognise goodwill in an asset acquisition.

The amendments, amongst others, clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments also add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business.

#### ***Amendments to MFRS 10 Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures***

These amendments address an acknowledged inconsistency between the requirements in MFRS 10 and those in MFRS 128, in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business, as defined in MFRS 3. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business.

#### ***Amendments to MFRS 9 Financial Instruments, MFRS 139 Financial Instruments: Recognition and Measurement, and MFRS 7 Financial Instruments: Disclosures***

The Malaysian Accounting Standards Board has issued Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139 and MFRS 7).

The Interest Rate Benchmark Reform amends some specific hedge accounting requirements to provide relief from potential effects of the uncertainty caused by the interbank offered rates reform. In applying the amendments, companies would continue to apply those hedge accounting requirements assuming that the interest rate benchmark associated with the hedged item, hedged risk and/or hedging instrument are based is not altered as a result of the interest rate benchmark reform. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties.

Applying the amendments, entities are not required to apply the MFRS 139 retrospective assessment but continue to apply hedge accounting to a hedging relationship for which effectiveness is outside of the 80–125% range during the period of uncertainty arising from the reform.

## 2. BASIS OF PREPARATION (Cont'd)

### 2.3 New MFRSs and amendments/improvements to MFRSs that have been issued, but yet to be effective (Cont'd)

- (b) The Group and the Company plan to adopt the above applicable new MFRSs and amendments/improvements to MFRSs when they become effective. A brief discussion on the above significant new MFRSs and amendments/improvements to MFRSs are summarised below. (Cont'd)

#### ***Amendments to MFRS 101 Presentation of Financial Statements and MFRS 108 Accounting Policies, Changes in Accounting Estimates and Error***

The amendments refine the definition by including 'obscuring information' in the definition of material to respond to concerns that the effect of including immaterial information should not reduce the understandability of a company's financial statements. The prior definition focuses only on information that cannot be omitted (material information) and does not also consider the effect of including immaterial information.

Other refinements to the definition include incorporating some existing wording in MFRS 101 and the Conceptual Framework for Financial Reporting. Consequently, the amendments align the definition of material across MFRS Standards and other publications.

#### ***Amendments to MFRS 101 Presentation of Financial Statements***

The amendments include specifying that an entity's right to defer settlement of a liability for at least twelve months after the reporting period must have substance and must exist at the end of the reporting period; clarifying that classification of liability is unaffected by the likelihood of the entity to exercise its right to defer settlement of the liability for at least twelve months after the reporting period; clarifying how lending conditions affect classification of a liability; and clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments.

### 2.4 Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which they operate ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is also the Company's functional currency.

### 2.5 Basis of measurement

The financial statements of the Group and the Company have been prepared on the historical cost basis, except as otherwise disclosed in Note 3 to the financial statements.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 2. BASIS OF PREPARATION (Cont'd)

### 2.6 Use of estimate and judgement

The preparation of financial statements in conformity with MFRSs requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenue and expenses during the reporting period. It also requires directors to exercise their judgement in the process of applying the Group's and the Company's accounting policies. Although these estimates and judgement are based on the directors' best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates that are significant to the Group's and the Company's financial statements are disclosed in Note 4 to the financial statements.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unless otherwise stated, the following accounting policies have been applied consistently to all the financial years presented in the financial statements of the Group and of the Company.

### 3.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

#### (a) Subsidiaries and business combinations

Subsidiaries are entities (including structured entities) over which the Group is exposed, or has rights, to variable returns from its involvement with the acquirees and has the ability to affect those returns through its power over the acquirees.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date the Group obtains control of the acquirees until the date the Group loses control of the acquirees.

The Group applies the acquisition method to account for business combinations from the acquisition date.

For new acquisition, goodwill is initially measured at cost, being the excess of the following:

- the fair value of the consideration transferred, calculated as the sum of the acquisition-date fair value of assets transferred (including contingent consideration), the liabilities incurred to former owners of the acquiree and the equity instruments issued by the Group. Any amounts that relate to pre-existing relationships or other arrangements before or during the negotiations for the business combination, that are not part of the exchange for the acquiree, will be excluded from the business combination accounting and be accounted for separately; plus

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.1 Basis of consolidation (Cont'd)

#### (a) Subsidiaries and business combinations (Cont'd)

For new acquisition, goodwill is initially measured at cost, being the excess of the following:  
(Cont'd)

- the recognised amount of any non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date (the choice of measurement basis is made on an acquisition-by-acquisition basis); plus
- if the business combination is achieved in stages, the acquisition-date fair value of the previously held equity interest in the acquiree; less
- the net fair value of the identifiable assets acquired and the liabilities (including contingent liabilities) assumed at the acquisition date.

The accounting policy for goodwill is set out in Note 3.8 to the financial statements.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss at the acquisition date.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

If the business combination is achieved in stages, the Group remeasures the previously held equity interest in the acquiree to its acquisition-date fair value, and recognises the resulting gain or loss, if any, in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss or transferred directly to retained earnings on the same basis as would be required if the acquirer had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, the Group uses provisional fair value amounts for the items for which the accounting is incomplete. The provisional amounts are adjusted to reflect new information obtained about facts and circumstances that existed as of the acquisition date, including additional assets or liabilities identified in the measurement period. The measurement period for completion of the initial accounting ends as soon as the Group receives the information it was seeking about facts and circumstances or learns that more information is not obtainable, subject to the measurement period not exceeding one year from the acquisition date.

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any non-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any gain or loss arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an associate, a joint venture, an available-for-sale financial asset or a held for trading financial asset.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.1 Basis of consolidation (Cont'd)

#### (a) Subsidiaries and business combinations (Cont'd)

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The difference between the Group's share of net assets before and after the change, and the fair value of the consideration received or paid, is recognised directly in equity.

#### (b) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

### 3.2 Separate financial statements

In the Company's statement of financial position, investment in subsidiaries are measured at cost less any accumulated impairment losses, unless the investment is classified as held for sale or distribution. The policy for the recognition and measurement of impairment losses shall be applied on the same basis as would be required for impairment of non-financial assets as disclosed in Note 3.11(b) to the financial statements.

Contributions to subsidiaries are amounts which the Company does not expect repayment in the foreseeable future and are considered as part of the Company's investment in the subsidiaries.

### 3.3 Foreign currency transactions

#### Translation of foreign currency transactions

Foreign currency transactions are translated to the respective functional currencies of the Group entities using the exchange rates prevailing at the transaction dates.

At the end of each reporting date, monetary items denominated in foreign currencies are retranslated at the exchange rates prevailing at the reporting date.

Non-monetary items denominated in foreign currencies that are measured at fair value are retranslated at the rates prevailing at the dates the fair values were determined. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated at the historical rates as at the dates of the initial transactions.

Foreign exchange differences arising on settlement or retranslation of monetary items are recognised in profit or loss.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in other comprehensive income or profit or loss, respectively).

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.4 Financial instruments

Financial instruments are recognised in the statements of financial position when, and only when, the Group and the Company become a party to the contract provisions of the financial instrument.

Except for the trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient, the financial instruments are recognised initially at its fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset and financial liability. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient are measured at the transaction price determined under MFRS 15.

An embedded derivative is recognised separately from the host contract and accounted for as a derivative if, and only if, it is not closely related to the economic characteristics and risks of the host contract; it is a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured as fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with the policy applicable to the nature of the host contract.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

#### (a) Subsequent measurement

The Group and the Company categorise the financial instruments as follows:

##### (i) Financial assets

For the purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income with recycling of cumulative gains and losses upon derecognition
- Financial assets designated at fair value through other comprehensive income with no recycling of cumulative gains and losses upon derecognition
- Financial assets at fair value through profit or loss

The classification depends on the entity's business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

The Group and the Company reclassify financial assets when and only when their business models for managing those assets change.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.4 Financial instruments (Cont'd)

#### (a) Subsequent measurement (Cont'd)

The Group and the Company categorise the financial instruments as follows: (Cont'd)

##### (i) Financial assets (Cont'd)

###### Debt instruments

Subsequent measurement of debt instruments depends on the Group's and the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group and the Company classify their debt instruments:

- Amortised cost

Financial assets that are held for collection of contractual cash flows and those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. The policy for the recognition and measurement of impairment is in accordance with Note 3.11(a). Gains and losses are recognised in profit or loss when the financial asset is derecognised, modified or impaired.

- Fair value through other comprehensive income (FVOCI)

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, and the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. For debt instruments at FVOCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. The policy for the recognition and measurement of impairment is in accordance with Note 3.11(a). Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to profit or loss.

- Fair value through profit or loss (FVPL)

Financial assets at FVPL include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at FVOCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statements of financial position at fair value with net changes in fair value recognised in the profit or loss.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.4 Financial instruments (Cont'd)

#### (a) Subsequent measurement (Cont'd)

The Group and the Company categorise the financial instruments as follows: (Cont'd)

##### (i) Financial assets (Cont'd)

###### Equity instruments

The Group and the Company subsequently measure all equity investments at fair value. Upon initial recognition, the Group and the Company can make an irrevocable election to classify its equity investments that is not held for trading as equity instruments designated at FVOCI. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are not recycled to profit or loss. Dividends are recognised as other income in the profit or loss when the right of payment has been established, except when the Group and the Company benefit from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment.

##### (ii) Financial liabilities

The Group and the Company classify their financial liabilities in the following measurement categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost

###### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading, including derivatives (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument) or financial liabilities designated into this category upon initial recognition.

Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value with the gain or loss recognised in profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in MFRS 9 are satisfied. The Group and the Company have not designated any financial liability as at fair value through profit or loss.

###### Financial liabilities at amortised cost

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using effective interest method. Gains and losses are recognised in profit or loss when the financial liabilities are derecognised and through the amortisation process.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.4 Financial instruments (Cont'd)

#### **(b) Financial guarantee contracts**

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts are recognised initially as a liability at fair value, net of transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the liability is measured at the higher of the amount of the loss allowance determined in accordance with Section 5.5 of MFRS 9 and the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of MFRS 15.

#### **(c) Regular way purchase or sale of financial assets**

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

A regular way purchase or sale of financial assets shall be recognised and derecognised, as applicable, using trade date accounting (i.e. the date the Group and the Company commit themselves to purchase or sell an asset).

Trade date accounting refers to:

- (i) the recognition of an asset to be received and the liability to pay for it on the trade date; and
- (ii) derecognition of an asset that is sold, recognition of any gain or loss on disposal and the recognition of a receivable from the buyer for payment on the trade date.

Generally, interest does not start to accrue on the asset and corresponding liability until the settlement date when title passes.

#### **(d) Derecognition**

A financial asset or a part of it is derecognised when, and only when:

- (i) the contractual rights to receive cash flows from the financial asset expire, or
- (ii) the Group and the Company have transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party; and either (a) the Group and the Company have transferred substantially all the risks and rewards of the asset, or (b) the Group and the Company have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.4 Financial instruments (Cont'd)

#### (d) Derecognition (Cont'd)

The Group and the Company evaluate if, and to what extent, they have retained the risks and rewards of ownership. When they have neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group and the Company continue to recognise the transferred asset to the extent of their continuing involvement. In that case, the Group and the Company also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group and the Company have retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group and the Company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount (measured at the date of derecognition) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expired. On derecognition of a financial liability, the difference between the carrying amount and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### (e) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is presented in the statements of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

In accounting for a transfer of a financial asset that does not qualify for derecognition, the entity shall not offset the transferred asset and the associated liability.

#### (f) Derivatives

The Group and the Company use forward exchange contracts to manage the exposure of foreign exchange rate. These derivatives are not designated as cash flow or fair value hedges and are entered into for periods consistent with foreign currency exposure. Such derivatives do not qualify for hedge accounting and are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to the profit or loss.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.5 Property, plant and equipment

#### (a) Recognition and measurement

Property, plant and equipment (other than freehold land and buildings) are measured at cost less accumulated depreciation and any accumulated impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 3.11(b) to the financial statements.

Cost of assets includes expenditure that is directly attributable to the acquisition of the asset and any other costs directly attributable in bringing the assets to the working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets includes the cost of materials, direct labour and any other direct attributable costs but excludes internal profits. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs in Note 3.17 to the financial statements.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

#### (b) Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the part will flow to the Group or the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit or loss as incurred.

#### (c) Depreciation

Freehold land has an infinite life and therefore is not depreciated. Capital work-in-progress is stated at cost and is not depreciated until it is ready for its intended use. Upon completion, capital work-in-progress is transferred to categories of property, plant and equipment, depending on the nature of the assets.

All other property, plant and equipment are depreciated on a straight line basis to write off the cost/revalued amounts of each asset to its residual value over the estimated useful lives of the assets concerned. The principal annual rates used are as follows:

|  |             |
|--|-------------|
| Leasehold lands                          | 477 months  |
| Factory and office buildings             | 5%          |
| Infrastructure                           | 10%         |
| Plant, machinery and formers             | 5% - 33.33% |
| Motor vehicles                           | 10% - 16%   |
| Office equipment, furniture and fittings | 8% - 50%    |

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.5 Property, plant and equipment (Cont'd)

#### (c) Depreciation (Cont'd)

The residual values, useful lives and depreciation methods are reviewed at the end of each reporting period and adjusted as appropriate.

Fully depreciated assets are retained in the financial statements until the assets are no longer in use.

#### (d) Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

### 3.6 Revaluation of assets

Freehold land and buildings are measured at fair value, based on valuations by external independent valuers, less accumulated depreciation on buildings and any accumulated impairment losses recognised after the date of revaluation. The policy for the measurement of depreciation is in accordance with Note 3.5(c) to the financial statements.

Valuations are performed with sufficient regularity, at least once in every five years with additional valuations in the intervening years where market condition indicate that the carrying values of the revalued land and buildings materially differ from the market values. Any accumulated depreciation as at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset.

A revaluation surplus is recognised in other comprehensive income and credited to the revaluation reserve. However, the increase shall be recognised in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss. If an asset's carrying amount is decreased as a result of a revaluation, the decrease shall be recognised in profit or loss. However, the decrease shall be recognised in other comprehensive income to the extent of any credit balance existing in the revaluation reserve in respect of that asset.

The revaluation reserve is transferred to retained earnings as the assets are used. The amount of revaluation reserve transferred is the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the asset's original cost. Upon disposal or retirement of the asset, the remaining revaluation surplus relating to the particular asset is transferred directly to retained earnings.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.7 Leases

#### (a) Definition of lease

##### **Accounting policies applied from 1 February 2019**

At inception of a contract, the Group and the Company assess whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group and the Company assess whether:

- the contract involves the use of an identified asset;
- the Group and the Company have the right to obtain substantially all the economic benefits from use of the asset throughout the period of use; and
- the Group and the Company have the right to direct the use of the asset.

##### **Accounting policies applied until 31 January 2019**

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. All other leases that do not meet this criterion are classified as operating leases.

#### (b) Lessee accounting

##### **Accounting policies applied from 1 February 2019**

At the lease commencement date, the Group recognises a right-of-use asset with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less).

The Group presents right-of-use assets as separate line in the statements of financial position.

##### **Right-of-use asset**

The right-of-use asset is initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently measured at cost less accumulated depreciation and any accumulated impairment losses. The right-of-use asset is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. If the Group expects to exercise a purchase option, the right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts from the commencement date of the underlying asset. The policy for the recognition and measurement of impairment losses is in accordance with Note 3.11(b) to the financial statements.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.7 Leases (Cont'd)

#### (b) Lessee accounting (Cont'd)

##### **Accounting policies applied from 1 February 2019 (Cont'd)**

###### Short-term leases

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases. The Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

##### **Accounting policies applied until 31 January 2019**

If an entity in the Group is a lessee in a finance lease, it capitalises the leased asset and recognises the related liability. The amount recognised at the inception date is the fair value of the underlying leased asset or, if lower, the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments are charged as expenses in the periods in which they are incurred.

The capitalised leased asset is classified by nature as property, plant and equipment.

For operating leases, the Group does not capitalise the leased asset or recognise the related liability. Instead lease payments under an operating lease are recognised as an expense on the straight-line basis over the lease term unless another systematic basis is more representative of the time pattern of the user's benefit.

#### (c) Lessor accounting

##### **Accounting policies applied from 1 February 2019**

If an entity in the Group is a lessor in a finance lease, it derecognises the underlying asset and recognises a lease receivable at an amount equal to the net investment in the lease. Finance income is recognised in profit or loss based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the finance lease.

If an entity in the Group is a lessor in an operating lease, the underlying asset is not derecognised but is presented in the statements of financial position according to the nature of the asset. Lease income from operating leases is recognised in profit or loss on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

When a contract includes lease and non-lease components, the Group and the Company apply MFRS 15 to allocate the consideration under the contract to each component.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.7 Leases (Cont'd)

#### (c) Lessor accounting (Cont'd)

##### Accounting policies applied until 31 January 2019

If an entity in the Group is a lessor in a finance lease, it derecognises the underlying asset and recognises a lease receivable at an amount equal to the net investment in the lease. Finance income is recognised in profit or loss based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the finance lease.

If an entity in the Group is a lessor in an operating lease, the underlying asset is not derecognised but is presented in the statements of financial position according to the nature of the asset. Lease income from operating leases is recognised in profit or loss on a straight-line basis over the lease term, unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

### 3.8 Goodwill

Goodwill arising from business combinations is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. After initially recognition, goodwill is measured at cost less any accumulated impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 3.11(b) to the financial statements.

### 3.9 Inventories

Inventories are measured at the lower of cost and net realisable value.

The costs comprise the purchase price plus costs incurred to bring the inventories to their present locations and conditions and are accounted as follows:

- Material costs for latex are determined using the first-in first-out basis.
- Other materials and chemicals are determined on a weighted average cost basis.
- Manufactured finished goods and work-in-progress consist of raw materials, direct labour and a proportion of manufacturing overheads based on normal operating capacity. These costs are assigned on a weighted average cost basis.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

### 3.10 Cash and cash equivalents

For the purpose of statements of cash flows, cash and cash equivalents comprise cash in hand, bank balances, demand deposits and other short term, highly liquid investments with a maturity of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.11 Impairment of assets

#### (a) Impairment of financial assets

Financial assets measured at amortised cost, financial assets measured at FVOCI, lease receivables or a loan commitment and financial guarantee contracts will be subject to the impairment requirement in MFRS 9 which is related to the accounting for expected credit losses on the financial assets. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

The Group and the Company measure loss allowance at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12-month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

For trade receivables, the Group and the Company apply the simplified approach permitted by MFRS 9 to measure the loss allowance at an amount equal to lifetime expected credit losses.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Group and the Company consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's and the Company's historical experience and informed credit assessment and including forward-looking information.

The Group and the Company assume that the credit risk on a financial asset has increased significantly if it is more than 120 days past due.

The Group and the Company consider a financial asset to be in default when:

- the borrower is unable to pay its credit obligations to the Group and the Company in full, without taking into account any credit enhancements held by the Group and the Company; or
- the contractual payment of the financial asset is more than 120 days past due unless the Group and the Company have reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of lifetime expected credit losses that represent the expected credit losses that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group and the Company are exposed to credit risk.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.11 Impairment of assets (Cont'd)

#### (a) Impairment of financial assets (Cont'd)

Expected credit losses are a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

Expected credit losses are discounted at the effective interest rate of the financial assets.

At each reporting date, the Group and the Company assess whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired include observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default of past due event;
- the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for that financial asset because of financial difficulties; or
- the purchase or origination of a financial asset at a deep discount that reflects the incurred credit losses.

The amount of expected credit losses (or reversal) shall be recognised in profit or loss, as an impairment gain or loss. For financial assets measured at FVOCI, the loss allowance shall be recognised in other comprehensive income and shall not reduce the carrying amount of the financial asset in the statements of financial position.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group and the Company determine that the debtor does not have assets or source of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's and the Company's procedure for recovery of amounts due.

#### (b) Impairment of non-financial assets

The carrying amounts of non-financial assets (except for inventories) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the Group and the Company make an estimate of the asset's recoverable amount. For goodwill and intangible assets that have indefinite useful life and are not yet available for use, the recoverable amount is estimated at each reporting date.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.11 Impairment of assets (Cont'd)

#### (b) Impairment of non-financial assets (Cont'd)

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of non-financial assets or cash-generating units ("CGUs"). Subject to an operating segment ceiling test, for the purpose of goodwill impairment testing, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to a CGU or a group of CGUs that are expected to benefit from the synergies of business combination.

The recoverable amount of an asset or CGU is the higher of its fair value less costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. In determining the fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Where the carrying amount of an asset exceeds its recoverable amount, the carrying amount of asset is reduced to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

Impairment losses are recognised in profit or loss, except for assets that were previously revalued with the revaluation surplus recognised in other comprehensive income. In the latter case, the impairment is recognised in other comprehensive income up to the amount of any previous revaluation.

Impairment losses in respect of goodwill are not reversed. For other assets, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. An impairment loss is reversed only if there has been a change in the estimates used to determine the assets recoverable amount since the last impairment loss was recognised. Reversal of impairment loss is restricted by the asset's carrying amount that would have been determined had no impairment loss been recognised for the asset in prior year. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as revaluation increase.

### 3.12 Share capital

#### Ordinary shares

Ordinary shares are equity instruments. An equity instrument is a contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.13 Employee benefits

#### (a) Short-term employee benefits

Short-term employee benefit obligations in respect of wages, salaries, social security contributions, annual bonuses, paid annual leave, sick leave and non-monetary benefits are recognised as an expense in the financial year where the employees have rendered their services to the Group and the Company.

#### (b) Defined contribution plans

As required by law, the Group and the Company contribute to the Employees Provident Fund ("EPF"), the national defined contribution plan. Such contributions are recognised as an expense in the profit or loss in the period in which the employees render their services.

### 3.14 Share-based payments

#### Equity-settled share-based payment

The cost of equity-settled share-based payment is determined by the fair value at the date when the grant is made using an appropriate valuation model.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share option reserve.

Equity-settled share-based payments with parties other than employees are measured at the fair value of the goods and services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted at the date the Company obtains the goods or the counterparty renders the service.

### 3.15 Provisions

Provisions are recognised when the Group and the Company have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

If the effect of the time value of money is material, provisions that are determined based on the expected future cash flows to settle the obligation are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provisions due to passage of time is recognised as finance costs.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.16 Revenue and other income

The Group and the Company recognise revenue that depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the Group and the Company expect to be entitled in exchange for those goods or services.

The Group and the Company measure revenue from sale of good or service at its transaction price, being the amount of consideration to which the Group and the Company expect to be entitled in exchange for transferring promised good or service to a customer, excluding amounts collected on behalf of third parties such as goods and service tax, adjusted for the effects of any variable consideration, constraining estimates of variable consideration, significant financing components, non-cash consideration and consideration payable to customer. If the transaction price includes variable consideration, the Group and the Company use the expected value method by estimating the sum of probability-weighted amounts in a range or possible consideration amounts, or the most likely outcome method, depending on which method the Group and the Company expect to better predict the amount of consideration to which it is entitled.

#### (a) Sale of goods - manufacturing

The Group manufactures and sells rubber gloves to local and foreign customers. Revenue from sale of manufactured goods are recognised at a point in time when control of the products has been transferred, being when the customer accepts the delivery of the goods.

Sales are made within a credit term of 30 to 120 days, which is consistent with market practice, therefore, no element of financing is deemed present. A receivable is recognised when the customer accepts the delivery of the goods as the consideration is unconditional other than the passage of time before the payment is due.

Revenue is recognised based on the price specified in the contract, net of the estimated trade discounts where applicable. Accumulated experience with the customer's purchasing pattern is used to estimate and provide for the discounts, using the expected value method. The Group uses the expected value method because it is the method that the Group expects to better predict the estimated trade discounts to which it will be provided to the customers. The estimated trade discounts recognised is constrained to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is subsequently resolved.

The Group's customary business practice is to allow a customer to return any defected products and receive a full refund. The Group uses its experience in estimating returns for this product and customer class. The Group uses the expected value method because it is the method that the Group expects to better predict the amount of consideration to which the products will be refunded. With that, upon transfer the control of the product, the Group does not recognise revenue for products that it is highly probable to be returned.

A contract liability is recognised for expected trade discounts payable to customers and for products expected to be returned from customers in relation to sales made until the end of the reporting period.

A right to recover goods from customer on settling the refund liability is recognised as an asset and included as part of inventories for the goods expected to be returned.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.16 Revenue and other income (Cont'd)

#### (a) Sale of goods - manufacturing (Cont'd)

Where consideration is collected from customer in advance for sale of manufactured good, a contract liability is recognised for the customer deposits. Contract liability would be recognised as revenue upon sale of manufactured goods to the customer.

#### (b) Interest income

Interest income is recognised using the effective interest method.

#### (c) Dividend income

Dividend income is recognised when the right to receive payment is established.

#### (d) Rental income

Rental income is recognised on a straight-line basis over the term of the lease.

### 3.17 Borrowing costs

Borrowing costs are interests and other costs that the Group and the Company incur in connection with borrowing of funds.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

The Group and the Company begin capitalising borrowing costs when the Group and the Company have incurred the expenditures for the asset, incurred related borrowing costs and undertaken activities that are necessary to prepare the asset for its intended use or sale.

### 3.18 Income tax

Income tax expense in profit or loss comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

#### (a) Current tax

Current tax is the expected taxes payable or receivable on the taxable income or loss for the financial year, using the tax rates that have been enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.18 Income tax (Cont'd)

#### (b) Deferred tax

Deferred tax is recognised using the liability method on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts in the statements of financial position. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, unutilised tax losses and unused tax credits, to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax is not recognised if the temporary differences arise from the initial recognition of assets and liabilities in a transaction which is not a business combination and that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal timing of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

Deferred tax is measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on the same taxable entity, or on different tax entities, but they intend to settle their income tax recoverable and income tax payable on a net basis or their tax assets and liabilities will be realised simultaneously.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.18 Income tax (Cont'd)

#### (c) Sales and service tax

Revenue, expenses and assets are recognised net of the amount of sales and service tax except:

- where the sales and service tax incurred in purchase of assets or services is not recoverable from the taxation authority, in which case the sales and service tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of sales tax included.

The net amount of sales and service tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statements of financial position.

### 3.19 Earnings per share

The Group presents basic and diluted earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held.

Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

### 3.20 Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the chief operating decision maker, to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

### 3.21 Fair value measurements

Fair value of an asset or a liability, except for share-based payment and lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the assets in its highest and best use.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### 3.21 Fair value measurements (Cont'd)

When measuring the fair value of an asset or a liability, the Group and the Company use observable market data as far as possible. Fair value is categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability.

The Group and the Company recognise transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

### 3.22 Contingencies

A contingent liability or asset is a possible obligation or asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain event(s) not wholly within the control of the Group and of the Company.

Contingent liability is also referred as a present obligation that arises from past events but is not recognised because:

- (a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- (b) the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities and assets are not recognised in the statements of financial position.

### 3.23 Contract liabilities

Contract liability is the obligation to transfer goods or services to customer for which the Group has received the consideration or has billed the customer.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

Significant areas of estimation and critical judgements in applying accounting policies that have significant effect in determining the amount recognised in the financial year include the following:

### (a) Expected credit loss for trade receivables

The impairment provisions for trade receivables are based on assumptions about risk of default and expected loss rate. The Group uses judgement in making these assumptions and selecting inputs to the impairment calculation, based on the Group's and the Company's past history and forward looking estimates at the end of each reporting period.

The Group uses a provision matrix to calculate expected credit losses for trade receivables. The provision rates depend on the number of days that a trade receivable is past due. The Group uses the grouping according to the customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forward-looking estimates and expected credit losses is a significant estimate. The amount of expected credit loss is sensitive to changes in circumstances and of forecast economic conditions over the expected lives of trade receivables. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

The information about the expected credit losses on the Group's trade receivables are disclosed in Note 31(b)(i) to the financial statements.

### (b) Valuation of inventories

The cost of inventories comprises the cost of purchase of raw materials, direct labour, plus conversion costs such as variable and fixed overheads. The cost allocation process involves multiple inputs and management's judgement is required to estimate the cost of finished goods and work-in-progress which comprise the cost of raw materials, direct labour, other direct costs, and the appropriate allocation of overheads based on normal operating capacity.

The Group write down their obsolete or slow moving inventories based on the assessment of their estimated net selling price. Inventories are written down when events or changes in circumstances indicate that the carrying amounts may not be recoverable. Where expectations differ from the original estimates, the differences will impact the carrying amount of inventories.

The carrying amounts of the Group's inventories are disclosed in Note 9 to the financial statements.

## 5. PROPERTY, PLANT AND EQUIPMENT (Cont'd)

### (a) Assets pledged as security

Freehold land, leasehold land (reclassified as right-of-use asset in Note 6 to the financial statements during the financial year) and buildings of the Group with total carrying amount of RM24,088,584 (2019: RM22,680,900) have been pledged as security to secure term loans and credit facilities of the Group as disclosed in Note 16 to the financial statements.

### (b) Capital work-in-progress

The Group's capital work-in-progress represents capital expenditures incurred for buildings, plant and machinery in the course of construction.

### (c) Assets subject to operating lease

The Company leases its freehold land and factory building of net carrying amount of RM13,157,245 (2019: RM13,722,431) to its subsidiary for a period of 1 year. Refer to Note 28(b) to the financial statements for maturity analysis of lease payments.

### (d) Revaluation of freehold land and buildings

The freehold land and buildings were revalued by an independent professional valuer in the previous financial year. The valuation report was dated on 4 June 2018 and using the open market value basis.

Had the revalued assets been carried at historical cost less accumulated depreciation, the net carrying amount would have been as follows:

### (e) Fair value information

The fair value of an asset has been categorised in different levels as follows:

- (i) Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- (ii) Level 2: Input other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- (iii) Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The properties are valued by an independent external valuer using the comparison method and cost method of valuation. The comparison method entails comparison of the subject property with similar properties that have been sold recently and those that are currently being offered for sale in the vicinity or other comparable localities. The characteristics, merits and demerits of these properties are noted and appropriate adjustments thereof are then made to reflect the differences and arrive at the value of the subject property.

The significant input into this valuation approach is price per square feet of comparable properties.

### (e) Fair value information (Cont'd)

#### Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

There is no transfer between levels of fair value hierarchy during the financial year.

#### Highest and best use

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The Group use forward exchange contracts to manage some of the foreign currency exposure. These contracts are not designated as cash flow or fair value hedges and are entered into for periods consistent with currency transaction exposure and fair value changes exposure. Such derivatives do not qualify for hedge accounting.

Forward exchange contracts are used to manage the foreign currency exposures arising from the Group's sales denominated in United States Dollar ("USD"). The forward exchange contracts have maturities of less than one year after the end of the reporting period.

During the financial year, the Group recognised a loss of RM39,897 (2019: RM1,371,088) arising from fair value changes of derivative. The fair value changes are attributable to changes in foreign exchange spot and forward rate. The method and assumptions applied in determining the fair values of derivatives are disclosed in Note 31(c) to the financial statements.

### Share-based option reserve

The share-based option reserve arising from Second Tranche Subscription pursuant to Advance Capitalisation Agreement ("Advance Capitalisation"). The reserve is recorded over the vesting period commencing from the grant date and is reduced by the expiry or exercise of the share options. When the option is exercised, the amount from the share option reserve is transferred to share capital. When the share options expire, the amount from the share option reserve is transferred to retained earnings.

The fair value of the rights is measured using the Trinomial Option Price model with the following inputs:

### **Fair value of share-based option and assumptions**

|   |             |
|---|-------------|
| Fair value of rights at issue date (RM)   | 0.2100      |

## 26. EARNINGS PER SHARE

### (a) Basic earnings per share

Basic earnings per share are based on the profit for the financial year attributable to owners of the Company and the weighted average number of ordinary shares outstanding during the financial year, calculated as follows:

|   | 2020<br>RM         | 2019<br>RM  |
|---|--------------------|-------------|
| Profit attributable to owners of the Company                            | <b>33,182,135</b>  | 27,895,303  |
| Weighted average number of ordinary shares for basic earnings per share | <b>577,014,896</b> | 561,949,143 |
| Basic earnings per ordinary share (sen)                                 | <b>5.75</b>        | 4.96        |

### (b) Diluted earnings per share

Diluted earnings per share are based on the profit for the financial year attributable to owners of the Company and the weighted average number of ordinary shares outstanding during the financial year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

Potential ordinary shares are treated as dilutive when their conversion to ordinary shares would decrease earnings per share or increase loss per share. Potential ordinary shares are antidilutive when their conversion to ordinary shares would increase earnings per share or decrease loss per share.

Diluted earnings per share calculated as follows:

|   | 2020<br>RM         | 2019<br>RM  |

### (b) Financial risk management

The Group's and the Company's activities are exposed to a variety of financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk, foreign currency risk and market price risk. The Group's and the Company's overall financial risk management objective is to optimise value for their shareholders. The Group and the Company do not trade in financial instruments.

The Board of Directors reviews and agrees to policies and procedures for the management of these risks, which are executed by the Group's senior management. The Audit Committee provides independent oversight to the effectiveness of the risk management process.

## 31. FINANCIAL INSTRUMENTS (Cont'd)

### (b) Financial risk management (Cont'd)

#### (i) Credit risk

Credit risk is the risk of financial loss to the Group and the Company that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's are exposed to credit risk from its operating activities (primarily trade and other receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The Group and the Company have a credit policy in place and the exposure to credit risk is managed through the application of credit approvals, credit limits and monitoring procedures.

#### Trade receivables

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables is represented by the carrying amounts in the statements of financial position.

The carrying amount of trade receivables are not secured by any collateral or supported by any other credit enhancements. In determining the recoverability of these receivables, the Group and the Company consider any change in the credit quality of the receivables from the date the credit was initially granted up to the reporting date. The Group and the Company have adopted a policy of dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults.

#### Credit risk concentration profile

The Group determines concentrations of credit risk by monitoring the country profile of its trade receivables on an ongoing basis. The credit risk concentration profile of the Group's trade receivables at the reporting date are as follows:

| By country:                            | Group              |             |                   |             |

The Group applies the simplified approach to provide for expected credit losses prescribed by MFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected credit losses also incorporate forward looking information.

##### Other receivables and other financial assets

For other receivables and other financial assets (cash and cash equivalents and derivatives), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties. At the reporting date, the Group's and the Company's maximum exposure to credit risk arising from other receivables and other financial assets is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

The Group and the Company consider the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Group and the Company compare the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

Some intercompany loans between entities within the Group are repayable on demand. For loans that are repayable on demand, expected credit losses are assessed based on the assumption that repayment of the loan is demanded at the reporting date. If the borrower does not have sufficient highly liquid resources when the loan is demanded, the Group and the Company will consider the expected manner of recovery and recovery period of the intercompany loan.

##### **Other receivables and other financial assets (Cont'd)**

As at the end of the reporting date, the Group and the Company did not recognise any loss allowance for impairment for other receivables and other financial assets. Refer to Note 3.11(a) to the financial statements for the Group's and the Company's other accounting policies for impairment of financial assets.

##### **Financial guarantee contracts**

The Company is exposed to credit risk in relation the financial guarantees given to banks in respect of credit facilities granted to a subsidiary. The Company monitors the results of the subsidiaries and their repayment on an on-going basis. The maximum exposure to credit risks amounts to RM186,980,500 (2019: RM186,967,000) representing the maximum amount the Company could pay if the guarantee is called on as disclosed in Note 31(b)(ii). As at the reporting date, there was no indication that the subsidiary would default on repayment.

The financial guarantee have not been recognised since the fair value on initial recognition was not material.

#### (ii) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations when they fall due. The Group's and the Company's exposure to liquidity risk arise primarily from mismatches of the maturities between financial assets and liabilities. The Group's and the Company's exposure to liquidity risk arise principally from trade and other payables, loans and borrowings.

The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by facilities. The Group and the Company maintain sufficient liquidity and available funds to meet daily cash needs, while maintaining controls and security over cash movements. The Group and the Company use a series of processes to obtain maximum benefits from its flow of funds, such that they are efficiently managed to maximise income from investment and minimise cost on borrowed funds. The Group's and the Company's treasury department also ensure that there are sufficient unutilised stand-by facilities, funding and liquid assets available to meet both short-term and long-term funding requirements.

### (b) Financial risk management (Cont'd)

#### (iii) Interest rate risk

Interest rate risk is the risk of fluctuation in fair value or future cash flows of the Group's financial instruments as a result of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from their long-term loans and borrowings with floating interest rates.

The Group is presently enjoying competitive interest rates which are reviewed and negotiated on a yearly basis.

#### Sensitivity analysis for interest rate risk

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant on the Group's total equity and profit for the financial year.

| Group           | Change in basis point % | Effect on profit for the financial year RM | Effect on equity RM |

#### (iv) Foreign currency risk

Foreign currency risk is the risk of fluctuation in fair value or future cash flows of a financial instrument as a result of changes in foreign exchange rates. The Group's and the Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's and the Company's operating activities (when sales, purchases and borrowings that are denominated in a foreign currency).

Management has set up a policy that requires all companies within the Group and the Company to manage their treasury activities and exposures. The Group's and the Company's policy is to hedge all material foreign currency exposures arising from its transactions and balances using derivative instruments that have maturity periods that match the corresponding maturity periods of the hedged items. In addition, the Group and the Company also takes advantage of any natural effects of its foreign currencies revenues and expenses by maintaining current accounts in foreign currencies.

#### **(v) Market price risk**

Market price risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market prices (other than interest or exchange rates).

The Group does not have exposure to market price risk as at the reporting date.

### **(c) Fair value measurement**

The carrying amounts of cash and cash equivalents, short term receivables and payables and short-term borrowings reasonably approximate to their fair values due to the relatively short-term nature of these financial instruments.

The fair value of long term portion of the loans approximate to their carrying amount as it is a floating rate instruments.

#### Derivatives

Forward exchange contracts are valued using a valuation technique with market observable inputs. The most frequently applied valuation techniques include forward pricing, using present value calculations. The model incorporates various inputs including the credit quality of counterparties, foreign exchange spot and forward rates.

# NOTES TO THE FINANCIAL STATEMENTS (Cont'd)

## 33. SIGNIFICANT EVENTS DURING AND SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

### (a) Acquisition of land

On 27 November 2019, Comfort Rubber Gloves Industries Sdn. Bhd., a wholly owned subsidiary of the Company, has entered into a Sale and Purchase Agreement ("SPA") with the Director of the Company, Mr. Cheang Phoy Ken for the purchase of two plots of land for a total cash consideration of RM1,900,000 ("the Proposed Acquisition").

The proposed acquisition was completed on 23 March 2020 in accordance with the terms and conditions of the SPA.

### (b) Coronavirus outbreak

On 11 March 2020, the World Health Organisation declared the Coronavirus ("Covid-19") outbreak as a pandemic in recognition of its rapid spread across the globe. On 16 March 2020, the Malaysian Government has imposed the Movement Control Order ("MCO") starting from 18 March 2020 to curb the spread of the Covid-19 outbreak in Malaysia. The Covid-19 outbreak also resulted in travel restriction, lockdown and other precautionary measures imposed in various countries. The emergence of the Covid-19 outbreak since early 2020 has brought significant economic uncertainties in Malaysia and markets in which the Group and the Company operate.

For the Group's and the Company's financial statements for the financial year ended 31 January 2020, the Covid-19 outbreak and the related impacts are considered non-adjusting events in accordance with MFRS 110 *Events after the Reporting Period*. Consequently, there is no impact on the recognition and measurement of assets and liabilities as at 31 January 2020.

The Group and the Company are unable to reasonably estimate the financial impact of Covid-19 for the financial year ending 31 January 2021 to be disclosed in the financial statements as the situation is still evolving and the uncertainty of the outcome of the current events. The Group and the Company will continuously monitor the impact of Covid-19 on its operations and its financial performance. The Group and the Company will also be taking appropriate and timely measures to minimise the impact of the outbreak on the Group's and the Company's operations.

# INDEPENDENT AUDITORS' REPORT

to the members of Comfort Gloves Berhad (Incorporated in Malaysia)

## Report on the Audit of the Financial Statements

### Opinion

We have audited the financial statements of Comfort Gloves Berhad, which comprise the statements of financial position as at 31 January 2020 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 47 to 132.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 January 2020, and of their financial performance and cash flows for the financial year then ended in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

### Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group and of the Company in accordance with the By-Laws (*on Professional Ethics, Conduct and Practice*) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Group

#### **Trade receivables (Note 4(a) and 8 to the financial statements)**

As at 31 January 2020, the Group has significant trade receivables with a carrying amount of RM100,867,166.

The impairment provisions for trade receivables are based on assumptions about risk of default and expected loss rate. The Group uses judgement in making these assumptions and selecting inputs to the impairment calculation, based on the Group's and the Company's past history and forward-looking estimates at the end of each reporting period.

The Group uses a provision matrix to calculate expected credit losses for trade receivables. The provision rates depend on the number of days that a trade receivable is past due. The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

to the members of Comfort Gloves Berhad (Incorporated in Malaysia)

## Key Audit Matters (Cont'd)

### Group (Cont'd)

#### Trade receivables (Note 4(a) and 8 to the financial statements) (Cont'd)

The assessment of the correlation between historical observed default rates, forward-looking estimates and expected credit losses is a significant estimate. The amount of expected credit loss is sensitive to changes in circumstances and of forecast economic conditions over the expected lives of trade receivables. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

#### Our audit response:

Our audit procedures included, among others:

- understanding the design and implementation of controls associated with monitoring of outstanding receivables and impairment calculation;
- understanding of significant credit exposures which were significantly overdue or deemed to be in default through analysis of ageing reports and other collection reports prepared by management;
- obtaining confirmation of balances from selected receivables;
- reviewing subsequent receipts and considering the level of activity with the customer and management explanation on recoverability with significantly past due balances; and
- reviewing provision matrix and checking the mathematical computation of the expected credit loss as at end of the reporting period.

#### Inventories (Note 4(b) and 9 to the financial statements)

As at 31 January 2020, the carrying amount of inventories held by the Group is RM64,480,153.

The cost of inventories comprise the cost of purchase of raw materials, direct labour, plus conversion costs such as variable and fixed overheads. The cost allocation process involves multiple inputs and management's judgement is required to estimate the cost of finished goods and work-in-progress which comprise the cost of raw materials, direct labour, other direct costs, and the appropriate allocation of overheads based on normal operating capacity.

The Group write down their obsolete or slow moving inventories based on the assessment of their estimated net selling price. Inventories are written down when events or changes in circumstances indicate that the carrying amounts may not be recoverable. Where expectations differ from the original estimates, the differences will impact the carrying amount of inventories.

#### Our audit response:

Our audit procedures included, among others:

- obtaining an understanding of the inventories valuation policy and its related processes in allocating, recording and computing the cost of inventories;
- reviewing the computation of inventory costing which includes costs of raw materials, direct labour, other direct costs, and other incidental costs incurred in bringing the inventories to their present location and condition;
- observing year end physical inventory count to examine physical existence and condition of the finished goods and raw materials;
- checking the mathematical accuracy of the inventory valuation; and
- reviewing management's assessment on the net realisable value of inventories.

## Key Audit Matters (Cont'd)

### Company

We have determined that there are no key audit matters to communicate in our report which arose from the audit of the financial statements of the Company.

## Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

The directors of the Company are responsible for overseeing the Group's financial reporting process.

# INDEPENDENT AUDITORS' REPORT (Cont'd)

to the members of Comfort Gloves Berhad (Incorporated in Malaysia)

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### NOTES:

- In view of the outbreak of COVID-19 which is now a global pandemic, the Company has in place rules and control for the AGM in order to safeguard the health of attendees at AGM. You are requested to read and adhere to the Administrative Guide issued by the Company.
- Only members whose names appear on the Record of Depositors as at 19 June 2020 shall be entitled to attend the Annual General Meeting or appoint proxies in his/her stead or in the case of a corporation, a duly authorised representative to attend and to vote in his/her stead.
- A member (other than an exempt authorised nominee) entitled to attend and vote at the Meeting is entitled to appoint one (1) or two (2) proxies to attend and vote instead of him. A proxy must be 18 years and above and need not be a member of the Company.
- Where a member appoints two (2) proxies, the appointments shall be invalid unless he/she specifies the proportions of his/her holdings to be represented by each proxy.
- Where a member of the Company is an Exempt Authorised Nominee which holds ordinary shares in the Company in an Omnibus Account, there is no limit to the number of proxies which the Exempt Authorised Nominee may appoint in respect of each Omnibus Account it holds but the proportion of holdings to be represented by each proxy must be specified.
- The instrument appointing a proxy shall be in writing under the hand of the appointer or his/her attorney duly authorised in writing or if the appointer is a corporation, either under the corporation's seal or under the hand of an officer or attorney duly authorised. If under the hand of attorney/authorised officer, the Power of Attorney or Letter of Authorisation must be attached.
- The instrument appointing a proxy must be deposited at the office of the Share Registrar of our Company, Boardroom Share Registrars Sdn. Bhd. at 11<sup>th</sup> Floor, Menara Symphony, No. 5 Jalan Prof. Khoo Kay Kim, Seksyen 13, 46200 Petaling Jaya, Selangor, Malaysia not less than 48 hours before the time appointed for holding the Meeting or adjourned Meeting either by hand, post, electronic mail to bsr.helpdesk@boardroomlimited.com or fax (603)78904670, otherwise the instrument of proxy should not be treated as valid.
- Pursuant to Paragraph 8.29A of Bursa Malaysia Securities Berhad Main Market Listing Requirements, all resolutions set out in the Notice of AGM will be put to vote on a poll.
- For verification purposes, members and proxies are required to produce their original identity card at the registration counter. No person will be allowed to register on behalf of another person even with the original identity card of that other person.
- Personal Data Privacy – By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the AGM and/or any adjournment thereof, a member of the Company hereby agree and consent that any of your personal data in our possession shall be processed by us in accordance with the Personal Data Protection Act 2010. Further, you hereby warrant that relevant consent has been obtained by you for us to process any third party's personal data in accordance with the said Act.
